OVERVIEW

Ministry of Rural Development (MoRD) has been given the mandate for undertaking interventions for integrated and sustainable rural development. With the main focus on skilling the rural youth, increasing livelihood opportunities, empowering rural women and expanding livelihood opportunities, providing social safety net and infrastructure development, MoRD plays a pivotal role in the welfare and development of rural citizens. In the past year, apart from strengthening the implementation structures in various ongoing rural development programmes, MoRD's primary objective is sustainable and resilient development of rural areas, by adopting multi-pronged strategies to address rural poverty and improve the economic well-being of the people.

The main objectives of the Ministry are classified as:

- i. Uplifting the deprived rural households through multidimensional support including for assets, livelihoods, infrastructure and services. Adopting a saturation approach and ensuring resilience to the families and communities.
- ii. Convergence of programmes and schemes.
- iii. Raising institutions of poor and forging partnerships with PRIs and other drivers of transformation.
- iv. Integrated and sustained monitoring of measurable outcomes.

The vision and mission of the Ministry is sustainable and inclusive growth of rural India through a multipronged strategy for eradication of poverty by increasing livelihood opportunities, providing social safety net and

developing infrastructure for growth. This is expected to improve quality of life in rural India and to correct the developmental imbalances, aiming in the process, to reach out to most disadvantaged sections of the society.

Continuing with its significant progress in leveraging Information Technology and Space Technology for monitoring execution of projects and schemes, most programmes of the Ministry have developed web-based and mobile apps for implementing their entire programme. Use of ICT and Space Technology has considerably strengthened the accountability framework. In addition, Social Audit through Social Audit Teams with participation of Community Resource Persons and Women Self Help Groups has also improved accountability framework.

Mahatma Gandhi National Rural Employment Guarantee Act, 2005 (Mahatma Gandhi NREGA) was notified on September 7, 2005. This Act provides for enhancement of livelihood security of rural households by providing at least one hundred days of guaranteed wage employment in a financial year to every household whose adult members volunteer to do unskilled manual work. The scheme covers the entire country except for districts that have a hundred percent urban population. Mahatma Gandhi NREGA is a powerful instrument for ensuring inclusive growth in rural India through its impact on social protection, livelihood security and democratic empowerment. The Act was notified in 200 districts in the first phase with effect from February 2nd, 2006 and then extended to an additional 130 districts in the financial year 2007-2008 (113 districts were notified with effect from April 1st 2007, and 17 districts in Uttar Pradesh (UP) were notified with effect from May 15th 2007). The remaining

districts have been notified under Mahatma Gandhi NREGA with effect from April 1, 2008. Thus, the Mahatma Gandhi NREGA covers the entire country with the exception of districts that have a hundred percent urban population.

The outcomes of programme implementation in the financial year 2024-25 (till 31.12.2024) are:

Employment Generated: In the current FY, 5.11 crore households have been provided employment and 211.41 crore person-days of employment have been generated, till 31.12.2024.

Increasing Outreach to the poor and marginalized: Self targeting in nature, the programme has high work participation from the marginalized groups like SC/ST (of 36.92 %), Women (of 57.94 %) during FY 2024-25 (till 31.12.2024).

- **Strengthening Natural Resource Base:** In FY 2024-25, 18.56 lakh works related to natural resource management costing approximately Rs. 1932431.02 lakh has been taken up

Financial Inclusion of the Poor: With a view to universalize the system of wage payments through institutional accounts, it has been recommended to all States/UTs to disburse wages through Post Offices and Bank Accounts. Wage is being disbursed to over 12.89 crore banks and post office accounts of active Mahatma Gandhi NREGA beneficiaries.

Deendayal Antyodaya Yojana – National Rural Livelihoods Mission (DAY-NRLM) continued to register significant progress in all components during 2024-25. Intensive activities of the Mission were initiated in 24 new blocks,

taking the cumulative footprint to 7143 blocks. Cumulatively up to December 2024, the Mission has mobilized about 10.05 crore households into 90.90 lakh SHGs. The total number of promoted VOs is 5.04 lakh, while the number of Cluster Level Federations (CLFs) stood at 32439. Till December, 2024 cumulatively total capitalization support is of Rs. 49284.57 crore (Rs. 8600.93 crore RF and Rs. 40683.63 crore CIF) was provided to the community institutions.

The focus area under the Institution Building component of DAY-NRLM has been on strengthening of the federations. In this connection, with the view to future sustainability of the programme, the Mission has taken the initiative to develop Model CLFs, at least one in each Block, along with Lakhpati Resource Blocks in 12 States, which can serve as best practice/immersion sites for strengthening all the other CLFs. These CLFs are expected to be strengthened financially, administratively and in terms of having adequate and qualified manpower. A total of 4391 CLFs are currently being developed as model CLFs.

Financial inclusion continued to be one of the focus areas of the Mission during the year. With the support of Department of Financial Services (DFS), Reserve Bank of India (RBI) and Indian Bank Associations (IBA), the Mission has vigorously promoted: (i) Business Correspondent Sakhi (BC Sakhi) model with 1,37,112 SHG members acting as Business Correspondents (ii) enhancing the number of Bank Sakhi deployed to service the SHGs in Bank branches; and (iii) an online application system for filing SHG Bank loan applications. Further, individual bank account details of 5.63 crore SHG members and Aadhar details of 7.84

crore SHG members have been uploaded on the NRLM-MIS portal.

The Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM) has been strengthening farm sector livelihoods by empowering the women farmers on adoption of agro-ecological practices, improved livestock management practices, and sustainable Non-Timber Forest Produces (NTFP) collection and value chain interventions. 4.30 Cr (40.30 million) women farmers have been covered under the farm livelihoods (including MKSP, a sub-component of NRLM) till December 2024.

Under farm livelihoods intervention, the other areas of interventions are Value Chain initiatives and Integrated farming clusters. Value chain development is an important farm livelihoods intervention to support small and marginal rural producers to get better market access through aggregation, processing and marketing. To facilitate States in implementation of the value chain development interventions through promotion of producers collectives various guidelines have been circulated by the Ministry. Further, to provide technical support on value chain development through promotion of large women owned producer enterprise under DAY-NRLM, some organizations such as NDDDB Dairy Services (NDS), FDRVC (Foundation for Development of Rural Value Chain), Intellicap Advisory Services Pvt. Ltd. have been recognized as NSO (NRLM Support Organization). The NDDDB Dairy Services supports setting of large sized women owned Producers Enterprise on dairy sector whereas FDRVC is supports for other Farm and Non-farm sector. The Ministry in collaboration with the TATA Trust has set up the FDRVC (Foundation for Development of Rural Value chain) at national. As on December

2024, 1270 women owned Producers Enterprise/ FPOs (including 791 FPOs under the central sector scheme).

A few newer interventions under farm livelihoods like Integrated farming Cluster, promotion of Sub Sector-based cluster interventions, Livestock Cluster were initiated under DAY-NRLM to intensify livelihoods activities.

Further to leverage more support for the mahila kisans convergence has been established with line Ministries/Department. Under this initiative the Pashu Sakhis promoted under DAY-NRLM are recognized by the Department of Animal Husbandry as A-HELP (Accredited Agent for Health and Extension of Livestock Production) and the Krishi Sakhis promoted under DAY-NRLM are recognized by the Ministry of Agriculture for the extension activities of the Ministry. A joint advisory was issued for promotion of moringa through MGNREGS.

DAY-NRLM has been strengthening livelihoods by interventions in agro-ecological practices and organic farming is the next logical progression as it moves towards organic certification and marketing to enable farmers to get better market access. NRLM is promoting organic farming in 13 states. 79,147 Mahila Kisans are joined local groups this year and cumulatively reached to 3,16,567 Mahila Kisan. 25,692 Local groups were formed and 13,618 local groups were registered under Participatory Guarantee System (PGS) for promotion of organic farming.

The Government has approved 'Namo Drone Didi' as Central Sector Scheme for providing drones to the Women Self Help Groups (SHGs) with an outlay of Rs. 1261 Crores for the period

from 2023-24 to 2025-26. The scheme aims to provide drones to 15000 selected Women SHGs. The major objectives of the scheme are:

- a. to promote advance technology in agriculture for improved efficiency, enhanced crop yield and reduced cost of operation
- b. to empower Women Self Help Groups (SHGs) and their Cluster Level Federations (CLFs) promoted under Deendayal Antyodaya Yojana - National Rural Livelihoods Mission (DAY-NRLM) as drone service providers, since they have emerged as an effective grassroots level institution for collective interventions
- c. to provide business opportunities to Women SHGs and their CLFs promoted under DAY - NRLM to increase their income
- d. to increase the opportunities for rural employment and financial inclusion and
- e. to encourage use of Nano-fertilizers and to optimize the use of pesticides and fertilizers.

Out of the total 15,000 drones targeted to be supplied under the scheme, the first 500 drones have been procured by Lead Fertilizer Companies (LFCs) in 2023-24, using their internal resources and distributed to the selected SHGs, which include 30 drones supplied to SHGs of the State of Maharashtra. During the financial year 2024-25, it has been targeted to distribute drones to 3090 SHGs in the first phase out of which 325 SHGs are from the State of Maharashtra. One of the members of these women SHGs shall receive mandatory drone pilot training and additional training for agriculture purpose for nutrient and pesticide application. The other member/ family member

of the SHGs with inclination to take up repairs of electrical goods, fitting and mechanical works selected by the State Level Committee shall be trained as drone assistant.

The sub-sector approach is an evolved model, harnessing benefits of value addition and promising higher returns to the growers. The sub-sector approach is more technology driven and would also require higher investments at community level enterprises. The CBOs would also require upskilling and a gradual orientation towards enterprise level planning and resource utilisation. Further, since the outlook would be more market focussed, more emphasis would be required on quality and associated data collection and documentation. It would be also necessary to pre-empt market movements and plan all activities in accordance with that.

The interventions around these sub-sectors are proposed to be more holistic and will address the entire Value Chain – starting from inputs to production to aggregation to processing and marketing. The Value Chain interventions will follow an Annual Action Plan and will take a cluster approach through the involvement of Community Based Organisations (CBOs) to look after the production and processing aspect while the livelihood institutions like FPOs, PEs and PGs will take care of aggregation and marketing.

SRLMs have promoting five subsectors viz Bamboo, Honey and beekeeping, aquatic livelihoods, Spices and Moringa. Three Value Chain proposals were sanctioned in aquatic livelihood subsector and one value chain proposal was sanctioned to Jharkhand. Moringa value chain proposal from Assam is under Consideration.

DAY – NRLM has been promoting Natural Farming across the country to reduce the cost of cultivation and enhance productivity. In collaboration with MoA&FW, 70,000 Krishi Sakhis were trained and certified. MoA&FW recognised them as “Para Agriculture extension workers”. DAY NRLM in convergence with MoA&FW is providing training to Krishi Sakhis on Natural Farming. 90,000 Krishi Sakhis will be trained and certified as Para Agriculture Extension workers. They will provide necessary handholding support to Mahila Kisans to adopt Natural Farming. Each Krishi Sakhi will support 50 – 70 Mahila Kisans. 8 Lakh SHG members from 28,000 villages from 18 states adopted Natural Farming during the Kharif 2024

In order to provide nutritional Security at SHG households bio fortified crops have been promoted by DAY – NRLM. Iron rich pearl Millet, Calcium rich Finger Millet and Zn rich wheat have been promoting. 74,096 SHG members were covered under this initiative.

In order to support rural youth to take up local entrepreneurship, Start-up Village Entrepreneurship Programme (SVEP) was launched as a sub-scheme of DAY-NRLM in 2014. As on Dec, 2024 a total of 429 projects proposals have been approved covering 31 States and Union Territories and 280 DPRs are approved. 3.13 lakh enterprises have been supported.

One Stop Facility (OSF) are centres in block at an average cost of Rs. 350 Lakh per block, to support higher level enterprises that have the potential to grow. The OSF is being run by community professionals called Business Development Support Providers, who are being trained to provide higher order support services

to businesses. A total of 65423 enterprises have been supported under OSF.

Clusters of non-farm entrepreneurs with and average financial support up-to Rs. 500.00 lakhs per cluster is supported. It aims on promoting and strengthening Artisan and Sectoral cluster that allows for combining efforts, making use of synergies, and pooling resources to increase competitive advantage while sharing market risk. Currently 16 clusters across eight states with are approved.

Incubator component is focused towards incubating growing micro-enterprises and facilitate their self-sustenance thereby creating local employment opportunities. This is being implemented in four states: Assam, Bihar and West Bengal with IIM Calcutta Innovation Park (IIMCIP) and in Karnataka with IIM Bangalore NSRCEL.

Prime Minister Formalisation of Micro food processing Enterprises (PM FME) Scheme of the Ministry of Food Processing and Industries (MoFPI) was launched in July 2020. PM FME is being implemented jointly by MoFPI and MoRD through respective State Rural Livelihood Missions (SRLMs) for its Seed

Capital Component. An amount upto the extent of Rs.40,000/- is being provided by MoFPI to the Self Help Groups (SHGs)/ SHG members who are doing food processing activities.

As on December 11, 2024, 2,52,542 SHG entrepreneurs have been supported with seed capital of Rs. 835.44 crore. In addition, A total of 29241 proposals has been developed for credit linked support through banks out of which 6945 has been sanctioned for Rs. 185.843 cr.

Marketing Facilitation of SHG products: As part of the new efforts to connect producers to markets, NRLM and SRLMs have taken steps to promote curated products covering food products, handicrafts and hand-loom etc. from SHGs and SHG member entrepreneurs through multiple channels such as Standard Saras Fairs at National and State level, Saras Gallery Store at New Delhi, dedicated eSARAS eCommerce Portal/ mobile app, linkages with e-Commerce platforms like GeM, ONDC, Flipkart, Amazon, Meesho and Jio-Mart etc.

DAY-NRLM is a community driven programme with Community Resource Persons (CRPs) at the forefront of all core Mission activities. To strengthen the capacities of the CRPs, a large number of master trainers have been identified, trained and deployed at all levels of the Mission. Cumulatively 6.20 lakh community cadre and about 60,000 Master trainers have been identified and deployed for the Mission activities. To facilitate optimal use of both the master trainers and the CRPs, the Mission has got the profiles of both the master trainers and community cadre uploaded on the DAY-NRLM portal. For farm livelihoods interventions a total of 3.37 Lakh livelihoods CRPs (1,72,210 Krishi Sakhi and 1,35,986 Pashu Sakhi) have been trained who are providing 24x7 support to the Mahila Kisan at village level till Dec 2024

The Mission is working on the development of transaction system for SHG Federation to track the member level savings, inter-lending, borrowings and repayments etc. This system will enable both the Mission management and the banks to monitor the health of the SHGs and their federations better.

Deen Dayal Upadhyaya Grameen Kaushal

Yojana (DDU-GKY) With an ambitious agenda to benchmark wage placement-linked programs to global standards, Ministry of Rural Development (MoRD) revamped the Placement linked skill development program under National Rural Livelihood Mission as Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY) on the 25th September, 2014. In doing so the Ministry has used its knowledge gained over 15 years of experience in implementing skill training programs.

Since April 1999, the Ministry of Rural Development (MoRD) has been implementing skills and placement initiatives, starting with the Swarnjayanti Gram Swarozgar Yojana (SGSY) as a placement linked wage and self-employment program. It was then redesigned and launched as 'Aajeevika Skills' in September 2013, with revised focus on placement driven wage employment for the rural youth in the age of 18-35 entailing an assured minimum placement of 70% and a salary not lower than the minimum wages. The focus was now more on retention and career progression than garnering new candidates for training, it promoted higher numbers of retained employees hence pushing forth the dreams of countless rural youth.

DDU-GKY is a critical component of the National Skill Development Policy with a unique focus on the rural poor youth. It is now a demand driven placement-linked skilling initiative of Government of India. It seeks to enable poor rural youth to benefit from international opportunities arising due to a global deficit in the working population, thereby making rural India, the preferred skilled resource pool for the world.

DDU-GKY has evolved out of a need to

diversify incomes of the rural poor and to cater to the occupational aspirations of rural youth. The skilling courses are undertaken by Project Implementing Agency (PIA) in a PPP mode. It is mandatory for every PIA to give placement to 70% of the trained candidates. DDU-GKY projects are funded by Central and State Government in the ratio of 60:40 in all States, excepting North-East states and Himalayan states where the funding ratio is 90:10. Himayat, a special scheme for Jammu and Kashmir provides for 100% funding by Central Government.

DDU-GKY is a nationwide placement-linked skill training program funded by the Ministry of Rural Development (MoRD), Government of India (GOI). It aims to contribute to the Prime Minister's 'Make in India' campaign to position India as the globally preferred manufacturing hub, while dovetailing its efforts to significantly contribute in other flagship programs of the nation.

DDU-GKY is critical to the national skill agenda and to the 430 million (Census 2011) young people in the country in the age group of 15-35 years, close to 70% of whom live in rural areas. DDU-GKY has great potential to transforming the nation's demographic surplus to the much needed "demographic dividend" through building the productive capabilities of the rural youth.

Pradhan Mantri Awaas Yojana – Gramin (PMAY-G) is one of the flagship schemes with Government's commitment to provide "Housing for All". The scheme Pradhan Mantri Awaas Yojana – Gramin (PMAY-G) came into effect from 1st April 2016. The aim of PMAY-G is to provide a pucca house with basic amenities to

all houseless households and households living in kutcha/ dilapidated houses in rural areas of the country. Initially, a target of 2.95 crore was set to provide pucca houses with essential amenities to eligible houseless households. However, realizing the growing housing needs in rural areas, Union Cabinet granted an extension to the scheme on 9th August 2024 to construct additional 2 crore rural houses during FY 2024-25 to FY 2028-29, over and above the previous target of 2.95 crore. Out of the cumulative target of 4.95 crore houses, a total of 3.32 crore houses have been allocated among States/UTs out of which 3.23 crore houses have been sanctioned by States/UTs and 2.68 crore have been completed as on 31st December 2024. The total financial outlay for this initiative is ₹ 3,06,137 crore, allocated for the period from FY 2024-25 to FY 2028-29.

The identification of beneficiaries in the scheme is based on the housing deprivation parameters as per Socio Economic Caste Census – 2011. Further, to provide benefit of the scheme to the left out eligible households, the Ministry decided to identify such households, and Awaas+ survey was conducted by States/UTs on directions of the Ministry in 2018. As a result of the exercise of allocation of targets, the SECC 2011 based Permanent Wait List (PWL) and the finalized Awaas + 2018 lists of 22 States and UTs are saturated. To meet the additional requirement of houses in States/UTs as well as achieve the target of construction of 2 crore more houses, the Awaas+ list is being updated via the Awaas+ 2024 survey. The identification of additional eligible rural houses through survey is currently underway and is expected to be completed by March 2025 as per the revised exclusion criteria of the PMAY-G.

As per the Union Cabinet approval, the provisions with regard to mechanised two-wheelers, mechanised fishing boats, landline phones and refrigerators have been deleted. Further, the income criteria has also been enhanced from Rs 10000 per month to Rs 15000, and the land-related criteria have been simplified.

Pradhan Mantri Gram Sadak Yojana (PMGSY) The Government of India, as a part of the poverty reduction strategy, has implemented Pradhan Mantri Gram Sadak Yojana (PMGSY), as a Centrally Sponsored Scheme to assist the States in providing all-weather road connectivity to the eligible unconnected habitations as per core-network with a population of 500+ persons in plain areas. In respect of Special Category States/UTs (i.e. Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, Tripura, Himachal Pradesh, Jammu & Kashmir, Ladakh and Uttarakhand), the Desert Areas (as identified in the Desert Development Programme), the Tribal (Schedule V) areas and Selected Tribal and Backward Districts (as identified by the Ministry of Home Affairs and Planning Commission), the objective is to connect eligible unconnected habitations with a population of 250+ persons (Census 2001).

Against 1,78,184 eligible habitations of 250+ and 500+ population size identified for coverage under the scheme, 16,086 habitations have been provided connectivity by the States out of their own resources and 4,920 habitations have either been dropped or have not been found feasible. Out of the balance 1,57,146 habitations sanctioned for providing connectivity under the PMGSY, 1,56,696

have already been covered. Thus, as on 31st December 2024, 413 habitations remain to be saturated.

Under 100-249 population category (LWE areas), 6,245 habitations have been sanctioned for providing all-weather road connectivity, out of which 6,048 habitations have been saturated till 31st December 2024.

A total of 6,44,872 km road length has been sanctioned under new connectivity and upgradation components under PMGSY-I, out of which 6,24,609 km road length has been completed till 31st December 2024.

Since inception till 31st December, 2024, 1,56,696 habitations of 250+, 500+ and 1000+ population categories and 6,068 habitations in 100-249 population category have been provided all-weather road connectivity and a total of 7,70,680 km road length has been completed under various interventions/verticals of the Scheme with an expenditure of Rs. 3,30,454 crores including State share.

National Social Assistance Programme (NSAP) The Directive Principles of State Policy of the Constitution of India enjoin upon the State to undertake within its means a number of welfare measures, targeting the poor and the destitute in particular. Article 41 of the Constitution of India directs the State to provide public assistance to its citizens in the case of unemployment, old age, sickness and disablement as well as in other cases of undeserved wants, within the limit of State's economic capacity and development. Social security, invalid and old age pensions figure as Items 23 and 24 of the 7th Schedule of the Constitution of India in the Concurrent List. It is in compliance of these guiding principles

that the Government of India introduced on Independence Day, 1995 the National Social Assistance Programme (NSAP) as a fully Centrally Sponsored Scheme targeting the destitute, defined as any person who has little or no regular mean of subsistence from his/her own source of income or though financial support from family members or other sources, to be identified by the States and UTs, with the objective of providing a basic level of financial support. The programme has undergone many changes in the composition, eligibility criterion and funding patterns over the years.

Saansad Adarsh Gram Yojana (SAGY) SaansadAdarsh Gram Yojana (SAGY) is a unique scheme of the Ministry of Rural Development wherein, for the first time, the leadership, capacity, commitment and energy of the Members of Parliament are being leveraged directly for development at the Gram Panchayat level. SaansadAdarsh Gram Yojana (SAGY) was launched on 11 October 2014 with the aim of creating holistically developed model Gram Panchayats across the country.

These 'Adarsh Grams' [Gram Panchayat (GP)] serve as 'nucleus of health, cleanliness, greenery and cordiality' within the village community and, becoming schools of local development and governance, inspiring neighbouring Gram Panchayats to adopt the best practices being followed in theses GPs.

The role of Members of Parliament is that of a catalyst. They identify the Gram Panchayat to be developed into Adarsh Gram Panchayat; engage with the community; help propagate the values of the scheme; enable the initiation of start-up activities to build up the right environment and facilitate the planning process. The District

Collector is the nodal officer for implementing SAGY. The District collectors have to conduct a monthly review meeting with representatives of the participating line departments. The Hon'ble Members of Parliament concerned chair these review meetings. The heads of the Gram Panchayats concerned also are invited for these monthly meetings.

International Cooperation (IC) has, in recent times, gained added significance and impetus in the changed social, economic and political scenario of the world. India, the largest democracy in the world, is always in the forefront as a global partner. The Ministry of Rural Development, being one of the most significant Ministries, is taking this initiative forward through cooperation and exchange of experience, knowledge and expertise in the field of rural development and poverty alleviation with other countries bilaterally or through multilateral platform.

Right from the beginning, India has recognized the need for cooperation among the developing and least developed countries for better appreciation of each others' problems. The mandate of International Cooperation of this Department is to foster mutually beneficial partnerships with other countries of the work in multilateral as well as bilateral forums exchanging knowledge and experience in development of rural areas. The Ministry of Rural Development is the nodal Ministry with respect to two Inter- Governmental International Organizations, namely, AARDO and CIRDAP. Also, this Ministry is the focal Ministry for Rural Development and Poverty Alleviation in respect of BIMSTEC, SAARC, etc.

Training- Capacity building through training of Rural Development functionaries, elected representatives of Panchayati Raj Institutes (PRIs), and other concerned is a priority of the Ministry. Capacity building is carried out through a network of Training Institutes, namely the National Institute of Rural Development and Panchayati Raj (NIRD&PR) at Hyderabad, its North Eastern Regional Centre (NERC) at Guwahati, 29 State Institutes of Rural Development (SIRDs) and 87 Extension Training Centres (ETCs). During the year 2024, as of 31.12.2024, NIRD&PR organized 1230 programs (including 171 of NIRDPR-NERC Guwahati) and trained 49,928 participants (including 7763 from NIRDPR-NERC Guwahati). During 2024 (till 31.12.2024), SIRDPRs & ETCs put together have organized 2039 training programs, workshops, and seminars through which about 183326 participants were trained online and offline mode.

Department of Land Resources

In a developing country striving for social and economic development, land occupies a very crucial role. Availability and accessibility of good quality records are critical for land governance and administration. Studies have documented criticality of efficient land records system for effective functioning of land markets, taxation systems, infrastructural improvements and the economy as a whole. India has embarked on computerisation and digitisation of land records for a long time. 98.5 percent of land records in rural areas of the country have been computerized and digitized. However, there are some deficiencies in land record management in some States. These include differences in textual and spatial records, limited availability of digital cadastral maps

and subdivision data. The endeavour is to move towards good quality land records, which will in turn improve the ease of living of citizens. The Department is implementing a comprehensive land records modernization programme to develop a modern, and transparent land record management system, which will help improve real-time information on land, optimize use of land resources and assist in policy and planning.

As per the Desertification & Land Degradation Atlas of India 2021, released by Ministry of Environment, Forest & Climate Change, about 97.85 million ha (29.77% of total geographical area of India) land falls in degraded category in the country. Land degradation adversely affects soil health, water recharge, water quality and storage of soil carbon, which not only contributes to global warming but also reduces land productivity. One of the most effective principles of rainfed and degraded area development is conservation and efficient use of natural resources. This can be achieved through watershed development programmes by adopting 'ridge to valley' approach. This warrants investment on watershed development programmes in the country to cover hitherto untreated areas. This will not only benefit rainfed / degraded areas but also ensure sustainability of irrigated areas as majority of irrigated lands depend heavily on ground water sources and which, in turn, get replenished through various soil and water conservation measures undertaken under Watershed Development Projects. The Department of Land Resources in partnership with States is therefore implementing watershed programmes in the country.

The main objectives of the Department are: (i) to increase productivity of rainfed/degraded land through the process of integrated

watershed management, (ii) to support States/ UTs for implementation of Digital India Land Records Modernization Programme(DILRMP) with the aim to achieve a comprehensive land governance system and (iii) to administer land reforms and other related matters relating to land such as administration of the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (RFCTLARR), the Registration Act, 1908 etc. Brief details of the schemes are listed below:

1. Watershed Development Component of PMKSY:

The Department has been implementing a Centrally Sponsored Scheme, namely Integrated Watershed Management Programme (IWMP) since 2009-10. In 2015-16, IWMP was amalgamated as the Watershed Development Component (WDC) of PMKSY. The activities being undertaken inter alia include ridge area treatment, drainage line treatment, soil and moisture conservation, rain water harvesting, nursery raising, afforestation, horticulture, pasture development, livelihoods for assetless persons, springshed development, etc.

Under WDC-PMKSY 1.0 (projects sanctioned during 2009-10 to 2014-15), the department supported implementation of 6382 projects. Central Share of Rs.19926.67 crore was released to States /UTs for these projects. Out of 6382 projects funded by DoLR, 6376 (99.90%) projects have been reported as completed. As per information received from the States, 7.65 lakh water harvesting structures have been created / rejuvenated during the period 2014-15 to 2021-22. An additional area of 16.41 lakh ha has been brought under protective irrigation.

The number of farmers benefitted is 36.34 lakh during the period. End-line evaluation reports of the completed projects from different States/ UTs have shown improvements in water table, agricultural production, milk production and per capita income in project areas due to watershed interventions. The defined life span of WDC-PMKSY 1.0 got over in March, 2022.

Government of India approved continuation of programme as WDC-PMKSY 2.0 for the period 2021-22 to 2025-26 with a physical target of 49.5 lakh ha and financial outlay of Rs. 8,134 crore, as the Central share. Under WDC-PMKSY 2.0, 1150 watershed development projects covering an area of 50.16 lakh ha have been sanctioned to 28 States and UTs of J&K and Ladakh at a total cost of Rs. 12303 crore (Central share: Rs 8022.69 crore) for the project period of 2021-22 to 2025-26. Since inception of the scheme, an amount of Rs.770.43 crore has been released to the States as Central share (as on 31.12.2024).

2. Digital India Land Records Modernization Programme:

The Department is implementing a comprehensive programme 'Digital India Land Records Modernization Programme (DILRMP)' for digitization and computerization of land records and registration processes in the country as a central sector programme with 100% financial assistance from Central Government since 2016-17. The objective of DILRMP is to develop a modern, comprehensive and transparent land record management system to provide: (i) improve real-time information on land; (ii) optimize use of land resources; (iii) assist in policy & planning; (iv) reduce land disputes; (v) check fraudulent / benami transactions (vi) obviate need of

physical visits to Revenue/Registration offices (vii) enable sharing of information with various organisations/agencies.

Since the inception of the scheme, an amount of Rs.2460.21 crore has been released for covering various components of DILRMP scheme in 699 districts in the country.Over the years, substantial progress has been achieved

in the basic components of the programme viz. computerization of Record of Rights (RoR), digitization of cadastral maps, computerization of registration, connectivity between Sub-Registrar Offices and Tehsils, Integration of Registration and Land Records, etc. As per MIS of DILRMP, computerization of record of rights has been completed in98.50%of villages in the country (except Northeast States and Ladakh).

Outlays for Ministry of Rural Development For Last Five Years

(Rs. in crores)

MISSION ANTYODAYA

1. In New India Strategy @75, Hon'ble Prime Minister of India emphasized on putting in place 'a development state' by identifying development challenges and ensuring balanced development across all regions and sectors. Such a 'development state' would be characterized by growth with inclusion, evidence based policy making and welfare of all. The New India Strategy broadly identifies the sector specific interventions for furthering the mandate of development in rural areas. Mission Antyodaya is a signature approach in identifying the Gram Panchayat level development priorities aligned with the sectors mentioned in the eleventh Schedule of the Constitution. Under 11th Schedule of the Indian Constitution, GPs are mandated to deliver effective and time bound public services to the rural citizens across twenty nine sectors ensuring economic empowerment and social justice. To develop a model for convergence that could consolidate the efforts to eradicate poverty, Mission Antyodaya was announced in the Union Budget, 2017-18.

2. Key features of the Mission Antyodaya:

Mission Antyodaya is an accountability and convergence framework for transforming lives and livelihoods on measurable outcomes. Mission Antyodaya focus is to improve accountability and outcomes of large pool of resources spent, under different Schemes, for the sustainable and inclusive growth & development of rural areas in the country. Key features of the Mission Antyodaya are as under:

- Seeks convergence of various Government Schemes with Gram Panchayats as the basic unit for planning.

- Encourages partnerships with network of professionals, institutions and enterprises to further accelerate the transformation of rural livelihoods.
- Conducting Survey to assess measurable outcomes to monitor the progress in the development process across rural areas.
- Supporting the process of participatory planning for Gram Panchayat Development Plan (GPDP), which will improve service delivery, enhance citizenship, create pace for an alliance of people's institutions and groups and improve governance at the local level.

3. Convergence and Mission Antyodaya:

In the Framework of Implementation, Mission Antyodaya has been visualised as a convergence-saturation approach that is capable to attend both geographical and individual aspects of deprivation and poverty. Such an approach is capable to bring activities spread across different welfare domains to its remit. First, the Framework of Implementation underscores the significance of Mission Antyodaya for deprived households in Socio Economic and Caste Census (SECC)-2011. The MA Survey database provides an idea about geographical deprivation and identifies Self- help Groups (SHGs) of DAY-NRLM as key enabler to Mission Antyodaya because of their social capital and capacity for social mobilization. SHGs spearhead the preparation of Village Poverty Reduction Plan (VPRPs), a community demand plan. Eventually, VPRPs should find way to the Gram Panchayat Development Plans (GPDPs) for keeping a strong poverty-reduction orientation

in the latter. The data from MA Survey can facilitate SHGs for making VPRPs. The GPs under Saansad Adarsh Gram Yojana (SAGY) can use MA Survey data for preparing their Village Development Plans (VDPs) and also for monitoring purpose.

4. Mission Antyodaya and Local Level Planning:

On one hand, Mission Antyodaya is significant in identifying the development gaps across geography, on the other hand, it encourages the Local Self Governments (LSGs) to address all identified gaps/ deprivations in time bound manner through convergence of government schemes in a saturation mode. The developmental gaps identified through Mission Antyodaya are valuable inputs for GPs in preparing their Gram Panchayat Development Plans. The Framework for Implementation envisions Mission Antyodaya as a State-led initiative and partnership for rural transformation. The Framework is available at www.missionantyodaya.nic.in in Hindi and English.

Mission Antyodaya Survey is an opportunity to realize the need based planning at the GP level. The collected data serves to be an excellent opportunity to prioritize the identified development gaps for optimum allocation of resources under different Govt. Schemes/plans at GP level. Thus, this integrated process of data collection under Mission Antyodaya along with the Gram Panchayat Planning for the following financial year suffices the Government's priority of evidence based planning resulting in an empowered Panchayati Raj Institutions, serving as an important conduit between governance

and community. The Survey uses the Local Government Directory (LGD) code for unique identification of the geographic areas (villages/ GP), which can further serve to be a common identifier for interoperability across the Line Ministries and Departments for convergence of public resources at the grass root level.

5. Coverage under Mission Antyodaya Survey:

There were only 47 parameters covering 5 subjects in Mission Antyodaya Survey, 2017. During 2019 survey, the number of parameters was increased to 143 parameters to cover all 29 subjects transferred to Local Self Governments (LSGs) under 11th Schedule of the Constitution. MA survey 2020 was conducted on 143 parameters. Geo referencing of assets was a new feature added in the Mission Antyodaya Survey 2020 by providing location of the physical assets. Indicators related to 39 physical assets were identified among the total 143 indicators of MA Survey for Geo-Referencing during Mission Antyodaya Survey 2020. Due to Covid-19 pandemic, MA survey, 2020 could be completed in September, 2021 and MA Survey 2021 & 2022 could not be conducted. These Survey bring out the development gaps or challenges in different geographic pockets thereby enabling the policy makers and planners to augment and invest public resources to address the challenges. The data collected are used for ranking GPs using the scores and values of composite index.

6. Digital initiatives in conduct of MA Survey:

MA Survey 2023 conducted through mobile based application across 2,68,214 Gram

Panchayat and 6,57,574 village on 182 indicators under 216 datapoints of 21 sectors covering parameters from the functional domain of 26 Ministries/Departments, including this Ministry. Indicators related to 47 physical assets were identified for Geo-Referencing during Mission Antyodaya Survey 2022-23. The details of year- wise no. of Gram Panchayats surveyed are as follows:

MA Phase	Total GP	Total Village	MA Website Url
2017-18	2,68,466	6,76,924	https://missionantyodaya.nic.in/ma2018/
2019	2,68,346	6,64,485	https://missionantyodaya.nic.in/ma2019/

2022-23	2,68,214	6,57,574	https://missionantyodaya.nic.in

ORGANISATION

1. Background of the Ministry

The Department of Rural Development which came into existence in October, 1974 as a part of the Ministry of Food and Agriculture was converted into a new Ministry of Rural Reconstruction on 18th August, 1979. The Ministry was renamed as the Ministry of Rural Development on 23rd January 1982. The Ministry of Rural Development was again converted into a Department in January 1985, under the Ministry of Agriculture & Rural Development. The Department was again upgraded as the Ministry of Rural Development on July 5, 1991. Another Department viz. Department of Wasteland Development was created under this Ministry on 2nd July 1992. The Ministry was renamed in March 1995 as the Ministry of Rural Areas and Employment with three departments namely Department of Rural Employment and Poverty Alleviation, Rural Development and Wasteland Development.

The Ministry was again renamed as the Ministry of Rural Development in 1999 with three Departments i.e. Department of Rural Development, Department of Land Resources and Department of Drinking Water and Sanitation. The Department of Drinking Water and Sanitation was separated from this Ministry on 13th July, 2011.

At present, the Ministry of Rural Development consists of two Departments, namely, (I) Department of Rural Development, and (II) Department of Land Resources.

The Department of Rural Development implements schemes for generation of employment - both self employment and wage employment, social assistance to the destitute,

provision of rural housing, rural roads, and natural resource management activities. Apart from this, Department provides the support services and other quality inputs such as assistance for strengthening of District Rural Development Agency (DRDA) administration, Training & Research, Human Resource Development, etc., for the proper implementation of programmes. The major programmes of the Department of Rural Development are Pradhan Mantri Gram Sadak Yojana, (PMGSY), Pradhan Mantri Awas Yojana- Gramin (PMAY-G), Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS), Deendayal Antodaya Yojana - National Rural Livelihoods Mission (DAY-NRLM), National Social Assistance Programme (NSAP), Saansad Adarsh Gram Yojana (SAGY), Shyama Prasad Mukherjee RURBAN Mission (SPMRM), and Mission Antyodaya.

The Department of Land Resources is mandated to all land based development programmes. It implements area development programmes on watershed basis. The three watershed development programmes of the Department i.e. Integrated Wasteland Development Programme (IWDP), Drought Prone Areas Programme (DPAP) and Desert Development Programme (DDP) have been consolidated into a single modified programme namely Integrated Watershed Management Programme.

2. Administration

Shri Shivraj Singh Chauhan took over the charge as Hon'ble Minister of Rural Development and Agriculture & Farmers Welfare w.e.f. 11.06.20204.

Shri Kamlesh Paswan took over the charge as

Hon'ble Minister of State for Rural Development w.e.f. 11.06.20204.

Dr. Chandra Sekhar Pemmasani took over the charge of as Hon'ble Minister of State for Rural Development and Communication w.e.f. 11.06.20204.

2.1 Department of Rural Development

Shri Shailesh Kumar Singh, IAS (JH:1991) continues to function as Secretary, Department of Rural Development w.e.f. 26.10.2022(FN).

Shri Charanjit Singh, IFoS (MP: 1990) continued to function as Additional Secretary in the Department of Rural Development w.e.f. 13.05.2022 (AN) and subsequently, superannuated from the Department of Rural Development w.e.f. 31.12.2024(AN).

Shri T K Anil Kumar, IAS (KN:1995) assumed the charge of Additional Secretary, Department of Rural Development w.e.f. 30.08.2024 (AN).

Shri Praveen Mahto, IES (1992), continued to function as Chief Economic Advisor, Department of Rural Development w.e.f. 14.07.2021(FN) and subsequently, transferred to Department for Promotion of Industry and Internal Trade (DPIIT) w.e.f. 31.01.2024 (AN).

Shri Kuntal Sensarma, IES (1995) assumed the charge as Chief Economic Advisor, Department of Rural Development w.e.f. 29.02.2024 (AN).

Ms. Tanuja Thakur Khalkho, IRAS (1995) continues to function as Joint Secretary & Financial Advisor for the Ministry of Rural Development w.e.f. 05.04.2023(FN).

Ms. Usha P. Pol, ISS (1993) continued to function as Additional Director General

(Statistics), Department of Rural Development w.e.f. 10.04.2023 (FN) and thereafter opted for voluntary retirement w.e.f. 29.01.2024 (AN).

Shri M. K. Ujjainia, ISS (1993) continues to function as Additional Director General (Statistics), Department of Rural Development w.e.f. 01.03.2024 (FN).

Ms. Caralyn Khongwar Deshmukh, IAS (MP:1996) continued to function as Additional Secretary, Department of Rural Development w.e.f. 16.11.2023 (FN) and transferred to Department of Social Justice & Empowerment w.e.f. 21.08.2024(FN).

Smt. Smriti Sharan, IPoS (1993) continues to function as Joint Secretary in the Department of Rural Development w.e.f. 23.03.2022 (FN).

Shri Karma Zimpa Bhutia, IFoS (JH:1997) continued to function as Joint Secretary in the Department of Rural Development w.e.f. 20.09.2021 (FN) and subsequently relieved of his duties from the Department of Rural Development w.e.f. 24.04.2024(AN) consequent upon completion of his central deputation tenure.

Shri Lal Chhandama (CSS:1997) assumed the charge of Joint Secretary in the Department of Rural Development w.e.f. 13.05.2024 (FN).

Shri Amit Shukla, IFoS (TR:1999) continues to function as Joint Secretary in the Department of Rural Development w.e.f. 04.10.2022 (FN).

Shri Amit Kataria, IAS (CG: 2004) continued to function as Joint Secretary in the Department of Rural Development w.e.f. 01.09.2021(FN) and subsequently relieved of his duties from the Department of Rural Development w.e.f. 02.07.2024(AN) consequent upon completion of

his central deputation tenure.

Shri Pankaj Yadav, (IAS(HY:2001) assumed the charge of Joint Secretary in the Department of Rural Development w.e.f. 11.06.2024(FN).

Ms. Swati Sharma, IAS (UT:2003) continues to function as Joint Secretary, Department of Rural Development w.e.f. 07.06.2023 (FN).

Shri Abhishek Bhagotia, IAS(AM:2007) continued to function as Joint Secretary, Department of Rural Development w.e.f. 26.07.2023(FN) and subsequently relieved of his duties w.e.f. 08.05.2024 to join as Joint Secretary, Lokpal, Department of Personnel & Training.

Ms Rohini R. Bhajibhakare, IAS (TN:2008) assumed the charge of Joint Secretary in the Department of Rural Development w.e.f. 08.08.2024 (FN).

Shri Rahul Kashyap, CSS (1996) continued to function as Joint Secretary, Department of Rural Development w.e.f. 06.02.2023(FN) and subsequently transferred to w.e.f. 30.04.2024(AN) to join Secretary in the National Commission for SafaiKarmachari.

Shri Gaya Prasad, ISS (1996) continues to function as Deputy Director General in the Department of Rural Development w.e.f. 17.10.2018.

Shri Akhilesh Jha (ICAS:1996) continues to function as Chief Controller of Accounts, Department of Rural Development w.e.f. 01.04.2023 (FN).

Smt. Kalyani Mishra, IES (1999) continues to function as Economic Adviser in the Department of Rural Development w.e.f. 07.09.2020 (FN).

2.2 Department of Land Resources

Shri Manoj Joshi, IAS(KL:89) had assumed the charge of Secretary to the Govt. of India in the Department of Land Resources w.e.f. 06.03.2024.

Smt. Nidhi Khare, IAS(JH:92) had assumed the charge as Officer on Special Duty (OSD) in the rank and pay of Secretary to the Govt. of India in the Department of Land Resources w.e.f. 01.12.2023 and she had taken over the charge of Secretary, Department of Land Resources, Ministry of Rural Development 01.01.2024 on superannuation of Shri Ajay Tirkey. She had relieved of her duties in DoLRw.e.f. 06.03.2024 (FN) consequent upon her transfer.

Shri R. Anand (IPoS:1994) had assumed the charge of Additional Secretary in the Department of Land Resources w.e.f. 26.06.2023.

Shri Sonmoni Borah, IAS(CG:1999) continued to function as Joint Secretary in the Department of Land Resources w.e.f. 09.08.2021 and had relieved of his duties in the Department of Land Resources w.e.f. 29.02.2024(AN).

Shri Kunal Satyarthi, IFoS(HP:1997) had assumed the charge of Joint Secretary in the Department of Land Resources w.e.f. 19.03.2024(FN).

Shri Nitin Kumar Shivdas Khade, IAS(AM:2004) continued to function as Joint Secretary (WM) in the Department of Land Resources w.e.f. 19.04.2023.

Shri P. K. Abdul Kareem (IES:1996) continued to function as Economic Adviser in the Department of Land Resources w.e.f. 13.04.2022.

Shri Rajesh Bhatia (ISS:1996) had relieved of his duties in the Department of Land Resources

w.e.f. 17.09.2024(AN).

Shri Sanjay Kumar (ISS:2006), had assumed the charge of Deputy Director General (DDG) in the Department of Land Resources w.e.f. 01.10.2024(FN).

2.3 Autonomous Bodies under Ministry of Rural Development:

The Ministry of Rural Development has the following four Autonomous Organizations under its administrative control:

- i. National Institute of Rural Development & Panchayati Raj (NIRD & PR), Rajendranagar, Hyderabad – 500 030
- ii. National Rural Infrastructure Development Agency (NRIDA), 5th Floor, 15-NBBC Tower, Bhikaji Cama Place, New Delhi-110 066.
- iii. Bharat Rural Livelihoods Foundation (BRLF), C-32, Second Floor, Ratna Vilas, Neeti Bagh, New Delhi, Delhi 110049
- iv. National Rural Livelihoods Promotion Society (NRLPS), 7th Floor, NDCC Building -II, Jai Singh Road, New Delhi - 110001

2.3.1 NIRD&PR

Dr G. Narendra Kumar, IAS (AGMUT: 1989) continues to function as Director General, NIRD & PR w.e.f. 27.01.2021 (AN).

2.3.2 NRIDA

Shri Amit Shukla, Joint Secretary continues to function as ex-officio Director General, NRIDA w.e.f. 03.08.2023.

2.3.3 BRLF

Shri Kuldeep Singh continues to function as Chief Executive Officer of the organization w.e.f. 02.01.2023.

2.3.4 NRLPS

Shri Anil Kumar TK, IAS (KN:95) assumed the charge of CEO, NRLPS w.e.f. 01.01.2025.

Shri Charanjit Singh, IFoS (MP:1990) Additional Secretary continued to function as CEO, NRLPS w.e.f. 13.12.2021 (F/N) and relinquished the charge of CEO, NRLPS after his superannuation w.e.f. 31.12.2024.

VIGILANCE DIVISION

1. Vigilance Division handles vigilance related work in the Department of Rural Development and co-ordinates for it with Department of Land Resource and autonomous institutions namely National Institute of Rural Development & Panchayati Raj (NIRD&PR) and National Rural Infrastructure Development Agency (NRIDA). The Vigilance Division also deals with matters and reports concerning CVC, DoPT and CBI etc.
2. The Division processes the complaints received physically in the Ministry and those received online through CVC portal. The Vigilance Division also furnishes Vigilance Clearance, acceptance for property intimations and NOCs in connection with foreign tour on personal grounds in respect of personnels working in the Ministry.
3. The Vigilance Section serves as the Custodian of APARs of the Officers/Officials of this Ministry. Timely completion of APARs and other APAR related issues in respect of personnels is being taken care of by this Division.
4. To ensure transparency and Accountability emphasis is accorded to following aspects by this Division:-
 - a. Conduct of vigilance investigation in respect of irregularities.
 - a. Close monitoring and disposal of disciplinary cases in the Department and
 - a. Pursuance of Rotation of Staff posted on sensitive posts.
5. On the recommendation of CVC, a Joint Secretary in the Ministry has been appointed as part time CVO, who acts on behalf of CVC in respect of personnel working in the Ministry in the matter of disciplinary cases. Vigilance/Disciplinary cases are reviewed by CVO as well as Secretary (RD) regularly.
6. In accordance with the CVC's instructions, various vigilance related activities such as Vigilance Awareness Week are also observed in this Ministry. The Ministry this year on occasion of Vigilance Awareness Week, 2024 conducted a Quiz Competition on subjects of Vigilance and Anti-corruption and a lecture on Work and Ethics and conduct Rules and a talk on Preventive vigilance measures to sensitize the Officers of this Ministry towards Vigilance issues.

The Government of India (Allocation of Business) Rules, 1961

MINISTRY OF RURAL DEVELOPMENT¹ (GRAMIN VIKAS MANTRALAYA)

A. DEPARTMENT OF RURAL DEVELOPMENT (GRAMIN VIKAS VIBHAG)

1. Omitted.²
2. Public cooperation, including all matters relating to voluntary agencies for rural development, Council of Advancement of People's Action and Rural Technology (CAPART) and National Fund for Rural Development, other than aspects which fall within the purview of Ministry of Drinking Water and Sanitation.
3. Cooperatives relatable to the items in this list.
4. Road works financed in whole or in part by the Central Government in tribal areas of Assam specified in Part I and Part II of the Table appended to paragraph 20 of the Sixth Schedule to the Constitution.
5. All matters relating to cooperation with the Centre for Integrated Rural Development for Asia and Pacific (CIRDAP) and the Afro-Asian Rural Reconstruction Organisation (AARRO).
6. (a) All matters pertaining to rural employment or unemployment such as working out of strategies and programmes for rural employment including special works, wage or income generation and training related thereto.
(b) Implementation of the specific programmes of rural employment evolved from time to time.
(c) Micro level planning related to rural employment or unemployment and administrative infrastructure therefor.
7. Integrated rural development including small farmers development agency, marginal farmers and agricultural labourers, etc.
8. Rural housing including Rural Housing Policy and all matters germane and incidental thereto under country or rural planning, in so far as it relates to rural areas.
9. All matters relating to rural connectivity including the Pradhan Mantri Gram Sadak Yojana.

RURAL EMPLOYMENT

Mahatma Gandhi National Rural Employment Guarantee Act, 2005 (MGNREGA)

The Mahatma Gandhi National Rural Employment Guarantee Act, 2005 (Mahatma Gandhi NREGA) was notified on September 7, 2005.

Mandate

The mandate of the Act is to provide at least 100 days of guaranteed wage employment in a financial year to every rural household whose adult members volunteer to do unskilled manual work.

Objectives

The core objectives of the Scheme are as below:

- Providing not less than one hundred days of unskilled manual work as a guaranteed employment in a financial year to every household in rural areas as per demand, resulting in creation of productive assets of prescribed quality and durability.
- Strengthening the livelihood resource base of the poor;
- Proactively ensuring social inclusion

Thus, Mahatma Gandhi NREGA is a powerful instrument for ensuring inclusive growth in rural India through its impact on social protection, livelihood security and democratic empowerment.

Coverage

The Act was notified in 200 districts in the first phase with effect from February 2nd, 2006 and

then extended to an additional 130 districts in the financial year 2007-2008 (113 districts were notified with effect from April 1st 2007, and 17 districts in Uttar Pradesh (UP) were notified with effect from May 15th 2007). The remaining districts have been notified under Mahatma Gandhi NREGA with effect from April 1, 2008. Thus, the Mahatma Gandhi NREGA covers the entire country with the exception of districts that have a hundred percent urban population.

Performance during the Financial Year (FY) 2024-25 (till 31.12.2024)

Performance during the Financial Year (FY) 2024-25 (till 31.12.2024)

The outcomes of programme implementation in the financial year 2024-25 (till 31.12.2024) are as follows:

- Employment Generated: In the current FY, 5.11 crore households have been provided employment and 211.41 crore person-days of employment have been generated, till 31.12.2024.
- Increasing Outreach to the poor and marginalized: Self targeting in nature, the programme has high work participation from the marginalized groups like SC/ST (of 36.92 %), Women (of 57.94 %) during FY 2024-25 (till 31.12.2024).
- Strengthening Natural Resource Base:
- In FY 2024-25, 18.56 lakh works related to natural resource management costing

approximately Rs. 1932431.02 lakh has been taken up

- Financial Inclusion of the Poor: With a view to universalize the system of wage payments through institutional accounts, it has been recommended to all States/UTs to disburse wages through Post Offices and Bank

Accounts. Wage is being disbursed to over 12.89 crore banks and post office accounts of active Mahatma Gandhi NREGA beneficiaries.

State/UT wise physical & financial progress for FY2024-25 is Annexure – II & III.

1. Progress Under Mahatma Gandhi NREGA for FY 2024-25

Sl. No.	Indicator	FY 2024-25 (till 31.12.2024)
1	Approved Labour Budget (in crore)	243.59
2	No. of Households worked (in crore)	5.11
3	No. of Persons worked (in crore)	6.86
4	Person-days Generated (in crore)	211.41
5	Number of Completed Works (in lakh)	68.06
6	% of expenditure on NRM works in MWC Blocks	31.38
7	% of expenditure on Agriculture & Agri allied works	44.12
8	Total central release (in Rs. crore)	79,881.59

Research Studies:

Mahatma Gandhi NREGA has hugely benefitted from the vast body of research carried out by government and non-government institutions, individuals etc. They have highlighted all the positive changes that the programme has been able to make in the rural landscape, be it reduction in migration, enhancement of livelihood opportunities, increase in households' income, women empowerment, etc.

Many independent research studies have been conducted from time to time to assess the impact of the scheme against the objectives set out in the Mahatma Gandhi NREG Act 2005. The Institute of Economic Growth (IEG), New Delhi in 2018 conducted a national evaluation of Natural Resource Management (NRM) works under Mahatma Gandhi NREGS and its impact on sustainable livelihoods. While carrying out

national evaluation, the study found increase in productivity, incomes, fodder availability, acreage, and even rise in water table on account of the Natural Resource Management works. It is also significant to observe that the household that participated in the study found 76% of the assets as very good/ good and only a mere 0.5% as unsatisfactory. The extremely low unsatisfactory assets are an affirmation that large scale leakages under the programme has come down substantially because of the governance reforms, IT/DBT, geo-tagging of assets created under Mahatma Gandhi NREGA, etc.

The Council for Social Development conducted a study on "Socio- Economic Impacts of 'Category B' assets under Mahatma Gandhi NREGS" in the year 2017 with an objective to assess the changes in the livelihood conditions and occupational status of the households.

It is argued in the study that impacts of wage employment and income generation are ephemeral whereas the impacts of assets may be transformational. The provision of individual assets contributed, on an average, about 31.28% of the total annual income of a beneficiary household. The additional income generated due to the Category-B assets resulted in the beneficiaries spending it on education, savings, purchase of household items, debt repayment, health and medical expenditure, purchase of farm equipment, repair and maintenance of houses, etc.

In December 2019, the Ministry of Rural Development, GOI has launched Project 'UNNATI' to enhance the skill set of the MGNREGS beneficiaries, by providing skill training by DDU-GKY, RSETIs and KVKs on various trades. Project 'UNNATI' is designed to be implemented in a convergence mode between Rural Skill division of MoRD and KVKs of Ministry of Agriculture.

The "Mid Term evaluation study" was undertaken by NIRD & PR with an anticipation to generate knowledge that could propagate capacity building and planning to leverage the ongoing skill development efforts by DDU-GKY, RSETI and KVK. The study report suggested that the program plays crucial role in the skill development and had a positive impact on the workers of MGNREGA by enhancing their livelihood.

Evaluation study of the Cluster Facilitation Project (CFP) under Mahatma Gandhi NREGA was conducted in 75 CFP Blocks from Himachal Pradesh, Odisha, Maharashtra, Telangana, Chhattisgarh, Tripura from December 2023 to May 2024. This study has highlighted the

positive influence of the Project at CFP Blocks in comparison to Non-CFP Blocks.

A study titled Impact Assessment of Enhancing Rural Resilience through Appropriate Development Actions (ERADA) was conducted from July 2024 to August 2024 by Insight Development Consulting Group, India in the states of Bihar, Jharkhand, Madhya Pradesh and Rajasthan. This study was focused to study how wage work potential of vulnerable households can be improved and the natural resource base through Mahatma Gandhi NREGS can be enhanced. The study also focused on how convergence with other schemes can be improved and multi-stakeholder platforms be strengthened for providing better access to vulnerable households. One of the major findings of the study was that the number of HHs engaged in agriculture has increased across all the states making a significant improvement from the baseline value of 43% to 91% along with the mean workdays per MGNREGS job card having increased from 42 to 61 days.

Another study titled Infrastructure For Climate Resilient Growth (ICRG) Programme was conducted from August 2016 to March 2024 by Foreign, Commonwealth & Development Office (FCDO), Govt. of United Kingdom in the States of Chhattisgarh, Madhya Pradesh, Jharkhand, Uttar Pradesh, Rajasthan, Odisha and Bihar. ICRG programme study covered different agro-climatic zones and diverse rural communities in these project States. Among the key findings of the Report were inputs on strengthening of capacity on climate informed planning, Generation of evidence, social protection and climate adaptation and Sharing of good practices.

Initiatives Taken to Strengthen Mahatma Gandhi NREGA

1. **GeoMGNREGA** - A path breaking initiative for improved planning, effective monitoring and greater transparency with the use space technology for geo tagging of Mahatma Gandhi NREGA assets was launched in FY 2016-17. So far, more than 6.19 crore assets have been geotagged and made available in the public domain. To enable ease of access an android based mobile application “JANMANREGA” was launched in FY 2017-18. This app has provisions for feedback by the public at large and will enable greater transparency in the programme implementation.

GeoMGNREGA Phase II was initiated on 1st November 2017 for geo-tagging the works in three stages. This will capture the works in three stages, i.e. before start of the work (location), during the commencement of work, and after completion of the work, along with 2 high quality photographs in each stage.

2. **GIS Based Planning** : The Ministry has initiated planning of NRM works using Geographical Information System (GIS) tools under Mahatma Gandhi NREGS. GIS and Remote Sensing (RS) technologies have led to the development of decision support systems for creation of assets with enhanced impact on the ground. GIS based planning under Mahatma Gandhi NREGS is a path breaking initiative of Ministry of Rural Development. It leads to gainful utilization of resources that uses space technology for geo-tagging all assets created under Mahatma Gandhi NREGA for improved

planning, effective monitoring, enhanced visibility and greater transparency. The GIS based plans provide for a scientific input to the community based participatory planning process at the grass root level. The benefits of GIS-RS technology are as under:

- GIS provides a commonly understood framework for collecting, organizing, and managing structured data.
 - Various types of geographical and statistical data can be displayed on maps and concise and ordered information can be visually displayed.
 - The visual display of information can reveal patterns and spatial relationship that may not be apparent in tabular displays.
 - Visualization of spatial patterns and relationships also supports change analysis, which is important in monitoring changes in land use and social indicators.
 - GIS & RS are the tools that can assist in project planning and designing intervention strategies, monitoring and evaluation of watershed development, dissemination of spatial information and repository of digital data.
 - An integrated holistic planning of the Gram Panchayats on the basis of watershed development using GIS approach has been initiated by the Ministry. So far, plans for 2.65 lakhs GPs (As on 31.12.2024) have been prepared and approved in a saturation mode for three-year planning.
3. **Mission Water Conservation (MWC):** Mission Water Conservation (MWC) framework was issued in FY 16-17 strives

to leverage the synergies between Mahatma Gandhi NREGA, Pradhan Mantri Krishi Sinchayee Yojana (PMKSY), Integrated Watershed Management Programme (IWMP) and Command Area Development & Water Management (CAD&WM) programmes, given their common objectives. All the NRM works planned should essentially be a part of the District Irrigation Plan under PMKSY. The Ministry has advised the States/UTs to ensure that not less than 65% of the total expenditure will be on Natural Resource Management activities in the water stressed blocks. During FY 2024-25, 228227 works ongoing, 177447 works completed in 1456 MWC blocks with expenditure of 510882.32 lakh.

4. The Government's focus on agriculture and allied activities to boost the agricultural production has translated into increased expenditure on this sector over the years. There was only 49% of expenditure on such activities in FY 13-14. This increased to about 66% in FY 2016-17, 66.07% in FY 2017- 18, 63.39% in FY 2018-19, 66.13% in FY 2019- 20, 65.01% in FY 2020-21 ,64.68% in FY 2021-22, 65.38% and in FY 2022-23, it was 35.69%. IN FY 2024-25, the expenditure on agri allied activities is 44.12% (as on 31.12.2024).
5. **National Electronic Fund Management System (NeFMS)/ DBT:** To streamline the fund flow system, the Ministry has initiated NeFMS since 1st January, 2016. As of now, 27 States and 3 Union Territories are on board. Under this, now about 99% of wage payments are being electronically credited into the beneficiaries' bank accounts through DBT. Aadhaar seeding of active workers in MIS

has increased from 37% during FY 2013-14 to 99.40% in FY 2024-25 (13.23 crores out of 13.31 crores) (as on 31.12.2024).

6. **Secure :** SECURE is an online an application designed and developed specially for the estimate preparation and approval for Mahatma Gandhi NREGA works. The estimates are based on the standard rates of items and specifications of works, entered for State/ District/ Block for Mahatma Gandhi NREGA related works. The estimates generated are also given online technical and administrative sanctions. Currently it is being implemented in 28 States and 4 UTs across 703 districts.

The work from NREGASoft goes to SECURE through web services. On the SECURE application the estimates are generated online. Once the estimate is generated, the Technical Sanction and Administrative Sanction are accorded online. The work goes with the details of the Estimates rates and figures on NREGASoft via web services and freezes the Detailed Project Report (DPR), thereafter the work goes to Bhuvan portal for geotagging.

In the FY 2024-25, more than 42 lakh estimates have been shared to SECURE for online estimation and out of which more than 24 lakh estimates have been accorded TS and AS online.

7. **Good Governance Initiatives :** In the recent past, the Ministry has taken steps to simplify the implementation of the programme through various good governance initiatives viz.
 - a. **Job Card design, verification and**

update : The Job Cards (JCs) need to be verified and updated from time to time to weed out the bogus JCs, duplicates and for reasons like migration and death.

b. Maintenance of Case Records /Work

Files : Proper maintenance of records is one of the critical factors to ensure success in the implementation of Mahatma Gandhi NREGA. Information on critical inputs, processes, outputs and outcomes have to be meticulously recorded in prescribed formats at the levels of District, Block, GP and other Implementing Agencies. Case Record/ Work File is a physical file maintained for each project/ work under Mahatma Gandhi NREGA. The relevant documents and records are filed into the Case Record/ Work File in a sequential manner. This enables to review, monitor and audit the implementation of the project/ work during implementation stage and also after its completion.

c. Maintenance and update of 7 Registers:

As a good governance initiative, the Ministry in consultation with the States/UTs and field functionaries therein, has cut down on the plethora of Registers (average 22 Registers in a Gram Panchayat) being maintained at every Gram Panchayat (GP) by bringing it down to 7 Registers. In 2.68 lakh Gram Panchayats, 7 registers are being implemented and the Ministry has advised the State/UT Governments to ensure implementation of the 7 registers in all the GPs.

d. Design & durability of Citizen

Information Boards: The Citizen Information Boards act as a medium for enhancing visibility, transparency and creating awareness about every work taken up/completed under the programme. The Ministry has emphasized the installation of durable Citizen Information Boards based on some very good models available in various States/UTs.

These initiatives aim to increase the effectiveness of the programme implementation at the field level. The Ministry has issued suggestive frameworks for these initiatives after due consultations and incorporation of good practices by the States/UTs.

8. Emphasis on Social Audit: System of Social Audit is being strengthened. In association with the office of Comptroller & Auditor General (C&AG), the auditing standards have been finalized and the implementation of the same has started. Social Audit Units have been established in 27 States and 1 UT.

9. Ombudsperson: Ombudsperson- As per section 30, Schedule 1 of the Mahatma Gandhi NREGA Act, the States are mandated to appoint an Ombudsperson for each district for receiving grievances, enquiring and passing Awards as per the guidelines of Mahatma Gandhi NREGA, to resolve the complexity of process of filing complain, passing awards etc. Programme Division has developed an Ombudsperson App for smooth reporting and categorization of grievances received from various sources viz. physical, digital and mass media related to the implementation of the Mahatma

Gandhi NREGS, easy tracking and timely passing of awards on each case as per the guidelines and easy uploading of quarterly and annual report on the website. In this regard on dated 24 February, 2022. Honorable Minister of Rural Development had inaugurated Ombudsperson App. This app may help a lot the ombudsperson with a greater extent in discharging her/his duty towards the transparency Accountability, towards the objective of eradication of corrupt/malpractices in the process of implementation of Mahatma Gandhi NREGA. A total of 593 out of 740 districts ombudspersons have been appointed (as on 31.12.2024).

10. Skill Development:

- i. Mahatma Gandhi NREGA workers are being trained as Barefoot Technicians (BFT) to enhance their skills for identification, estimation and record measurement of works. State/ UT is required to identify such individuals who can be trained and deployed and it is operational in 20 States. So far, 9,186 BFT candidates have been trained, 9,056 BFT candidates have been certified and 7,753 BFTs have been deployed as a skilled worker under Mahatma Gandhi NREGA.
- ii. In addition, the Ministry has taken up E-Saksham, a capacity building and training programme in States/UTs to improve the quality and effectiveness of the use of GIS-based planning of NRM works under Mahatma Gandhi NREGS. The Ministry launched Yuktdhara-Geospatial planning portal developed

by National Remote Sensing Centre (NRSC), ISRO on 23rd August 2021 for facilitating Gram Panchayat level Planning of Mahatma Gandhi NREGA activities across India.

- iii. Project 'UNNATI', a Central Sector Scheme launched in December 2019 by Government of India, is a skilling project meant for providing training to one adult member (of age 18-45 years) of a household who have completed 100 days of work under Mahatma Gandhi NREGA from FY 2018-2019 onwards.

The project is being implemented in convergence with Rural Skills Division, and Krishi Vigyan Kendra of ICAR, Ministry of Agriculture & Farmers Welfare. The eligible beneficiaries can opt for any of the training programs i.e: DDUGKY, RSETI and KVK. The Project intends to improve the livelihoods of Mahatma Gandhi NREGA workers by providing a skill either for Self-employment or Wage employment. A total of 2,00,000 beneficiaries to be trained till March 2025 with an estimated financial expenditure of Rs.307.34 Crore. Based on the eligibility, this project is implemented in 26 States and 2 UTs. The candidate undergoing training will be paid stipend for a maximum period of 100 days and for one program per household as per the wage rate prevailing in the concerned state as per the provisions of the project. The candidate shall be eligible for getting stipend if the candidate has attended at least 75% of the training classes or the course attendance requirement, whichever is more. This will be calculated each fortnight.

The progress of the project was severely impacted by the Global COVID-19 pandemic, which led to the closure of training centers associated with DDU-GKY, KVKs, and RSETIs due to national lockdown. However, the pace of the project has significantly increased over the last two years, starting from FY2022-2023, a total of 79,634 beneficiaries have been trained so far.

11. Cluster Facilitation Project (CFP):

The Cluster Facilitation Project (CFP) was launched on 1st April, 2020 with the objective to ensure effective implementation of Mahatma Gandhi NREGS. At present, CFP is operational in 231 Blocks of 108 Aspirational Districts and 46 Blocks of other backward areas of other Districts in 25 States through better planning, coordination and monitoring. The dedicated teams with expertise in various domain namely, Natural Resource Management (NRM), Geographical Information System (GIS) and Livelihood is placed at cluster, Block, District, State and National Levels for implementation and monitoring of Mahatma Gandhi NREGS.

12. Area Officer App : The Ministry has launched the Area Officer Monitoring visit app on 21st May 2021. The purpose of the app is to make real time inspection and evidence based reporting of RD Schemes. This app will facilitate the officials of States/ Uts to record their field visit findings online. The app will allow the officials to record time stamped and geotagged photographs for all the schemes launched by the Department of Rural Development. This app will help in developing hassle free reporting of field

visits. The provision to view the field visit outcome report by the senior officials is also available in the app.

13. National Mobile Monitoring Service (NMMS) :

National Mobile Monitoring System started in FY 2021-22. To ensure more transparency in the implementation of Mahatma Gandhi National Rural Employment Guarantee Scheme (Mahatma Gandhi NREGS) in the States/UTs, the Ministry has decided that States/UTs shall ensure capturing of real time attendance at worksite through National Mobile Monitoring System (NMMS) App with geo-tagged two-time stamped photographs of the worker in a day for all the works (except Individual Beneficiary Scheme/Project) through NMMS w.e.f 1 January, 2023. NMMS application has been modified to capture second photograph just after the 4 hours from capturing the first photograph. The morning attendance along with the first photograph and the second photograph can be captured in offline mode also and to be uploaded once device comes in network areas.

This app aids in increasing the citizen oversight of the program and ease of Governance. Further it is one more step towards transparency and accountability.

14. Yuktdhara : Yuktdhara, an indigenous planning tool is a dedicated portal developed by NRSC-ISRO with the support of MoRD for facilitating holistic GIS-based Gram Panchayat level planning of Mahatma Gandhi NREGS activities, with features for analysis in terms of Ridge to Valley approach in the portal itself. Virtual as well

as regional trainings with hand-holding workshops have been conducted during October to December 2024 for all States & UTs. A decision has been taken to roll-out Yuktdhara Portal in all States/UTs in a phased manner. The Annual Action Plan for FY2025-26 for identified Gram Panchayats for Phase-I (wherein 1 Gram Panchayat per Block is identified by each State & UT) will be prepared using Yuktdhara Portal. More than 7100 Gram Panchayats plans will be prepared using Yuktdhara Portal by 31st March 2025.

15. Jaldoot : The Jaldoot App was launched on 27th September, 2022 for measuring the water level in a Gram Panchayat through 2-3 selected open wells twice in a year (pre-monsoon and post monsoon).

Ensuring adequate water availability and supply in the rural parts of the country is a National priority. Therefore systematic measurements of the existing depth of groundwater level on a broad basis are necessary to improve groundwater level. Gram Rojgar Sahayak (GRS) will measure the water level and document the same at Central server using the Jaldoot mobile app. This will enable groundwater monitoring, water budgeting and planning for water harvesting and conservation related works. The states may utilise this data for deciding the crop pattern and accordingly educate the farmers. Villages should be sensitised on the benefits of the proposal through an awareness generation exercise in the Gram Sabha meetings.

**DEENDAYAL ANTYODAYA
YOJANA-NATIONAL RURAL
LIVELIHOODS MISSION
(DAY-NRLM)**

1. Introduction

The DeendayalAntodayaYojana – National Rural Livelihoods Mission (DAY-NRLM) is a flagship programme of the Ministry of Rural Development (MoRD) that seeks to alleviate rural poverty through building sustainable community institutions of the poor. The centrally sponsored programme, mobilized more than 10 crore households into SHGs and aspire to link them to sustainable livelihoods opportunities by building their skills and enabling them to access formal sources of finance, entitlements and services from both public and private sectors. It is envisaged that the intensive and continuous capacity building of rural poor women will ensure their social, economic and political upliftment.

The Mission seeks to achieve its objective through investing in four core components viz., (a) social mobilization and promotion of sustainable community institutions of the rural poor; (b) financial inclusion of the rural poor; (c) sustainable livelihoods; and (d) social inclusion, development and convergence.

2. Key Features of DAY-NRLM

The key features of DAY-NRLM include:

Universal Social Mobilization: At least one female adult member from each identified rural poor household is brought under Self Help Group (SHG) and its federated institutions in a time bound manner. Special emphasis is on poorest of poor and most vulnerable communities such as manual scavengers, victims of human trafficking, Particularly Vulnerable Tribal Groups (PVTGs), Persons with Disabilities (PwDs) and legally released labour.

Identification of Beneficiaries: The target group under DAY-NRLM is determined by a well-defined, transparent and equitable process of participatory identification of poor (PIP), anchored by the members of the target communities. All households identified as poor through the PIP, processes, including households with at least one deprivation, as per the Socio Economic Caste Census (SECC) 2011 data, are presented to the Gram Sabha for vetting and subsequently approved by Gram Panchayat, and thus become DAY-NRLM Target Group households and are eligible for all the benefits under the programme.

Funds to the community as Resources in Perpetuity: DAY-NRLM provides Revolving Fund and Community Investment Fund (CIF) as Resources in Perpetuity to the institutions of the poor to strengthen their institutional and financial management capacity and build their track record to attract mainstream bank credit. The funds provided to community institutions are based on fixed criteria of performance. Other funds provided to the community are Vulnerability Reduction Fund- to address vulnerabilities and Start-up Fund in order to meet the logistics requirements for community meetings and book-keeping.

Implementation by the Poor: The Mission is designed to mainstream the role of poor in its implementation. Key processes of DAY-NRLM are driven by the institutions of rural poor women, especially by women who have come out of poverty and whose lives have been transformed by this very process. Thus, it is a programme for the poor, of the poor and by the poor.

Convergence: DAY-NRLM places a high

emphasis on convergence with other programmes of the Ministry of Rural Development and other Central Ministries and programmes of State Governments for developing synergies directly and through the institutions of the poor.

Linkages with PRIs: In view of the significant roles of Panchayat Raj Institutions (PRIs) in local governance and development, DAY-NRLM envisages to establish formal platforms for regular consultations between Community Based Institutions (CBOs) and PRIs, particularly at the level of Village Panchayats for exchange of mutual advice, preparation of Gram Panchayat Development Plan, support and leveraging of resources (schemes and entitlements) meant for the poor.

Exit Strategy: The Mission has a clear exit strategy. It is expected that after 10 years in a block, women SHG federations are able to manage their development agenda on their own and external support structure in the form of Block Mission Management Unit (BMMU) would be taken over by the internal support structure of Cluster and Block level federations supported by community professionals.

3. Key Components and Sub-Schemes of DAY-NRLM

i. Institution Building and Capacity Building

Promotion of community institutions and their capacity building is one of the core components of DAY-NRLM. The community institutions provide a collective platform for the rural poor to overcome poverty through access of financial, technical and marketing resources. These institutions require continuous and intensive capacity building and training. The Mission provides multiple funds to these

community institutions such as Revolving Fund (RF), Community Investment Fund (CIF) etc. to strengthen their financial base and help them leverage additional funds.

Funds to the Community

Revolving Fund : A revolving fund of (Rs.20,000 to 30,000) is provided to SHGs as an incentive to inculcate the habit of thrift and accumulate their own funds towards building their corpus to meet the credit needs in the long-run and immediate consumption needs in the short-run.

Community Investment Fund (CIF) : Community Investment Support Fund is routed to SHGs through federations (primary and secondary level) to support development of suitable livelihoods of members and to initiate collective activities, wherever feasible. A part of the CIF is provided as Vulnerability Reduction Fund (VRF) for supporting the inclusion of very poor communities and making credit accessible to them with or without interest. CIF and VRF are disbursed against Micro Credit Plans (MCP)/ Vulnerable Reduction Plans (VRPs) developed by the community institutions.

ii. Financial Inclusion

SHG-Bank Linkage : DAY-NRLM facilitates universal access to the affordable cost-effective reliable financial services to the poor and it works on both demand and supply sides of financial inclusion by promoting financial literacy among the poor and providing catalytic capital to the SHGs and their federations on the demand side and coordinating with the financial sector and encouraging use of digital financial technologies, business correspondents and community facilitators on the supply side. Financial inclusion is primarily being facilitated

by enabling each SHG to be linked to banks and to access all financial services including loans.

DAY-NRLM has also been instrumental in providing the last mile delivery of financial services in remote rural areas where people do not have much access to banking services, through promotion of digital finance and deployment of SHG Women as Banking Correspondent Sakhi (BC Sakhi), with the support of banks and Common Service Centers. Presently, more than 1,37,112 women members of SHGs have been identified, trained, and deployed as BC Sakhi.

Interest Subvention

The rural poor need credit at low rate of interest and in multiple doses to make their ventures economically viable. In order to ensure affordable credit, DAY-NRLM has a provision for subvention on interest rates.

- i. All women SHGs in the rural areas whose members are from the DAY-NRLM target group, are eligible for interest subvention.
- ii. For loans up to ₹ 3 lakh under the scheme, banks will extend credit at a concessional interest rate of 7% per annum. For outstanding credit balance up to ₹ 3 lakh, banks will be subvented at a uniform rate of 4.5% per annum during FY 2024-25.
- iii. For loans above ₹ 3 lakh and up to ₹ 5 lakh under the scheme, banks will extend credit at interest rate equivalent to their 1 year-MCLR or any other external benchmark-based lending rate or 10% per annum, whichever is lower. For outstanding credit balance above ₹ 3 lakh and up to ₹ 5 lakh, banks will be subvented at a uniform rate of 5% per annum during FY 2024-25.

- iv. Interest Subvention will be payable only for the period during which an account remains in standard category

Financial Literacy

Financial Literacy is one of the important strategies to spread awareness on financial behavior and keep households informed about various financial products and services. DAY-NRLM has trained and deployed a large number of cadres called 'Financial Literacy Community Resource Persons (FL-CRPs)' to carry out financial literacy camps at village level. Financial Literacy Centers (FLC) established by various banks may coordinate with respective SRLMs and utilize the services of FL-CRPs to conduct village camps on Financial Literacy.

Launch of DEA Fund : The Depositor Education & Awareness Fund of RBI has been formally launched. RBI has released fund to 20 SRLMs after successful implementation of pilot programme. RBI provides substantial amount i.e. Rs. 50,000 per awareness camp. This amount is of great help in strengthening SAKSHAM Centers (One Stop solution for financial services). This approval has reinforced the trust and confidence of regulator (RBI) in the financial literacy architecture of NRLM/SRLM.

iii. Livelihoods

Farm Livelihoods : DAY-NRLM promotes sustainable agriculture, better livestock management practices and NTFFPs, The focus of these interventions is on training and capacity building, and promotion of agro-ecological practices as well as livestock practices to enhance crop and animal productivity. In its concerted effort to recognize the role of women in agriculture, an investment is being made

to enhance their capacities and increase their income to take lead in agriculture and allied activities. The livelihoods interventions are being supported by Community Livelihoods Resource Persons (KrishiSakhi, PashuSakhi, Van Sakhi etc.) Custom Hiring Centres (CHCs) are being established at the village level which help small and marginal farmers hire farm tools and services at a nominal cost.

Non-Farm Livelihoods : Non-Farm Livelihoods under DAY-NRLM are primarily implemented through the various components of the SVEP umbrella projects. This sub scheme has following components – Micro Enterprise Development (MED), Start-up Village Entrepreneurship Programme (SVEP), One Stop Facility (OSF), Clusters, Incubators and AajeevikaGramin Express Yojana (AGEY). In addition to these, enterprise promotion through OSF, Clusters and Incubators which were in the NRETP are included in the DAY-NRLM also.

Sub-schemes:

- a. **Mahila Kisan Sashaktikaran Pariyojana (MKSP) :** Launched in 2010-11, the primary objective of MKSP is to empower women in agriculture and NTFP by making systematic investments to enhance their participation & productivity in agriculture as well as NTFP based livelihoods and building the capacity around sustainable harvesting, post-harvesting techniques. It also aims at ensuring nutrition for poorest of the poor by securing and strengthening the primary livelihoods basket.
- b. **Start-up Village Entrepreneurship Programme (SVEP) :** Start-up Village Entrepreneurship Programme (SVEP), the

sub-scheme under DAY-NRLM develops an eco-system for supporting small businesses in rural areas. The eco-system has components for providing business support services, mentorship, seed capital, training & capacity building on business and technical aspects and marketing support. SVEP saturates a block with these services for supporting small business.

- c. **National Rural Economic Transformation Project (NRETP) :** The National Rural Livelihoods Project (NRLP), implemented from July 2011 to June 2018, has been successful in establishing DAY-NRLM's "proof-of-concept" in 13 high poverty states¹. The project helped the State Missions in setting up implementation systems, social mobilisation, capacity building, initial capitalisation and credit linkage of community institutions. NRETP was declared effective on 24th April 2019 and closed on 30th June 2024. The total outlay of the project is USD 500 million out of which USD 250 million is a loan assistance from the World Bank and the remaining USD 250 million is the counterpart financing provided by Government of India.

4. Implementation Strategy

DAY-NRLM has adopted a phased but intensive implementation strategy covering selected blocks in each year and all eligible households by 2024-25. All States and Union Territories which satisfy the conditions for transition from SGSY to NRLM implement the Mission in identified rural blocks. All the 28 States and 6 Union Territories have transited to NRLM.

To facilitate intensive implementation, State

¹ Assam, Bihar, Chhattisgarh, Gujarat, Jharkhand, Karnataka, Odisha, Maharashtra, Madhya Pradesh, Uttar Pradesh, Rajasthan, Tamil Nadu and West Bengal.

Rural Livelihoods Missions (SRLMs) have been established as special purpose vehicles. Dedicated implementation support units have been set up at the state, district and block levels known as State Mission Management Unit (SMMU), District Mission Management Unit (DMMU) and Block Mission Management Unit (BMMU). Multi-disciplinary professional teams are engaged at each level to spearhead the Mission activities under different components. A National Rural Livelihoods Promotion Society (NRLPS) has been established under the MoRD to provide technical support to the SRLMs. The NRLPS has set up a National Mission Management Unit (NMMU), a multi-specialty team of experts to support the State Missions.

DAY-NRLM implementation in a block continues for a period of ten years till community federations become mature and take responsibility of implementation. A typical block having about 13,500 (90% of total poor) mobilisable poor households spread over 100 -120 villages is divided into 4 clusters of 30 villages each. The initial years are spent in building the organizations of the poor by mobilizing them into SHGs and Federations at Village, Cluster level and Block level. Other interventions such as health, nutrition, inclusion of vulnerable communities like Persons with Disability (PwD), elderly, single women, etc. are introduced through these institutions. Funds flow to the community institutions over the first 4-5 years are also planned at regular intervals. The concluding 4 years is essentially a maintenance and withdrawal phase where the community institutions graduate to self-reliance and self-sustainability.

DAY-NRLM is working intensively in 7,143 blocks of 745 districts at present. The programme has achieved 100% of its target by mobilizing 10.054 crore HHs till December, 2024.

5. Progress of NRLM During FY 2024-25

5.1 Improved targeting of Households

In addition to adoption of SECC target and PIP process for identification of households, DAY-NRLM has also included the following criteria focused on maximum coverage and saturation-

- 6 NE states, J&K and Ladakh shall have their target as 2/3rd of total rural HH;*
- For all other states and UTs, a 13% increase over SECC target shall be considered as total HH target for mobilization.*

As on December, 2024, DAY NRLM has its footprints in 28 states and 6 UTs, 7143 blocks and mobilized 10.05 crore rural families in 90.90 lakhs of SHGs. The SHGs have been federated into 5.04 lakh Village Organizations (VOs), which are, in turn, federated into 32439 Cluster Level Federations (CLFs).

Cumulatively, Revolving Fund (RF) (@ Rs.20,000/- to Rs.30,000/- per SHG) to the tune of Rs. 8,60,093.04 lakh have been provided to 54.46 lakh SHGs as of December 2024 . Also, the Mission has provided a total of Rs.40,68,363.96 lakh as Community Investment Fund (CIF) to 58 lakh SHGs. Specific details for the current financial year are given in the table below (table 1):

Table-1: NRLM Footprint: Progress in All Intensive Blocks

S.	Particulars	Cumulative Progress Upto March 2024	Progress during 2024-25 (upto December 2024)
1	States	28	28
2	Union Territories transited	6	6
3	Districts entered	742	745
4	Intensive blocks under implementation	7,119	7,143
5	Households covered (in lakh)	1,000.04	1,000.05
6	SHGs promoted (in lakh)	90.83	90.90
7	VOs promoted (in lakh)	5.04	4.89
8	CLF promoted	32,439	32,439
9	SHGs provided RF (in lakh)	50.41	54.46
10	SHGs provided CIF (in lakh)	51.34	58
11	Amount of RF disbursed (in Rs. lakh)	7,76,013.33	8,60,093.04
12	Amount of CIF disbursed (in Rs. lakh)	34,13,173.41	40,68,363.96

5.2 Mission Implementation Status

5.2.1 Implementation Support

All States and Union Territories have made significant progress in establishing the implementation units and deployment of staff at the block, district and state levels. SRLMs are also focusing on setting-up of robust HR systems which have been developed through customization of the revised Model Human Resource Manual 2024 circulated on 14th October, 2024. States have been requested to adopt the customized HR manual by 31st December, 2024 or incorporate in the Annual Action Plan of FY 2025-26. All SRLMs have set procedure for induction cum immersion of all newly recruited staff. Currently 44,813 staff are providing support in the implementation of mission interventions.

In order to ensure the quality of work and timely outputs, a Performance Management System (PMS) has been developed, under which the performance appraisal is undertaken by the individual professional, the community, the team and the reporting officer, thus introducing a 360-degree feedback process. A training film on PMS, was developed and shared with all state missions.

An advisory has been issued to all states to constitute Internal Complaints Committee in line with the provisions of Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 of GOI to ensure the safety of women at the workplace and also to constitute Grievance Redressal Mechanism for redressing grievances, if any. Most of the State Missions and NRLPS have constituted these committees.

5.2.2 Institution Building

Deepening of NRLM Initiatives

During the financial year 2024-25, DAY-NRLM reached 745 districts, and 7,143 blocks. Under this, a cumulative 1,000.05 lakh households, 90.90 lakh SHGs, 5.09 lakh VOs and 32429 CLFs. The following initiatives were taken for strengthening SHGs and their primary & secondary federations promoted under DAY-NRLM:

- a. **Roll out of the Standard Operating Procedure (SOP) for primary and secondary level federations :** With support of SRLMs, institutional building resource pool and NIRD&PR, the Mission has prepared Standard Operating Procedures (SOPs) for primary and secondary level federations of Self Help Groups (SHGs). The SOPs provide a broad framework and clarity to federations and SRLM staff on Governance, structure, services, products to be offered, systems to be developed and followed and legal compliances to be fulfilled etc.
- b. **Model CLF Development :** The Model CLF component aims at developing CLFs as member-owned, member-managed, member-controlled and financially sustainable organizations and developing some select CLFs as demonstration sites for replication of the concept in the remaining blocks. The Model CLF strategy was taken up in 13 NRETP states in 2018-19 and it was expanded to 18 more SRLMs totaling the cumulative figures to 31 SRLMs in 2024-25. During the period April 24 – December 24, 2,207 MCLFs have been initiated with

a cumulative of 6,483 (including NRETP MCLFs) MCLFs across the country.

States were also facilitated for preparing financial projections required for submitting proposal for viability gap fund by CLFs. In the period of April, 2023–March 2024, Viability gap fund of Rs. 1946.1 lakhs was given to 404 MCLFs and cumulatively a total of Rs.12594.58 lakhs to 1474 MCLFs. Further, 1078.3 lakhs of Infrastructure Fund/Start Up Fund was given to 389 MCLFs and cumulatively 8285.41 lakhs have been given to a total of 3484 MCLFs. Community Managed Training Centers were set up in 290 MCLFs. Advisory on guidelines for disbursing Viability Gap Fund to the NRLM MCLFs, advisory on meeting processes of federations and guidance note to SRLMs for promotion & nurturing of CLFs were issued. Training of a batch of State Resource Persons on Financial Management training for CLF was conducted. Training of SRPs on grading on CLFs, VOs and SHGs were conducted for 31 States/ UTs. CLF AAP & BDP modules have been issued and shared with States. Virtual Orientation of a batch of NRPs has been done on the revised Pre-visioning module. In addition, during the current financial year, a dedicated pool of 128 Master SRPs from all States/UTs have been trained on key aspects of CBO Governance and Operations such as Governance & Leadership, CBO-HR, and CBO sub-committees. These Master SRPs are now facilitating the rollout of Training of Trainers (ToT) at the State level, with the objective of expanding the pool in a 1:3 ratio—one SRP for every three MCLFs.

Once trained, these SRPs will take the lead in conducting these trainings at the CLF level. This cascade model ensures localized capacity building, enabling CLFs to strengthen their

governance systems, enhance leadership capabilities, and effectively manage sub-committees. By equipping SRPs with advanced knowledge and tools, this initiative aims to create a sustainable support mechanism for MCLFs, fostering their operational excellence and long-term growth.

The visioning exercise has been initiated in 532 MCLFs by 31 SRLMs since April'24 and a total of 3177 MCLFs initiated visioning exercise cumulatively. MCLF Phase web application has been further developed making provision to capture data for all CLFs and rolled out in 31 States. 3697 MCLFs are registered. Further, 30 States have initiated internal audit, and 22 States have initiated statutory audit.

c. Deployment of Resource Persons :

- i. In order to strengthen the resource pool at NMMU level, NIRD-PR has made provision to empanel National Community Resource Person (NCRPs) to provide handholding support to SRLMs as per the guideline from MoRD.. States have been advised to empanel SRPs for various thematic. SRLMs have started the process of onboarding the SRPs.
- ii. The Mission has developed and deployed a wide range of social capital resources viz., master trainers, community resource persons (CRPs) of different functional themes, bookkeepers, master bookkeepers, internal PRPs etc. More than 4.50 lakh Community Resource Persons have been trained on multiple interventions.

d. Prioritizing Social Inclusion : Special

efforts have been made for mobilizing marginalized households, Particularly Vulnerable Tribal Groups (PVTGs), single women and women-heads of households, trafficked survivors, the disabled, the elderly, the landless, the migrant labour and people living in isolated and remote villages and left-out households as per the Socio Economic and Caste Census (SECC) 2011. To support the SRLMs, a detailed and easy to learn and practice Manual has been developed and shared. Specialized projects under innovation funds were undertaken by Jharkhand, Bihar, Chhattisgarh, Uttar Pradesh, Kerala. Based on the achievements of these special projects, learnings were incorporated in mainstream NRLM program to scale up the activities.

5.2.3 Capacity Building:

a. Development of Training Module on Vision Building, Financial Management for CLF :

The strengthening of CBOs is an important task. The components of Governance, Operation, HR, Finance are the important areas which are under focus for improving organizational development of these organizations. Accordingly, training module on Governance, Financial Management, Visioning, AAP and BDP for Model CLF has been prepared with support of partner organization and Training of Trainers for resource persons and staff from all SRLM are completed or under progress. Subsequently, States have conducted training for all district and block level staff involved in model CLF operations and training of CLF EC & Staff on Visioning, AAP, BDP is ongoing in all 31 States.

b. Capacity Building Architecture : The Mission has adopted four-tier capacity building architecture and created resource pools at national, state, district and block and sub-block levels. To provide technical support to SRLMs, a National Resource pool with about 360 resource persons have been empaneled by NIRD&PR, Hyderabad. This resource pool consists of all major thematic master trainers and specialists who provide need-based capacity building support to SRLMs. In addition to this, a separate cadre of resource pool is also being created at SMMU, DMMU and BMMU levels for supporting various emerging capacity building needs of the community institutions. Presently, about 53,000 Master Trainers are available with all SRLMs, who have been thoroughly trained on different components of NRLM and they are providing services on demand.

c. Establishment of Community Managed Training Centers : With aim to provide a safe and accessible space for training of the SHG members, DAY-NRLM has approved for setting up of 550 CMTCs by 2026 .Infrastructure Fund of Rs 8.5 lakh per CMTCs is being provided for arranging basic office equipment, kitchen setup and dormitory facility for 30- 60 participants. In 2024-25, 350 CMTCs will be established. Till December more than 200 CMTCs have been inaugurated and in operation.

6. Financial Inclusion – Progress

6.1 SHG Bank Linkage :

Financial inclusion is a key component of the Mission. The objective is to make rural women and their households the preferred clients of the

banking system. To achieve this, the Mission has been engaged with financial regulators and commercial banks, at strategic as well as operational level through conduct of several workshops, consultative forums, and capacity building programs. During the FY 2024-25 the Mission has organized one important meeting to increase SHG bank linkage program. The details are as follows:

National Conclave on Women led Entrepreneurship was held on 17th October, 2024 at New Delhi Convention Centre, New Delhi. More than 250 participants from Reserve Bank of India, NABARD, Public Sector Banks, Private Banks, Regional Rural Banks, State Co-operative Banks, State Rural Livelihood Missions, and various Ministries/departments participated in the conclave. The meeting was chaired by Sh. Shailesh Kumar Singh, Secretary, Ministry of Rural Development.

During the meeting, panel discussions was held on “Pathways from Financial Inclusion to Economic Prosperity- Vikshit Bharat@2047” in which panelists from Banks, IIM Kolkata, Fintech, SRLMs and IFMR participated to conceptualise a framework for creating and enabling ecosystem for nurturing women led enterprises in the rural areas. Deliberations on promoting and posting easy to access support system for women entrepreneurs.

Endeavor of the Mission is to provide credit linkage to more than 41.12 lakh women SHGs associated with Deendayal Antodaya Yojana, under SHG bank linkage programme during this FY 2024-25. Further, 42.53 lakh SHGs have been credit linked up to December, 2024 which is above 100% of the annual target. In terms of credit, Banks have disbursed more than Rs.

1,18,810 crores to Self Help Groups against their target of about Rs.1,43,110 crores up to the end of December, 2024. Rs. 9.85 lakhs crores have been accessed by SHGs from the banking system since inception of the scheme in April, 2013.

Other key interventions under Financial Inclusion during the year include-

a. Community Based Repayment Mechanism (CBRM) : The Mission and the SRLMs have been proactive in ensuring prompt repayment by the SHGs through the Community Based Repayment Mechanism. Over 49,318 Bank Sakhi have been positioned with bank branches to facilitate seamless credit linkage of SHGs and to monitor repayment. Community Based Repayment Mechanism (CBRM) has also been institutionalized in more than 62,941 bank branches. Bank Sakhi is part of the CBRM who acts as a link between the Banker and SHGs. She helps in completing documentation formalities for account opening, loan application and related documentation, in opening of individual accounts of members in the bank, in assisting SHGs in seeking other financial services from the bank and acts as a liaison between the SHGs and the bank and resolve all issues affecting the SHGs. Acknowledging the better repayment track record of Self-Help Groups, Banks are now forthcoming more than ever before, in credit linking SHGs in the rural areas. Regulators and policy makers too have recognized SHG Bank linkage as a critical plank for expanding meaningful financial inclusion to the unreached and under-served segments, prompting framing of enabling policies.

b. Alternate Credit Delivery Channels:

Government has given a thrust on digital financial transactions and moving towards an increasingly less cash economy. Government, regulators, and related institutions have been working together - licensing of payment banks; emergence of PPI providers; new technologies like compact POS machines, UPI, BHIM, Aadhar Pay, Bharat QR; changes in bank charges and limitation on withdrawal at ATMs all directed to creating an enabling environment. There is now an increased opportunity and use case for utilizing the digital infrastructure and move towards presence-less, paperless, and cashless financial service delivery. Riding on this, the Mission is focused on strengthening the last mile service delivery architecture to take banking to the doorsteps of people who are still excluded and introduce them to the new age banking tools.

Over 1,37,112 such BC Sakhi have been positioned across 27 states up to November, 2024. With the government's push on promoting of less-cash transactions, efforts on familiarizing and training SHG members on cashless modes of transaction has picked up. The Mission is in the process of having one women BC in every Gram Panchayat and will have a pool of about 1.50 lakhs women BCs by 2024-25 which will be trained and IIBF certified for utilizing their services.

c. Dual Authentication : SHG members need to go to bank branches for doing transactions and withdrawing cash, which takes a lot of their time, energy and a good amount of money is spent on commuting. To ease the process, the Mission has taken up the issue of Dual Authentications with the Banks

to allow SHGs to make transactions at BC level and all public sector Banks and 19 RRBs have enabled dual authentications at BC level and other banks are in the process of implementing this. National Payment Corporation of India (NPCI) is also in the process of the roll out process of OFF US dual authentication system enabling the SHGs to transact at any BC point

d. Online Submission of Loan Application:

In order to reduce the drudgery involved in submitting loan application by SHG members, a portal has been developed for online submission of loan applications and has been implemented in 23 states. Efforts are also being made to digitize the bank accounts and Aadhar number of all SHG members. More than 4.04 lakhs SHG loan applications have been submitted to different banks through this channel.

e. Disbursement of Interest Subvention:

Interest subvention on loans to SHGs is an effective mechanism to make credit available at affordable interest rate and ensure prompt repayment by SHG members. During the year, the interest subvention scheme has been extended to all the district in the country and also the amount of loan eligible for interest subvention has been extended up to Rs. 5 lakhs. Reserve Bank of India has issued new guidelines on Interest Subvention for the financial year 2024-25 for Public Sector Banks and Private Banks. NABARD has issued guidelines for Regional Rural Banks and Co-operative Banks.

6.2 Policy Interventions

Credit Target Planning : Before fixing the

targets, the Mission used to have a meeting at IBA, Mumbai with major banks and this meeting was held on 18th March 2024. The strategy to discuss the targets to the Banks and all States was discussed and issued based on certain parameters with implementation and monitoring guidelines. Targets were fixed based on potential available and trend rate of growth of credit as well as the density of the Banks. More focus was also laid on financing to individual SHG members for promoting Livelihood activities as per the guidelines issued by Reserve Bank of India. Based on the target, states prepared district, block, and branch wise targets, which were placed before the SLBC sub-committee for approval. Dedicated staff have been placed at district level, besides positioning bank Sakhi at branch level. The Bank Sakhi and the Mission staff have been preparing the list of eligible SHGs for linkage and facilitating submission of loan applications including review/enhancements and following up pending loan application by uploading them on the portal on a monthly basis. In addition, Community Based Recovery Mechanism (CBRM) has been instituted to ensure regular repayment of loans.

6.3 Interest Subvention Scheme:

- i. The scheme is limited to Women Self Help Groups under DAY-NRLM in rural areas only.
- ii. For loans up to ₹ 3 lakh under the scheme, banks will extend credit at a concessional interest rate of 7% per annum. For outstanding credit balance up to ₹ 3 lakh, banks will be subvented at a uniform rate of 4.5% per annum during FY 2023-24.
- iii. For loans above ₹ 3 lakh and up to ₹ 5 lakh

under the scheme, banks will extend credit at interest rate equivalent to their 1 year-MCLR or any other external benchmark-based lending rate or 10% per annum, whichever is lower. For outstanding credit balance above ₹ 3 lakh and up to ₹ 5 lakh, banks will be subvented at a uniform rate of 5% per annum during FY 2023-24.

- iv. Interest Subvention will be payable only for the period during which an account remains in standard category.
- v. Women SHGs promoted by other agencies and following the DAY-NRLM protocols will also be eligible for benefit of subvented loans subject to prior submission of the details of such SHGs on the DAY-NRLM SHG database.

6.4 Credit facilities to SHG members:

- i. In order to facilitate women SHG members to graduate to entrepreneurs, banks may consider extending loans up to ₹10 lakh to individual members of select matured well performing SHGs (SHGs which are more than 2 years old and have accessed at least one dose of bank loan with timely repayment) as per their lending policy. The individual should be running a viable economic enterprise. Banks are advised to share data on individual loans to women SHGs members in a mutually agreed format and periodicity with DAY-NRLM.
- ii. One woman in every SHG under DAY-NRLM may be provided a loan up to ₹ 1 lakh under the MUDRA Scheme, if she is otherwise eligible.
- iii. Banks are advised to provide minimum

OD facility of ₹5000 to every woman SHG member having PMJDY account in accordance with the guidelines issued by Indian Banks' Association (IBA). Banks may regularly share data on OD limit to women SHG members in a mutually agreed format and periodicity with DAY-NRLM.

6.5 Individual Women-led enterprises would be provided the following benefits

- 1) Reimbursement of Credit Guarantee fees to lending institutions

Reimbursement of actual credit guarantee fees incurred by banks/financial institutions for taking credit guarantee cover under Credit Guarantee Fund Trust for Micro and Small Enterprises (CGTMSE) or Credit Guarantee Fund for Micro Units (CGFMU) under NCGTC. Actual credit guarantee fees will be reimbursed to banks/ lending institutions for providing loans to individual women SHG members under DAY-NRLM for loans up to ₹ 5 Lakh for a maximum period of 5 years.

- 2) Interest Subvention on Prompt Repayment

Women entrepreneurs making prompt repayment of credit to financial institutions will be provided 2% interest subvention to incentivize good repayment behaviour. This will also make credit affordable to women borrowers and enhance the viability of the enterprises. Interest subvention will be provided to SHGs on loan outstanding up to ₹1.5 lakh per borrower. Interest subvention will be provided to individual women entrepreneur up to a maximum duration of 3 years.

The above benefits will be provided to an Individual only once

6.6 Capacity Building and Implementation Support

Training of bankers was carried through National Resource Persons from NIRD Hyderabad in Maharashtra, Chhattisgarh, Rajasthan, Haryana, Himachal Pradesh, UP and North Eastern States for the banking fraternity. 49,084 Bank Officials have been provided Orientation/training during the financial year 2023-24.

6.7 Financial Literacy

Banking and financial services is quite dynamic in nature and there have been major developments in the sector in the recent past with the launch of PMJDY, PMJJBY, PMSBY, APY, PMSGY, MUDRA etc. Almost all these financial products are targeted towards poor and hence SHGs' households should be made aware about these schemes on regular basis to facilitate them availing the services. Financial Literacy is one of the important strategies to keep SHGs' households aware about relevant financial services and build their capacity on same.

Mission has prepared well defined strategy and implementation plan to carry out financial literacy at scale. The process starts with training of master trainer at National Academy of RUDSETI (NAR), Bangalore followed by training of FL CRP at RSETI level and then field level training of SHGs at village level. More than 2.25 crores SHG members have been trained. A pool of 2058 master trainers and 42,035 FL CRPs has been created so far for imparting training on financial literacy.

6.8 Insurance & Pension

Poor households face more vulnerability and risks in the form of death, loss of assets, unstable income sources, health issues, accidents, other unforeseen incidents etc. and such incidents erode most of accumulated wealth and compel them to borrow at higher rate to fulfil those immediate need which lead to vicious cycle of poverty. Further, Old age Poverty is an increasing concern due to no/limited income sources during those years & negligible pension coverages. In the mentioned context, risk coverage of SHGs' households become crucial for meaningful poverty elimination under DAY-NRLM. The Mission aims to address the above-mentioned issues through facilitating access of appropriate insurance and pension schemes/products to SHG households.

More than 5.48 crore women SHG members have been insured under life insurance (Pradhan Mantri Jeevan Jyoti Bima Yojana) and 6.82 crore under accidental insurance (Pradhan Mantri Suraksha Bima Yojana) schemes and total of 95.00 lakhs members have subscribed to Atal Pension Yojana up to November, 2024 during this financial year.

6.9 Enterprise Financing

Many women are seasoned in the SHG ecosystem, and have also ventured into setting up small economic enterprises to augment their earnings. Though this is a very positive trend, many of these enterprises are in the very small category of yielding meagre income. There is a need to enable these enterprises to grow, for which credit is a critical element. There are still several bottlenecks in smooth access to credit for these individual enterprises.

Several Banks have formulated special schemes for financing individual women SHG member and SRLMs seek co-operation from the leading banks in the concerned to promote LakhpatiDidis. But it has been observed that our SHG members are not aware about various Govt. Sponsored Schemes under which they can be benefited. Most of the States have taken the initiative of providing training to the financial counsellors i.e. VittaSakhis and Mentors who will extend support to individual women SHG member in getting finance from the banks. Graduating SHG members from being in a group platform into the individual women entrepreneurship will be the natural progressing for the mission.

6.10 Innovation

Building Doorstep Banking Facility through BC: Business Correspondent model (BC) has evolved as a crucial vehicle for providing banking services beyond the brick-and-mortar bank branches. Known as BC Sakhi, 1,37,112 Business Correspondents are currently providing financial services not only to SHGs and their members but also to the rural households. These BC Sakhi deliver doorstep financial services using micro-ATMs/ laptops enabled with biometric identification of customers.

A performance comparison of B.C. Sakhi and conventional BC agents has indicated that B.C. Sakhi are better in terms of reducing dormancy in accounts, minimizing zero balance accounts, enhancing active accounts, and promoting savings. Integration of B C Sakhi into the system has the advantage of ensuring the long-term availability to serve the community. Their integration into the community also ensures their commitment and long-term availability to

serve the community sustainably. B C Sakhi, as members of SHGs themselves, serve the whole community but especially SHGs, their member and other women as well as those households who did not have access to financial services before. They are therefore able to overcome social and cultural barriers in the communities.

The Mission is in the process of having a pool of trained and IIBF certified 1.50 lakhs such B C Sakhi by 2024-25 with the concept of “One BC one GP” under which one B C Sakhi is proposed to be engaged in every Gram Panchayat to provide banking services in the rural areas. To make less cash economy and digitise the transactions of the SHGs, Ministry of Finance and Reserve Bank of India have issued guidelines to the Banks to make banking services available to SHGs at B C Points. For this purpose, dual authentication process to make transactions by the SHGs at B C point is being implemented and almost all the Public Sector Banks have enabled this dual authentication facility available at their BC points.

Bringing Banking services at your doorstep: Ms. Gitali Mudoï

The network of bank branches in the state of Assam is very unevenly distributed. This is more so in rural areas where banking services are yet to be availed by most of the population especially the rural poor women because of the lack of appropriate infrastructure, communication, and lack of awareness of the rural community. Rural community faces lots of challenges in availing the financial services through mainstream banking system on day-to-day basis. Majuli, the Island District in the state of Assam is the Largest River Island in the world having total population of around 2.10 lakhs and

have only 9 Bank Branches which is not at all sufficient to reach each and every individual for providing adequate banking services required for all-round development of the districts. All the Bank branches are crowded all the time and people from remote areas of the island have to struggle a lot to avail the basic banking services. Therefore, the initiative of Assam State Rural Livelihoods Mission (ASRLM) in engaging SHG members as Business Correspondent Agent of the banks have been proven very successful in providing doorstep banking services to the rural people of the state.

Mrs. GitaliMudoi hails from a very remote village named Bhakatiduar under UjaniMajuli Development Block of Majuli District. After completing her graduation from Majuli College, she got married at an early age of 23 and became mother of a girl child. Her husband was running a small kirana shop in the village and trying hard to run his family. Even before joining ASRLM Gitali was very optimistic with a determination to work for the society and herself and was always looking for the opportunities through which she can fulfil her dreams and support her family. When she came to know about the Self-Help Group (SHG) movement of Assam State Rural Livelihoods Mission (ASRLM), she

took the initiative to form the Lakhimi SHG in the year 2012. She has willingly taken the responsibility of secretary of the SampritiMahila Village Organization (VO). She carried forward the Village Organization's activities with great confidence and the information which she received through various trainings and exposures helped her a lot in her personal development.

In the year 2018 Gitali got information about the opportunity of becoming Business Correspondent Agent (BCA) of State Bank of India under the Digital Finance initiative of ASRLM and immediately she placed her candidature as she found it the best way for showcasing her ability and to serve the community providing the critical services at the doorstep. Eventually, after a selection process at the Block level and after subsequent trainings at state level she was selected as BC-Sakhi under State Bank of India. Since then, GitaliMudoi is vigorously working to mitigate many financial problems that are faced by rural people in her area. In order to run her Customer Service Point (CSP), she was provided interest free loan from the mission through her Village Organization (VO) to purchased Laptop, Printer, Bi-cycle, and some other necessary equipment. Moreover, she has also set up the Customer Service point at ChiramChapori taking loan from her VO.

GitaliMudoi is providing banking services to nearby 12 villages and is doing transactions amounting to Rs. 3-3.5 Crore during a Financial Year. She has opened savings accounts of around 330 person and enrolled 144 SHG members into Pradhan MantriJeevanJyotiBimaYojana (PMJJBY) and 254 members in Pradhan Mantri Suraksha BimaYojana (PMSBY) and 71 Atal Pension Yojana (APY). She has also

successfully completed dual authentication of SHGs and regularly providing services to 30 SHGs and 3 VOs in deposits and withdrawal attending the SHGs and VO meetings. During the COVID-19 pandemic, she was continuously providing services of deposit, withdrawal of old age pensions, widow pensions and MGNREGA wages and Pradhan Mantri Kisan Samman Nidhi

payments to the villagers visiting at their doorstep and at her CSP point also. Apart from the banking services, she has assisted the rural community in preparation of E-SHRAM card, PAN card etc. Most of the people of the village are getting benefits and they are happy at her doorstep Banking service during the COVID-19 pandemic also.

As a successful Business Correspondent Agent, Gitali Mudoi is earning average Rs. 10000-12,000/- in a month which has enabled her to live a self-dependent life and also contributing to the household income. In March 2022, Gitali Mudoi has purchased a two-wheeler from her own BC income. Moreover, she is paying all the

"I am really happy that I could associate with Assam State Rural Livelihood Mission and State Bank of India which helps me to provide service to the needy people of Sri Ram Gram Panchayat. During the Covid-19 pandemic also, I have provided doorstep Banking service to all the people of my locality which helped them a lot. I'm also getting a good income through this and able to help myself and my family. I am happy with my identity as a Business Correspondent Sakhi as I am getting the opportunity to provide Banking services to people like me."

Success story of Mrs. Sowjanya-DigipaySakhi of Mandya district, Karnataka

Mrs.Sowjanya, 23 years old comes from a heritage city of Karnataka who has an urge to serve the society and to become financially stable. Soon after she completed her graduation in BCA, she was married to a family of agricultural background in Aralakuppe village, Pandavapura Block of Mandya District. Her husband is a driver but agriculture is the main source of income of the family. Born and brought up in the Mysore city, Sowjanya was not much exposed to the rural life. Being a graduate, she did not want to spend her life just being a home maker like others. She wanted to nurture her dream of being self-employed, financially independent, and most importantly to serve the society. At this time, she was introduced to 'BannammaMahilaSwaSahaya Sangha' in the year 2021, which is under Sanjeevini - State Rural Livelihood Mission. Slowly, she took active participation in all the activities happening in the SHG, such as regular savings, meetings etc.,

There after DMMU officials selected her under "Mission One GP-One BC" scheme and offered to train her in digital finance through RSETI for 6 days and certified with IIBF to provide basic banking services to villagers, this is how doors to Financial Inclusion were opened and got opportunities to earn a decent livelihood. As part of training Biometric device was given free of cost and CSC e governance services to carry out Digipay services at the GP level. Apart from the services like SB account opening, fund transfers, balance checking, transactions of SHGs etc. she also collected loan applications, business like life insurances, cattle insurance made her popular in her area of operation. She

extended the banking services to the widows, daily wage workers, senior citizens, pensioners, dairy farmers, PMKISAN yojana beneficiaries and MGNREGA beneficiaries at their door steps.

Initially her journey as BC/DigipaySakhi was not easy. She was unable to identify the people and gather the information in extending banking services to the villagers. Due to lack of confidence and communication skills she was unable to work effectively. This program helped her in improving the soft skills and gaining confidence. By attending the various meeting in the village and with the support of MBKs and LCRPs she became familiar and gained trust of the people, which in turn made her capable to overcome challenges.

"Mission One GP-One BC" scheme was an ample opportunity for her to meet one step towards her goal of serving the rural society especially the aged group in the village. She became financially independent and also popular in her village through her services.

She acknowledges the constant support from SRLM and CSC through functional and technical knowledge. Today she earns an income of about **Rs.5000/- per month** as BC/ DigipaySakhi. She has been able to conduct **5423** transactions during 10 months of 2022-23 with the cumulative transaction amount of **Rs.1.20 crore**.

Today she is able to financially support her family and meet her own expenses. Her dream has come true by becoming popular and beloved to the aged in her village. The villagers look forward for her guidance and other CSC services.

Receiving the Best BC/Digipay Sakhi award by Hon'ble Minister for Skill Development Entrepreneurship and livelihood, Govt of Karnataka.

Receiving the Best BC/DigipaySakhi award District Level International Women's Day celebration, Mandya

6.11 Institutional partnership with RBI under DEA Fund

- i. RBI has approved the proposal of 14 SRLMs and released funds under the Deposit Education and Awareness Fund (DEAF) Scheme for Pilot Project. 14 SRLMs completed Pilot programme. 20 SRLMs are registered with RBI now.
- ii. 13 SRLMs submitted large scale proposal, amounting to Rs.135 Cr for 227 districts and 1004 blocks, covering 1632 CLFs. This support from RBI is of great help in strengthening financial service delivery channel and SAKSHAM Centers (One Stop solution for financial services)

A statement indicating SHGs bank linkage under DAY-NRLM during 2024-25 is given at Annexure VIII. A statement indicating disbursal of Interest Subvention is given at Annexure IX.

7 Farm Livelihoods

NRLM recognizes that the poor have multiple livelihoods and one of the key components as envisaged in the NRLM Framework is enhancing and expanding the existing livelihoods of the poor. More than 70% of the rural poor are

dependent on agriculture either as cultivators or as agriculture labour. Besides, livestock rearing is again a key livelihood of the poor. In forest fringe areas non timber forest produce (NTFP) is a major livelihood of the poor, who mostly belong to tribal communities. Under the ambit of farm livelihood interventions, the approach has been to create knowledge and awareness on livelihoods, initiate sectoral interventions on Agro-Ecological Practices, Non-Timber Forest Produces (NTFP), and livestock, aggregation, and value chain interventions. Therefore, the major focus has been on improving soil health, use of farmer-saved seeds with required treatment and priming using locally prepared concoction, in-situ soil and water conservation, and use of non-chemical methods for pest and disease protection, improved livestock rearing, sustainable harvesting of NTFPs.

The results have been phenomenal, with the adoption of sustainable agriculture, improved livestock management, sustainable NTFP collection, and harvesting practices; and more importantly, giving women the identity and status of “farmer”. An illustration of the interventions under farm livelihoods is given below.

Improved Livestock Management	Sustainable Agriculture	Sustainable NTFP collection and harvesting	Technology dissemination and drudgery reduction
Breed management	Improving soil health	Scientific production for improved productivity from tasar, lac, medicinal plant etc.	Technology demonstration and training through robust capacity building infrastructure comprising of NRP, SRP, and last mile delivery with CRPs
Provision of first aid care through locally trained community cadre	In-situ moisture conservation	Impetus for sustainable collection and harvesting	Use of Farmer's Field School for training of Mahila Kisans
Marketing of produce by interventions in the value chain	Use of non-chemical methods for pest and disease protection	Collectivization of NTFP for value addition and sale	Use of drudgery reducing equipment through hire facility provided by CHCs

The intervention strategy of DAY-NRLM is focused on strengthening these key farm livelihoods of the poor with the following objectives:

- Every poor household is supported on at least 2 farm sector livelihoods (sustainable agriculture, NTFP, livestock);
- Assured annual incremental income of more than Rs.50,000 per family per year after 2 years of intervention;
- Yearlong food and nutritional security for the household created by themselves;
- Income streams throughout the year;
- Creation of Social capital for agriculture, NTFP and livestock, from the best practitioners as extension workers;
- The approach has been the creation of knowledge and awareness on livelihoods, initiate sectoral interventions, aggregation and value chain interventions.

7.1 DAY-NRLM is promoting farm livelihoods through major components/sub-schemes viz.,

1. Mahila Kisan Sashaktikaran Pariyojana (MKSP),
2. Universalization of Farm Livelihoods interventions through SRLM Annual Action Plan; and
3. Value chain Development Interventions.
4. Integrated Farming Cluster (IFC)
5. Sub Sector Interventions

Mahila Kisan Sashaktikaran Pariyojana (MKSP)

The Mission has been strengthening livelihoods

by interventions in agro-ecological practices, improved livestock management and sustainable non-timber forest products (NTFP) collection and value addition. The value chain development interventions taken up under DAY-NRLM also cover ongoing MKSP projects.

Under the Mahila Kisan Sashaktikaran Pariyojana (MKSP), which is a sub-component of the DAY-NRLM has been integrated in SRLM-AAP, cumulatively around 4.30 Crore Mahila Kisans have been covered under agro-ecological practices, around 1.83 Crore Mahila Kisans have been covered under Livestock Intervention and 2.64 Crores Mahila Kisan having Agri Nutri Garden till December, 2024.

Universalization of Farm Livelihoods Interventions in Intensive Blocks through Annual Action Plan

Banana cultivation through (AEP) -BIHAR

DAY-NRLM is promoting sustainable agriculture, NTFP, and livestock as part of Annual Action Plans (AAPs). Under sustainable agriculture, the focus is on reducing the cost of cultivation, increasing the productivity

of existing crops, and food and nutrition security, apart from enhancing net income through various agroecological practices for a diversifiable crop model. Under NTFP, the SRLMs are focusing on building the capacity of the NTFP-dependent communities on imbibing scientific harvesting, post-harvesting practices, value addition, and market linkages. In respect of livestock, DAY-NRLM is focusing on reducing morbidity and mortality of livestock by delivering livestock and animal husbandry extension services at the doorstep of the SHG member households. It may be noted that farm livelihood interventions are household-centric, having a strong focus on building the capacity of the target community through the engagement of Community Resource Persons (CRPs), known as Krishi Sakhis, Pashu Sakhis, Van Sakhis Krishi Udyog Saki etc.

Annual Action Plan (AAP) for Financial Year 24-25 ,Around 70 lakhs Mahila kisan have been covered against the target of 75 lakhs on sustainable Agriculture , In livestock 42.25 lakhs Mahila Kisan households covered against the Target of 75 Lakhs and In agri-nutri garden 40.57 Lakhs household covered against target of 70 Lakhs under farm livelihoods interventions.

DAY-NRLM Support Organizations (NSOs) play an important role in bringing domain expertise. DAY-NRLM recognizes select organization of eminence in specific sector/area are recognized as NRLM Support Organization to provide technical support to NRLM. Organizations recognized as NSOs under DAY-NRLM are i) Central Silk Board (CSB) supporting in implementing Tasar-based livelihoods interventions, ii) PRADAN supporting in knowledge management, identifying successful applicable models, capacity building, iii) Tasar Development Foundation Tasar based livelihoods promotion, iv) NDDDB Dairy Services on promotion of milk Producer Companies and v) FDRVC on development and implementing farm value chain development and vi) Intellectap on strengthening producer enterprises.

PashuSakhi (A-HELP) Training in Jammu & Kashmir

Creation of a strong network of community cadres is another key area as part of farm livelihoods interventions. States are identifying livelihoods community cadres for sustainable agriculture, livestock and NTFP. Out of the total community cadres created by States, a total of 3.41 lakh Krish Sakhi, Pashu Sakhi, Ugyog Saki, Van Saki and Matsya Sakhis and other CRPs have been trained through standardize training module and they are deployed in the field.

Beejamrut Making by Krishi Sakhi (HP)

Promotion of Organic Farming Cluster

In the Union budget speech for financial year 2018-19, Hon'ble Finance Minister announced that organic farming would be promoted with the women farmers of the Self Help Groups (SHGs). DAY-NRLM has been strengthening livelihoods by interventions in agro-ecological practices, improved livestock rearing, and sustainable Non-timber forest produce (NTFP) collection and value addition. Organic farming is the next logical progression as it moves towards organic certification and marketing to enable farmers to get better market access.

To initiate organic farming and certification under DAY-NRLM, the States were requested

to identify the potential clusters which may be promoted as organic village clusters. A detailed guidance note was circulated to the States in January, 2018, to assist the States in identification of these clusters. States have identified 1,646 organic village clusters. Till Nov 2024, about 3.16 lakh women have been organized into 13,618 Registered Local Groups (LGs).

*Crop production through Organic Farming
Jharkhand*

Organic farming requires technical understanding and experience on organic farming, certification, and marketing of the organic products. Therefore, training and capacity building of the SRLM staff (block and cluster), community resource persons and the community is essential for effective roll-out of organic farming and certification. To support the roll-out of training and capacity building in the States, development of training materials is in progress. A total of 19 National resource persons have been empaneled through NIRD&PR Hyderabad for supporting the roll out of organic interventions. A call down list of TSA (Technical Support Agency) has been empaneled to support SRLM in implementation of organic farming initiatives. A TSA is also in the final stage of selection to support NMMU in promotion of organic farming.

Value Chain Development interventions

*Livestock -(Goat) Producer Group
in West Bengal*

Value chain development is an important farm livelihood intervention to support small and marginal rural producers to get better market access through aggregation, processing and marketing. The intervention covers promotion of the Producers Groups and Producers Enterprises. The Producers Groups are informal organizations to support the small & marginal producers at village level through aggregation and marketing in nearby markets whereas the producers' enterprises are formal organizations who support aggregation, processing, value addition and forward marketing. The institutional structure would be based on the opportunities and existing gaps in the value chain.

To facilitate States in implementation of the value chain development interventions through promotion of producers collectives various guidelines such as a) promotion of Producers' Enterprises (PEs), b) Financing of Producer Collectives under DAY-NRLM and c) Guidelines on value chain development through promotion of producer enterprise

under NRETP, d) Guidelines for release of fund to Producers Enterprises and e) Promotion of Producers Groups under DAY-NRLM have been developed and circulated to the States.

To provide technical support on value chain development under DAY-NRLM, NDDDB Dairy Services (NDS) and FDRVC (Foundation for Development of Rural Value Chain) have been recognized as NSO (NRLM Support Organisation). The NDDDB Dairy Services supports setting of larger sized women owned Producers Enterprise in the dairy sector whereas FDRVC supports for other Farm and Non-farm sectors. The Ministry in collaboration with the TATA Trust has set up the FDRVC (Foundation For Development of Rural Value chain) at national.

1270 women owned Producers Enterprise/ FPOs (including 794 FPOs under the central sector scheme and 476 Producers Enterprise under DAY-NRLM) have been promoted by the SRLMs till Dec 2024.

The Ministry, till date, has approved 44 value chain development projects for promotion of women owned Producers Enterprise to twelve states (Assam, Bihar, Chhattisgarh, Jharkhand, Madhya Pradesh, Maharashtra, Meghalaya, Mizoram, Odisha, Rajasthan and Uttar Pradesh) under the World Bank dedicated fund for livelihoods, Innovation Fund, MKSP and NRETP.

The present commodity portfolio ranges from dairy, NTFP, mango, ginger, hill-broom, vegetables, sesame seed, pulses and maize to floriculture. The key intervention is the formation of Producer Collectives (producer groups and producer enterprises), based on the principle of mutual assistance, to ensure better

economic returns to farmers for their farm produce through economies of scale, improved market reach, better access to funds, etc. Other intervention includes – primary & secondary processing of farm produce, direct market linkage, etc.

During the financial year, more focus has been given to income enhancement through sub-sector-based cluster intervention across the country. The strategy for the initiative includes a) Deepen, Enhance and Expand Sustainable Livelihoods options through Focused Planning, b) Adequate and Timely Support, c) Ensuring Intra and Inter-Departmental Convergence, d) Capacity Building of Mission Staff and Community Cadre. By following these strategies and adopting a graduation approach, the aim of universal coverage of livelihoods and sustainable income can be assured. To start with, the Mission has identified 100 blocks from 100 districts to demonstrate these strategies and further scale them within the State.

Lakhpati Members : DAY-NRLM under the Ministry of Rural Development has embarked on an ambitious plan for enabling SHG households to earn at least an income of Rupees One Lakh per annum on a sustainable basis. In order to achieve this a strategic approach has been adopted by the mission. The National Level Steering Committee under the chairmanship of the Secretary, Rural Development has been formed to enable this initiative to be taken forward. A detailed advisory was issued initially and thereafter it

is being monitored regularly. The states were provided with tentative targets. Further, the step-by-step guideline has also been circulated to the states to enable them to augment the process of enhancing income. The Mission has initiated to enlarge the spectrum of livelihoods by converging with various line ministries like DAHD, MoAFW, NAFED, and others.

Further Livelihood Prototypes for more than 35 interventions have been designed and shared with all States/ UTs. This included interventions like Cereals, Pulses, Oil seeds, Vegetables, fruits, Livestock- Goat, Poultry, Piggery etc. The mission as a resource district has identified 100 districts in coordination with the states, where these practices are being implemented in intensive mode and they will be replicated accordingly across the country. However, States are encouraged to initiate the spread with their capacities.

7.2 Capacity Building Architecture for Farm Livelihoods

Developing the capacity of the targeted MahilaKisan is one of the key areas under farm livelihoods interventions. Hence, a network of community resource persons (Krishi Saki, Pashu Saki, Van Saki etc.) are being created at village level. To build the capacity across the level from mission staff to CRP to MahilaKisan, a very

strong three-tier capacity-building initiative is being implemented. Under the initiative, at the national level, resource persons known as National Resource Persons (NRPs) have been empaneled by NIRDPR for supporting Farm Livelihood. At national level, 108 NRPs have been empaneled for supporting thematic areas of Sustainable Agriculture, Livestock, NTFP & organic farming village cluster.

Figure 5: Three tier Capacity Building Architecture for Sustainable Agriculture and Livestock

The extension mechanism has improved because the deployment of Community Resource Persons (CRPs), who have been extremely beneficial in promotion of low cost agro ecological practices, livestock rearing, and fisheries. In the context of DAY-NRLM, the National Resource Persons (NRPs) have been selected and are engaged on need basis to impart the knowledge and topics related to the farm livelihoods. The NRPs are expected to be the knowledge gatherer, content developers and trainers for the State Resource Persons (SRPs). The second layer of service delivery would be from the SRPs to the Community Resource Persons (CRPs). The CRPs are envisaged to be the last mile delivery mechanism for building the capacity of the community.

A pool of 124 NRPs with farm livelihoods focus (Sustainable Agriculture, Livestock, NTFP, Organic and Value Chain) is on board and render training to State Resource Person (SRP) and CRPs on different thematic areas.

Total 2511 SRPs has been trained, 1570 SRPs have been trained in Sustainable Agriculture and 941 SRPs been trained in Livestock in 21 States. These SRPs undergo eight days structured training programme with right mix of theory and practical sessions. First two days of the training in generic in nature and focuses on setting the livelihoods context, using tools like resource mapping, income-expenditure analysis, visioning exercise, HH SWOT analysis, reviewing MCP, etc. Then third day onwards, SRPs are trained in the respective thematic topics. The scope of this training is general in nature and focuses on Agro-ecological Practices in Agriculture and Prevention oriented Good Husbandry Practices in Livestock. Additional higher-level trainings are also conducted in areas like Rabi season crop planning, context specific package of practices, etc.

These SRPs have in turn trained 1,73,867 Agriculture CRPs (Krishi Saki) and 1,38,327 Livestock CRPs (Pashu Saki). Krishi-Sakhi

conduct Farmer Field School (FFS) and Pashu Sakhi conduct Pashu-Pathshala (PPS) to demonstrate good practice to MahilaKisans and follow-up their adoption. NRPs are deployed to monitor the CRP training program conducted by SRPs are provide necessary feedback to improve the pedagogy. Orientation and induction of SRLM staffs on farm livelihoods.

7.3 Namo Drone Didi Scheme:

The Government has approved 'Namo Drone Didi' as Central Sector Scheme for providing drones to the Women Self Help Groups (SHGs) with an outlay of Rs. 1261 Crores for the period from 2023-24 to 2025-26. The scheme aims to provide drones to 15000 selected Women SHGs. The major objectives of the scheme are:

- a. to promote advance technology in agriculture for improved efficiency, enhanced crop yield and reduced cost of operation
- b. to empower Women Self Help Groups (SHGs) and their Cluster Level Federations (CLFs) promoted under Deendayal Antyodaya Yojana - National Rural Livelihoods Mission (DAY-NRLM) as drone service providers, since they have emerged as an effective grassroots level institution for collective interventions
- c. to provide business opportunities to Women SHGs and their CLFs promoted under DAY – NRLM to increase their income
- d. to increase the opportunities for rural

employment and financial inclusion and

- e. to encourage use of Nano-fertilizers and to optimize the use of pesticides and fertilizers.

Out of the total 15,000 drones targeted to be supplied under the scheme, the first 500 drones have been procured by Lead Fertilizer Companies (LFCs) in 2023-24, using their internal resources and distributed to the selected SHGs, which include 30 drones supplied to SHGs of the State of Maharashtra. During the financial year 2024-25, it has been targeted to distribute drones to 3090 SHGs in the first phase out of which 325 SHGs are from the State of Maharashtra. One of the members of these women SHGs shall receive mandatory drone pilot training and additional training for agriculture purpose for nutrient and pesticide application. The other member/ family member of the SHGs with inclination to take up repairs of electrical goods, fitting and mechanical works selected by the State Level Committee shall be trained as drone assistant.

7.4 Partnerships

DAY-NRLM is building partnerships with various stakeholders for improving effectiveness of the implementation of the livelihood interventions. The partners are emerging as sector support organizations in diversified livelihood subsectors. These organizations are in a position to support the SRLMs in project formulation, providing implementation support and in training and capacity building of SRLM staff, CRP and community.

Partnerships for Farm livelihoods interventions under DAY-NRLM

Sector	Organization	Key Support areas
Livelihoods	Professional Assistance For Development Action (PRADAN)	Professional Assistance For Development Action (PRADAN) to support NRLM/SRLM on livelihoods promotion especially to study and preparation of best practices, Comprehensive Village Livelihoods Planning. Providing technical support to five SRLMs on farm livelihoods promotion (Bihar, Jharkhand, Odisha, Chhattisgarh, Madhya Pradesh). Supported NRLM for study and preparation of a compendium of best practices. Compendium of best practices for last two years have been published. Training of SMMU staff of five SRLMs (BR, JH, OD, CG, MP) on field study and preparation of best practices by staff themselves
Livelihoods	GIZ	The Indo-German bilateral initiative “Support to Agroecological Transformation Processes - SuATI” is being implemented jointly by GIZ India and the Ministry of Rural Development, Government of India. The SuATI project actively provides technical support to DeendayalAntyodayaYojana - National Rural Livelihoods Mission (DAY-NRLM), Ministry of Rural Development for promotion of agroecological transformation for livelihood enhancement of women Self Help Group members in rural India through the value chain, farming cluster and community engagement.
TASAR Value Chain Development	Central Silk Board	Central Silk Board have come up with the idea of undertaking multi-state ventures to reach out to a large number of rural households and create impact on a significant scale both in terms of livelihood creation at the family level and unleashing sectoral growth in Tasarseri-culture. 1. To create sustainable livelihoods for marginalized households, in various activities of Tasar sericulture and farm based interventions, 2. To expand the scope of livelihoods through Tasar sericulture during and post-project period. 3. To mobilize families in new clusters of the project districts for building their capacities for self-management and supporting families to build their livelihood vision.

Sector	Organization	Key Support areas
Dairy Value Chain Development	NDDB Dairy Services	NDDB Dairy Services(NDS) is associated with the Ministry of Rural Development to provide technical support in identification, proposal development and implementation of projects for the promotion of women milk Producer Companies across the country. NDDB Dairy Services is recognized as NRLM Support Organization.
Tasar Value Chain Development	Tasar Development Foundation	The Ministry of Rural Development has entered into an agreement with Tasar Development Foundation to provide technical support for the promotion of tasar based livelihoods for SHG members. Recognition of Tasar Development Foundation as NRLM Support Organization.
Value Chain Development	Foundation for Development of Rural Value Chain(FDRVC)	Foundation for Development of Rural Value Chain(FDRVC) works as DAY-NRLM Support Organization.They provide technical support to the Ministry and the States on farm and non-farm value chain development initiatives under DAY-NRLM. They provide support in identifying opportunities,prepare business plans for promotion of Producer Enterprises, provide implementation support to Producer Enterprises, facilitate capacity building activities and handholding support to Producer Enterprises and its members.
Livelihoods	Indian Council of Agricultural Research and Rapid Rural Community (ICAR)	Indian Council of Agricultural Research and Rapid Rural Community (ICAR) has joined hands with Ministry of Rural Development for Rural Economic Transformation (ICAR & RRCR) to provide support for implementation of Integrated Farming Cluster under NRETP.
	Buddha Institute (BI)	The two Partners have decided to come together to build a model of Development Entrepreneurs in 100 districts of 12 States of India and impacting five million poor families. DAY-NRLM may support Mudra loans to Development Entrepreneurs. Help in seeking convergence for skill development/capacity building of development Entrepreneurs.Enhance participation of experts and mentors from Industry. Buddha Institute will conduct in depth study, develop scope for development Entrepreneurs working with existing value-chains of different commodities. Select high chance of success value chain(farm ,

Sector	Organization	Key Support areas
		non-farm , livestock) among the existing programs supported by DAY-NRLM and build them further and their market led interventions. Promote programs at various levels within the States to create greater enthusiasm and interest among rural communities for their participation and organize various kick-off meetings and promotional events.
Livelihoods	Intellectap Advisory Services Pvt. Ltd.	Ministry of Rural Development and Intellectap Advisory Services Pvt. Ltd joined hands to work as a technical Support Agency to build business that can benefit the underserved segments across States. The Key area of collaboration will include. Building Skill and Knowledge : Data backed analysis to understand production ecosystems and market landscapes, design programs, build relevant partnerships and value-addition capabilities. Facilitate Access to Capital : Develop financial structures to facilitate suitable capital instruments such as debt, equity and grants, public and private financing for the enterprises, Create partnership to promote access to credit for farm and Non-Farm sector. Scaling up and Stabilization : Support Farm and Non-Farm enterprises on collectivization, Improved access to finance, better market linkage for value addition, promotion and adoption of suitable technology for productive, sustainable and resilient value chains.
Millet based interventions	Indian Institute of Millet Research (IIMR)	Indian Institute of Millet Research(IIMR) has joined hands with the Ministry of Rural Development for Promotion of Millet to improve the incomes of small and marginal farmers. Association is also intended for Promotion of Millet value chain activities, Capacity building of farmers, Board of directors of FPOs, leaders of SHGs and their federations and staff of DAY-NRLM and State Rural Livelihoods Missions (SRLMs), Incubation of Millet based enterprises at IIMR and to undertake Millet Value chain studies to identify appropriate value chain interventions to enhance the income levels of small and marginal farmers.

7.5 Convergence

To leverage more support Memorandum of Understanding have been signed with another line department. Followings are the details of the MoU signed with different Ministries/Organizations for farm livelihoods interventions.

- 1. Ministry of Animal Husbandry (DAHD):** Department of Rural Development has joined hands with Department of Animal Husbandry and Dairying (DAHD) for leveraging SHG platform for rural economic growth through Animal Husbandry and Dairying activities. DAHD is giving more employment and entrepreneurship opportunities to the Self Help Group members through different interventions and flagship programs like Animal Husbandry Infrastructure Development Fund (AHIDF), Dairy Infrastructure Development Fund (DIDF), National Animal Disease Control Program (NADCP). As per the agreement, it is decided to use the services of Pashu Saki as primary service provider through a new accredited model named as “A-HELP” (Accredited Agent for Health and Extension of Livestock Production). This model will be implemented across the country by using the existing cadre developed under DAY-NRLM for livestock (Pashu Saki) by providing further training and accreditation as A-HELP worker.
- 2. Ministry of Tribal Affairs (MoTA):** One of the important objectives of convergence with the Ministry of Tribal Affairs (MoTA) is substantial reduction in poverty and unemployment among tribal households through skill upgradation and other income

generating opportunities.

They have identified priority districts to lay special focus on Tribal development needs.

Activities taken under these programmes are Agriculture, Horticulture, Animal Husbandry, Fisheries, Dairy and allied activities in Primary Sector.

- 3. Ministry of Agriculture and Farmer's Welfare (MoA&FW) :** Ministries of Agriculture & Farmers Welfare and Ministry of Rural Development, Government of India has joined the hands on 09-June-2018 and have made concerted efforts at the central level for convergence in their activities and programmes for the welfare of Self Help Group members. Self Help Groups, producer groups, Krishi Sakhis will play a major role by getting involved in implementation of programmes of Ministry of Agriculture.
- 4. National Highway Authority of India (NHAI):** Ministry of Rural Development has joined hands with National Highway Authority of India for the promotion of plantations on its lands. NHAI and DAY-NRLM work together for Plantations along the National Highways to SHG members. SHGs and their federations can take up plantation works along the National Highways.
- 5. Department of Fisheries :** Ministry of Rural Development joined hands with the Ministry of Fisheries for providing support in fisheries activities to Self Help Groups Members through its Pradhan Mantri Matsya Sampad Yojna (PMMSY). The convergence is aimed at enhancement of production and productivity, Infrastructure,

strengthening of safety and Security of Fishermen or women and providing extension and support system in the Fishery sector.

Joint Communication details the Plan of activities to be taken up by both departments to achieve the overall Convergence activity has been shared with States for the implementation of ground.

6. **National Center for Organic and Natural Farming (NCONF) :** National Center for Organic and Natural Farming (NCONF) is associated with the Ministry of Rural Development for Promotion of Participatory Guarantee System (PGS) for Organic Certification and Natural Farming Certification. The objectives of the association include Capacity building of farmers, Krishi Sakhis, Board of directors of FPOs, leaders of SHGs and their federations and staff of NRLM and State Rural Livelihoods Missions (SRLMs). Promotion of on farm bio input production for promotion of organic & natural farming. Support NRLM and SRLMs in identifying appropriate agencies for hiring them as technical support agencies. Development of capacity building materials for promotion of organic farming / Natural Farming / Agro ecological practices. Capacity building, Assessment and accreditation of Community Resource Persons (Krishi Sakhis).

8. **Start-up Village Entrepreneurship Programme**

Start-up Village Entrepreneurship Programme (SVEP), a sub-scheme under the Deendayal Antyodaya Yojana - National Rural

Livelihoods Mission (DAY-NRLM) programme supports the Self-Help Group (SHG) and their family members to set-up small enterprises in the non-farm sector.

SVEP develops an eco-system for enterprise development in rural areas which includes – (a) Community Enterprise Fund (CEF), a dedicated fund for providing loans to entrepreneurs (b) Cadre of Community Resource Persons-Enterprise Promotion (CRP-EP) for providing Business Support Services (C) The services include identifying business ideas, preparation of business plans, providing trainings, accessing loans from banks, maintenance of accounts, marketing etc. (D) Dedicated center for providing information to entrepreneurs called Block Resource Centre (BRC) and (E) Trained human resources consisting of Block Programme Manager (BPM), Mentor and CRP-EP.

Block is the unit of implementation. In case of smaller blocks, more than one block can be combined into a single SVEP block. The scheme was announced by Government on 10th July, 2014. The Standing Finance Committee (SFC) approved the scheme on 3rd Feb 2015 and the scheme guidelines were approved on 15th June 2015.

SVEP is a demand-based programme. There is no State wise allocation of projects. States have to submit proposals through supplementary Annual Action Plans (AAP). Once approved, a Detailed Project Reports (DPR) has to be prepared for the block. The funds allocation for each block depends on the number of enterprises to be supported as per the DPR. The project duration is for a period of four years from the DPR approval.

The maximum project cost for one block is Rs 6.50 Crore inclusive of Govt of India and State share. Govt of India's share is 90% for North Eastern Region (NER) and hill states while it is 60% for the remaining States. A maximum of 2,400 enterprises can be supported in one block with the approved funds. Both existing enterprises and new enterprises are supported; the existing enterprises to be supported is limited to 25% of total enterprises to be supported in the block.

As on Dec, 2024, the proposal of 429 SVEP Blocks are approved in 31 States/UT and Detailed Project Reports of 281 blocks are approved. Till Dec, 2024, a total of 3.13 lakhs enterprises are supported across 29 States/UT.

No. of SVEP Block

No States/UT	No. of SVEP Blocks approved	No of Blocks with DPR approved
1 Andhra Pradesh	14	8
2 Arunachal Pradesh	1	1
3 Assam	24	24
4 Bihar	32	22
5 Chhattisgarh	25	9
6 Goa	1	1
7 Gujarat	7	3
8 Haryana	6	6
9 Himachal Pradesh	9	1
10 Jammu & Kashmir (UT)	20	8
11 Jharkhand	35	24
12 Karnataka	20	8
13 Kerala	43	33
14 Madhya Pradesh	21	14
15 Maharashtra	14	8

29 West Bengal	31	23
30 Puducherry	1	0
31 A&N Island	1	0
Total	429	280

8.1 One stop facility centre (OSF)

OSF is envisaged as a business facilitation-cum-incubation centres at the sub-district level to provide business development services to existing nano-enterprises on a growth track. It will also support a few new enterprises that have the potential to grow. Each OSF will support a minimum of two and maximum of four blocks. One district may support a maximum of two OSFs. The technical support provided by the OSF may include, but not limited to the following:

The non-negotiable support that has to be provided is:

- Business ideation for new enterprises and conceptualization for growth for existing enterprises
- Handholding support to initiate and grow businesses
- Business plan preparation
- Facilitating setting-up, running and growing an enterprise
- Entrepreneur training
- Market and business linkages
- Mentoring
- Facilitation support to access finance from formal institutions like banks

The following support shall be provided to the enterprises on need basis and as the capacity of the State Rural Livelihood Mission (SRLM) in managing the OSF is built up.

- Access to technology and skills
- Regulatory compliances

- Market intelligence
- Linkages with schemes of other Ministries and Departments
- Other inputs like packaging

Target Group

The OSF will support enterprises existing for a minimum period of 12 months under the project. Enterprises existing for a period of less than 12 months may be considered only when they achieve the required age. A maximum of 10% of new enterprises may be supported by the OSF.

OSF NRETP is being implemented in 616 blocks of 16 NRETP States. Progress till November, 2024 is mentioned below:

Progress of OSF

State	Total enterprises supported
Assam	10787
Bihar	6,145
Chhattisgarh	3485
Gujarat	2209
Jharkhand	7569
Karnataka	2072
Madhya Pradesh	3532
Maharashtra	12708
Odisha	5894
Rajasthan	10934
Tamil Nadu	6941
Uttar Pradesh	300
West Bengal	4,736
TOTAL	77,312

Enterprises under OSF

8.2 Clusters

The cluster development approach aims to combine efforts, leveraging synergies and pooling resources to increase competitive advantages while sharing market risks. The cluster of micro enterprises is defined as a geographic concentration of enterprises making the same or similar range of products (goods/ services) and that are spread across a village or several villages in a block or a district, producing a similar range of goods / services and facing similar opportunities and challenges. It focuses on artisans and other rural businesses that can gain a competitive edge through a value chain approach, including the establishment of Producer Enterprises.

The Clusters component under DAY-NRLM aims to support Artisan and Sectoral clusters through a value chain approach.

Progress in Clusters

No		State	District	TSA	Type	EC date for approval	No. of beneficiaries
1	NRETP	Uttar Pradesh	Budaun	FDRVC	Zari Zardosi	21-Jan-21	528
2	NRETP	Uttar Pradesh	Lakhimpur	FDRVC	Tharu	7-Oct-22	325
3	NRETP	Uttar Pradesh	Across districts	Kudumbashree	Food sector	4-Jan-22	845
4	NRETP	Chattisgarh	Dhamtari	FDRVC	Handloom	31-Mar-21	500

8.3 Incubators

Rural businesses in the manufacturing and services sectors, led by Self-Help Group (SHG) women, which have achieved higher turnovers, often required advanced technical services and mentoring to further expand their operations. As part of the Non-farm livelihood initiative, a distinct program called ‘Supporting Growth-Oriented Micro Enterprises through Incubators’ is implemented in four states: Assam, Bihar, West Bengal, in collaboration with IIMCIP, and Karnataka, in partnership with IIMB NSRCEL.

The objective of the initiative is to scale up at least 150 existing women owned/ women-led growth-oriented enterprises in a State/UT and create models for replicability. The high intensity and specialized mentoring support, strategic business development support, securing financial linkages, developing market linkages etc are to be provided by leveraging existing Incubators working under various schemes of the Government. The enterprises supported will be in manufacturing and service sectors, which are hamstrung by various facets of market failure and information asymmetry. The total duration of the incubation component is for three years.

9. Social Inclusion and Social Development

Inclusion of vulnerable communities and families is a priority under DAY-NRLM. Special efforts have been made for mobilizing marginalized households, Particularly Vulnerable Tribal Groups (PVTGs), single women and women-heads of households, trafficked survivors, the disabled, the elderly, the landless, the migrant labour and people living in isolated and remote villages and left-out households as per the Socio Economic and Caste Census (SECC) 2011. The states are encouraged to develop contextual Social Inclusion Operational Strategies for different vulnerable groups. Through participatory exercises like Vulnerability Mapping and Participatory Identification of Poor (PIP) a database is prepared at the VO level which is consolidated at various levels for follow-up. Vulnerability Reduction Planning is conducted to develop family as well as community level plans to address their vulnerabilities through VRF or convergence.

Eventually, these families are linked with all the provisions of DAY-NRLM and other entitlements as per their eligibilities through collective actions.

To support the SRLMs, a detailed and easy to learn and practice Manual has been developed and shared. Special projects are being implemented by Jharkhand, Bihar, Chhattisgarh, Uttar Pradesh and Kerala SRLM under the innovation fund of DAY-NRLM. About 25,156 SRLM staff are oriented on the concept of Social Inclusion in the entire country. So far, 2,70,065 Elderly groups, 49,132 PVTG SHGs and 175915 PwD SHGs are formed under DAY-NRLM. SI activities are being carried out in 23937 CLFs

of 5358 Blocks of 598 Districts of all the states the country. There are 296 Transgender group in 18 states. Vulnerability Reduction Planning is conducted in more than 2 lakh Village Organizations (VOs) and 93840 VOs have been supported with VRF of Rs. 1127.18 Crores

9.1 Gender mainstreaming in DAY-NRLM

The Gender Programme within the DAY NRLM has been operating with the mandate of mainstreaming gender into the program since 2016. Under this mandate the two-pronged strategy has been 1.) To integrate Gender into the programmes and operations of all verticals. 2) 1.) To strengthen institutional mechanisms in the community to respond to practical and strategic gender needs

The Programme builds capacity of SRLMs to integrate Gender in its operations and create an architecture of support at the community level for women's collectives to identify and take action on gender discriminatory practices. The program places women's institution at the centre of social economic and political empowerment and builds an ecosystem by 1) Building critical consciousness on issues of Gender 2) Strengthening gender responsive institutions and platforms 2) Collective agency 3) Linkages and convergence and 4) Women's leadership. The programme also advances advocacy by conducting National Level Gender Campaign across all states and multistakeholder dialogue through online Gender Samvaad.

As part of the institution building process at the community level, DAY NRLM has been building the critical consciousness of the women's groups, and establishing an architecture of support

through its platforms at the village, panchayat and block. The institutional mechanism is a well-planned gender architecture which has been put in place at the community level comprising of platforms like Gender Forums and Social Action Committees (SAC), village organization (VO), and cluster level federation (CLF). These bodies primarily function on the premise of uplifting women's condition and position in society by identifying, acknowledging, and addressing issues of discrimination. These bodies capitalize on the strength of the collective to ensure, rights and entitlements, safety and security, and normative shifts in society to promote the cause of the marginalized. They strategize to create awareness of women's rights perspective and address issues through organic linkages with public institutions and advocacy. Series of training and perspective-building inputs are made in these platforms which are supported by Gender Point Person (GPP) and Gender CRPs. These trained point persons raise and anchor discussions at the SHG and VO level and escalate to the CLF or Gender Resource Centre (GRC) if not resolved at the point of origin. The GRC thus becomes a crucial body to take action and support the cause of the women by bridging the gap between the service providers and the women.

DAY- NRLM has trained more than 41,000 staff who are leading the gender intervention on ground across all states. The intervention is carried out intensively in more than 679 districts and 4073 Blocks. A community cadre of more than 85,224 community resource persons is functioning as gender champions at the local level. 20,075 CLF and 1,62,943 VO social action committee have been trained to address gender

issues.

36530 Panchayat level Gender Forums and 1738 Block Level Gender forums are actively working on addressing gender issues through convergence with Line departments and frontline workers. A total of 3599 Gender Resource Centers are facilitating linkages and referrals with line departments and Panchayat and Block level to facilitate resolution of cases of Gender Based Violence and access to rights and entitlements.

On 25th November, DAY-NRLM launched third chapter of the NayiChetna Campaign which in two years have reached out to more than 5.5 cr people across the country around the cause of gender equality and women's empowerment focusing on gender-based violence. The campaign adopted a 'Jan Andolan' or people's movement approach, involving state governments, line ministries, grassroots organisations and communities groups. More than 9 lakh activities were reported across the country in the last 2 years and in its 3rd year 9 Line Ministries signed the joint advisory for NayiChetna 3.0.

Garima: Project at a glance

Goal : To make Jharkhand free from Witch Hunting and branding practices. The project period is for 3 years

- The Project Area: 2,068 revenue villages, 342 GPs 25 blocks, 7 districts
- Total estimated survivors to be benefitted: 5,000
- Total Project Cost estimated: Rs. 15 Crore

Output

- 2471 survivors of witch hunting and branding practices are identified and registered in the MIS
- In 1882 Vos protection committee is formed and trained
- 1907 VOs are covered under Campaign against Witch Hunting and Branding
- 2068 VO SAC are oriented and have built their vision to address the issue of Witch Hunting and Branding,
- 3023 Survivors of Witch Hunting are given Psychological Counselling
- 1165 Survivors are linked with VRF for their immediate support
- 2471 survivors have been linked with at least one entitlement
- 22 Blocks have organised at least one block level hearing out of 25 target blocks
- 2233 survivors having individual vulnerable plan and livelihood plan

GRC in Kerala

Progress of Gender Projects under Innovation Fund of DAY-NRLM

Model Gender Resource Centers

Objectives of the project: Developing 140 model gender resource centers across the state as a holistic center for support and care for women and children

Coverage – 14 districts, 140 LSGIs

Districts – 14

Panchayats - 140

No. of GRCs – 140

Objectives

- Enhancing the participation of women in governance process
- Engender Panchayaths by bringing women in local economic development and governance
- To act as a catalyst for making community safe for women through social legal and economic empowerment
- Prevention of violence against women & children and community participation or convergent actions.
- To impart skill for specific trades and to provide forward and backward linkages enabling women to be a part of productive work force
- Developing a system that is facilitating Women Component Plan of Grama Panchayat
- Identifying the vulnerabilities existing in the community and address them through convergent actions of GPs

Progress

- 140 GRCS set up
- 1400 Resource person trained
- Situational Analysis in 140 GPs

9.2 Food, Nutrition, Health, Sanitation and WASH (FNHW) interventions:

DAY-NRLM's adoption of the "Dashasutra

Strategy” for holistic development of rural poor women and enhancing quality of life includes a focus on Food, Nutrition, Health and WASH aspects of the Self-Help Groups (SHG) members. Awareness generation and Behaviour change initiatives for adoption of recommended practices for better health outcomes and creation of demand for services is being promoted. This is done through integration of this agenda in the meetings of SHGs and their federations.

Topics discussed in these meetings include:

- ▶ 1000 Days window
- ▶ Diet Diversity
- ▶ Reducing Anaemia
- ▶ Menstrual Hygiene
- ▶ Diarrhoea
- ▶ Non- communicable
- ▶ Health & Nutrition care of elderly & differently abled
- ▶ WASH – Promoting toilet use, handwashing, waste management

The FNHW programme rollout hinges on 4 pillars: System Strengthening, Social Behavior Change Communication, Convergence, and Promotion of FNHW Enterprises. All 34 states and Union Territories have developed State Operational Strategies for FNHW. Since 2023-24, the focus is on universalising across all DAY-NRLM blocks. Selected intensive blocks are also to being developed as immersion sites.

Progress during the year 2024-25

- FNHW activities have been initiated in 682 districts 5468 blocks across the country.

- Baseline studies are being planned for immersion sites as well to measure impact of interventions.
- **A National Consultation on Advancing Nutrition Security:** Promoting Sustainable Agri-Nutrition Gardens and Livestock Practices through Community Based Organizations was organised on 27th July, 2023 to understand stakeholder perspectives.
- Training of Trainers was completed for State, District and block staff to roll out FNHW
- A partner’s meeting was organised at the National Level to share learnings derived from DAY-NRLM’ work towards enhancing awareness in rural communities on FNHW, promoting adoption of healthy behaviours and improving access to entitlements and services. The meeting was a first in a series of consultations to draft a roadmap for establishing a fruitful strategy document, to impact collaborations with partners to support ongoing interventions and to ideate for innovations and research.
- **Regional Consultations with SRLMs:** Two regional consultations were held in January 2024 to gather insights from all State Rural Livelihood Missions (SRLMs) on their experiences and expectations regarding FNHW programs. These consultations facilitated the exchange of best practices and enabled in-depth discussions on FNHW. The community representatives also participated to showcase initiatives being taken by them and share their experience through an exhibition. Regional political leadership, policy makers, SRLM

leaderships, line departments, agencies, academia participated in the workshops. The events were widely covered in mass and social media.

- **Interministerial Convergence Meetings:** Discussions with line departments, including Ministry of Health & Family Welfare (MoHFW), Ministry of Women & Child Development (MoWCD), Ministry of Panchyati Raj (MoPR), Ministry of Tribal Affairs (MoTA), and Department of Drinking Water & Sanitation (D/oDWS), were held in February 2024 to expand the collaboration, need for institutional convergence and explore livelihoods opportunities for SHGs.
- **Expert Consultation:** A consultation with experts on FNHW programs in March 2024 provided valuable input and guidance, contributing to a deeper understanding of the challenges and opportunities in implementing FNHW initiatives.
- **National Consultation:** A National conclave was organized on August, 2024 with various stakeholders including NITI Aayog, Line Ministries, Development agencies, State rural Livelihoods Missions, Community members etc to showcase the SHG led initiatives on FNHW and emphasize on the need for effective convergence and partnerships.
- A key convergence activity is SHG participation in Jan Andolan activities under the Ministry of Women and Child Development-led PoshanAbhiyaan. 13 lakh activities organised for PoshanPakhwada,

2024 and 26 lakh activities were conducted in PoshanMaah 2024.

10. MIS-Monitoring & Evaluation and KMC

DAY-NRLM's process-intensive work mechanism requires constant review, assessment and learnings from the qualitative and quantitative progress achieved, for which a robust Monitoring, Evaluation and Learning (MEL) system has been instituted in the program.

The objective of the Mission's Monitoring, Evaluation and Learning (MEL) system is to reinforce the culture of result-based management and provide the basis for evidence-based decision-making processes, of both strategic and operational nature, at all levels including community institutions. The MEL system is expected to play the role of a social observatory providing continuous feedback to the project management and other stakeholders on the progress and quality of implementation of Mission activities and facilitating strategic and operational decisions, mid-course corrections and adaptations. More importantly, the system is required to provide evidence-based information for assessing/evaluating the intermediate results, outcomes and impact of the Mission vis-à-vis its core objectives.

The comprehensive MEL system of NRLM is constituted of the following components-

(i) NRLM-MIS and LokOS

The NRLM program relies on two pivotal systems for data management: NRLM-MIS (Management Information System) and LokOS. While NRLM-MIS serves as a centralized

platform for data entry at the block level, LokOS takes center stage as a transformative online MIS application.

Various modules are available in the NRLM-MIS, some of the key modules are-

- SHG Module
- Federation Module
- Fund Disbursement Module
- Community Cadre Profile Module
- Non-Farm LH Module etc.
- Geographic/ LGD-mapping Module
- Aajeevika/SARAS Mela Module
- SAKSHAM Module
- HelpDesk Module
- Data sharing API Module: Daily basis or monthly basis data sharing with states or various ministries and division like DBT, CM Dashboard, NREGA, PRAYAS portal etc.
- Monthly Progress Report Module: A monthly progress report module is currently being used to capture progress of the Mission on different parameters at monthly intervals. Information from the community institutions is collected and uploaded at the block level, using this module on a monthly basis. Information collected through this module as well as others are used to generate a series of reports that can be accessed from the Mission portal (nrlm.gov.in).

LokOS Annual Achievement Report

The National Rural Livelihoods Mission (NRLM) has made significant strides in its digital transformation initiatives in FY 2024-25. Key achievements include the nationwide rollout of the Profile Module, achieving over 10 crore social mobilizations, and piloting the Transactions Module across 34 states. Centralized user management with Keycloak, integration of Aadhar Verification with Digilocker API, and automated data sharing between LokOS and NRLM MIS has further enhanced system efficiency. Additionally, various LokOS use cases and applications for other key NRLM initiatives such as Lakhpati didi have also been rolled out successfully. Integration of all NRLM applications in LokOS is under progress to ensure the objective of LokOS as the 'Single Source of Truth'.

1. Profile Module – Rolled out nationally with live entries in progress. Total social mobilization has reached 10 cr+.
2. Transactions Module – Pilot is successfully completed in one block in each of the 34 states and Model CLFs with live entries being done from the field. The Transaction Module is rolled out nationally after completion of pilot.
3. Centralized Code Repository - Established a centralized code repository, efficient version control, enabling collaboration and tracking changes seamlessly. Release management now becomes more structured, ensuring stable software releases with the Continuous Integration and Continuous Development enhances automation, streamlining testing and deployment processes

4. User Experience improvement - Enhanced UI/UX development for the Profile & Transaction modules, along with the design and development of the new LokOS website
 5. New Cloud and Solution Architecture - Create the blueprint for the new cloud and solution architecture, consolidating 36 state databases and applications into a unified system, integrating multiple security features. Design the system to seamlessly scale for nationwide implementation
 6. Centralized User Management – Designing and Implementing Keycloak for centralized user management for NRLM’s software ecosystem. It will ensure consistent authentication and authorization across applications, fostering a seamless user experience with single sign-on capabilities
 7. Following LokOS Use cases rolled out to production – Gender, LMS, Bank Loan, Bank linkage VPRP, Model CLF, Training Management, Cadre Management
 8. Lakhpatididi and Digital Aajeevika Register - Pilot successfully completed and applications rolled out on the field. End-to-end delivery of website and dashboard and all applications fully integrated with LokOS. Rolled out nationally with live entries in progress. Over 3 crore potential lakhpatididi identified by the States and their digital aajeevika register is done for more than 2 crore.
 9. Integration of Aadhar Verification Service with the Digilocker API – This has substantially reduced the aadhar verification failures as aadhar verification happens in real time now. NPCI API using for bank account validation Realtime.
 10. Auto sync of SHG and member data in mobile app has expedited the mobilization of SHG members and CBOs.
 11. NRLM MIS Transition - Knowledge Transition for NRLM MIS applications and modules completed for takeover.
 12. Data sharing between LokOS and NRLM MIS – Data sharing mechanism for SHG members, SHG, VO and CLF automated.
 13. Financial Applications/Modules - Knowledge Transition Completed and handover in progress for the following financial modules and applications – Funds Disbursement Module, eFMAS Funds Planning Tool, Bank Linkage.
- (ii) Evaluation/ Assessment Studies :**
- i. *Third Party Appraisal of Kudumbashree activities***

Kudumbashree activities are spread across 3 major domains which are economic empowerment, social empowerment, and women empowerment. The appraisal is expected to shed light on the contribution of Kudumbashree in the empowerment and upliftment of rural women in Kerala. The study has been completed and report is submitted.
 - ii. *Study on effectiveness of BC Sakhi deployment***

The implementation of BC Sakhi model in DAY-NRLM has now gained wider acceptability among Banks and regulators. Department of Financial Services (DFS),

Ministry of Finance has advised all Banks to deploy women SHG members as Business Correspondents in the allotted sub service area and in other areas as per their requirements. As the model is being implemented in almost all the States/ UTs in India for more than 4 years, there was a need to understand the effectiveness and outcomes of the model from various angles. The study conducted to assess the effectiveness of BC Sakhi deployment. The study was successfully conducted and report has been submitted by the research agency

iii. Analysis of Enterprises supported with Seed Capital under PMFME

Prime Minister Formalisation of Micro food processing Enterprises (PM FME) Scheme of the Ministry of Food Processing and Industries (MoFPI) was launched in July 2020. PM FME is being implemented jointly by MoFPI and MoRD through respective State Rural Livelihood Missions (SRLMs) for its Seed

iv. Capital Component. An amount upto the extent of Rs.40,000/- is being provided by MoFPI to the Self Help Groups (SHGs)/ SHG members who are doing food processing activities.

As on December 11, 2024, 2,52,542 SHG entrepreneurs have been supported with seed capital of Rs. 835.44 crore. In addition, A total of 29241 proposals has been developed for credit linked support through banks out of which 6945 has been sanctioned for Rs. 185.843 cr

v. Dipstick study on the sustenance of KrishiSakhi

The study has been conducted to understand the economic benefit being accrued to the KrishiSakhi for sustaining their activity. The study was conducted using National Resource Persons (NROs). The report has been submitted by NROs.

vi. Follow up Study on NRLM and NTETP

In 2018-19, MoRD engaged a consultant firm to collect data for Conducting a Multi-State Impact Evaluation Survey of DeendayalAntyodayaYojana – National Rural Livelihoods Mission (DAY-NRLM). The survey covered 9 states, 49 districts and 116 blocks where NRLP/NRLM was being implemented. It has been agreed that for the impact evaluation of NRETP, a fresh data collection to be carried out that will follow-up on households surveyed in the 2018-19 round.

An independent impact evaluation study of NRLM in nine states viz., Bihar, Jharkhand, Odisha, Madhya Pradesh, Maharashtra, Chhattisgarh, Rajasthan, Uttar Pradesh and West Bengal. The objective of the study is to evaluate the impact of NRLM by tracking changes in the socio-economic indicators of rural households in the villages targeted under the Mission. These indicators include assets, income, consumption, savings, access to loans, terms and conditions of loans, access to work/ employment (self or wage-based) opportunities, food security, health status and nutrition, access to entitlements and public services, quality of life and

women's empowerment.

vii. Study on MahilaKisans

MahilaKisans are expected to adopt sustainable practices and continue operating independently of the DAY-NRLM infrastructure. They would continue to use scientific practices, receive extension assistance from CRPs, utilize the services of the tool bank/and CHC, and stay active members of producer organizations. As the program is supporting MahilaKisans from the beginning (2011) in different interventions such as AEP, livestock, NTFP, it is very important to understand the status of MahilaKisans in adopting and maintaining the sustainable practices for their livelihood's enhancements. Numerous factors influence MahilaKisan's decision to maintain or discontinue the measures prescribed under the DAY-NRLM. In order to understand the determinant factors that are responsible for influencing the decisions of MahilaKisans to continue the sustainable practices, there is an urgent need of undertaking a research study to understand the status of MahilaKisans in enhancing their livelihood activities.

The study would be undertaken in six States spread across the country to get a fair representation. The states have been selected based on the region wise (North, South, East, West, Central and North East) coverage and proportion of MahilaKisans supported under Agro-Ecological Practices (AEP) interventions. Therefore, the following states have been selected – Arunachal Pradesh, Bihar, Madhya Pradesh, Maharashtra, Kerala and Uttar Pradesh. The selection of

the agency has been done and the study is in process.

viii. Study on SVEP

Start-up Village Entrepreneurship Programme (SVEP) is a budget announced scheme and was approved by the Honorable Minister Rural Development, Govt. of India on May 6, 2015, as a sub-scheme under the National Rural Livelihoods Mission and the guidelines were issued on 15th June 2015. The objective of SVEP is to help the rural poor come out of poverty by assisting them in setting up enterprises and providing support until the enterprises stabilize. It focuses on providing sustainable livelihoods and self-employment opportunities with financial assistance and training in business management of soft skills while creating a local community cadre for enterprises' promotion.

Initially, the programme was approved for two years (2015-16 and 2016-17), targeting 45 blocks in 12 states.

It is important for the program to assess the impact of SVEP intervention in enabling rural entrepreneurship at the local level. All states were advised to undertake an endline evaluation of the phase-I and phase-II blocks at their level. Several states have even commissioned the study.

However, in the larger interest of the program and its stakeholders, it is appropriate to have a national level endline study that could bring out the impact areas of SVEP intervention, especially in terms of enterprise ownership by

the rural women and making it sustainable in the long run. On the implementation front, it would be useful to see if the interventions are catering to the needs of rural entrepreneurship. The selection of the agency has been done and the study is in process.

11. Procurement

Procurement Division provides technical assistance to various State Missions and the National Mission Management Unit to manage all procurements for the Society. The procurement division also trains and builds the capacities of state procurement teams. The procurement division supports all procurement under the National Rural Economic Transformation Project (NRETP), a World Bank funded project at both National and State level. Empanelment of Technical Support Agencies (TSAs) has assisted various State Missions to engage agencies quickly. State Missions have been utilizing these empaneled agencies on the panel (also known as Call Down List) for various assignments under various components such as Value Chain and Market Linkages, Organic Farming and Certification support and Business Development Support Services. Similarly, the Call Down List for HR Recruitment and related services is being utilized by various States. Such Call Down Lists /empanelment of TSAs has reduced the procurement time and resource cost for the State Missions.

Procurement division also manages the procurement required for various SARAS Aajeevika Melas organized in the year. Successful Melas were organized in Gurugram, Connaught Place, IITF and Noida.

Provision of Technical Assistance in Procurement:

NRLPS has been providing technical assistance to various State Missions in the finalization of terms of reference and to customize the standard bidding documents such as expression of interest, request for proposal, national competitive bidding document for procurement of goods etc. Further, NRLPS has been guiding the State Missions in the contract management. The Society is also providing technical support in the prior review approval of various procurement proposals submitted by State Missions and coordinating with the World Bank. The Procurement Unit has been facilitating the State Missions and the National Mission to complete the Post Procurement Review.

Capacity Building of State Missions: The society provides targeted, and demand driven training and capacity building inputs & technical advice to various State Missions in the procurement management, finalization of bidding documents, technical evaluation and contract management etc.

NRETP Project: The Ministry has received a loan from the World Bank for the National Rural Economic Transformation Project (NRETP). Procurement Division is managing various procurements under the project, such as procurement of various Technical Support Agencies (TSAs) such as Financial Management, Digital Finance, Organic Farming and Knowledge & Communication Management, Support to Cluster Level Federations, PMU for Value Chain Linkages, Process Monitoring, etc.

12. Support to North-East SRLMs

Under special package NE SRLMs (except Assam) received budget approvals of Rs.1139.65 crores during FY 2023-24. The higher allocations have facilitated formation and strengthening of Primary Level Federations, initiating promotion of Secondary Level Federations, expansion of pool of thematic master trainers and community cadres, initiating farm as non-farm livelihoods promotion, CIF, VRF disbursement, partnerships with NROs, MKSP PIAs and other technical support agencies for livelihoods, value chain interventions and convergence support etc.

As of March 2024, 14.03 lakh women have been mobilized into 1.48 lakh SHGs in 400 blocks in the 7 North East States. 10,593 Village Organizations (VOs) or Primary Level Federations (PLFs) and 436 CLFs have also been promoted so far in the 7 states of , Nagaland, Mizoram, Tripura, Meghalaya, Sikkim, Manipur and Arunachal Pradesh.

Under DAY-NRLM so far, a total of Rs. 2486.82 crore community investment fund has been received by SHGs as RF and CIF for meeting their consumption needs and for investing in their existing livelihoods.

As of 31st March, 2024, 6727 SHG Members were deployed as Business Correspondent agents (BCAs). A total of Rs 5,61,206.48 lakh has been disbursed to 2,02,039 SHGs during the financial year 2023-24. Further, 35.22 lakh SHG members have accessed Pradhan Mantri Suraksha BimaYojana (PMSBY), 30.23 lakh members have accessed Pradhan MantriJeevanJyotiBimaYojana (PMJJBY), over 40.16 lakh members accessed Pradhan Mantri Jan ArogyaYojana (PMJAY), and 6.16 lakh accessed the Atal Pension Yojana (APY) during this period.

Financial Performance of NRLM in NE –2024-25
(As on Nov 2024)

(Rs. in Lakhs)

Sl. No.	State/UT	Central Allocation	Central Release	Expenditure*
1	Arunachal Pradesh	7,955.56	883.95	8,839.51
2	Assam	40,687.87	4,520.87	45,208.74
3	Manipur	13,858.07	1,539.79	15,397.86
4	Meghalaya	15,526.17	1,725.13	17,251.30
5	Mizoram	3,592.85	399.21	3,992.06
6	Nagaland	10,650.18	1,183.35	11,833.53
7	Sikkim	3,977.78	441.98	4,419.76
8	Tripura	25,021.52	2,780.17	27,801.69
	Total	1,21,270.00	13,474.45	1,34,744.45

*-Expenditure against Total Available Fund which include Opening Balance, Central share, State share, Other Receipts etc.

Physical Performance of NRLM: 2024-25

As on November, 2024

State	Districts	Intensive Blocks	SHG	VO	CLF	HH	RF to SHG	RF Amount (in lakh)
Arunachal Pradesh	25	124	11730	815	30	91964	9070	2043.9
Manipur	16	55	11538	506	12	99810	7213	1616.4

Tripura	8	58	51841	2226	140	494675	48317	9301.75

13. Special Initiatives in 2023-24

Institution Building and Capacity Building Initiatives:

- **Development of Model CLFs :** A total of 1128 cluster level federations (CLFs) or secondary level federations have been promoted so far across all 8 states out of which 529 CLFs are being developed as Model CLFs under Model CLF strategy wherein onsite long-term technical support is being provided to SRLMs by NMMU, NRPs and resource agencies. As on March 2024, this includes 108 in Assam, 122 in Tripura, 99 in Meghalaya, 69 in Nagaland, 60 in Mizoram, 33 in Sikkim, 26 in Arunachal Pradesh and 12 in Manipur. These Model CLFs will be developed as training-cum-demonstration sites for the states in NE which are following this strategy.
- A good progress has been made in 3 year old MCLFs with offices been set up, vision document and annual business plans of the CLFs developed, SOPs operationalized, CLF EC trained on byelaws and SOPs, accountants and managers employed by the CLFs and registration completed in Tripura and Assam.
- A training on financial Management for staff supporting Model CLF was provided to all the States.
- ToT of resource person for grading of SHG/VO and CLF was conducted
- Till date there are 14 Community Managed Training Centres established at 5 States (Arunachal Pradesh – 1, Assam- 5, Manipur- 3, Meghalaya-1, Nagaland-1 and Tripura-3).

- 20 MCLFs in Assam have been provided Viability Gap Fund
- SISD interventions including PRI-CBO convergence, FNHW, Gender and social inclusion of vulnerable and poorest of poor especially the disabled and elderly have also been initiated in selected MCLFs.

Social Inclusion & Social Development (SISD) Initiatives

Social Inclusion: All NE states have planned to undertake interventions in at least 2 blocks for piloting inclusion of PwDs and elderly among other vulnerable groups under DAY-NRLM. The states have identified specific issues and vulnerable communities they would work with and an online orientation of mission staff and resource persons has been completed with support of National Resource Persons and HelpAge India. All the North Eastern states have initiated the mobilization of PwD and elderly into the special SHGs after initial orientation of the mission staff. There are currently more than 1000 PwD groups and over 3000 Elderly Groups in the NE states. The CRPs from selected blocks of Manipur, Mizoram, Tripura, Assam, Nagaland and Arunachal Pradesh have received immersion training in the Helpage immersion sites of Tamil Nadu and West Bengal. Action Groups aimed at Social Reconstruction (AGRSAR) programme is being implemented by MOSJE and MORD and SRLMs of Assam and Tripura and financial assistance has been released to groups. The programme focuses on inclusion of the elderly with special focus on livelihoods and social development.

Vulnerability Reduction Plans have been prepared by most of the mature VOs of Tripura,

Meghalaya, Mizoram, Nagaland, Manipur, Sikkim and Assam which led to identification of poorest and vulnerable households in their villages and draw plan to support them through inclusion in SHGs, convergence for accessing entitlements. Identified vulnerable members in these states have also been provided support of a through Vulnerability Reduction Fund (VRF) through the VOs to support their immediate needs as well as livelihoods investment needs.

FNHW: Given the need to take preventive action against COVID-19, states took up activities to promote the third precaution dose, promote dietary diversity and rolled out a module for health seeking and immunity building measures.

PRI-CBO convergence initiatives:

PRI CBO convergence project so far has been implemented with partnership support from NRO Kudumbashree in 4 NE states of Assam, Tripura, Manipur and Mizoram till 2021-22.

In 2022-23, 3 out of 4 states continued to take support for expansion and deepening of the project activities and building internal capital for the state to take up expansion to the rest of the blocks. Arunachal Pradesh and Meghalaya have also initiated intensive pilots in their states during 2022-23. Through the project, mission staff, resource persons and community cadres of all intensive blocks have been trained to facilitate VPRP preparation and presentation in Gram Sabhas for ensuring integration in GPDP. These trained persons further facilitated the VPRP preparation in a more intensive and structured manner.

In the year 2023-2024 the PRI-CBO convergence project has been universalized in 7 States Manipur, Meghalaya, Mizoram, Tripura,

Arunachal Pradesh, Nagaland and Assam. Out of these 7 States NRO is supporting as a knowledge partner in 6 States (except Assam) and all the States have signed the MoU. All the resources developed during the pilot phase will be utilized as Local Resource Person / Block Resource Person/ District Resource Person at Gram Panchayat/Block/ District level respectively for the effective implementation of the Project.

All SHGs and VOs across NER have initiated the VPRP preparation for presentation in GPDP Gram Sabhas from 2nd October 2023 to 31st March 2024 as part of People's Plan campaign of FY 2023-24. This year too all the NE States have initiated prepared VPRP as a part of People's Plan campaign of FY 2025-26.

Financial Inclusion Initiatives

1. SHG Bank Linkage

During the FY 2024-25, 42.35 lakhs WSHGs have been provided credit by banks to the extent of Rs 1,18,810 Crores up to November, 2024 and total credit accessed by the women SHGs is more than Rs.9.85 lakh crores since inception of the Mission in April, 2013 to make adequate investment in productive enterprises. The outstanding balance is of more than Rs. 2,75,000 crores with just 1.65% NPA. The Mission is using Community Based Repayment Mechanism (CBRM) which is community managed where by a committee with representatives drawn from various SHGs or their federations take responsibility of monitoring SHG banks linkage and also ensure prompt repayment by SHG to banks by enforcing rules and social pressure. Bank

Sakhi is part of the CBRM who acts as a link between the Banker and SHGs. She helps in completing documentation formalities for account opening, loan application and related documentation, in opening of individual accounts of members in the bank, in assisting SHGs in seeking other financial services from the bank and acts as a liaison between the SHGs and the bank and resolve all issues affecting the SHGs. 49,318 Bank Sakhi are positioned in different branches of the Banks in rural areas. Unique programme for elimination of poverty from rural areas by providing timely credit to the rural poor women.

2. Digital Finance

The Mission is in the process of having a pool of trained and IIBF certified 1.50 lakhs such B C Sakhi by 2024-25 with the concept of “One BC one GP” under which one B C Sakhi is proposed to be engaged in every Gram Panchayat to provide banking services in the rural areas. To make less cash economy and digitise the transactions of the SHGs, Ministry of Finance and Reserve Bank of India have issued guidelines to the Banks to make banking services available to SHGs at B C Points. For this purpose, dual authentication process to make transactions by the SHGs at B C point is being implemented and almost all the Public Sector Banks have enabled this dual authentication facility available at their BC points.

3. Financial Literacy

People living in rural areas do not have access to the financial literacy which can play a vital

role to promote the financial inclusion. Govt. of India, R B I and many other organizations are in the process of promoting financial literacy but in the absence of proper infrastructure, implementation is a huge task. The mission has its reach in almost all the villages of the country and therefore it has taken the role of implementing FL in the rural areas with the co-ordination of Banks through their financial literacy centers and our community resource persons which are drawn from the women SHGs known as Financial Literacy Resource Persons. Training to trainers for each district is provided at National Academy of R Setis Bangalore and in turn train the FL CRPs in each block. These trained FL CRPs goes in each village and train SHGs, their members and other households in the rural areas. So far more than 42,035 trained FL CRPs have provided financial literacy to 2.25 crores rural households in 27 states covering 723 districts.

4. Insurance

Rural poor households are more vulnerable to the risks of death and accidents and as such they require security from these risks. Further, elders in the society face the issue of regular income in the old age and this is more prone in rural areas due limited available source of income. Risk coverage of SHGs' households in the rural area has thus become crucial for meaningful poverty elimination under DAY-NRLM. The Mission aims to address these issues through facilitating access of appropriate insurance and pension schemes/ products to SHG households.

Claim settlement is also one of the areas of concern in the rural due to no/limited knowledge about the procedure to be followed in case of death or accident of the insurer. DAY – NRLM has taken the initiative of claim settlement through BimaSakhi which has been implemented by most of the States with good results.

MKSP (Mahila Kisan Sashaktikaran Pariyojana):

Under MKSP, 9 (nine) projects have been sanctioned to Assam (2), Meghalaya (1), Mizoram (2), Nagaland (1) and Arunachal Pradesh (3) for farm livelihoods interventions through promotion of sustainable agriculture & value Chain development by covering around 76,000 MahilaKisan households in 59 blocks of 18 districts. A total of Rs.59.39 crores have been approved for these projects. Out of these three projects, One project in Mizoram and 2 projects in Arunachal Pradesh is being sanctioned to promote the value chain development activities.

Creation of Comprehensive Capacity Building Architecture:

Under Capacity Building initiative, 794 no. of SRPs (State Resource Persons), 433 in Sustainable Agriculture and 361 in Livestock have been developed in Eight States namely Assam, Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Sikkim, Tripura and Nagaland. These SRPs are trained by the National Resource Person through 8 days training modules & graded by NIRDPR Guwahati, Assam. A total of 10,769 KrishiSakhi (Agriculture CRP) and 8,439 PashuSakhi (Livestock CRP) promoted by SRLMs have been trained by the enlisted SRPs.

Non-Farm Livelihoods

Start-up Village Entrepreneurship Programme (SVEP), the sub-scheme under DAY-NRLM supports the SHG and their family members to set-up small enterprises in the non-farm sector. SVEP develops an eco-system for enterprise development in the rural areas which consists of Community Enterprise Fund (CEF) for enterprise financing, Cadre of Community Resource Persons-Enterprise Promotion (CRP-EP) for providing Business Support Services comprising of preparation of business plans, trainings, market linkages etc., dedicated Block Resource Centre (BRC) for providing all necessary information to entrepreneurs. The Block is the unit of implementation.

14. Special Project in Jammu and Kashmir

The Deendayal Antyodaya Yojana – National Rural Livelihood Mission (DAY-NRLM), a centrally sponsored programme of the Ministry of Rural Development, Government of India, has been implemented by the State of Jammu & Kashmir from FY 2012-13. The programme is known as UMEED in Jammu & Kashmir.

Based on the special requirements of the State, Government of India had approved a special financial package of Rs. 755 Crore to enable the State to mobilize two-thirds rural households (about 9 Lakh) into SHGs (and their federations) and undertake sustainable improvement in their livelihoods, over a period of 5 years (FY 2013-14 to FY 2017-18). Out of this outlay, 90% of funding would be from the Government of India and 10% would be the state share. The special package was intended to enable the State to claim Central assistance on demand (instead of inter se poverty ratio-based allocation)

through the instrument of Annual Action Plans.

The erstwhile Jammu and Kashmir State, through Jammu and Kashmir Reorganization Act, 2019, has been bifurcated into two Union Territories, one being the UT of Jammu and Kashmir, and the other UT of Ladakh, on 31 October 2019.

Phased implementation approach was adopted to cover all the 143 blocks and 4,098 Gram Panchayats in 5 years. As of October 2019, the mission footprint was in 100 blocks covering all the 22 districts of the erstwhile J&K state (presently UT of J&K and UT of Ladakh). Presently 20 districts are covered under the UT of J&K covering 125 intensive blocks and 2 districts under UT of Ladakh reaching out to 8 blocks.

As of December 2024, cumulatively the Mission has mobilized around 7.98 lakh women into 91445 SHGs in the UT of J&K and 12,230 HHs have been mobilized into 1745 SHGs in the UT of Ladakh. The Mission has formed 7085 Village Organizations and 593 Cluster Level Federations in the UT of J&K. It has formed 113 VOs and 6 CLFs in the UT of Ladakh. A unique feature of this programme is the role played by Community Resource Persons (CRPs), women activists, book keepers in taking the program forward. The J&K Mission has provided Revolving Fund support to around 65425 SHGs in the UT of J&K and 1120 SHGs in the UT Ladakh in the tune of Rs.9814 Lakh in the UT of J&K and 263.65 lakh in the UT of Ladakh respectively. Community Investment Fund support has reached to around 53574 SHGs in the J&K UT and 178 SHGs in the UT of Ladakh amounting to Rs.21718 lakhs in the UT of J&K and 71.20 lakh in the UT Ladakh respectively. In the financial year 2024-25, till

November, in the UT of J&K, 354 VOs and 44 CLFs have been formed. During this financial year, 1329 SHGs have received RF amounting to Rs.199 lakhs and 1890 SHGs have received CIF amounting to Rs.931.20 lakhs. In the UT of Ladakh, 520 households have been mobilized into 195 SHGs and 43 VOs and 6 CLF.

National Rural Economic Transformation Project (NRETP)

The National Rural Livelihoods Project (NRLP), implemented from July 2011 to June 2018, was successful in establishing DAY-NRLM's "proof-of-concept" in 13 high poverty states¹. The project helped the State Missions in setting up implementation systems, social mobilisation, capacity building, initial capitalisation and credit linkage of community institutions.

Considering the emerging priorities of the Mission, the Ministry of Rural Development has initiated the implementation of the next phase of the project, viz. National Rural Economic Transformation Project (NRETP) in the same 13 high poverty States. Some of the key activities proposed under NRETP are indicated below:

- Establishing 1077 Cluster Level Federations as Model CLFs
- Promotion of 25 large scale Farmer Producer Enterprises (average membership of 10000-12000 households) and 12000 Farmers Producer Groups covering an additional 5 lakh farmers;
- Supporting 47250 individual and 5250 group non-farm enterprises;
- Promotion of 40 Clusters to support rural artisans/ enterprises with a minimum of 100 members per cluster;

¹ Assam, Bihar, Chhattisgarh, Gujarat, Jharkhand, Karnataka, Odisha, Maharashtra, Madhya Pradesh, Uttar Pradesh, Rajasthan, Tamil Nadu and West Bengal.

- Expanding the network of Business Correspondents for last mile delivery of financial services by deploying 5000 additional BCAs;
- Extending social protection to
 - ▷ 24 lakh SHG members under life and accident insurance cover;
 - ▷ 20 lakh SHG member households under health insurance scheme;
 - ▷ 4 lakh SHG members under pension scheme;
 - ▷ 6 lakh SHG members under insurance cover to assets financed through credit; and
- Support SRLMs in setting up Migration Support Centres and placement and Industry Partnership Cell to be set up at the National Level

During 2023-24, an amount Rs. 643.73 crore has been allocated under NRETP (main) to 13 high poverty States based on the approval of Annual Action Plan and an amount of Rs.480.99 crore has been released against this till March, 2024.

Under NRETP, till December 2024, 1077 Model CLFs were formed. States were also facilitated for preparing financial projection required for submitting proposal for viability gap fund by CLFs.

Upto December, 2024, Viability gap fund of Rs. 11,399.96 lakhs was given to 1077 MCLFs. Further, 2638.79 lakhs of Infrastructure Fund was given to 1077 MCLFs. Community Managed Training Centers were set up in 164 MCLFs.

Farm Livelihood

This project lasted till 30 June 2024. The

focus under farm livelihoods in this was on the promotion of producers' collectives, viz. producers' groups and producers' enterprises to enable the small and marginal women farmers to access markets for their produce at a remunerative price. During the project period (till June 2024) the cumulative progress is as under:

- 21,931 Producer Groups were promoted.
- Twenty-Five farm value chain development projects amounting to Rs.440.15 Crores were sanctioned to ten SRLMs to promote twenty large sized Producer Enterprises covering 3.77 lakhs mahila kisans.
- 400 Integrated Farming Clusters were also promoted. It consisted of 2-3 villages having 250-300 families with aim to improve livelihoods of every household with strong backward and forward linkage.

Non-Farm Livelihood

The non-farm component under NRETP builds upon the experience of SVEP that demonstrated a need for significant handholding as the micro-enterprises grew in size. Though there are government schemes and institutions rendering services to these enterprises, there is a felt need for support to enterprises on a high-growth track. NRETP acknowledges this situation and proposes a different strategy for enterprises at different stages. The implementation will be supported by technology-based business development processes and monitoring, advisory and data-driven analytics and dedicated human resources.

NRETP enterprise development component focuses on women-owned / women-led

enterprises through three key pillars:

1. Setting up One-Stop Facility centres for enterprises with an annual turnover of less than INR 12 lakh.
2. Providing customized and dedicated support through professional incubators to enterprises with a turnover of more than INR 12 lakh.
3. Promoting artisan and sectoral clusters to tap into existing and potential market opportunities.
4. One Stop Facility (OSF) are centers in block at an average cost of Rs. 350 Lakh per block, to support higher level enterprises that have the potential to grow. The enterprises with an annual turnover range of INR 3-8 lakhs will be supported through OSF at a sub-district level.

One Stop Facility (OSF) is envisaged as a business facilitation-cum-incubation centre at the sub-district level to provide business development services to existing nano-enterprises on a growth track. Support under OSF is to provide access to technology, regulatory compliances, market intelligence, linkages with schemes of other Ministries and Departments and other inputs like packaging. The OSF is being run by community professionals called Business Development Support Providers, who are being trained to provide higher order support services to businesses. A total of 65423 enterprises have been supported under OSF.

Clusters of non-farm entrepreneurs with and average financial support up-to Rs. 500.00 lakhs per cluster. It aims on promoting and strengthening Artisan and Sectoral cluster that allows for combining efforts, making use of synergies, and pooling resources to increase competitive advantage while sharing market risk. Cluster supported under the project are being supported by Technical Support Agency (TSA) to support the cluster in developing business plans, nurturing forward and backward linkages, securing commercial finance, and facilitating access to technology and market-oriented skills. Currently 16 clusters across eight States are approved.

Incubator component is focused towards incubating growing micro-enterprises and facilitate their self sustenance thereby creating local employment opportunities. The objective of the initiative is to pilot strategies to scale up existing women-owned / women-led growth-oriented enterprises in a State and create models for replicability. This is being implemented in five states: Assam, Bihar and West Bengal with IIM Calcutta Innovation Park (IIMCIP), in Karnataka with IIM Bangalore NSRCEL and in Kerala with IIM Kozhikode.

A statement indicating releases of funds to NRETP States is given at Annexure VI. The physical progress under DAY-NRLM during 2024-25 upto December, 2024 is at Annexure VII.

**DEEN DAYAL UPADHYAYA
GRAMEEN KAUSHALYA
YOJANA (DDU-GKY)**

With an ambitious agenda to benchmark wage placement-linked programs to global standards, Ministry of Rural Development (MoRD) revamped the Placement linked skill development program under National Rural Livelihood Mission as Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY) on the 25th September, 2014. In doing so the Ministry has used its knowledge gained over 15 years of experience in implementing skill training programs.

Since April 1999, the Ministry of Rural Development (MoRD) has been implementing skills and placement initiatives, starting with the Swarnjayanti Gram Swarozgar Yojana (SGSY) as a placement linked wage and self-employment program. It was then redesigned and launched as 'Aajeevika Skills' in September 2013, with revised focus on placement driven wage employment for the rural youth in the age of 18-35 entailing an assured minimum placement of 70% and a salary not lower than the minimum wages. The focus was now more on retention and career progression than garnering new candidates for training, it promoted higher numbers of retained employees hence pushing forth the dreams of countless rural youth.

DDU-GKY is a critical component of the National Skill Development Policy with a unique focus on the rural poor youth. It is now a demand driven placement-linked skilling initiative of Government of India. It seeks to enable poor rural youth to benefit from international opportunities arising due to a global deficit in the working population, thereby making rural India, the preferred skilled resource pool for the world.

DDU-GKY has evolved out of a need to diversify incomes of the rural poor and to cater to the occupational aspirations of rural youth. The skilling courses are undertaken by Project Implementing Agency (PIA) in a PPP mode. It is mandatory for every PIA to give placement to 70% of the trained candidates. DDU-GKY projects are funded by Central and State Government in the ratio of 60:40 in all States, excepting North-East states and Himalayan states where the funding ratio is 90:10. Himayat, a special scheme for Jammu and Kashmir provides for 100% funding by Central Government.

DDU-GKY is a nationwide placement-linked skill training program funded by the Ministry of Rural Development (MoRD), Government of India (GOI). It aims to contribute to the Prime Minister's 'Make in India' campaign to position India as the globally preferred manufacturing hub, while dovetailing its efforts to significantly contribute in other flagship programs of the nation.

DDU-GKY is critical to the national skill agenda and to the 430 million (Census 2011) young people in the country in the age group of 15-35 years, close to 70% of whom live in rural areas. DDU-GKY has great potential to transforming the nation's demographic surplus to the much needed "demographic dividend" through building the productive capabilities of the rural youth.

MISSION:

To reduce poverty by enabling the poor households to access gainful self-employment and skilled wage employment opportunities,

resulting in appreciable improvement in their livelihoods on a sustainable basis, through building strong grassroots institutions of the poor.

GUIDING PRINCIPLE:

- Poor have a strong desire to come out of poverty, and they have innate capabilities.
- Social mobilization and building strong institutions of the poor is critical for unleashing the innate capabilities of the poor.
- An external dedicated and sensitive support structure is required to induce the social mobilization, institution building and empowerment process.

VALUES:

- Inclusion of the poorest, and meaningful role to the poorest in all the processes.
- Transparency and accountability of all processes and institutions.
- Ownership and key role of the poor and their institutions in all stages – planning, implementation, and, monitoring.
- Facilitating knowledge dissemination, skill building, access to credit, access to marketing, and access to other livelihoods services underpins this upward mobility.

Key Features of DDU-GKY:

- Market-led, placement-linked training programme for rural youth undertaken in a PPP mode.
- Mandatory assured placement to 70% of the trained candidates.

- Focus on rural youth from poor families in the age group of 15 to 35 years belonging to:
 - o MGNREGA worker household, if any person from the household has completed 15 days of work,
 - o RashtriyaSwasthyaBimaYojna (RSBY) household,
 - o Antyodaya Anna Yojana card household,
 - o BPL PDS card households,
 - o NRLM-SHG household
 - o households covered under auto inclusion parameters of SECC, 2011.
 - o Social inclusion of candidates through mandatory coverage of socially disadvantaged groups, i.e for SC/ST- 50%, Minorities- 15%, and Women 33%)
- Salary to the placed candidates is given as per the Minimum wages or above
- Post-placement support to candidates.
- Career progression support to training partners.
- In allocation of skills projects, primacy given to Training Partners, who can train and support overseas placement and captive placements.
- Partnership with Ministry of Shipping for providing skill development in coastal & port areas through SAGARMALA initiative.
- Regional inclusion of candidates is enabled through:
 - A special sub-scheme for the youth of Jammu & Kashmir called Himayat : It was launched in Srinagar on 21st August 2011 for giving training and placement

to one lakh youth in Jammu & Kashmir over a period of 5 years. Taking into account the successful implementation of wage-employment linked skilling courses in J&K, the Government has increased the outlay for Himayat, with a demand-based allocation and target, and to continue with 100% Central funding for the program.

- A special initiative for the rural youth of poor families in 27 most-affected Left-wing Extremism (LWE) districts across nine States called Roshni: It was launched by Ministry of Rural Development on 10th June 2013 in a bid to further reach out to rural youth` in the country's 27 most critical Left-Wing-Extremism-affected districts.

DDU-GKY and National Scope:

DDU-GKY is applicable to the entire country. DDU-GKY is currently being implemented in 27 States and 4 Union Territories. As on 30th November 2024, DDU-GKY has over 2369 (764 operational) Training Centres in partnership with over 449 Project Implementing Agencies conducting training through 590 Projects across 57 sectors and over 807 job-roles. By training holistic, job-ready candidates to simultaneously meet our objectives of economic growth and poverty alleviation under the DDU-GKY strategy, helping industries prosper and grow, not just nationally but on a global level.

Transparency and accountability through:

- Geo-tagged, time-stamped, biometric attendance based on unique ID for trainers and trainees.

- Online check of inventory available for training in every Training Centre.
- CCTV and audio recording of all classroom and lab sessions.
- Mapping of Project Implementing Agencies on the Public Financial Management System for tracking payments.
- Reporting of performance on real-time basis.
- Concurrent monitoring process for reliability and validity of the monitoring process.
- Independent mechanisms for project appraisal and project monitoring, apart from State level monitoring, through designated Technical Support Agencies, i.e. the National Institute of Rural Development and the NABCONS.

Implementation Architecture:

DDU-GKY follows a 3-tier implementation model. The DDU-GKY National Unit (NU) at MoRD functions as the policy-making, technical support and, funding and facilitation agency. The DDU-GKY State Skill Missions (DDU-GKY SSMs) provide co-funding and implementation support. Various Project Implementing Agencies (PIAs) implement the programme by undertaking skilling and placement projects.

Currently, all the States have achieved status of Action Plan States (APS), as they have the capacity to implement the DDU-GKY targets for the state independently, based on the approval of their Action Plans by MoRD.

DDU-GKY promotes a decentralized approach by providing a pivotal role to the states in its implementation framework. It also enables choice for and accountability to the rural youth through multiple PIAs and a focus on placement outcomes for the youth.

The States Governments prepare and submit Action Plans to MoRD. These are then considered by the Empowered Committee of National Rural Livelihood Mission in the Ministry, and if approved, funds are released to the State Government through PFMS. The State Government, are required to sanction and manage the program implementation, including fund releases to PIAs on the basis of performance of the PIAs evaluated through a standard operating procedure.

The process for sanction of DDU-GKY projects is as follows:

- i. All Project Implementing Agencies (PIAs) are required to register themselves online at DDU-GKY website (<http://ddugky.gov.in>).
- ii. All registered PIAs may then apply for a skilling project through an online application form (with in-built validations) available in the DDU-GKY website. All DDU-GKY Project applications, including Roshni projects, are required to be filed online (at <http://ddugky.gov.in>). The application form allows for a process to shortlist applications based on inter-se priority based on category of applicant and proposed project design (upto to a maximum score of 1400) and technical criteria (upto a maximum score of 99 marks).
- iii. The proposal follows the four stage appraisal

process as mentioned below:-

Stage no	Stages in Appraisal process	To be undertaken by
I	Initial Screening of project applications	SRLMs/State Skill Mission or their designated Technical Support Agency
II	Qualitative Appraisal	SRLMs/State Skill Mission or their designated Technical Support Agency
III	CTSA feedback	CTSAs designated
IV	Consideration and disposal of application by Competent Authority	Project Approval Committee in State Government concerned

- iv. In case projects are approved by the EC or PAC, sanction is issued for fund release on the Public Financial Management System (PFMS) to the Project Implementing Agency (PIA) only after executing a MoU between State Skills Mission and PIA.
- v. The PIA is required to undertake a Training Centre inspection by its internal Quality Team (Q-Team) and file the report with State Skill Mission and the CTSA before commencing mobilization of candidates for the project. This step marks the commencement of the skilling project.
- vi. Subsequent to commencement, the project is concurrently monitored by the Q-Team of PIA, State Skills Mission, and the CTSA. Based on performance further funds are

released or recovered, as the case may be till project closure.

DDU-GKY follows a three-tier level of monitoring. At the first level, every PIA is required to set up an internal Quality Team (Q-Team) for monitoring of each Training Center for physical performance as well as quality of training. At the second level, based on the reports of the Q-Team of the PIA, the State Government shall undertake monitoring of the outputs of the projects (this is critical for further fund release to the PIA). At the third level, the Central Technical Support Agencies shall monitor the project implementation relying on the State reports and data available through MIS. This system shall be supplemented through on-ground inspections by Q-Team, State Government and the CTSA.

Programmatic Funding

DDU-GKY is a Centrally Sponsored Scheme (CSS) and follows the funding pattern as given below:

All States (Excluding North-East & Himalayan states)	Central Share – 60%	State Share – 40%
For all North East States including Sikkim	Central Share – 90%	State Share – 10%
For Himalayan states (Himachal Pradesh and Uttarakhand)	Central Share – 90%	State Share – 10%
Jammu & Kashmir	Central Share – 100%	State Share -Nil

PIAs and DDU-GKY Project Implementation

DDU-GKY is implemented in PPP mode with the help of a Project Implementing Agency (PIA). At present, an organization that is a registered legal entity in India can partner with DDU-GKY as a Project Implementing Agency (PIA), subject to other essential conditions of eligibility. These include:

- Entities registered under the Companies Act of India 2013 (including Section 25 companies), the Indian Trusts Act, 1882, Societies Registration Act, 1860, the Cooperative Societies Act, 1912, State Cooperative Societies Acts, State Trust Acts, State Societies Acts, Multi-State Cooperatives Act 2002, Limited Liability Partnership Act 2008 and Government agencies.
- Existence as an operational legal entity, in India, for more than three years at the time of application under DDU-GKY (this condition is not applicable to NSDC partners).
- Positive net worth in at least two of the last three years (this condition is not applicable to NSDC Partners)
- Average three years turnover that is at least 25% of the size of the project cost
- Consortium of two PIAs can apply subject to conditions

PIA Assessment Criteria

Priority:

- Overseas Placement of Poor Rural Youth
- Projects for Captive Employment
- Projects by 'Champion Employers'

- Educational Institution of High Repute

transparent and accountable management of the projects

Mandatory:

- Alignment of organisational values with DDU-GKY
- Prior relevant skilling and placement experience
- Inability to place a minimum of 70% of the trained candidates at a minimum remuneration of Rs. 6000 or minimum wages whichever is higher on placement will lead to refund of funding support.
- Organizations' leadership and team capacity
- Proposed plan and readiness to implement the project
- Financial strength of the agency
- Capacity of the organization for effective,

DDU-GKY provides funding support for placement linked skilling projects ranging from Rs. 40,088 per person to over Rs.1.91 lakhs, depending on the duration of the project and whether the project is residential or non-residential. The Ministry has aligned to Common Cost Norms for Skill Development schemes issued by Government vide Notification no. 25/2016. DDU-GKY funds projects of different duration, ranging from 576 hours to 2304 hours and allows for On-the-Job Training (OJT) subject to ceiling. Funding components include support for training costs, boarding and lodging (residential programmes), transportation costs, post-placement support costs, career progression and retention support costs.

Table : Project grant for Skilling and placement #

Sl. No.	Item	3 months (576 hr)	6 months (1152 hr)	9 month (1728 hr)	12 month (2304 hr)
	Common Costs for Residential / Non Residential courses				
1	Total Training Cost per candidate				
A	Category I @ Rs. 49.00 per hour	28,224.00	56,448.00	84,672.00	1,12,896.00
B	Category II @ Rs. 42.00 per hour	24,192.00	48,384.00	72,576.00	96,768.00
C	Category III @ Rs. 35.10 per hour	20,217.60	40,435.20	60,652.80	80,870.40
2	Special Area allowances @ additional 10% of S. No. 1, in case training centre is located in Special Areas.				
	Special Areas is defined as:				
	(i) North- Eastern states (Assam, Arunachal Pradesh, Meghalaya, Manipur, Mizoram, Nagaland, Sikkim, Tripura,				
	(ii) Jammu & Kashmir, Himachal Pradesh, Uttarakhand				
	(iii) Andaman & Nicobar Islands, Lakshadweep Islands				
	(iv) Districts affected by Left Wing Extremism (LWE) as identified by M/o Home Affairs for Integrated Action Plan				
A	Category I @ Rs. 49.00 per hour	2,822.40	5,644.80	8,467.20	11,289.60
B	Category II @ Rs. 42.00 per hour	2,419.20	4,838.40	7,257.60	9,676.80
C	Category III @ Rs. 35.10 per hour	2,021.76	4,043.52	6,065.28	8,087.04
3	Uniform (1 set for trainings less than or equal to 6 months and 2 sets for more months)	1,270	1,270	2,540	2,540

Sl. No.	Item	3 months (576 hr)	6 months (1152 hr)	9 month (1728 hr)	12 month (2304 hr)
4	Post Placement Support (provided to Candidates through PIAs)				
A	Within District of Domicile (Rs 1270 per month for 2 months)	2,540	2,540	2,540	2,540
B	Within State of Domicile (Rs 1270 per month for 3 months)	3,810	3,810	3,810	3,810
C	Outside State of Domicile (Rs 1270 per month for 6 months)	7,620	7,620	7,620	7,620
5	Boarding & Lodging cost for Residential Courses				
A	X category cities @ Rs.375 per day	33,750	67,500	1,01,250	1,35,000
B	Y category cities @ Rs.315 per day	28,350	56,700	85,050	1,13,400
C	Z category cities @ Rs.250 per day	22,500	45,000	67,500	90,000
D	Other places (includes all Rural areas) @ Rs.220 per day	19,800	39,600	59,400	79,200
6	Food and Transport cost per candidate for Non Residential Courses	11,700	23,400	35,100	46,800
7	One-time Travel Cost upto a maximum Rs.4500 per candidate or as per actual, whichever is lower.	4,500	4,500	4,500	4,500
8	Additional incentives to PIA				
A	Retention support (for every candidate employed continuously for 365 days with a break of maximum 60 days)	3,000	3,000	3,000	3,000
B	Career Progression (for every candidate who gets Rs 15,000 per month and holds the job for 3 months within 1 year of training)	5,000	5,000	5,000	5,000
C	Counselling support including medical check-up for candidates placed in Foreign countries (per candidate)	10,000	10,000	10,000	10,000
9	Incentive for placement				
A	for placements between 70%- 85%	3,000	3,000	3,000	3,000
B	for placements above 85%	5,000	5,000	5,000	5,000
10	Assessment & Certification	1,500	1,500	1,500	1,500
11	Mobile tracking	600	600	600	600
	Summary of DDU-GKY Funding Components:				
	For Residential				
	(i) Minimum Cost per candidate (1c+3+4a+5d+ 10+11)	45,928	85,945	1,27,233	1,67,250
	(ii) Maximum Cost per candidate including additional incentives to PIA (1a+2a+3+4c+5a+7+8a+8b+8c+9b+10+11)	1,03,286	1,68,083	2,34,149	2,98,946
	For Non -Residential				
	(iii) Minimum Cost per candidate (1c+3+4a+6+ 10+11)	37,828	69,745	1,02,933	1,34,850
	(iv) Maximum Cost per candidate including additional incentives to PIA (1a+2a+3+4c+6+7+8a+8b+8c+9b+10+11)	81,236	1,23,983	1,67,999	2,10,746
	Minimum Remuneration for Placements				
1	Minimum Remuneration per candidate per month within India	6,000	8,000	12,000	15,000
2	Minimum Remuneration per candidate per month abroad	25,000	25,000	25,000	25,000

Grant-in-Aid for industry internships:

S.No.	Items	Total
1	Boarding & Lodging cost (Rs 11,250 per month for a period of one year)	1,35,000
2	One-time Travel Cost	5000

Fund release to PIAs under DDU-GKY is scheduled in four installments as follows:

Installment	Value	When sanctioned
1 st installment	25% of project cost	On signing of MoU and Identification of Training Center.
2 nd installment	25% of project cost	- On Spending 60% fund disbursed as 1st installment as visible on website; - Achieving 20% of Training target completion & Assessment and with 7 % verified Placement. - Submitting Audited expenditure statement like P&L Statement, balance sheet etc, with respect of previous year for cases after 30th September.
3 rd installment	25% of project cost	- On Spending 90% fund disbursed as 1st & 2nd Installments as visible in website. - Achieving 60% of training targets competition and assessment and with 25% verified placement. - Submitting Audited expenditure statement like P&L Statement, balance sheet etc, with respect of previous year for cases after 30th September.
4 th installment	25% of project cost	- On Achieving 100% of training targets competition and assessment (inclusive of sub-targets such as SC/ST, Minorities etc) and with 70% verified placement. - Submission of Project Closure documents as well as signed check list.

Training, Quality Assurance & Certification of the Beneficiary

DDU-GKY mandates two types of training in every course (i) Generic Training on Soft Skills, English and Information Technology (ii) Trade Specific Skill training for different durations ranging from 576 hours to 2304 hours. The training plan may also provide for on-the-job

training (OJT) as part of the training module.

The training content is currently required to be aligned with earlier National Council for Vocational Education & Training (NCVET) or Sector Skill Council (SSC) Standards or Non-NCVET/SSC i.e own certification in cases of established brands can be used provided it has been approved by MoRD in advance.

Initiatives taken to achieve quality in Training courses include:

- a. Online Inspection of Training centers for all round quality assurance.
- b. Skilling curriculum aligned to NSQF only.
- c. Pioneering in delivering dedicated courses for imparting soft skills, English and foundation in IT.
- d. Emphasis on standards-led infrastructure in terms of Training Centre, Computer Labs, e-learning and Residential facilities.
- e. Provision of a tablet for every learner.
- f. Sets aspirational norms for skills in the society and amongst stakeholders.

Assessment and Certification:

DDU-GKY mandates independent third party certification of every trainee to assess the skill, knowledge and attitude of each trainee. Such third party certification shall be undertaken by the PIAs only through those agencies empaneled by NCVET or Sector Skill Councils

DDU-GKY and Employer Engagement:

DDU-GKY is a strategic partner in many industries, in designing and planning their HR strategy for sustainable HRM practices through access to skilled labour as well as funding support by DDU-GKY that adds value to recruitment and training for workforce for corporates.

DDU-GKY also envisions a large and important role for industries through diverse opportunities: as skilling and placement partners, industry internships, in providing decent work opportunities to trainees of

DDU-GKY including opportunities for career progression.

Captive Employment under DDU GKY:

To train trainees in such a way that they are industry ready from day one, it is inevitable to develop/utilize a model in which training too is provided by the skilled labour absorbing enterprise, which provides the Captive employment to the skilled manpower.

Since every effort is made to skill the candidates as per the industry standards, the absorption rate of candidates trained by PIA is still low in the market, as each industry/employment has different level of needs and that too changes over a period of time. The skilling for performing a particular job requires trainees to accustom with relevant job operations being conducted at actual locations. Also, it becomes quite challenging for the industry, which requires large number of human resource to set up separate skilling infrastructure other than industry as per standards of govt. schemes, when they already have the readily available infrastructure for providing skilling candidates which in-turn also provide them real work life environment to learn skills on the job.

In order to encourage the participation of Industry and tailor made the candidates as per the industry requirement, DDU-GKY facilitating Captive Employment model of skilling. This Ministry vide Notification No. 18/2020 dated 6th October 2020 issued the 'Captive Employment Guidelines under DDU GKY'. The model will allow industry to source trainees as per their requirement with active support from states and train them as per the requirement of their own organizational/

industry/subsidiaries/operational need and provide candidates assured placement.

Industry Internships

DDU-GKY looks at the Industry Internship Program as a valuable approach promoting employability and providing a valuable future ready work force, and occupies a place of pride under Category 'A' PIAs. Under the Industry Internship program, a potential PIA is eligible for:

1. Grant-in-aid to support the cost of boarding & lodging of interns at the rate of Rs. 9000 per candidate for a period of one year.
2. A one-time travel cost for candidate from the residence to the internship training center on actual basis with a cap of Rs. 5000
3. The PIA shall pay a stipend of Rs. 3000 per month to each candidate during the period of internship.
4. The PIA shall also be required to give captive placement in a job with a salary of minimum Rs. 10000 per month after completion of internship.
5. Industry Internships can continue for over a year but the Grant-in-aid support from MoRD shall be limited to a period of one year.

Key Performance Highlights

So far, from the year 2014-15 till 31st December 2024:

- i. A total of 16,97,704 candidates have been trained and a total of 11,06,612 candidates have been given placement.

- ii. In North Eastern States a total of 1,24,742 candidates have been trained and a total of 74,652 candidates have been placed.

- iii. In Jammu & Kashmir (under Himayat Program which commenced in 2011), a total of 1,07,689 candidates have been trained and 71,316 candidates are placed.

- iv. In LWE areas (under Roshni initiative which started in 2013), a total of 85,438 candidates are trained and 53,000 candidates are placed.

Category-wise details of candidates is given below:

Break up of categories:-

Category	Trained
Women	871343
SC	538258
ST	296289
Minorities	278001

Key Achievements of DDU-GKY in FY 2024-25 till December'24 in DDU-GKY :

- Against the annual target of training of 3.0 Lakhs candidates during the Financial Year 2023-24, a total of 1,99,524 candidates have been trained and a total of 1,57,456 candidates have been placed in regular jobs till 31.03.2024.
- During FY 2024-25 a total of 69,086 candidates have been trained and a total of 53,810 candidates have been placed and Rs. 213.34 crores have been released to States this year till 31st December 2024
- Currently DDUGY projects are being implemented by 449 PIAs under 590 projects

- in 2369 (764 operational) training centres across the country.
- A total of Rs. 233.87 Cr. has been released for implementation of projects under DDU-GKY during 2023-24.
- All states projects details are available on KAUSHAL BHARAT/KAUSHAL PRAGATI (MPR) system.
- Public Financial Management System (PFMS) has been implemented in DDU-GKY for financial monitoring. All States have been registered on PFMS.

KAUSHAL PANJEE system has been upgraded with new features like candidates dashboards to edit, update profile, employer registration etc.

Celebrating a Decade of Empowerment on 25th September 2024, marks 10 years of the DDU-GKY

Rural Self Employment and Training Institutes (RSETIs)

Skill development through Rural Self Employment and Training Institutes (RSETIs), which provide skilling, thereby enabling the trainees to take bank credit, and start their own Micro-enterprise. A small proportion of trainees may also seek regular salaried jobs/ wage employment. A total of 4,71,968 youths have been trained during 10 months of FY 2024-25 as on 31.12.2024.

Establishment of RSETIs in each district of the country in collaboration with the banks and the state governments to provide training to the rural youth from the poor households, is another key component of DAY-NRLM. RSETIs provide short term residential training with long term handholding support to the youth. Some RSETIs also offer off-site training to the youth depending upon the ground situation and feasibility. There are 605 functional RSETIs across the country as on 31.12.2024.

Training programs organized

At present, RSETIs offer training in 64 vocations classified under four major areas viz. agriculture, processing, product manufacturing and general entrepreneurship development programs. Since inception (till 31.12.2024) the RSETIs have trained 54.03 lakh youth, of whom 38.76 lakh have been settled. At present, post training handholding support is provided to the RSETI trained candidates for a period of two years after completion of the training. Also, alumni associations are established by the past trainees in the name of ASARE (Association of Successful Alumni of RUDSETI Trained Entrepreneurs) in many Centers and similar associations are being proposed in other RSETIs also.

Structure of RSETIs

Each RSETI is headed by a Director on deputation from the Sponsor Bank having rural banking exposure with a flair for training. Every RSETI has to have two Faculty Members and support staff. The Director / Faculty Members are exposed to intensive Trainers' Training Program (TTP) organized by NAR and are enabled to discharge their functions effectively. They are also providing with Refreshment training program after completion of one year after TTP program to enrich their knowledge towards better functioning of RSETIs.

Eligibility of candidates for training under RSETI:

Any unemployed rural youth in the age group of 18-45 years, irrespective of caste, creed, religion, gender and economic status, having aptitude to take up self-employment or wage employment and having some basic knowledge in the related field can undergo training in RSETI. The RSETIs are giving priority to the unemployed rural youth coming from poor families including BPL and SECC families.

ASARE (Association of Successful Alumni of RUDSETI Trained Entrepreneurs)

ASARE provides continuous guidance and support to the trained entrepreneurs for their development and instill confidence and provide a forum for resolving common problems besides enhancing the competencies of members through education and training.

Support from States and Central Government to RSETI

Each Sponsor Bank having Lead Bank responsibility is provided a grant of Rs.2.00 crore for construction of building of first RSETI

in a district, besides reimbursing cost of training of the rural poor youth (BPL/ SECC Compliant) by MoRD. The State Governments provide land, free of cost with nominal registration expenses and support in mobilization of trainees. This grant of Rs. 2.00 crore is released in two equal installments of Rs.1.00 crore in each. In addition, some of the Banks have also received grant assistance for construction of RSETI building although they were not the Lead Banks but were the first to establish an RSETI in such districts.

Grading of RSETIs

The grading of RSETIs for the performance made by them during the financial year 2023-24, took place during the first half of FY 2024-25.

The Gradings obtained by the RSETIs for their performance during 2023-24 is as under:

Category II: RSETIs which are more than three years old.

Grade	No. of RSETI	Remarks
AA	560	
AB	1	
BA	13	
BB	9	
BC	2	
CC	1	
BD	1	
DC	1	
Non-graded RSETIs.	4	Newly opened RSETIs : 1. IB Chengalpattu(TN), 2. IOB Tenkasi(TN), 3.SBI Imphal West (Manipur) & 4. BOB East Siang (Arunachal Pradesh)
TOTAL	592	

Annual Conclaves of Directors of RSETIs

As per RSETI guidelines, Conclave of Directors of RSETIs to be held once in a year. For the FY 2022-23, all major Sponsor Banks have organized Conclave of the Directors of RSETIs to review the performance of RSETIs and suitable strategies have been finalized for implementation at all RSETIs for extending quality training under diversified activities to increase potential for settlement of trained candidates. The sponsored Banks have also communicated to their RSETIs to obtain and sponsor credit proposals on the last day of training itself so as to improve sustainable settlement of trained candidates.

MoRD is giving a lot of importance for credit linkage among various other aspects of RSETI functioning and regularly conducting the review meetings with the top-level executives of RSETI sponsored Banks. The Additional Secretary, DFS, has also conducted a review meeting of top management of the sponsored Banks recently on 5.01.2024 wherein the credit linkage and other aspects have been reviewed.

Training Programs organized by RSETIs

Training programs organized by RSETIs cover a wide variety of topics/ activities which include General EDP, Process EDP, Product EDP and Agriculture EDP. The type of training program to be organized is decided by the RSETIs based on the local requirement/ demand. Standard curriculum is devised after a thorough study and getting inputs from various quarters, which after approval is uniformly adopted by all the RSETIs. As and when demand scenario changes, new courses/ new modules are introduced and circulated to the RSETIs. Development of soft skills is an integral part of all the training

programs organized by RSETIs. MoRD has undertaken the exercise of aligning the RSETI courses with Common Norms for Skill Development schemes as notified by Ministry of Skill Development and Entrepreneurship and at present 59 approved training modules are aligned with NSQC and 5 modules approved by MoRD, thus taking the total number of training modules to 64.

Achievement in training and settlement under Annual Action Plan

Total number of training programs organized and candidates trained in the last about twelve Years including current Financial Year 2024-25 (up to 31.12.2024)

RSETI Details of Target, Trained and Settled from 2008-2014 & 2014- 2024

Financial Year	Training Target	Achievement	
		Trained	Settled
2008-09	0	33,415	16,707
2009-10	0	41,355	20,677
2010-11	1,52,000	62,231	28,075
2011-12	2,88,900	2,22,454	93,462
2012-13	3,10,260	3,20,637	1,78,546
2013-14	3,53,310	3,35,904	2,67,758
2014-15	3,52,950	3,92,206	2,52,479
2015-16	3,75,000	4,36,385	3,00,524
2016-17	3,99,973	4,45,143	3,64,536
2017-18	3,97,688	4,23,343	3,50,097
2018-19	3,95,194	4,03,672	2,96,307
2019-20	3,86,129	3,84,025	2,81,645
2020-21	2,42,040	2,55,141	1,85,234
2021-22	3,00,953	3,14,114	2,56,429
2022-23	4,04,079	4,09,802	3,25,880
2023-24	4,30,775	4,51,419	3,50,272
2024-25 (up to 31.12.2024)	6,13,508	4,71,968	2,99,356
Total Cumulative	54,02,759	54,03,214	38,67,984

Total number of candidates trained by RSETIs and settled since inception till FY 2024-25 (up to 31.12.2024) is given below:

No. of Candidates trained	Cumulative settlement			Total No. of trained candidates settled
	No. of trainees settled with Bank Finance	No. of trainees settled with self-Finance	No. of trainees settled with wage employment	
54,02,759	19,41,912	16,68,841	2,57,231	38,67,984

North Eastern States

There are total 43 functional RSETIs in 8 North East States of Arunachal Pradesh, Assam, Mizoran, Sikkim, Meghalaya, Nagaland, Tripura and Manipur. The performance of RSETIs of NE States have been summarized as under:

Sl. No.	Name of the State	Number of functional RSETIs	Candidates trained (since inception 31stDec, 2024)	Candidates Settled (since inception till 31stDec, 2024)	Fund released (Rs, in lakhs) (From 2013-14 to 2022-23 till 31stDec, 2023)
1	Arunachal Pradesh	2	3735	1952	0.00
2	Assam	26	171184	112371	1744.67
3	Manipur	3	7515	4742	29.30
4	Meghalaya	5	22491	11965	312.28
5	Mizoram	3	8183	6462	125.94
6	Nagaland	1	4405	2871	118.27
7	Sikkim	1	5206	3657	9.02
8	Tripura	5	38274	24241	455.71

Carpenter classroom batch

PRADHAN MANTRI GRAM SADAK YOJANA (PMGSY)

1. Background and Introduction of PMGSY

1.1 With more than 70% of the 1.4 billion of India's population living in rural areas, the economic growth and development of the country hinges on the development of rural areas to a large extent. The access of rural populations to the drivers of development is severely limited in the absence of proper rural connectivity. Rural roads not only provide physical connectivity to villages but also open up enormous possibilities by increasing access to economic growth centres, healthcare facilities, educational institutes and other drivers of development. Thus, Rural Connectivity is a key factor in ensuring sustainable poverty reduction and integration of rural areas into the mainstream economic growth and development.

PMGSY

1.2 The Government of India, as a part of the poverty reduction strategy, has implemented Pradhan Mantri Gram Sadak Yojana (PMGSY), as a Centrally Sponsored Scheme to assist the States in providing all-weather road connectivity to the eligible unconnected habitations as per core-network with a population of 500+ persons in plain areas. In respect of Special Category States/UTs (i.e. Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, Tripura, Himachal Pradesh, Jammu & Kashmir, Ladakh and Uttarakhand), the Desert Areas (as identified in the Desert Development Programme), the Tribal (Schedule V) areas and Selected Tribal and Backward Districts (as identified by the Ministry of Home Affairs and Planning Commission), the objective is

to connect eligible unconnected habitations with a population of 250+ persons (Census 2001).

1.3 Against 1,78,184 eligible habitations of 250+ and 500+ population size identified for coverage under the scheme, 16,086 habitations have been provided connectivity by the States out of their own resources and 4,920 habitations have either been dropped or have not been found feasible. Out of the balance 1,57,146 habitations sanctioned for providing connectivity under the PMGSY, 1,56,696 have already been covered. Thus, as on 31st December 2024, 413 habitations remain to be saturated. The State-wise details of habitations provided all-weather road connectivity is given at Annexure-X.

1.4 Under 100-249 population category (LWE areas), 6,245 habitations have been sanctioned for providing all-weather road connectivity, out of which 6,048 habitations have been saturated till 31st December 2024, as per the State-wise details given at Annexure-XI.

1.5 A total of 6,44,872 km road length has been sanctioned under new connectivity and upgradation components under PMGSY-I, out of which 6,24,609 km road length has been completed till 31st December 2024 as per details given at Annexure-XII.

PMGSY-II

1.6 As the programme unfolded, a need was felt for consolidation of the existing Rural Road Network to improve its efficiency not only as a provider of transportation services,

but also as a vehicle of social and economic development. Accordingly, in the year 2013, PMGSY-II was launched for upgradation of selected Through Routes and Major Rural Links (MRLs) with a target to upgrade 50,000 Km in various States and Union Territories. A total of 49,794 km road length has been sanctioned under this vertical and 49,026 km completed as on 31st December 2024 as per the details given in Annexure-XIII.

Road Connectivity Project for Left Wing Extremism Areas (RCPLWEA)

1.7 RCPLWEA was launched in the year 2016 with the approval of the CCEA with an aim to improve the road connectivity in 44 worst affected LWE districts and some adjoining districts in 9 States, viz. Andhra Pradesh, Bihar, Chhattisgarh, Jharkhand, Madhya Pradesh, Maharashtra, Odisha, Telangana and Uttar Pradesh. The scheme has twin objectives of enabling smooth and seamless anti-LWE operations by the security forces and also ensuring socio-economic development of the area.

1.8 A total of 1,347 roads of 12,227 km length and 705 LSBs have been sanctioned to the nine implementing States against which 9,332 km road length has been completed till 31st December, 2024, as per State-wise details given in Annexure-XIV.

PMGSY-III

1.9 The Government approved PMGSY-III in July 2019 for consolidation of 1,25,000 km Through Routes and Major Rural Links connecting habitations, inter-alia, to Gramin Agricultural Markets, Higher Secondary

Schools, and Hospitals. The implementation period of the Scheme is upto March 2025. The State-wise allocation of targets is at Annexure-XV. A total of 1,21,896 Km Road length has already been sanctioned to 30 States and 87,696 km road length completed till 31st December, 2024 as per the details given in Annexure-XVI.

Vibrant Village Programme (VVP)

1.10 Government of India has approved Vibrant Villages Programme (VVP) as a Centrally Sponsored Scheme on 15th February, 2023 for comprehensive development of the select villages in 46 blocks in 19 districts of abutting northern border in the States of Arunachal Pradesh, Himachal Pradesh, Sikkim, Uttarakhand and UT of Ladakh.

1.11 The programme envisages focused areas of interventions in the select villages for creation of opportunities for livelihood generation through promotion of tourism & cultural heritage, skill development & entrepreneurship and development of cooperative societies including agriculture/horticulture, cultivation of medicinal plants/herbs etc. the interventions also include providing road connectivity to unconnected villages, housing & village infrastructures, energy including renewable energy, television & telecom connectivity. The objective of the programme is to create sufficient incentives for people to stay on in the selected villages.

1.12 Under this programme, habitation data has been integrated into a GIS platform to streamline the process for field engineers to verify the connectivity status of these habitations.

Under VVP, a total of 1,085 Km Road length and 08 bridges have already been sanctioned to Arunachal Pradesh, Sikkim and Uttarakhand as per the details given below:

S. No.	State	Roads sanctioned	Road length sanctioned (In Km)	Bridges sanctioned
1	Arunachal Pradesh	105	1022.36	-
2	Sikkim	03	18.73	08
3	Uttarakhand	05	43.96	-
	Total:	113	1085.05	08

Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan (PM-JANMAN)

1.13 During Budget Speech 2023-24, it was announced to improve socio-economic conditions of the Particularly Vulnerable Tribal Groups (PVTGs). Subsequently, Pradhan Mantri PVTG Development Mission was launched with an aim to saturate PVTG families and habitations with basic facilities such as safe housing, clean drinking water and sanitation, improved access to education, health and nutrition, road and telecom connectivity, and sustainable livelihood opportunities.

1.14 The Union Cabinet approved Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan (PM-JANMAN) with outlay of Rs. 24,104 crore to focus on 11 critical interventions through 9-line Ministries/ Departments. Hon'ble Prime Minister launched the PM JANMAN Mission on Janjatiya Gaurav Divas on 15th November,

2023 with a resolve to reach out to tribal groups and primitive tribes most of whom still dwell in the forests.

1.15 Under PM- JANMAN : Road Connectivity component Road length targeted is 8000 Km with cost norms of Rs. 1.00 crore/km. Timeline for completion of all the activities is 2025-26. However, Provision of funds from DAPST for continuation of the scheme under PMGSY is till March 2028. Till now, Ministry of Tribal Affairs has shared data of 1,868 habitations with the Ministry of Rural Development to address the issues related to road connectivity of these habitations. Under this programme, habitation data has been integrated into a GIS platform to streamlines the process for field engineers to verify the connectivity status of these habitations. The mandate to connect the habitations under PM- JANMAN: Road Connectivity component is given below:

S. No.	State	No. of Districts	No. of Blocks	No. of Villages	No. of Habitations
1	Andaman & Nicobar	1	1	1	2
2	Andhra Pradesh	9	63	246	883
3	Chhattisgarh	16	44	352	736
4	Gujarat	7	11	40	62
5	Jharkhand	14	33	97	106
6	Karnataka	4	12	45	55
7	Kerala	4	8	25	86
8	Madhya Pradesh	16	43	227	276
9	Maharashtra	8	32	164	209
10	Odisha	9	11	21	26
11	Rajasthan	1	4	30	39
12	Tamil Nadu	13	25	66	96
13	Telangana	8	29	90	128
14	Tripura	6	19	61	134
15	Uttarakhand	4	4	5	9
16	West Bengal	4	16	94	107
Total		124	355	1564	2954

1,557 road works of 4,781.44 km length and 05 Bridges have been sanctioned to States under PM-JANMAN till 31.12.2024. Details are as under:

Sl. No	States	No of Roads	Road length (in Km)	No of Bridges	Bridge Length (in m)	Total Cost (Rs. in crore)
1	Andhra Pradesh	206	612.71	0	0	555.54
2	Chhattisgarh	715	2449.095	0	0	1698.92
3	Gujarat	2	1.55	0	0	1.24
4	Jharkhand	41	126.05	1	17.15	113.85
5	Karnataka	40	63.75	2	45.2	55.61
6	Madhya Pradesh	408	1096.015	0	0	836.21
7	Odisha	40	147.87	2	105.7	149.74
8	Rajasthan	38	98.68	0	0	68.86
9	Telangana	25	66.97	0	0	66.86
10	Tripura	42	118.75	0	0	114.32
Total		1557	4781.44	5	168.05	3661.21

PMGSY-IV

1.16 Recently, Government of India has approved Pradhan Mantri Gram Sadak Yojana - IV (PMGSY-IV) to provide all-weather connectivity to eligible unconnected habitations of designated population size (500+ in plain areas, 250+ in North Eastern & Hilly States/UTs, special category areas (Tribal Schedule V, Aspirational Districts/Blocks, Desert areas) and 100+ in LWE affected Districts), as per 2011 census. The scheme will be implemented from financial year 2024-25 to 2028-29 with a total outlay of Rs. 70,125 crore with a target to provide connectivity to 25,000 habitations by constructing 62,500 km all-weather roads.

The guidelines for PMGSY-IV have been finalized by the Ministry on 24.12.2024 and have been shared with State/UT Governments for compliance during planning, execution and monitoring of the scheme. Under PMGSY-IV, to identify the eligible unconnected habitations and alignment thereto, surveys are underway using a mobile application called the “Gram Sadak Survey App”, specifically designed for digital mapping of PMGSY-IV unconnected habitations. The app provides evidence-based verification of unconnected habitations reported by States/UTs. The app was launched on 08.10.2024 by Hon’ble Minister (Rural Development). Presently, survey of eligible habitations under PMGSY-IV is underway and the survey is targeted for completion by 31st January, 2025.

Overall progress of the PMGSY Scheme

1.17 Since inception till 31st December, 2024, 1,56,696 habitations of 250+, 500+ and 1000+ population categories and 6,068 habitations

in 100-249 population category have been provided all-weather road connectivity and a total of 7,70,680 km road length has been completed under various interventions/verticals of the Scheme with an expenditure of Rs. 3,30,454 crores including State share.

2. Funding of the Scheme

2.1 The PMGSY was launched as 100% Centrally Sponsored Scheme. However, subsequently, on the basis of the recommendations of the Sub-Group of Chief Ministers on Rationalization of Centrally Sponsored Schemes the fund sharing pattern of PMGSY was changed in the ratio of 60:40 between the Centre and States for all States except for 8 North Eastern and 3 Himalayan States for which it is 90:10 with effect from 2015-16.

2.2 The position of release of funds for the Programme to the States since the inception is at Annexure-XVII. The expenditure incurred for implementation of the programme since 2015-16 is given at Annexure-XVIII. The Statement of Release of Funds to the States, State/UT-wise since 2015-16 to 2024-25 is given at Annexure-XIX.

3. Salient Features of PMGSY

3.1 Decentralized Planning: The Programme draws upon the model of decentralized network planning for rural roads. The District Rural Roads Plans (DRRPs) have been developed for all the districts of the country and Core Network has been drawn out of the DRRP to provide for at least a single connectivity to each target habitation under PMGSY. For prioritization of the annual project proposals, the Comprehensive

New Connectivity Priority List (CNCPL) and Comprehensive Upgradation Priority List (CUPL) are used. The CNCPL and CUPL have been developed from the Core Network data. This planning exercise has been carried out with full involvement of the three-tier Panchayati Raj Institutions, as well as Members of Legislative Assemblies and Parliament.

3.2 Standards and Specifications: As envisaged in the Programme guidelines, a Manual on Geometric Standards, Design, Construction and Maintenance of Rural Roads was published by the Indian Roads Congress (IRC) at the special intervention of Ministry of Rural Development as Rural Roads Manual IRC SP: 20. Subsequently, IRC has prepared and published the following codes, which help in design of low volume rural roads:

- i. Guidelines for the Design and Construction of Cement Concrete Pavement for Rural Roads (IRC:SP:62-2014),
- ii. Guidelines for the Use of Interlocking Concrete Block Pavement (IRC:SP:63-2004),
- iii. Guidelines for Construction of Roller Compacted Concrete Pavements (IRC:SP:68-2005),
- iv. Guidelines for the Design of Flexible Pavements for Low Volume Rural Roads (IRC:SP: 72-2015), and
- v. Manual for Design Construction & Maintenance of Gravel Roads (IRC: SP:77-2008).
- vi. Guidelines on Tree Plantation Along Rural Roads (IRC: SP: 103:2014).

vii. Guidelines for the use of Waste Plastic in Hot Bituminous Mixes (Dry Process) in Wearing courses (IRC: SP:98-2013).

viii. Use of Cold Mix Technology in Construction and Maintenance of Roads using Bitumen Emulsion (IRC: SP:100-2014).

3.2.1 A Standard Data Book to enable the States to prepare Schedules of Rates based on specifications has also been developed by IRC. The specifications form the part of the contract agreement and the Schedule of Rates developed by States on the basis of prescribed Standard Data Book is being used for preparation of bill of quantities in a uniform manner.

3.2.2 The road geometrics in hill States as well as plain and rolling terrains has been finalized on the basis of the recommendations made by the Expert Committee constituted to review the Standards, Specifications and Design of Rural Roads under PMGSY and communicated to all the States.

3.3 Operations Manual and Programme Monitoring: Programme guidelines have been issued separately for all the ongoing interventions/verticals of the scheme. All the operations under the programme have been systematically laid down in the “Operations Manual” which was published in the year 2005. Operational Manual is intended for day to day use as a comprehensive supplement to the PMGSY Guidelines on procedural aspects of the programme. This manual provides for details of all the processes encompassing Institutional Structures, Planning, Design, Project Preparation, Procurement, Quality,

Technical Agencies, Monitoring, Management of Maintenance, Road Safety, Implementation Responsibility etc.

3.4 Institutional Arrangements: Ministry of Rural Development (MoRD) is the Nodal Ministry for implementation of the scheme (PMGSY) at Central level. National Rural Infrastructure Development Agency (NRIDA) has been constituted to provide technical and managerial support for implementation of the programme at the central level. The State Governments have identified State Nodal Departments and State Rural Roads Development Agencies (SRRDAs) have been constituted for the programme implementation at the State level. Depending upon the workload, Programme Implementation Units (PIUs) are constituted by the States.

3.5 Procurement Process: Based on best national and international practices, a Standard Bidding Document (SBD) has been developed for procurement of works under the PMGSY. All the works under the Programme are being procured and managed on the basis of provisions of the SBD. To ensure transparency and harness various advantages of electronic tendering, entire bidding for procurement of works under the programme is being carried out only through e-procurement process. The States are advised to use www.pmgstenders.gov.in (GePNIC website) to streamline and create a single database for tendering of all PMGSY works. Revision of Specifications for Rural Roads and Standard Data-book for Analysis of Rates has also been accomplished by IRC.

3.6 Detailed Project Reports (DPRs) and Scrutiny: As an important step to achieve quality

output for each road under the Programme, proper survey and adequate investigations are stipulated. A Detailed Project Report (DPR) is a pre-requisite for project clearance. Independent scrutiny of the project proposals to ensure that the project has been formulated as per the guidelines is carried out by the prominent institutions of Engineering and Technology in the country, identified as State Technical Agencies (STAs). Ministry has also identified reputed Technical and Research Institutions such as the Indian Institutes of Technology (IITs) as Principal Technical Agency (PTAs) for various groups of States, which scrutinizes at least 10% of the STA scrutinized proposals on sample basis.

3.6.1 The proposals are thereafter scrutinized by the technical experts in NRIDA. The proposals are then submitted for scrutiny in a Pre-Empowered Committee Meeting chaired by the Director General, NRIDA and attended by representatives of the State Government. In case all required documents are complete and there is no major capacity or institutional deficiency, and data in **Online Management, Monitoring and Accounting System (OMMAS)** has been found to be satisfactory, the proposal is placed before the Empowered Committee chaired by the Secretary, Department of Rural Development. The recommendations of the Empowered Committee are submitted to the Minister of Rural Development and in case the proposals meet the programme requirements, the same is sanctioned.

3.6.2 Thus, the proposals submitted by the State Government are scrutinized at every level with due diligence and only those proposals, which are technically correct

and meet the programme requirements are sanctioned.

3.7 PMGSY-III heavily relies on technology for planning and selection of roads. The initial survey of rural facilities is conducted through the GEO-PMGSY app where geo-tagged photographs of facilities such as schools, hospitals are captured. The facilities data combined with the GIS based DRRP is then used to create “Trace Maps” which highlight routes which are commonly used by villages to access their basic necessities of agriculture, health, education and administration. “Trace Maps” is a custom algorithm developed by

NRIDA which traces the shortest paths from each village to its nearest rural facilities. The algorithm utilizes existing GIS data, facility data and open source tools such as Quantum Geographic Information System (QGIS) & Geographic Resources Analysis Support System (GRASS). These maps are to be used as a suggestive tool for the District PIUs to identify the most suitable roads for upgradation in PMGSY-III.

A trace map of Kusumi block of Mayurbhanj district in Odisha used for planning of PMGSY-III proposals is given below as an example.

An image showing planning Audit of Proposals using Satellite Imagery in QGIS for Telangana is given below.

4. Role of Public Representative in Planning and Selection of roads

4.1 PMGSY Guidelines provides key role to the public representatives and Hon'ble Members of Parliament in the implementation of the programme including selection and construction of roads. Consultation with Members of Parliament is provisioned at both the DRRP finalization and Annual Proposals stages. In addition, at the stage of preparing DPRs, the DPIU conducts a transect walk along the road alignment, involving the local panchayat. State Governments are required to arrange joint inspection of ongoing as well as completed works under PMGSY by Hon'ble MPs, Hon'ble MLAs and representatives of

Panchayati Raj Institutions.

4.2 Some important provisions of PMGSY-III guidelines, which provide detailed procedure for consultation with the Members of Parliament during the process of planning and selection of roads, are detailed below:

Para 3.6 The suggestions given by the Members of Parliament are to be given full consideration while finalizing the District Rural Roads Plan (DRRP).

Para 5.5 The Annual proposals will be based on the CUCPL following the Order of Priority (subject to PCI). However, it is possible that there are inadvertent errors or omissions, particularly in the selection of

Through Routes. Accordingly, it is desirable to also associate public representatives while finalizing the selection of road works in the annual proposals. The proposals of the Members of Parliament are required to be given full consideration, for this purpose:

- i. The CUCPL should be sent to concerned MPs with the request that their proposals on the selection of works out of the CUCPL should be sent to the District Panchayat. It is suggested that at least 15 clear days may be given for the purpose.
- ii. In order to ensure that the prioritization has some reference to the funding available, the size of proposals expected may also be indicated to the Members of Parliament while forwarding the CUCPL list to them. District wise allocation may be indicated to enable choice with the requisite geographical spread. It is expected that such proposals of Members of Parliament which adhere to the Order of Priority would be invariably accepted subject to consideration of equitable allocation of funds and need for upgradation.
- iii. The proposals received from the Members of Parliament by the stipulated date would be given full consideration in the District Panchayat which would record the reason in each case of non-inclusion. Such proposals that cannot be included would be communicated in writing to the Members of Parliament with reasons for non-inclusion of such proposals in each case. It would be preferable if the communication is issued from the Nodal Department at a senior level.

Para 7.1 After approval by the District Panchayat, the proposals would be forwarded by the PIU to the SRRDA. The PIU will at that time prepare the details of proposals forwarded by the Members of Parliament, and action taken thereon, in Proforma MP-I and MP-II and send it along with the proposals. In all cases where the proposal of an MP has not been included, cogent reasons shall be given based on the reasons given by the District Panchayat.

Para 7.3 The State Level Standing Committee (SLSC) would scrutinize the proposals to see that they are in accordance with the Guidelines and that the proposals of the Members of Parliament have been given full consideration.

4.3 In order to ensure that the State Government give due attention towards this aspect of the guidelines while submitting the proposals to the Ministry of Rural Development for sanction, the Ministry has issued a fresh advisory to the States on 2nd June, 2020. The State Governments have been advised, inter-alia, to communicate the final list of proposals in the order of priority to the Member of Parliament with the reasons for non-inclusion of certain roads in the proposals and incorporate their recommendations with the proposals sent to NRIDA/Ministry for approval.

5. Outcome Targets and Achievements

5.1 In year 2005-06, Outcome Budget laid down targets in terms of numbers of habitations connected and road length (in km) completed.

The Year-wise targets and achievements since then are given below:

Year	Annual Target		Achievement	
	No. of Habitations to be connected	Road length (km)	No. of Habitations connected	Road length (km)
2005-06	7895	17454	8202	22891
2006-07	9435	27250	10801	30710
2007-08	12100	39500	11336	41231
2008-09	18100	64440	14475	52405
2009-10	13000	55000	7877	60117
2010-11	4000	34090	7584	45109
2011-12	4000	30566	6537	30995
2012-13	4000	30000	6864	24161
2013-14	3500	27000	6560	25316
2014-15	4688	21775	10799	36337
2015-16	10177	33649	7658	36449
2016-17	15000	48812	11980	47447
2017-18	15000	51000	11546	48719
2018-19	15000	57700	10482	49042
2019-20	9721	500097	4156	27302
2020-21	3273	46164	2588	36674
2021-22	2025	50000	1215	42003
2022-23	1736	47171	620	29738
2023-24	1074	38000	231	26,099
2024-25 (31.12.2024)	-	50754	105	10,196

6. Quality Management Mechanism under PMGSY

6.1 PMGSY envisages a three tier Quality Assurance Mechanism to ensure quality of road works during construction. The first two tiers of the structure are the responsibility of the respective State Governments and under the third tier, NRIDA engages independent National Quality Monitors (NQMs) for inspections at random, of the road works under the programme.

6.2 Ensuring the quality of road works is primarily the responsibility of the State Governments who are implementing the programme. NRIDA has issued general guidelines and prescribed quality assurance handbooks to regulate the quality control process at works level. Guidelines have also been issued for inspections of works by independent monitors under the second and third tier of the quality assurance mechanism. To make the inspections trustworthy, it is

being ensured that independent monitors at the second and the third tier take at least 10 digital photographs including one of the field laboratories for ongoing works, for each work and upload it on OMMAS website to facilitate public viewing of quality of road works executed under the programme. Based on the experience gained, these guidelines have been reviewed and revised from time to time.

6.3 Under the **1st tier** of quality control mechanism, the quality standards are enforced through in-house mechanism by establishing field laboratories and carrying out mandatory tests. In addition, to augment the field laboratories for non-frequent tests, State and district laboratories have been promoted in all States. As per the Programme Guidelines, a site quality control laboratory has to be set up by the contractor for each package. Payments are not made to the contractors unless quality control laboratory has been set up and all relevant tests have been found satisfactory.

6.4 Under the **second tier**, independent monitoring of quality at the State level has been prescribed under the control of SRRDA. The SRRDA is required to monitor the quality of works by deploying State Quality Monitors (SQMs), independent of the implementing units and upload the abstract of quality grading along with photographs in OMMAS. These quality monitors check the establishment of field laboratories also. As per guidelines, each road work is inspected by the State Quality Monitors at three different stages. The first two inspections of every work should be carried out during the execution of work spaced at least three months apart

and the last inspection should be carried out on the completion of every work, as soon as possible but preferably within 4 months of completion of the work.

6.5 The **third tier** of the quality mechanism is an independent monitoring system at the central level. Under this tier, retired senior engineers termed as National Quality Monitors (NQMs) are engaged for inspections of road and bridge works. Works for inspection are selected through Auto Schedule Module. The basic objective of this tier is to identify issues in quality assurance mechanism of the State. Also, these provide on-site guidance to field staff for better understanding of specifications and good construction practices. State-wise number of NQM and SQM Inspections conducted during Financial Year 2024-25 are given at Annexure – XX.

6.6 The NQM grades the work inspected in three categories viz. Satisfactory(S), Satisfactory Requiring Improvement (SRI) and Unsatisfactory (U). The States are required to send Action Taken Reports (ATRs) in respect of works graded as ‘Satisfactory Requiring Improvement’ and ‘Unsatisfactory’ by the NQMs during their field inspections. Unsatisfactory % based on NQM and SQM Inspections during April, 2022 to 30th November, 2024 are given at Annexure – XXI(A) and XXI(B) respectively. These ATRs are further processed at NRIDA and a decision about grade improvement is taken based on documentary proof including photographs of road work and recommendation of the SRRDAs. The entire exercise of submission of ATRs by the States and taking of action on these ATRs has now been facilitated in the form of an “online process” on OMMAS.

7. Maintenance Management of Rural Roads

7.1 A mandatory provision for five years post construction maintenance contract along with the rural road construction contract had been introduced from the year 2003 to ensure sustainability of the road assets created under the Programme. Considering the fact that the maintenance activities had not received due attention in States, a mechanism has been evolved wherein the release of programme funds to the States has been made contingent upon release of maintenance funds by the respective State Governments to the SRRDAs. A provision has also been incorporated in OMMAS to monitor the credit of maintenance fund as per commitment of the State and expenditure on each road. States are also being encouraged to put in place a State Specific Rural Roads Maintenance Policy (RRMP). NRIDA in collaboration with ILO has prepared a Policy Framework for framing rural roads maintenance policy. The Policy Framework along with a guidance note has been shared with the States in order to adopt and notify Rural Roads Maintenance Policy at State level. The policy and guidance note are helpful for the rural road agencies of the States to have a clear understanding about rural road maintenance and sustainability of rural roads network. So far, all States/ UTs except Goa, Andaman & Nicobar Islands, Puducherry and Ladakh have prepared their Rural Roads Maintenance Policies.

7.1.1 Roads are being constructed, maintained & repaired as per the specification laid down in MoRD Specifications for Roads & Bridges published by IRC 2014. As a measure of further enhancing the focus on maintenance of roads during the defect liability period and also streamlining the delivery of routine maintenance

of PMGSY roads, MoRD has implemented the Electronic Maintenance of Rural Roads under PMGSY (eMARG) in all States. eMARG came into operation on 2nd December, 2024 as a simple yet an extremely effective solution to problems related to maintenance of rural roads. Details of eMARG are in para 12.3.

7.2 Dedicated Maintenance Funds and their Management

The States are expected to set up dedicated funds for maintenance by transferring funds from various sources – Government budget, grants recommended by the Finance Commission, any additional levies like cess on agricultural produce, mining, additional sales tax on petrol and high speed diesel, etc.

7.3 Planning of maintenance works

A simplified maintenance planning and management system is to be instituted by each State for carrying out inventory and visual condition surveys of the entire rural road network. Database is available on OMMAS and to be shifted on GIS platform also. The concept of Pavement Condition Index (PCI) and annual recording of PCI values has already been introduced for PMGSY roads.

8. National Rural Infrastructure Development Agency (NRIDA)

The National Rural Infrastructure Development Agency (erstwhile National Rural Roads Development Agency) was set up on 14th January, 2002 under the Society's Registration Act, 1860 (Act XXI of 1860) as an Autonomous Body under the aegis of the Ministry of Rural Development. The Agency is fully funded by the Government of India. The basic objective of the Agency is to extend technical and managerial support to the Government of India in implementation of Central Sector Schemes; namely Pradhan Mantri Gram Sadak Yojana (PMGSY) and Pradhan Mantri Awas Yojana (Gramin), NRIDA contribution to PMGSY Scheme through giving advice on technical specifications, projects appraisal, appointment of part time quality control monitors, management of monitoring systems and submission of periodic reports to the Ministry of Rural Development. It is a compact, professional and multi-disciplinary body. NRIDA is governed by its Memorandum of Association, Rules & Regulations and Bye – Laws. Hon'ble Minister of Rural Development is the Chairperson of the General Body of NRIDA. NRIDA is a purely technical organization as mentioned above having personnel from various specialized fields like Engineering, Accounting, quality control etc. Various technical institutes like IITs are also assisting in implementation of PMGSY as PTA/STAs.

8.1 Some of the important objectives of NRIDA, as per its MoA are as under

(I) For Rural Roads

- a. To discuss with different Technical

Agencies and arrive at appropriate Designs and Specifications of Rural Roads and, thereafter, to assist the Ministry of Rural Development in prescribing the Designs and Specifications of Rural Roads, including Bridges and Culverts.

- b. To determine the tasks to be performed by the Principal Technical Agencies and State Technical Agencies.
- c. To appoint reputed Technical Institutions as Principal Technical Agencies and State Technical Agencies to perform the tasks to be entrusted to them.
- d. To render assistance to States or Union Territories in preparing District Rural Roads Plans.
- e. To scrutinize or arrange to scrutinize the proposals received from States and Union Territories for consideration by the Ministry of Rural Development.

(II) For Rural Housing

- a. To act as Special purpose Vehicle for receiving financial assistance from NABARD and distributing it to the States based on the fund gap vis-à-vis the target communicated by the Ministry.
- b. Assist States in development of Annual Action Plan and follow-up on the decisions taken during the meeting of Empowered Committee to finalize the Annual Action Plan.
- c. Working with agencies such as UNDP, IIT, etc. and also assist States for the development of State wise housing design typologies including Plan, Elevation, and

Estimates appropriate to different regions.

- d. Assist the centre and States in implementing masons' training programme.
- e. Support the States in identifying State Technical Support Agencies and conduct orientation and refresher training for them and other State level technical personnel.

8.2 PMAY-G funding and multilateral funding for PMGSY

NRIDA is also the Nodal agency on behalf of the MoRD to avail loan from NABARD under PMAY-G as per the approval of Union Cabinet. In addition, NRIDA is MoRD's vehicle for availing funding from multilateral bodies like Asian Development Bank and World Bank for the purpose of funding the PMGSY programme.

8.3 PMGSY Project monitoring

NRIDA has the extensive technical role in implementation of PMGSY scheme across the country. It provides technical support, rural roads technology development, R&D in roads construction, selection and use of environmental friendly road construction technology, sustainability of rural road technical design etc. NRIDA is closely involved in monitoring thousands of road works sanctioned through various IT tools like GIS, development/updation of rural core network and various activities. Such technical solutions and development requires a dedicated agency at apex level. While sanctioning road works and bridges, NRIDA team consisting of engineers analyzes proposals in detail and, as can be seen from the past records, NRIDA team with due technical diligence

contributed immensely in saving crores of rupees by rationalizing the design as well as selecting roads as per technical evaluation of traffic, importance of facilities connected, the importance of road in terms of facilities it is connecting etc. This has been possible with the team NRIDA dedicatedly working for such IT solutions in consultation with States and giving each State extensive training and knowledge for such solutions.

8.4 Quality Monitoring

NRIDA has role in monitoring third tier of Quality control through National Quality Monitors. The first tier of quality control and second tier of State Quality monitoring by States is overseen by NRIDA to ensure that the quality control mechanism is working at the site and quality assurance system is established.

8.6 Project Scrutiny and Clearance

8.6.1 Selection of Roads

Under PMGSY-III, District Rural Roads Plan is the basis for selection of roads. The existing DRRP prepared for PMGSY-I and PMGSY-II could be revised and updated incorporating new construction and improvements of the surface type and condition of the roads as of 2018 or later when the State comes for sanction of projects on the basis of addition/upgradation of roads under various schemes of the Central and State Governments. Such updating of DRRP, may be carried out every alternate year, incorporating the surface condition of all roads and any new alignments developed under various schemes of the Central and State Governments.

The DRRP would first be prepared at the Block level taking into consideration the Census data of 2011 and in accordance with the directions contained in the Operations Manual of PMGSY-I.

The Draft DRRP, including the existing road network, identified Through Routes/Major Rural Links and initial candidate roads will be uploaded on OMMAS and linked with the GIS platform. This is a mandatory requirement under PMGSY-III, as the finalization of DRRP, selection of candidate roads and clearance of proposals will be based on verification of alignments using GIS.

While developing DRRP on GIS platform (Geospatial Rural Road Information System) as an add-on layer to the GIS, an inventory of local and marginal materials for road works would also be created to encourage use of such materials to facilitate cost-effective construction the State shall place the DRRP before the Intermediate Panchayat for consideration and approval. It would be simultaneously sent, along with the list of all candidate Through Routes/Major Rural Links to the Members of Parliament (MPs), for their comments.

After approval by the Intermediate Panchayat, the Plans would be placed before the District Panchayat for its approval. It will be incumbent on the District Panchayat to ensure that the suggestions given by the Members of Parliament are given full consideration within the framework of these Guidelines. Once approved by the District Panchayat, a copy of the DRRP would be sent to the State Level Standing Committee (SLSC). The State shall finalize the draft DRRP

uploaded on OMMAS. No road work shall be included in the CUCPL unless it forms part of the approved DRRP.

The roads selected under PMGSY-III are expected to be mainly Through Routes. Roads catering to large populations by connecting habitations over a large area and which act as collectors of traffic from smaller roads, would be treated as Through Routes. All Through Routes/Major Rural Links in a Block will be identified and numbered during the preparation of the road inventory with the help of Trace Maps. The State may calculate the Utility Value of all these identified through routes for selection in Candidate Roads if they meet the objectives of PMGSY-III.

“Trace Mapping”: For the purpose of planning and optimal selection of candidate routes or identification of Major Rural Links/Through Routes, the State/PIU would trace the route from each habitation in a Block to the nearest mandi/health/education facilities on a map to identify routes which are common to maximum habitations in their approach to their respective nearest facilities. The Utility Value (UV) of unit road length needs be computed by arriving at the cumulative line score of the road divided by its proposed length for upgradation. Thus the utility value is the line score per unit length. The candidate roads are to be selected by trace mapping.

The candidate roads would be arranged in descending order based on the utility values to arrive at the priority list for the district considered. When two or more candidate roads are found to have the same utility

values, the road serving more population should be given preference. It would be necessary to also keep track of inter block or inter district roads having potential and such roads would also become candidate roads. It is likely that both segments will have high utility and it is preferable if the entire length is included in one go.

The Comprehensive Upgradation cum Consolidation Priority Lists (CUCPL) will be prepared District-wise. The roads will be ranked by utility value, District-wise. Annual proposals will be made from this list in order of ranking, subject to qualifying the PCI. The CUCPL shall be revised on 31st March each year based on latest weighted average PCI. The candidate roads shall be preferably of length not less than 5 kms. The CUCPL will be verified on the ground on sample basis through the STAs and the NQM/SQM system before it is processed for further approvals. The STAs will undertake 100% verification of the List for consistency check on the basis of the PCI data furnished by the District and also sample ground checking. The Detailed Project Reports (DPRs) are prepared by the States and after approval by the State Technical Agencies are forwarded to NRIDA.

8.6.2 Field visit of NRIDA Team

Detailed Proposals uploaded are analyzed from the proposals analysis sheet downloaded from OMMAS. Sample DPRs, 15% for scrutiny at NRIDA and 10% DPRs for scrutiny by PTA are shortlisted which are found to be outliers using smart software developed by NRIDA. After technical scrutiny of such DPRs, States are advised to correct/ revise the DPRs to economize the provisions wherever it is felt necessary. Also, NRIDA technical team along with NQMs visit the State to further verifying the DPRs by making field visits to check the provisions in the high-cost proposals and suggest for modifications, if required to economize the cost. Due to such exercise, the cost of the proposal is revised by the State as a result of which substantial savings in cost has been achieved.

After above compliances, the proposals are placed before the Pre-Empowered committee. After submission of substantial compliance to the observations of Pre EC by State Governments, these scrutinized proposals are placed before the Empowered Committee for consideration. The details of the saving done in PMGSY-III projects are given below:

PMGSY-III - State-wise cost saving in 2019-20

Sl. No.	State	Sanctioned Year	No of Road Works	Total Road Length (in km)	Pre-EC Average Cost (Lakhs/ km)	Sanctioned Average Cost (Lakhs/km)	Reduction in Cost after scrutiny of proposals (Rs. in crores)

Total		855	6590.53	83.46	79.73	246.37

Apart from this, considerable amount of savings have also been made in clearance of PMGSY-I and RCPLWEA projects.

9. Capacity Building

NRIDA has been entrusted a role for capacity building to States/UTs implementing PMGSY. For which NRIDA is continuously engaged with educational institutions, technical bodies like IRC, CRRI, IITs, NITs, other engineering colleges etc. The extensive training support on technical designs, project management, contracting, contract management has resulted in to optimizing efforts at all levels, ensuring standardization across the country and development of technical expertise.

9.1 Training

Training of State officials engaged in the execution of PMGSY is of utmost importance. The training covers various areas of program implementation including guidelines, planning, procurement, design and construction of pavements & bridges, New Technologies (Full Depth Reclamation, Surface Dressing, Thin White topping - Cell Filled Concrete and Panelled Cement Concrete) and Road Safety Level - I & II. For capacity building of personnel implementing PMGSY, training programs have been organized by NRIDA at National Level Institutions like Indian Academy of Highway Engineers (IAHE), Noida, Central Road Research Institute (CRRI), New Delhi, and also at Indian Institute of Technology (IITs)/ National Institute of Technology (NITs) & other State level institutions. During Annual Year 2024 (From 1st January 2024 to 31st December 2024), a total of 1338 officers involved in PMGSY have been

provided offline training. The details have been given in the Annexure - XXII.

9.2 On boarding to iGoT-Karmayogi Platform

The National Programme for Civil Services Capacity Building (NPCSCB) - Mission Karmayogi aims to create a competent civil service rooted in Indian ethos, with a shared understanding of India's priorities, working in harmonization for effective and efficient public service delivery. The Mission seeks to keep the civil service at the center of all change, empowering them to deliver in challenging environments. The focus of NPCSCB is also on enhancing the government-citizen interaction, with officials becoming enablers for citizens and business, with development of Behavioural-functional-domain competencies leading to ease of living and ease of doing business.

Karmayogi Bharat, the SPV constituted under Mission Karmayogi has set up the iGOT Karmayogi Portal which now has over 40 lakh users from various Government Departments. National Rural Infrastructure Development Agency under Ministry of Rural Development is preparing various course modules related to PMGSY Schemes. The work orders for the development of four new course modules, in accordance with the revised CBC guidelines, has been issued to empanelled firms. Of these, one course on Cell Filled Concrete has been uploaded on iGOT & Course on Panelled Cement Concrete has been submitted to iGOT portal and pending for approval by iGOT by January 2025 while two more courses on Full Depth Reclamation for Rehabilitation of Low Volume Roads and Cold Mix Technology are in preparation process.

10. New and Green Technology

10.1 In order to promote cost-effective and fast construction technologies in the construction of rural roads, using New materials/Waste materials/Locally available materials, NRIDA has issued 'Guidelines on Technology Initiatives', in May 2013. The States were asked to propose at least 10% of the length of annual proposals using any of the new technologies, for which specifications of Indian Roads Congress (IRC) are already available and an additional length of 5% of annual proposals with any of the new technologies for which specifications of Indian Roads Congress are not available, including materials accredited by IRC.

10.2 Vision Document on New Technology Initiatives & Guidelines-2022

In order to promote further on large scale adoption of New/ Green Technology in rural roads in a much systematic manner, NRIDA has revised the above guidelines and brought "Vision Document on New technology initiatives guidelines-2022".

Under New Technology Vision (NTV) 2022, the following guidelines shall be applicable under PMGSY for surface course:

- a. Compulsory use of waste plastic in at least 70% length out of the eligible proposed length involving Hot Mix process.
- b. Universal use of Mechanized Surface Dressing (MSD) in T-1 to T-5 category of roads. From T-6 to T-8 category of roads, minimum 50% of length shall be taken under MSD. Surface Dressing can also be done with cold mix technology.

- c. Cold Mix Technology shall be used in minimum 25% of the total eligible proposed length. The use of cold mix technology shall be prioritized in climatically suitable areas.

Following guidelines shall be applicable for base course, sub-base course and sub-grade

- a. At least 50% of length of the proposal shall be constructed utilizing new/green technologies/materials.
- b. Each State shall promote two new innovations.
- c. 100% proposed length under Cement Concrete shall be constructed using thin White topping (Paneled cement concrete) or Cell Filled Concrete. Only in exceptional cases Pavement Quality Concrete (PQC) shall be used.
- d. In cases where pavement cost is high due to factors, such as non-availability of aggregate, leading to high transportation cost or unacceptable quality parameters of aggregate, FDR shall be preferred as methodology of construction with advanced equipment and machineries by using stabilization technology so as to attain cost economy, better compaction, quality and durability
- e. In areas near thermal power plants, fly ash shall be used in Cement Treated Base (CTB) and embankments in adequate quantity.
- f. In areas near steel plants, slag shall be used in subbase course, base course and embankments in adequate quantity.

- g. Construction and demolition (C&D) waste, duly processed, shall be used in subbase/base course in at least 10% of the proposals.
- h. Jute -Geo textile/Coir and similar such locally available materials shall be used for slope protection in hilly areas and other areas, where improvement of characteristics of sub-grade, embankments, shoulders etc. may be required

10.3 Initiatives under New Technology

Following initiatives have also been taken up earlier by Ministry to promote the use of new technologies:

- i. After reviewing the progress of implementation of New Technologies and non-conventional materials in the construction of PMGSY roads, Ministry has set the annual targets of 15,000 km among the States during 2024-25. A road length 10,164 km has been constructed using new technologies against the targeted length of 15,000 km. These Technologies are environment friendly and either they do not need additional costs or require very little additional cost over and above sanctioned cost.
- ii. States may send proposals for switching over from conventional methods to waste plastic /cold mix technology or any other new technologies for the already sanctioned proposals as per the guidelines of NTV 2022.
- iii. States are requested to adopt soil stabilization techniques where CBR is below 3 and STAs ensure that appropriate

soil stabilization techniques have been proposed as per the guidelines of NTV 2022.

- iv. The States have been advised to take up pilot projects using any of the materials/ technologies accredited by IRC, in their annual proposals as per the guidelines of NTV 2022.
- v. Some of the STAs have been requested to conduct life cycle Performance assessment of roads constructed using Waste Plastic /Cold Mix technology. IIT, Chennai has been identified as a Principal Agency to oversee the study with partner organizations. The study has been concluded and the preparation of guidelines based on the outcomes of the study has been prepared by the Experts and the same will be shared with the SRRDAs, PIUs and all the stake holders involved in PMGSY.
- vi. On the basis of IRC:SP-72:2015 clause 7.3.3 Surface Dressing is both suitable and economical for low traffic volume conditions, as borne out by its popularity in several countries abroad. In all cases of Traffic categories T1 to T5, surface dressing should be preferred as Bituminous surfacing. States are requested to adopt Surface Dressing as Bituminous surfacing.

10.4 MoRD has introduced in the Uttar Pradesh, one of the latest methodologies in the field of road construction called as Full Depth Reclamation (FDR). FDR involves recycling existing bituminous pavement and its underlying layers into a new base layer through a prescribed process which is pulverizing

existing pavement (wearing course, base, and sub-base), blending with cementitious agent, water, corrective aggregates (if needed) as per mix design to produce a cementitious stabilized base. It is a sustainable technology for pavement rehabilitation, least cost alternative, and thinner surface course. It increases the structural capacity of new pavement by providing a stronger and more consistent base. Ministry has sanctioned a total of 10,197 km length to the State of Arunachal Pradesh, Assam, Bihar, Himachal Pradesh, Jharkhand, Kerala, Maharashtra, Madhya Pradesh, Meghalaya, Mizoram, Nagaland, Odisha, Punjab, Tripura and Uttar Pradesh under FDR. Many other States including NE States are also proposing road length for construction by FDR technology. Moreover, a detailed guideline has been issued by Ministry regarding use of FDR for rehabilitation of low volume rural roads under PMGSY.

Road length sanctioned and completed using FDR Technology (till 31.12.2024) are given as under:

Sl No.	State	Road length sanctioned (in km)	Road length Completed (in km)
1	Arunachal Pradesh	40	
2	Assam	446	
3	Bihar	256	
4	Himachal Pradesh	643	10
5	Jharkhand	1010	
6	Kerala	317	
7	Madhya Pradesh	21	
8	Maharashtra	162	5
9	Meghalaya	109	14
10	Mizoram	165	
11	Nagaland	477	
12	Odisha	75	7
13	Punjab	410	
14	Tripura	237	
15	Uttar Pradesh	5829	3614
	TOTAL	10197	3650

10.5 Technology wise cumulative road length sanction and completion till 31.12.24 is given as under:

Technology	Length Sanctioned In km	Length completed km
Waste Plastic/ CMR bitplast wet process	55399	40350
Cold mix	30304	24043
FDR	10197	3650
Panelled CC/ White topping	8285	4974
CC Block	3918	3603
Cell filled concrete/Cell filled concrete with ICBP	3785	3178
Cement / without FDR(Cement Stabilization)/ commercial Stabilizers	22095	17471
Coir /Jute/Geotextile	1841	1454
RCCP/ RCCP With Fly Ash	1178	1213
Iron/Steel/Copper Slag/ Processed steel slag/Gravel with slag	1291	865
Gabion Wall	1144	695
Subgrade stabilization with - Lime/Fly ash embankment/fly ash subgrade/ Marble slurry etc	2201	1764
Bitumen stabilization/ Mechanical stabilization/barium carbide	1094	1042
Bio Engineering	247	98
Surface dressing/ MSD	11466	6829
Mixed Seal Surface/ Bituminous concrete	7058	688
Others	2378	1895
TOTAL	163881	113812

11. Executing Machinery

The projects under the Programme are executed by the State Governments through their agencies i.e. SRRDA for monitoring, financial management and coordination at the State Level and PIUs for programme implementation at the district level. Further, in five States viz. Bihar, Jharkhand, Odisha, West Bengal and Tripura, Nominated Executing Agencies (NEAs) were also engaged to augment the execution capacity of the States. However, the Government of Bihar, with the approval of the State Cabinet decided to take over the construction as well as maintenance of the balance pending road works/ongoing maintenance constructed/maintained by NEAs. The details of institutional arrangements as envisaged in the Programme Guidelines are as under:-

- i. A SRRDA or similar body with distinct legal status, to receive PMGSY funds and act as nodal point for rural road sector policy and management.
- ii. Implementation arrangements overseen at State Level by officers of the SRRDA including Chief Executive Officer (CEO), State Quality Coordinator (SQC), Financial Controller, Empowered Officer, Information Technology Nodal Officer (ITNO), etc.
- iii. PIUs at Division/District Level for Managing the Programme are accountable to the SRRDA.
- iv. Arrangements for effective management includes: -
 - Online Management, Monitoring and

Accounting System (OMMAS)

- Quality Management
 - Transparent tendering using Standard Bidding Document
- v. Single Nodal Bank Account (SNBA) for 'Programme', 'Administrative' and Maintenance (incentive money only), to be managed centrally by the agency and operated by the PIUs. A separate bank account for Maintenance (except incentive) is to be operated. Also Two separate bank accounts for statutory deduction i.e Holding of Account and Security deposit Account are also to be opened.
 - vi. State Level Standing Committee including all the main stakeholders of the Programme viz., Secretaries of the Departments of Rural Development, Panchayat, PWD, Forests, Finance, Revenue and Transport, State Technical Agencies, State Informatics Officer etc. to monitor progress, quality etc.

12. Monitoring Mechanism under PMGSY

12.1 On-Line Management, Monitoring and Accounting System

In order to effectively monitor the entire programme and bring about greater efficiency, accountability and transparency in implementation, a modern web based On-line Management, Monitoring and Accounting System (OMMAS) has been set up for PMGSY. The main Application Software Modules include Rural Road Plan & Core Network, Proposals, Tendering & Contracting, Execution (Physical and Financial Progress), Quality Monitoring, Funds Flow and Receipt

& Payment Accounts (work accounts). The web site is www.omms.nic.in. e-Payment and e-Procurement are the new dimensions being integrated to it.

12.2 Citizen Information Boards

Citizen Information Boards and Work Information Boards are displayed in local language at prominent locations on PMGSY roads, in the benefited habitations indicating details of work and volume of materials used in each layer of the pavement. A new development is the provision of a “Maintenance Board” providing necessary information to the citizens about the provisions of 5 year maintenance of PMGSY roads.

12.3 Inspection of PMGSY works by Public Representatives

State Governments have been advised to arrange joint inspection of ongoing as well as completed works under PMGSY by Hon’ble MPs, Hon’ble MLAs and representatives of Panchayati Raj Institutions.

12.4 “Meri Sadak” App for grievance redressal

12.4.1 MoRD launched a Mobile App for PMGSY roads, “Meri Sadak” on 20th July 2015 and integrated into OMMAS for user friendly and transparent Citizen Feedback and complaint redressal system. The citizens can attach up to 3 photographs of the road as well as complaint/feedback with maximum of 1000 characters. This application can be downloaded free of cost from Google Play Store and the OMMAS website (<http://omms.nic.in>).

12.4.2 Meri Sadak mobile application has been localized in Indian Languages and

available in Hindi, English, and Odia.

During 2024-25 (from 01.01.2024 to 31.12.2024), a total 17,656 PMGSY complaint/feedback received through “Meri Sadak” Mobile App. During this period, final reply for 13,598 complaints and interim reply for 4,038 complaints have been provided to the complainants. The State wise details of the complaints received and disposed off are given at Annexure-XXIII.

12.5 Centralized Public Grievance Redressal and Monitoring System (CPGRAMS)

12.5.1 Centralized Public Grievance Redressal and Monitoring System (CPGRAMS), which is accessible through <http://pgportal.gov.in> is an important tool of Government to strengthen the two-way communication with citizens for effective and time-bound monitoring and implementation of programme & schemes at the ground level.

12.5.2 At the start of the year 2024-25, 207 grievances were pending and during the period from January 2024 to November 2024, 3,975 grievances were received through CPGRAMS portal. Out of a total of 4,182 grievances, 4024 were disposed of till 31.12.2024 on the basis of action taken reports (ATRs) received from the respective States.

12.6 Monitoring through Review Meetings, etc

The progress of implementation of PMGSY is regularly reviewed by way of Review Meetings, Performance Review Committee (PRC) Meetings & Pre-Empowered/ Empowered Committee Meetings with the States. In Review Meetings, aspects relating

to Planning, Project Preparation and Scrutiny, Procurement and Contract Management are discussed in detail. The aspects of quality receive the topmost priority for monitoring and separate sessions are organized to discuss these issues. The meetings of Empowered Committee chaired by the Secretary (RD) are also utilized as a forum for detailed review of the programme implementation in various States. The Minister (RD) reviews the programme at regular intervals encompassing planning, progress of implementation, quality, maintenance, funds availability etc. In addition to this, special review meetings/ monthly review meetings are also held by Secretary/ Additional Secretary/Joint Secretary, Ministry of Rural Development with Chief Secretaries/ Additional Chief Secretaries/Principal Secretaries/Chief Executive Officer-SRRDAs of the States.

13. IT Initiatives under PMGSY

13.1 Application of Space Technology in Rural Road Projects under PMGSY (Use of Satellite imageries in the monitoring of PMGSY)

13.1.1 The project “Use of Geo-informatics in Rural Roads Project under PMGSY” focuses on using identify and verify the length of the roads constructed under PMGSY scheme and the habitations connected thereof. NRIDA, MoRD has signed an agreement with National Remote Sensing Centre (NRSC), Center for Geo-Informatics Application in Rural Development (CGARD), School of Science, Technology & Knowledge System and National Institute of Rural Development & Panchayati Raj (NIRD & PR). Initially, the timeline of the project was 2 years (upto

March, 2019), which was extended upto 31st December, 2022.

13.1.2 CGARD, NIRD & PR has been assigned a target of 1.70 lakhs km across 15 States. Similarly, NRSC has been assigned a target of 2.65 lakhs km across 13 States and 2 Union Territories. As on 31.12.2021, CGARD, NIRD & PR has completed mapping and ground truthing for the length of 1,71,243 km (100%+). Similarly, NRSC has completed mapping ground truthing for the length of 2,69,510 kms (100%+). The report as submitted by CGARD and NRSC was uploaded on BHUVAN The training of the said module has been provided to all the States on 07.11.2022 and State Admin and district wise logins have also been provided to them. The States were requested to complete the process of providing co-ordinate details and supporting documents within stipulated time period before freezing of the Bhuvan Portal. Subsequently, the NRSC was requested to finalize the report on Bhuvan portal with all details. The final report from NRSC is awaited.

13.2 Implementation of eMARG

13.2.1 Roads are being constructed, maintained & repaired as per the specification laid down in MoRD Specifications for Roads & Bridges published by IRC 2014. As a measure of further enhancing the focus on maintenance of roads during the defect liability period and also streamlining the delivery of routine maintenance of PMGSY roads, the Ministry has decided to implement the Electronic Maintenance of Rural Roads under PMGSY (eMARG) in all States. eMARG came into operation on 1st February, 2019 as a simple yet an extremely effective solution

to these problems. Conceptualized on Performance Based Maintenance Contracts (PBMC), eMARG sets up a blue-print on how maintenance of infrastructure can be solved across government departments with smart IT & Contract Management. PBMC is a type of contract in which payment to the contractor is made based on the minimum condition of road, its cross drainage works and traffic assets that have to be met by him/her. Payments are based on how well the contractor manages to comply with the performance standards or service levels defined in the contract, and not on piece work.

13.2.2 eMARG is a GIS-based Enterprise e-Governance solution to aid and assist the officials, Contractors, Banks and general public. It is an end-to-end solution, which provides restricted role-based access via internet.

13.2.3 eMARG focuses on the upkeep of PMGSY roads in all circumstances, hence entails performance-based evaluation of roads for making maintenance-related payments of PMGSY roads that are under DLP. So far, all States are on board in eMARG. eMARG is currently getting utilized by 2,100 district PIUs and 15,971 contractors all over India to perform inspections, generate and approve single click bills and make payments, thus majorly easing out the manual and tedious tasks. So far, 28,77,280 bi-monthly routine inspections have been carried out on more than 75,237 nos. of road works through eMARG and 21,45,537 no. of bills have been paid smoothly through eMarg, amounting to a total of Rs. 3,853 Crore as on 31st December, 2024.

13.2.4 Savings made through eMARG since inception

Due to evidence based objective marking system of performance of roads during 5-year maintenance period, there has been a saving of Rs.637 crore as on 31st December 2024 since the implementation of e-MARG in 2019-20. This saving is due to the performance of roads assessed in between 80% to 100%. In the absence of an objective marking system, payment would have been made 100%. In addition, the long pending bills of contractors that were not timely submitted by the contractors were made zero through eMARG system that would lead to a saving of Rs. 643 crore to public exchequer. Thus, total saving of Rs.1280 crore was made through eMARG since inception.

13.2.5 Implementation of Post 5 Year DLP Module on eMARG:

After the successful implementation of the eMARG system for the Pre-5-year Defect Liability Period (DLP), a Post-DLP eMARG module has been developed. To address various issues raised by States regarding onboarding to the Post-5-year Module of eMARG, several video conferences were held with the States and Union Territories (UTs). Some States have complied with the Standard Operating Procedure (SoP) for the Post-5-year Module and have concluded their Post-5-year contracts. These contracts cover components such as Initial Rehabilitation (IR), Renewal, Pre-renewal and post-renewal routine maintenance for five years, and emergency repair works as per the SoP.

As on date, 16 States were onboarded on the Post-5-year DLP Module of eMARG, with 15 of these States having incurred expenditure

for the maintenance of rural roads through this module. A total of Rs. 1,960.27 crore has been spent under Post 5-year DLP Module. Additionally, 5,90,044 routine inspections have been conducted, covering 26,986 roads with a combined length of 95,651 kilometers.

Details of Awards received for e-MARG

S.No	Award Description	Award	Year
1	SKOCH Award	Gold	2020
2	National Award for e-Governance	Silver	2021
3	19th CSU SIG e-Governance	Award of Appreciation	
4	Government Data Center and Infrastructure Summit Award 2023	Champion	2023
5	ET Government PSU Award 2024	Silver	2024
6	SKOCH Platinum Award	Platinum	2024

13.3 CPGRAMS Integration with Meri Sadak

The Mobile application 'Meri Sadak' has also been enabled to register citizen feedback/complaints about Non-PMGSY roads. To streamline this process, CPGRAMS has been integrated with the Meri Sadak app. Such complaints are forwarded to Centralized Public Grievance Redressal and Monitoring System (CPGRAMS) for further necessary action.

Now, the status of grievances received via Meri Sadak is regularly reviewed at NRIDA and then forwarded to the respective State Rural Road Development Agency (SRRDA) to ensure a prompt and quality-driven resolution without compromising on effectiveness.

13.4 PM Gati Shakti :

Prime Minister launched PM Gati Shakti - National Master Plan for Multi-modal Connectivity, essentially a digital platform to bring 16 Ministries including Railways and Roadways together for integrated planning and coordinated implementation of infrastructure connectivity projects. The multi-modal connectivity will provide integrated and seamless connectivity for movement of people, goods and services from one mode of transport to another. It will facilitate the last mile connectivity of infrastructure and also reduce travel time for people.

Total 7 layers scheme of PMGSY (PMGSY I, PMGSY II, PMGSY III, RCPLWEA, PMGSY Road DRRP, & Habitations, Bridge location) have been on-boarded on Gati Shakti Portal.

Out of a total of 814,236 kilometers of PMGSY roads across all verticals, 7,41,238 kilometers & Out of 11,084 bridges, 6,696 bridges from all verticals have been uploaded on the GatiShakti Portal.

Furthermore, more than 6.96 lakhs facilities related to Agriculture, Education, Medical, Transport, and Administration have been mapped on the Gati Shakti Portal.

12.4.2 Meri Sadak mobile application has been localized in Indian Languages and available in Hindi, English, and Odia.

During 2024-25 (from 01.01.2024 to 31.12.2024), a total 17,656 PMGSY complaint/feedback received through "Meri Sadak" Mobile App. During this period final reply for 13,598 complaints and interim reply for 4,038 complaints have been provided to the

complainants. The State wise details of the complaints received and disposed off are given at Annexure-XXIII.

13.5 GPS VTS- System

The GPS VTS is implemented to monitor road construction projects under PMGSY-III by ensuring that projects maintain the required standards and quality levels. This system uses GPS technology to track the movement of vehicles and equipment involved in road construction, enabling project managers to maintain real-time oversight of construction activities.

This monitoring system helps in maintaining construction timelines, assessing resource use, and upholding quality standards across PMGSY projects.

13.6 Gram Sadak Survey App Launch:

NRIDA has developed a mobile application called the Pradhan Mantri Gram Sadak Yojana (PMGSY) Gram Sadak Survey Mobile App, specifically designed for digital mapping of PMGSY-IV unconnected habitations. The app was launched on 08-10-2024 by Honourable Minister Shri Shivraj Singh Chauhan. Salient features of the app are:

- **Comprehensive Mapping:** Habitation Geo Tagging mobile app enables the mapping of unconnected habitations. It allows users to input latitude and longitude coordinates for both start and end points, ensuring precise tracking.
- **Habitation Documentation:** The app allows users to capture two photos of habitations along the route, specifically highlighting households midway. This documentation

enhances mapping data by providing visual evidence of habitation and development.

- **Facility Mapping:** The app enables users to capture geo-tagged photos of essential facilities, such as schools, primary health centers, gram mandis, and banks, along their route.
- **Geo-Tagged Photo Capture:** Start, Way point and End points can be visually documented with geo-tagged photos, offering a contextual understanding of the terrain and surroundings. This feature adds depth to mapping data, aiding in visualization and analysis.
- **Waypoint Integration:** Users can effortlessly mark multiple waypoints along their track, providing a detailed route overview. This feature enhances accuracy and facilitates thorough mapping.
- **Population Tracking:** Users can input both Census 2011 population data and current population figures provided by the respective states.
- **Habitation Connectivity Status:** The app includes a confirmation feature to verify if the habitation is connected by all weather conditions.
- **Landowner Details:** Users can select land type such as State Govt., Forest, Private etc. and enter remarks to capture comprehensive information about land ownership.
- **Maker-Checker Functionality:**
 - **Maker:** The user who surveys unconnected habitations (e.g., JE, AE).
 - **Checker:** The user who reviews and approves the habitations before finalization.

- **User-Friendly Interface:** With an intuitive interface, our app ensures ease of use for both novice and experienced users. Clear instructions and straightforward navigation streamline the mapping process, maximizing efficiency and productivity.
- **Offline Capabilities:** The app offers offline functionality, allowing users to map remote areas with limited or no internet connectivity. This feature ensures uninterrupted mapping operations, even in areas with poor network coverage.
- **LGD Code Submission:** Submission of LGD codes to ensure compliance with administrative standards and data consistency. This requirement promotes standardization and facilitates interoperability with existing databases and systems.

13.7 Gati Shakti DPR Tool

BISAG has developed a Geo-Spatial AI Tool for DPR planning based on NRIDA's requirements and under the direction of DPIIT. This tool enables PIU users to generate chainage, 3D profiles, and perform tasks such as cutting, filling, and land acquisition.

- The platform offers numerous advantages, including 3D models, simulations, situational reports, spatial decision support systems, and disaster management features.
- It will assist PIU users in improving DPR planning and allow NRIDA to thoroughly review DPRs at the NRIDA level.
- Additionally, the tool incorporates several GIS layers, such as groundwater, river drainage, water bodies, canals, soil types,

minor and major mining areas, among others, for a comprehensive understanding of the geographical structure.

13.8 E-Form for NQM/SQM

This digital form streamlines the inspection process for National Quality Monitors (NQM) and State Quality Monitors (SQM), who oversee the quality of PMGSY roads.

Project Implementation Units (PIUs) and quality monitors can use this e-form to record inspections, which digitizes and centralizes inspection data, making the process paperless and more accessible. This leads to more efficient tracking of road quality and facilitates consistent standards across different inspection levels.

13.9 QMS App

The Quality Monitoring Mobile Application has been revamped to support inspections for both national and state-level quality monitors.

New features include capturing start and end point photographs, lab photographs, and other critical parameters to ensure comprehensive quality assessments. This application aims to enhance transparency and accuracy in monitoring by providing visual and data-driven records of the construction and maintenance processes.

13.10 Dashboard for Real-Time Monitoring

Dashboard serves as a real-time monitoring tool for all PMGSY projects, offering higher-level management access to up-to-date project data.

With real-time analytics, competent authorities can efficiently evaluate project progress and make data-informed decisions that keep

projects on track. The dashboard improves accountability and helps ensure that project goals are met in a timely manner.

14. Financial Management initiatives under PMGSY

14.1 Integration of PFMS with OMMAS

Payment to the contractors of PMGSY was initially being done using Cheque/ e-payment through OMMAS, however with effect from August 2018 it was decided to route all the payments through PFMS so that the payments released to various States under PMGSY in order to ensure better transparency and management. OMMAS was integrated with DBT module of Public Financial Management system (PFMS). Later on, OMMAS was integrated with REAT module of PFMS. All the States were successfully migrated to REAT module by 31st December 2022 and have started making PMGSY contractor's payments through REAT.

14.2 Online collection & refund of Bid Security (EMD) and Bid Fee (Tender Fee) in PMGSY Tenders

Consequent upon introduction of online tendering in PMGSY works through pmgsytenders.gov.in, online mode of deposit of Bid Security (EMD) and tender fee has been initiated by NRIDA. Online collection / refund of EMD in PMGSY tenders follows a technology driven and transparent process in line with the GoI policy on intensive use of technology in Government Schemes.

14.3 Regular verification of the amount of interest credited by Banks

As per the operation manual of PMGSY, all

funds over and above Rs. 50 lakhs lying in the Programme and Administrative Expenses Funds of SRRDAs bank accounts must be converted to MoD/CLTD at an interest rate not below that of 91 days treasury bills.

In 2020, NRIDA issued instructions to all the SRRDAs to verify the interest earned in the bank accounts of Programme, Administrative Expenses and Maintenance Fund regularly on a quarterly basis. This matter was vigorously pursued by NRIDA and as a result Rs. 446.31 crore has been recovered by States/UTs from various banks managing their PMGSY funds (upto 31st Dec., 2024)

14.4 Implementation of Single Nodal Agency (SNA) for release of funds under Centrally Sponsored Schemes (CSS) and monitoring mechanism for utilization of funds

With a view to have effective cash management and to bring efficiency in the public expenditure management, States were requested to comply with directions issued by the Ministry of Finance, Department of Expenditure for release of funds under the Centrally Sponsored Schemes (CSS) and for monitoring of utilization of the funds already released.

All States/ UTs have acted on the advisory and have transferred all the funds released by the Ministry along with State share in the Single Nodal Account opened for the scheme namely Pradhan Mantri Gram Sadak Yojana (PMGSY). This matter was vigorously pursued by NRIDA and as a result, total of 1,063 child agency accounts of 28 States, 2 UTs, and 6 RCPLWEA have been mapped on PFMS.

14.5 Treasury Single Account (TSA) in RBI for NRIDA

Ministry of Finance has decided to expand the TSA system for release of payments/grants to eighteen (18) Autonomous Bodies (ABs)/ implementing agencies including NRIDA. TSA system has been introduced with a view to minimize the cost of Govt. borrowings and to enhance efficiency in funds flow in ABs. This system is fully online on PFMS with no physical flow of assignment to RBI. NRIDA opened TSA and is using it since 1st August 2020.

14.6 Successful transition of PMGSY to Receipts Expenditure Advance and Transfer (REAT) module of Public Financial Management System

The Public Financial Management System of the Ministry of Finance, Government of India (GoI) was implemented in the Pradhan Mantri Gram Sadak Yojana (PMGSY) from August 2018 onwards. It is a transparent and financially efficient system of making e-payments out of the grants given by the GoI and ensures that real time information of the fund position available with the project implementing agencies is available with the GoI for monitoring. Initially, PMGSY was utilising the Direct Benefit Transfer (DBT) module of PFMS for making payments. Subsequently, after development of the REAT module of PFMS, all States have migrated to the module in 2020-21.

15. Impact Evaluation Studies

15.1 Impact Evaluation of Pradhan Mantri Gram Sadak Yojana, 2018 by World Bank

15.1.1 A study was conducted to assess impact evaluation of PMGSY using a difference-in-difference approach and panel data from the States of Himachal Pradesh, Madhya Pradesh, and Rajasthan by World bank.

15.1.2 PMGSY improved accessibility, particularly in hilly areas: On average, people travelled to their destinations, particularly work, in shorter time, thanks to improved connectivity, but they did not change the distance travelled. Reductions in travel time were greater in hilly areas. Households' transport costs did not seem to have changed after PMGSY roads were built, possibly because people switched from walking and public transport to bicycles and private motorized vehicles. Thanks to improved connectivity, people in hilly areas made more trips to work per week; in flat areas they made fewer weekly trips to work. Patterns on trips to local markets were similar.

15.1.3 PMGSY increased access to economic opportunities, triggering a change in the structure of employment in rural India. The improved accessibility provided by PMGSY roads triggered a shift from farm to nonfarm employment, particularly nonfarm employment outside the habitation. As a consequence of PMGSY roads, the rate of primary employment in the nonfarm sector increased by about 12 percentage points in the habitations studied. This increase represents a 33 percent increase over the average share of nonfarm primary employment in 2009 in habitations that were connected after 2009. The share of people with primary employment outside their habitation increased by 8 percentage points. This increase represents a 35 percent increase relative to the average share of primary

employment outside the habitation in 2009 in habitations that were connected after 2009. Most workers who switched to nonfarm employment were men. Women stepped in to take care of the farm after road connectivity was improved. The entrance of women into the workforce was the main force behind the 5.5 percent increase in employment in connected habitations.

The impact on employment was correlated with distance from urban areas. In habitations 10 kilometres farther away from the nearest urban agglomeration than the average habitation, employment increased by 6 percentage points more than in the average habitation. More isolated habitations also experienced larger increases in the shares of students and wives getting part-time jobs. The shift to employment outside the habitation, particularly nonfarm employment, was more pronounced in hilly areas than in flat land, a finding that is consistent with people making more weekly trips to work in those areas.

15.1.4 PMGSY improved farm-to-market connectivity, but it had limited impact on farming practices. PMGSY roads yielded an 8 percentage point increase in the share of crops transported to markets for sale, a tripling over levels observed before PMGSY roads were built. The increase in the share of crops sold at market was larger in hillier areas than in flatter ones. Farmers selling food grains travelled 8.9 kilometres farther after the PMGSY roads were built, which suggests that farmers were travelling to locations where prices for their crops were higher. The cost to carry the crops did not seem to have changed as a result of improved connectivity. Hence the results suggest improvement in

rural road connectivity allowed farmers to take advantage of more favourable market conditions.

15.1.5 Increased access to markets had some effects on farming practices, but they were smaller than expected, potentially hinting at the need for complementary interventions to support the development of agriculture value chains. The average land area under cultivation did not change after road construction, except in hilly areas, where it decreased. Rural roads had a positive impact on food grain yields in habitations farther away from urban agglomerations and in hilly areas, which could be driven by less productive land being taken out of cultivation.

15.1.6 PMGSY roads had a positive impact on human capital formation in rural India, with boys and girls benefiting equally. Improved rural connectivity provides a long-term and sustained boost in the living standards of rural populations if it allows households to accumulate wealth and human capital. In the habitations studied, rural roads had a positive but small effect on the average wealth of households, equivalent to adding a small appliance (like a pressure cooker) to the household's assets. The estimated impact on wealth is statistically significant only under certain specifications. On average, children who were in middle or high school at the time their habitation was connected had 0.7 more years of schooling in 2017 as a result of PMGSY roads that were built in the previous three years. The analysis found no overall impact on primary schooling, although years of primary schooling rose in hilly areas. The share of babies delivered at home decreased by 30 percent in connected habitations, and

the reduction was even larger in habitations farther away from urban agglomerations. Young children in connected habitations were also less likely to fall sick, possibly because vaccination take-up among children under the age of four increased by 15 percentage points, with boys and girls benefiting equally.

15.2 Findings of Third Party Evaluation done by NITI Aayog, 2020

An evaluation of Centrally Sponsored Schemes in Rural Development Sector, including Pradhan Mantri Gram Sadak Yojana was carried out by the Development Monitoring and Evaluation Office (DMEO) of NITI Aayog. The reference period of the study is from 2015-16 to 2018-19. The main findings of the evaluation report are as under:-

- i. The Pradhan Mantri Gram Sadak Yojana (PMGSY) is relevant for the Country considering the massive unavailability of all-weather roads in rural areas.
- ii. The scheme is well aligned with India's international goals and is seen to contribute to SDGs(Sustainable Development Goals) 2 & 9 as it address the issues of poverty, hunger and infrastructure for growth.
- iii. PMGSY is also aligned to DoRD's vision and mission of providing infrastructure in rural areas.
- iv. PMGSY has a bottom-up approach in terms of the proposals regarding connecting new habitations or up gradation of existing networks. These are all prepared at the Block level followed by District Panchayat. It has well defined roles for implementing agencies. The scheme in its planning as well implementation has lots of checks and balances in terms of evaluating the

proposals at multiple levels.

- v. The scheme has a dedicated staff with well-defined roles and responsibilities. The HR mix has people from the PRIs, government officials, and technical experts from outside the department. All the functionaries are provided timely capacity building trainings for better performance. Further, detailed capacity building plans on green technology pave the way for higher adoption of new technologies.
- vi. PMGSY has developed a dedicated MIS called OMMAS for monitoring of work. It has its dedicated fund management system which runs on PFMS platform by DoRD.
- vii. In addition, the scheme uses GIS-based platforms for geo-tagging of roads and spatial planning such as GRIMMS, GRISS and Geo-PMGSY. The 'Remote Sensing Project' for verification of PMGSY-I completed works on satellite imagery is also a notable development. Other applications like e-MARG and Meri Sadak exemplify the inroads of technology in scheme implementation and maintenance.
- viii. The scheme guidelines provide pathways of inclusion of the community at the level of Transect walk and Gram Sabha.
- ix. PMGSY roads are observed to create positive impacts at both at level of the household and the community. The roads have been observed to increase access to market and livelihood opportunities, health and education facilities.
- x. According to the household survey results – at lower income levels, having easy access to the main town and market was

seen to be the biggest advantage of having PMGSY roads while at higher income levels, easy access to education facilities was seen as most advantageous.

- xi. PMGSY's clear focus on environmental sustainability is evident from its impetus to green technology (which is associated with economic and environmental benefits), and the clear frameworks instituted by development partners (ADB and World Bank) which lay down guidelines to construct roads in an ecologically compatible manner.
- xii. The practice of the Environmental Audit (on the roads funded by ADB and World Bank) provides pathways to monitor compliance with environmental standards, thus ensuring the continuity of sustainable practices.
- xiii. PMGSY roads intend to bring equity to all stakeholders of the society. PMGSY is noted to build the foundations for long-lasting poverty reduction in rural India. Improved rural connectivity provides a long-term and sustained boost in the living standards of rural populations as it allows households to accumulate wealth and human capital.
- xiv. Speed gains have helped to bridge the rural-urban divide.
- xv. PMGSY creates an infrastructure which is available to all the strata of the communities. Its access as well as utility is taken up by all.

16. North - Eastern States - Special Considerations

This Ministry has taken a number of initiatives under PMGSY to take into account special concerns of the North-Eastern States. Following dispensations have been provided to the North-Eastern States: -

- i. As against project cost sharing of 60:40 between centre and States in plain areas, the sharing pattern is 90:10 for States of North-Eastern region.
- ii. On road portions subjected to heavy snow fall or landslides, where regular snow or debris clearance is done over long period to keep the road open to traffic, roadway width may be increased by 1.5 m upto 7.5 m.
- iii. States provide adequate length of cement concrete drains along slopes to reduce the damage to roads.
- iv. States provide requisite number of protection structures and CD works keeping in view the terrain, snow fall and deposition of snow in high altitudes areas.
- v. The Ministry shares the cost of bridges upto 100 mtrs length, as against 75 m in plain areas. Under PMGSY-III, the limit has been extended to 200 m, against 150m for plain areas.

17. Gender and SC/ST budgeting under PMGSY

PMGSY is a Centrally Sponsored Scheme

with the objective to provide single all-weather road connectivity to all eligible unconnected habitations including the habitations inhabited by Scheduled Castes/ Scheduled Tribes existing in the Core Network in rural areas of the country. The programme envisages connecting habitations with a population of 250 persons and above (as per 2001 Census) in Special Category States (Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, Tripura Himachal Pradesh, Jammu & Kashmir and Uttarakhand), Tribal (Schedule-V) areas, the Desert Areas (as identified in Desert Development Programme) and in Selected Tribal and Backward Districts (as identified by the Ministry of Home Affairs/Planning Commission).

18 Rainwater Conservation Initiative: Provision of Bridge-cum-Bandhara

The Ministry has issued a circular wherein the States have been encouraged to design the bridges so as to serve as Bridge-cum-Bandhara for conserving the rainwater.

19. Tree plantation along completed PMGSY roads

Roadside tree plantation on PMGSY roads is being done in convergence with under MGNREGA. This will not only create productive assets but will also check the deterioration of roads and will continue to strengthen ecological balance and reduce global warming. Under PMGSY-III, planting of fruit bearing and other suitable trees, on both sides of the road has been made mandatory to be taken up by the State Government/Union Territories by using funds under Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) and other Central and State Schemes. Guidelines on Tree Plantation along Rural Roads (IRC: SP:103-2014), published by Indian Roads Congress should be followed for plantation of trees along the roads constructed under PMGSY-III. The States have been requested to take follow up action for plantation of trees on the flanks of PMGSY roads in consultation with Gram Panchayat /Zila Panchayat and MGNREGA officers.

**PRADHAN MANTRI
AWAAS YOJANA – GRAMIN
(PMAY-G)**

I. Pradhan Mantri Awaas Yojana- Gramin (PMAY-G)

The Pradhan Mantri Awaas Yojana – Gramin (PMAY-G) is one of the flagship schemes with Government’s commitment to provide “Housing for All”. The scheme Pradhan Mantri Awaas Yojana – Gramin (PMAY-G) came into effect from 1st April 2016. The aim of PMAY-G is to provide a pucca house with basic amenities to all houseless households and households living in kutcha/ dilapidated houses in rural areas of the country. Initially, a target of 2.95 crore was set to provide pucca houses with essential amenities to eligible houseless households. However, realizing the growing housing needs in rural areas, Union Cabinet granted an extension to the scheme on 9th August 2024 to construct additional 2 crore rural houses during FY 2024-25 to FY 2028-29, over and above the previous target of 2.95 crore. Out of the cumulative target of 4.95 crore houses, a total of 3.32 crore houses have been allocated among States/UTs out of which 3.23 crore houses have been sanctioned by States/UTs and 2.68 crore have been completed as on 31st December 2024. The total financial outlay for this initiative is ₹ 3,06,137 crore, allocated for the period from FY 2024-25 to FY 2028-29.

The identification of beneficiaries in the scheme

is based on the housing deprivation parameters as per Socio Economic Caste Census – 2011. Further, to provide benefit of the scheme to the left out eligible households, the Ministry decided to identify such households, and Awaas+ survey was conducted by States/UTs on directions of the Ministry in 2018. As a result of the exercise of allocation of targets, the SECC 2011 based Permanent Wait List (PWL) and the finalized Awaas + 2018 lists of 22 States and UTs are saturated. To meet the additional requirement of houses in States/UTs as well as achieve the target of construction of 2 crore more houses, the Awaas+ list is being updated via the Awaas+ 2024 survey. The identification of additional eligible rural houses through survey is currently underway and is expected to be completed by March 2025 as per the revised exclusion criteria of the PMAY-G.

As per the Union Cabinet approval, the provisions with regard to mechanised two-wheelers, mechanised fishing boats, landline phones and refrigerators have been deleted. Further, the income criteria has also been enhanced from Rs 10000 per month to Rs 15000, and the land-related criteria have been simplified.

The details of revised automatic exclusion

criteria under the new phase of the PMAY-G are as under:-

Step 1: Exclusion of pucca houses- All households living in houses with pucca roof and/or pucca wall and households living in houses with more than 2 rooms are filtered out.

Step 2: Automatic Exclusion criteria- From the remaining set of households, all households fulfilling any one of the 10 parameters listed below are automatically excluded:-

- i. Motorised three/four-wheeler
- ii. Mechanised three/ four-wheeler agricultural equipment
- iii. Kisan Credit Card with credit limit of Rs. 50,000 or above
- iv. Household with any member as a Government employee
- v. Households with non-agricultural enterprises registered with the Government
- vi. Any member of the family earning more than Rs.15,000 per month
- vii. Paying income tax
- viii. Paying professional tax
- ix. Own 2.5 acres or more of irrigated land
- x. Own 5 acres or more of unirrigated land

Key Features of PMAY-G

- i. Providing assistance for construction of 2 crore houses in rural areas over the period 2024-25 to 2028-29..
- ii. The minimum unit (house) size under the PMAY-G is 25 sq. mt, including a dedicated area for hygienic cooking.

iii. Unit assistance of Rs. 1.20 lakh in the plains and Rs. 1.30 lakh in North Eastern States, and 2 Hill States of Uttarakhand and Himachal Pradesh and Union Territories of Jammu & Kashmir and Ladakh.

iv. The cost of unit (house) assistance is shared between Central and State Governments in the ratio 60:40 in plain areas and 90:10 for North-Eastern and 2 Hill States of Himachal Pradesh and Uttarakhand and UT of Jammu and Kashmir. In respect of other Union Territories, 100% cost is borne by the Government of India.

v. Provision of assistance (Rs.12,000/-) for toilets through convergence with Swachh Bharat Mission – Gramin (SBM-G), MGNREGS or any other dedicated source of funding.

vi. Provision of 90/95 person days of unskilled wage labour under MGNREGS for construction of house, over and above the unit assistance.

vii. Identification and selection of beneficiaries, based on the finalised Awaas+ lists (2018 and 2025), and verified by the respective Gram Sabhas as per the revised exclusion criteria of the PMAY-G.

viii. The beneficiaries of PMAY-G, in addition to being provided financial assistance, are also offered technical assistance in the construction of quality house.

ix. If the beneficiary so chooses, he/she will be facilitated to avail loan of up to Rs.70,000/- from Financial Institutions.

x. For Special Projects, 5% of the targets are retained at the Central Level as reserve funds.

- xi. Convergence with other Government schemes for provision of basic amenities viz., toilet, drinking water, electricity, clean & efficient cooking fuel, treatment of solid and liquid waste etc.
- xii. All Payments/Transfer of assistance to beneficiaries to be done only electronically to their Bank/Post office accounts that are linked to Aadhaar with consent. The Ministry would ensure that payment of assistance to the beneficiaries is using 100% Aadhaar Payments Bridge from 01.04.2024 onwards.
- xiii. Sensitization of the beneficiaries on PMAY-G.
- xiv. Focus on construction of quality houses by the beneficiaries, encouraging use of locally available construction materials and appropriate house design typologies and trained rural masons.
- xv. Adoption of saturation approach - Gram Panchayat, Block or District as unit, wherever possible.
- xvi. Orienting PMAY-G beneficiaries towards the processes, financial assistance mechanism, appropriate house designs, suitable construction materials, green technologies, and convergence with other schemes.
- xvii. To ensure quality of houses constructed, pan India training and certification programmes for rural mason.
- xviii. Bouquet of house design options with disaster resilience features according to local conditions, using appropriate technology suitable to their region are made available to the beneficiaries.
- xix. The programme is being implemented and monitored through end-to-end e-governance solutions, viz. AwaasSoft and AwaasApp.
- xx. Under PMAY-G, as per the provisions contained in the Rights for Persons with Disabilities Act, 2016 (RoPwD Act, 2016), it is ensured that 5% of the beneficiaries at the State/UT level are from among the persons with benchmark disabilities with priority to women with benchmark disabilities subject to the availability of such cases in the PWL.

II. Physical & Financial Achievements of the Programme (as on 31st December, 2024)

Parameter	Target allocated	Sanctions	1st instalment	2nd instalment	3rd instalment	Completed
Status	3,32,80,374	3,22,63,984	3,04,73,430	2,79,87,430	2,67,70,195	2,68,43,036

(Source: As per AwaasSoft as on 31.12.2024)

In FY 2023-24, 26,39,258 houses have been constructed at the rate of 7,231 houses per day.

Year	Fund release (Rs. In Cr.)	Houses completed	Average daily rate of House completion
2023-24	19,215.89	26,39,258	7,231
2024-25 (till 31.12.2024)	14370.19	3,48,392	1,271

III. Monitoring Mechanism under PMAYG

The PMAY-G envisages transparency in implementation of the scheme through identification of beneficiaries on the basis of objective parameters from the Socio Economic and Caste Census (SECC), direct transfer of assistance electronically to beneficiaries bank accounts through the AwaasSoft-PFMS platform and evidence based monitoring of construction of the house through captured Geo-referenced, date and time-stamped photographs of the houses before, during and after construction. The Ministry of Rural Development has also introduced a “Self-survey option”, significantly broadening the outreach and ensuring the inclusion of all beneficiaries so that no eligible beneficiary is left behind to get the benefits of the scheme. The app works in online as well as offline mode.

Robust monitoring mechanism has been incorporated into the scheme of PMAY-G with special emphasis on quality and timely completion of construction. The physical and financial progress is monitored closely both electronically viz., MIS-AwaasSoft and physically through visits by National Level Monitors, Area Officers of Ministry and officials of the Project Management Unit set up at the State, District and Block Level. Social Audit had also been introduced involving a mandatory review of all aspects of the scheme.

AwaasSoft is a bi-lingual (Hindi & English), transactional web based electronic service delivery platform to facilitate e-Governance in PMAY-G. The system has been developed in house by the Rural Housing Division of Ministry of Rural Development, in collaboration with NIC. The portal is currently hosted at the URL

<https://pmayg.nic.in>. All the critical functions of PMAY-G like identification of beneficiaries, fixing of targets, release of funds, issue of sanction order to the beneficiary, monitoring of the progress of house construction, release of the assistance amount to the beneficiary, etc. are done through AwaasSoft.

IV. Rural Mason Training

One of the main objectives and focus areas of PMAY-G is construction of durable and disaster resilient house and the major constraint in quality house construction is insufficient number of skilled masons. To address this, the Ministry of Rural Development (MoRD) has launched the Rural Mason Training (RMT) program under the Pradhan Mantri Awaas Yojana- Gramin (PMAY-G). The initiative not only avails livelihood opportunities for the rural workforce but also contributes towards the availability of a skilled workforce for the construction of rural infrastructure under different schemes. The MoRD has partnered with the Construction Skill Development Council of India (CSDCI) and National Skill Development Corporation (NSDC) in the implementation of the RMT program. As of 31st December 2024, against the target of training 2.30 lakh candidates 2.90 lakh candidates have already been trained under Rural Mason Training (RMT) of PMAY-G.

V. Housing Design Typology

The beneficiaries of PMAY-G are to be provided bouquet of options of house designs and appropriate technology suitable to the region of their residence. In this direction, Ministry of Rural Development, in collaboration with CSIR-CBRI is digitalizing the PAHAL compendium into a manual, featuring 3D house designs,

techniques, and technologies tailored to state-specific factors like local materials, manpower, geo-climatic, geological, and environmental conditions. These 3D house models will be integrated into Awaas + application for beneficiary selection.

VI. Construction of Demo Houses

In order to promote use of region-specific appropriate construction technologies in the construction of PMAY-G houses and for proper understanding to the beneficiaries on house design typologies, MoRD has issued Guidelines from Construction of Demo Houses in States/UTs across the country. These demonstration houses built using the defined typologies are made available to be seen by the beneficiaries for better understanding and visualization of their new PMAY-G house to be constructed.

VII. Social Audit

As per the Framework for Implementation for PMAY-G, Social Audit Units (SAUs) set up by the State/UT Government under MGNREGA, are to be roped in to facilitate conduct of Social Audit of PMAY-G. Resource persons identified by the SAU at different levels are to be involved with the Gram Sabha in conducting social audit. The resource persons can be drawn from primary stakeholders, civil society organizations or individuals, having knowledge and experience in working for the rights of the people. SAU should ensure that Social Audit of PMAY-G is conducted in every Gram Panchayat once in a year and accordingly prepare the annual calendar. The guidelines for Social Audit in PMAY-G have been prepared in consultation with National Institute of Rural Development & Panchayati Raj (NIRD&PR). The guidelines were launched on 13th November 2019. The National Institute of Rural Development and Panchayati Raj (NIRD&PR) along with State Institutes of Rural Development (SIRDs) is the training partner for capacity building and training of the social audit resource persons.

VIII. Women Empowerment under PMAYG

Focusing on women empowerment in PMAY-G, Houses are sanctioned in the names of women,

or jointly with their husbands, except for cases involving widows, separated, unmarried, or transgender individuals. The scheme aspires to provide 100% ownership to women. In the new Awaas + 2024 survey, the houses are automatically sanctioned in the name of women beneficiaries while the details of the family members are being captured. Further, while preparing Permanent Wait List (PWL), households are prioritized based on socio-economic deprivation parameters. The criterion includes female headed households with no adult male members between the age 16 to 59.

As on 31st December 2024 a total of 84,31,924 sanctions have been made in the name of female beneficiaries, out of which a total of 72,77,417 houses have been recorded completed. A total

of 1,53,98,679 sanctions have been made jointly to Wife and Husband, out of which 1,22,74,689 have been recorded completed. Out of 3,22,63,984 total houses sanctioned, 2,38,30,603 houses i.e., 74% houses have been sanctioned solely or jointly in the name of female.

IX. SHG involvement in PMAYG

Self Help Groups (SHGs) accredited to NRLM involves mostly women of that area. PMAY-G defines the role of SHGs as:

- i. SHGs should be involved in creating awareness among the beneficiaries of PMAY-G, about construction of durable houses, sources of procurement of materials, availability of skilled masons and benefits deliverable from other schemes implemented by the States/UTs and the Central Government.
- ii. The SHGs need to be involved in the construction / completion of houses sanctioned to the beneficiaries.
- iii. SHG members should be trained as certified social auditors to undertake social audit of the PMAY-Gramin.
- iv. Production of building materials by the SHGs, where feasible, should be taken up for supply of the same to the beneficiaries of PMAY-G at a reasonable cost, thereby benefiting both the SHGs and the beneficiaries.

X. Scheduled Castes and Scheduled Tribes under PMAYG

Under PMAY-G, minimum 60% of the target at the national level is earmarked for SC/ST

households. To maintain this, 60% of the target allocated to each State / UT is earmarked for SC/ STs subject to availability of eligible PMAY (G) beneficiaries in the Permanent Wait List (PWL). Within earmarked targets the proportion of SC/ST is to be decided from time to time by the respective States/UTs. Under the scheme, there was no separate allocation made for the SCs/STs up to 2010-11. From the year 2011-12 funds are earmarked for Special Component Plan for Scheduled Castes and Scheduled Tribe Sub Plan. As of 31st December, 2024 out of the total 3,22,63,984 houses sanctioned, 72,93,728 houses were sanctioned for SCs and 74,80,864 sanctioned for STs across the country.

XI. Caring for Divyang

The Rights of Persons with Disabilities Act, 2016, provides for social security for persons with disabilities. Accordingly, in the scheme

of PMAY-G while deciding the inter-se priority among the beneficiaries who are to be provided assistance, households with any disabled member and no able-bodied adult member have been accorded additional deprivation score so that such households are given priority while allotting the houses. Keeping this in view, State should ensure that at least 5% of beneficiaries are from among persons with disabilities.

In cases where the beneficiary is old or infirm or a person with disability and is therefore not able to get the house constructed on his / her own, such houses are taken up as a part of the Rural Mason Training (RMT) programme. In case there are still some beneficiaries left out, the State /UT Governments ensure that such beneficiaries are assisted through the Gram Panchayats or a ground level programme functionary to get their house constructed.

Under the PMAYG, a total of 4.41 lakh houses have been sanctioned to divyang households and 3.42 lakh houses have been completed in the last 8 years.

XII. Strengthening of PRIs

Under PMAY-G, Gram Panchayats have the following role: -

- i. The Gram Panchayats, through Gram Sabhas, select, prioritize, and finalise the Permanent Wait List of eligible beneficiaries prepared on the basis of SECC-2011, and prepare a list of households not included in the system generated priority list, but otherwise found eligible.
- ii. The Gram Panchayats facilitate orientation of beneficiaries on different aspects of the scheme.

- iii. The Gram Panchayats identify the families who are unable to construct houses on their own and help in getting the houses of these families taken up for construction as a part of the mason training program. In case there are still some beneficiaries left out, the Gram Panchayats shall help to get their house constructed.
- iv. The Gram Panchayats assist in identifying common land available for allotment to the landless beneficiaries.
- v. The Gram Panchayats facilitate beneficiaries in accessing materials required for construction at reasonable rates and help in identification of trained masons.
- vi. The Gram Panchayats facilitate beneficiaries in availing benefits of other schemes of the Centre and State Government through convergence.
- vii. The Gram Panchayats discuss the progress of the scheme in their scheduled meetings and help resolve the problems being faced by the beneficiaries. The Gram Panchayats should also proactively assist the social audit teams to conduct Social Audit.
- viii. The Gram Panchayats assist in identifying the local level functionary to be tagged with each PMAY-G house for ensuring their timely completion.
- ix. Gram Panchayats will prioritize the households of the Awaas+ data through Gram Sabha.
- x. The Gram Panchayats facilitate / encourage / motivate the Self-Help Groups (SHG) to undertake production of quality building materials for supplying the same to the

beneficiaries of PMAY-G at reasonable rates.

- xi. The Gram Panchayats facilitate beneficiaries in availing benefits of other schemes of the Centre and State Government through convergence.

XIII. IT initiatives under PMAYG

i. Survey through “Awaas+ 2024 app”:

The Awaas+ 2024 mobile application was launched by the Hon’ble Prime Minister at an event in Bhubaneswar on 17th September 2024 to identify additional eligible rural households for benefits under the scheme. This strategic effort emphasises inclusivity and transparency in beneficiary selection while leveraging advanced technology for efficient data collection and validation, which includes pre-registered surveyors, housing technology selection, face authentication, Aadhar-based e-KYC, the data capture of household, conditions of the existing house, time-stamped, and geo-tagged photo capture of the existing house proposed site of construction. To ensure transparency, the Ministry of Rural Development has introduced a “Self-survey option”, significantly broadening the outreach and ensuring the inclusion of all beneficiaries so that no eligible beneficiary is left behind to get the benefits of the scheme. The app works in online as well as offline mode.

ii. Awaas Sakhi Application:

Awaas Sakhi (Support Application for Knowledge, Help and Innovation) is an innovative mobile application developed to enhance access to PMAY-G by bringing essential information and resources in one place. It was launched by the Hon’ble Minister

(Rural Development) on October 8, 2024 from Sehore, Madhya Pradesh. This application fosters awareness, transparency, and self-reliance among beneficiaries while streamlining access to all scheme benefits. Key features include a boutique of 3D House Typologies showcasing housing designs tailored to local conditions, enhanced with AR/VR technology for real-time visualisation, and a directory of over 7.6 lakh BIS-certified vendors across 679 districts, ensuring access to quality construction materials. Additionally, it integrates ~3 lakh trained skilled rural masons information who can provide professional assistance for house construction. Awaas Sakhi, in the essence of its name, aims to provide Help, enable access to Knowledge and promote Innovation in PMAY-G. The application makes essential information and tools available at the fingertips of the beneficiaries, enabling them to take full advantage of the scheme and achieve their dream of owning a secure and resilient house.

iii. Archival Policy:

The archival policy has been prepared to lay down guidelines on data retention, data archival, data retrieval and data destruction (collectively referred to as 'data management') which is applicable to all records in PMAY-G. The archival policy is framed for the purpose of systematic identification, categorization, maintenance, retention and destruction of records or transactions in PMAY-G. It also

helps to establish uniformity to maintain and store data and information, in electronic format, in compliance to stated purposes and use.

iv. Landless module:

To map landless beneficiaries in the PWL of PMAY-G and to capture the status of availing land or financial assistance for land purchase to the landless beneficiaries as applicable, a landless module on AwaasSoft is developed. The module further captures the land purchase status of financially assisted landless beneficiaries.

v. Convergence module:

Convergence is an inherent part of the Scheme and PMAY-G not only focuses on provision of house but also addresses the basic needs of households through convergence with other Government Schemes. The beneficiary is entitled to 90/95 person-days of unskilled labour from MGNREGS. Availability of piped drinking water, electricity connection, LPG gas connection, renewable energy source and building material is also provided through convergence with different government programmes. Further, the assistance for construction of toilet is done through convergence with SBM-G, MGNREGS or any other dedicated source of funding. Provision of Solar roof top through PM-SURYA GHAR scheme has also been provisioned in the new phase of PMAY-G since FY 2024-25. Convergence module was developed to track the convergence status in States/UTs.:

Toilet Constructed	Electricity Connection	LPG Connection	Water Connection	SHG
2,66,53,485	2,55,31,410	2,39,20,411	1,94,58,779	1,08,86,341

vi. E-ticketing:

The module has been introduced to address the grievances about technical as well as non-technical issues under PMAYG faced by the program functionaries i.e. States/UTs. The E-ticketing module is helping in robustly resolving the States' issues. So far, 41,245 tickets have been generated out of which 32,167 tickets have already been resolved. Among the pending tickets only 278 tickets are pending at the Central level remaining all are either pending either at the State or District level.

vii. Dashboard:

The Scheme has developed dedicated dashboard to monitor the implementation of the Scheme which provides End-to-End insights to cater the analytical and strategic business intelligence and to cater the physical and financial progress of PMAY-G scheme at a glance. The dashboard also provides the actionable insights that include the single screen visualization of entire physical and financial progress and state level reports drillable to block level, analyzing the gap/delays in release of installments, speed of house construction, age-wise, category-wise data analysis in order to find out anomalies, outliers. It also illustrates the trend analysis for sanction and completion progress using dynamic and customizable data visualization in close coordination with business users.

XIV: Evaluation Studies under PMAYG

I. Findings of the evaluation study "Evaluation of CSS Scheme – Rural Development Sector" in respect of PMAY-G by NITI Aayog

Under the evaluation study sponsored by Development Monitoring and Evaluation

Office (DMEO) of NITI Aayog, a detailed scheme level analysis of the 6 selected CSS - MGNREGA, PMAY-G, NSAP, DAY-NRLM, PMGSY and SPMRM was done. Each of these schemes has been evaluated using the REESI+E framework against the Relevance, Effectiveness, Efficiency, Sustainability, Impact and Equity. Under the study, the performance of PMAY-G has been assessed on cross sectional themes like accountability and transparency, gender mainstreaming, use of IT, reforms and regulations etc.

Main findings of the report are provided as under:

- i. PMAY-G brought relevant impact in the processes of identification of beneficiaries, use of IT and fund flow. These reforms were beneficial to the success of PMAY-G. New experiences led to better reforms generating more benefits from the scheme.
- ii. PMAY-G has been able to ensure efficient use of technology for smooth implementation of scheme. With Geo-tagging of houses, house quality review module, tech-savvy financial modules the scheme is leveraging quite well on technology.
- iii. Use of AwaasApp&AwaasSoft has led to timely disbursement of funds directly to beneficiary accounts. PMAY-G has a robust monitoring mechanism. The dashboard keeps track of all physical & financial progress by recording data at beneficiary level. All the data is updated regularly & is available in public domain thus ensuring transparency within the scheme.

- iv. PMAY-G has adopted various creative & innovative practices like- Use of AwaasApp&AwaasSoft in timely disbursement of funds, helping old & disabled people to build houses via rural masons training, use of Awaas+ to include the genuine cases of excluded beneficiaries and so on. This shows the commitment of PMAY-G in using out of the box solution for different problems.
- v. Gender Mainstreaming is actively encouraged under PMAY-G. Providing house in the name of female beneficiaries, allocation of house to transgender people, capacity building of women to become AwaasMitras contribute towards gender mainstreaming within the scheme.
- vi. Satisfaction of beneficiaries towards the application process was positive, with significant assistance and support provided. Challenges include transport and documentation related costs, both in terms of time and money.
- vii. The fund disbursement rate from Centre to State is satisfactory especially in the initial stages of installment.
- viii. Ease of living of beneficiaries is enhanced due to construction of the house. The same is confirmed by both primary and secondary sources. 88 percent of respondents confirmed improvements in standard of living with construction of house.
- ix. DoRD has taken account of the climate change by suggesting PAHAL designs- Climate resilient technologies for house construction. However, proper implementation and encouraging beneficiaries to adopt these designs needs to be ensured.

Progress in NE States:

All the NER States (except Assam) have been saturated in FY 2023-24 by allocating full and final targets to them.

NATIONAL SOCIAL ASSISTANCE PROGRAMME (NSAP)

1. Background

The Directive Principles of State Policy of the Constitution of India enjoin upon the State to undertake within its means a number of welfare measures, targeting the poor and the destitute in particular. Article 41 of the Constitution of India directs the State to provide public assistance to its citizens in the case of unemployment, old age, sickness and disablement as well as in other cases of undeserved wants, within the limit of State's economic capacity and development. Social security, invalid and old age pensions figure as Items 23 and 24 of the 7th Schedule of the Constitution of India in the Concurrent List. It is in compliance of these guiding principles that the Government of India introduced on Independence Day, 1995 the National Social Assistance Programme (NSAP) as a fully Centrally Sponsored Scheme targeting the destitute, defined as any person who has little or no regular mean of subsistence from his/her own source of income or though financial support from family members or other sources, to be identified by the States and UTs, with the objective of providing a basic level of financial support. The programme has undergone many changes in the composition, eligibility criterion and funding patterns over the years.

2. Components of NSAP

The NSAP at present includes five sub-schemes as its components: -

a. Indira Gandhi National Old Age Pension Scheme (IGNOAPS):

Under the scheme, assistance is provided to person of 60 years and above and belonging to family living below poverty line as per the criteria prescribed by Government of India. Central assistance of Rs.200/- per month is

provided to person in the age group of 60-79 years and Rs.500/- per month to persons of 80 years and above.

b. Indira Gandhi National Widow Pension Scheme (IGNWPS):

Under the scheme, Central assistance @ Rs.300/- per month is provided to widows in the age group of 40-79 years and belonging to family living below poverty line as per the criteria prescribed by Government of India. Central Assistance of Rs.500/- per month is provided to the beneficiaries of age of 80 years and above.

c. Indira Gandhi National Disability Pension Scheme (IGNDPS):

Under the scheme, Central assistance @ Rs.300 per month is provided to persons aged 18-79 years with severe and multiple disabilities and belonging to family living below poverty line as per the criteria prescribed by Government of India. Central Assistance of Rs.500/- per month is provided to the beneficiaries of age of 80 years and above.

d. National Family Benefit Scheme (NFBS):

Under the scheme, BPL household is entitled to a lumpsum amount of money on the death of the primary breadwinner aged between 18-59 years. The amount of assistance is Rs.20,000/-.

e. Annapurna Scheme:

Under the scheme, 10kg of food grains per month are provided free of cost to those senior citizens who, though eligible under IGNOAPS, are not receiving old age pension.

Many States have not only declared the enhanced top up but also extended the welfare schemes to the beneficiaries identified by them

as per the criteria fixed by respective State/UT Governments.

3. Implementation:

From the year 2014-15, NSAP has been converted into a Centrally Sponsored Scheme (CSS) and funds are being released by the Ministry of Rural Development to States /UTs scheme-wise in four tranches. In August 2016, the NSAP scheme was declared as “Core of the Core Scheme”. NSAP is being implemented mainly by Social Welfare Department in the States. In some States, it is being implemented by Rural Development Department and in a few, by Women and Child Development Department, Social justice and Panchayat Raj Department.

During 2023-24, an amount of Rs.9491.11crore was released to the States/UTs for the implementation of NSAP schemes. Out of a total allocation of Rs.9652.00 crore to NSAP schemes for the year 2024-25, Rs.6499.18 crore (as on 31.12.2024) has been released to States/UTs for the implementation of NSAP Schemes. NSAP schemes are implemented by the State Governments and Union Territories.

** including Rs. 2814.50 Cr of ‘Pradhan Mantri Garib Kalyan Package (PMGKP)

*As on 31.12.2024

NSAP has been declared as Direct Benefit

Transfer (DBT) scheme in the year 2014. Therefore, disbursements of pension are preferred through Bank accounts and post office accounts. Further, guidelines stipulate that disbursement of pensions in cash though not prohibited, it shall be adopted as mode of last resort explaining clearly why disbursement is not being routed through account based mechanism. The objective is that cash disbursement should be done in a transparent manner, and to be adopted if other modes are not implementable. Nevertheless, the guiding principle in this regard has to be the convenience of the beneficiary. Given the physical, social and economic vulnerability of the beneficiaries, States have been advised to ensure monthly disbursement of pensions, and also to ensure that the beneficiaries do not have to travel long distances to receive their pension and disbursement of pension is done at their door step by utilizing the services of Banking Correspondent (BC) and Self Help Groups (SHG) after required training.

4. Digitization of beneficiaries

With a view to avoid inclusion error in the data-base, first step required was to complete the digitization of all the intended beneficiaries which are either being covered to NSAP or need the eligibility criteria to avail the pension. 100% data of all potential beneficiaries has been digitized with their names, addresses, option given for the pension disbursement mode, Bank details, Aadhaar numbers and mobile number, wherever it has been provided. Information can be assessed on www.nsap.nic.in.

5. NSAP-PPS

A System developed by the NIC, which provides the details of old age, widow and

disabled beneficiaries as well as facilitates end to end transaction from originating point to disbursement point.

18 States/UTs are on boarded on NSAP-PPS Portal for disbursal of pension and sharing the transaction data into NSAP-PPS through web service. 14 States/UTs using their own MIS system for disbursal of pension and sharing the transaction data into NSAP-PPS through web service and 4 States/UTs are not using any MIS and they have requested to onboard on NSAP-PPS Portal which is under process.

Apart from access to digitize data to pensioners provided in the NSAP-PPS to maintain transparency, complete list of beneficiaries upto village level can be accessed by all the citizens through a MobileApp developed by MoRD as “Gram Samvad” in which all pensioners registered with NSAP schemes can be viewed at village level/GP level. PFMS platform also provides the facility ‘Know Your Payment’ through which beneficiary can see the status of movement of pension file leading upto his/her Bank account. Pilot of E-pramaan system for addressing the issues arising due to migration of beneficiaries, has been completed in Telangana and Gujarat in NIC network environment successfully and efforts are being made to implement the same in all the districts of the Country. Based on requirement of basic need of e-Governance services to the citizen under National Social Assistance Programme and to assist socially poor old aged, disabled and Widow person, a citizen centric Mobile-App has been developed by National Informatics Centre, Ministry of Rural Development named “SAMBAL”.

6. Direct Benefit Transfer (DBT) for NSAP

To foster transparency and swiftness in transactions, NSAP pension Schemes were included under Direct Benefit Transfer (DBT) Schemes in December 2014. To meet the objectives of DBT, integrating the scheme with Public Financial Management System (PFMS) serves as important link. NSAP-PPS platform provided to States/UTs, caters to this requirement and can be effectively used for quick disbursal of pension in respective Bank/Postal account of pensioners using PFMS interface. Further, National Family Benefit Scheme (NFBS) has also been included under DBT and States/UTs have been directed to use the NSAP-PPS for payment of benefit to the beneficiaries and also directed to digitize the data of all eligible beneficiaries. At present, almost 34 States/UTs are paying pension to 100% beneficiaries through DBT. Cash mode for pension payment is being used only in 2 States which are also being advised to switch over to the DBT mode. Majority of the States / UTs disburse pension on monthly basis while others do so on quarterly basis. All States / UTs have already been advised to adopt monthly system of pension payment. 22.42 crores digital transactions recorded in 2022-23 and 20.49 crores in 2023-24. In FY 2024-25, 10.96 crore digital transactions have been recorded till 31.12.2024.

*As on 31.12.2024

7. Implementation of NSAP in North Eastern States

At present, all the five schemes of NSAP are implemented in the North Eastern States, wherein 10% of the total budget allocation of NSAP schemes is earmarked to NE States. NSAP schemes in NE States are implemented by the Rural Development Department in Assam and Meghalaya and in the rest of the NE States by Social Welfare Department. An amount of Rs. 457.83crore has been allocated to NE States for the year 2023-24, out of which Rs.408.68 crore has been released in FY 2-23-24. The total number of NSAP beneficiaries under NSAP in NE States is 12.94lakh. Fund released to NE states in FY 2024-25 till 31.12.2024 is Rs.158.84 crore. All the NE States except Nagaland have started Direct Benefit Transfer for payment of benefit under NSAP schemes.

* As on 31.12.2024

8. Utilization of PFMS Gateway

For effective utilization of PFMS gateway, as per current dispensation, States are required to open State Nodal Account linked with PFMS to minimize the role of State treasury in the process. The PFMS platform strengthens effectiveness and economy in Public Finance Management through better cash management

for Government, transparency in public expenditure and real-time information on resource availability and utilization across schemes. Its complete roll-out expected to bring about improved programme administration and management, reduction of float in the system, direct payment to beneficiaries and greater transparency and accountability in the use of public funds.

9. Social Audit

According to Para 6.10.2 of the NSAP guidelines, “Social Audit is to be conducted by the Gram Sabha / Ward Committee. Social Audit under NSAP should be held at least once in every six months. Hence, one of the agenda items of at least two Gram Sabhas / Ward meetings convened by the Gram Panchayat / Municipality during the year needs to be “Conduct of Social Audit for schemes of NSAP”. The announcement of the Social Audit should be made by the District Officer at least 30 days in advance. The Gram Panchayat / Municipality / Block / District Officers shall ensure that all relevant information of beneficiaries, mode of disbursement of pension, amount of pension disbursed etc., are made available to the Social Audit Committee at least 15 days in advance. The Committee can verify the information if it desires to do so, by physically visiting the beneficiaries. The Committee should also review action taken on complaints from the record of the officer designated for grievance redressal.”

Revised NSAP Social Audit (SA) Guildelines-2023 have been replace and supersede the earlier NSAP Guidelines on Social Audit. incorporating provisions of conducting Social Audit for Rural and Urban Areas and shared with States/UTs for conducting Social

Audit MGNREGA Social Audit Rules 2011, SA Guidelines 2015 and Auditing Standard for Social Audit 2016 issue by Ministry. States/UTs have been advised to use the 1/6th part of the administrative funds allocated under NSAP schemes for conducting social audits for NSAP.

The pilot social audit entrusted to NIRD&PR Hyderabad has been conducted in 15 states, namely Himachal Pradesh, Assam, Maharashtra, Odisha, Tamil Nadu, Madhya Pradesh, Uttar Pradesh, Jharkhand, West Bengal, Gujarat, Rajasthan, Karnataka, Telangana, Meghalaya, and Mizoram. Of these, work has been completed in 14 states, except for Telangana.

Since MGNREGA has well defined system of Social Audit Units (SAUs) in different States, the same has been considered appropriate for conducting NSAP Social Audit. This Department has requested the States/UTs for the followings accordingly: -

- i. conducting SAs in States/UTs once in a year as per SA Guidelines and cover both Rural and Urban beneficiaries;
- ii. SAUs of MGNREGA to be used for the purpose;
- iii. 0.5% of the programme cost to be utilized for conducting SA;
- iv. Separate reporting of expenditure on SAs in UCs by States/UTs along with proposal for fund release.
- v. Uploading SA reports on NSAP-PPS portal for which provisions have been made on the portal.

10. Empowerment of Women

In February, 2009, the Government approved

Indira Gandhi National Widow Pension Scheme (IGNWPS) for the women (widows) under NSAP for BPL households. Under National Family Benefit Scheme(NFBS), BPL household is entitled to a lump-sum amount of money on the death of the primary breadwinner aged between 18-59 years. The amount of assistance is Rs.20,000/-.

Indira Gandhi National Widow Pension Scheme (IGNWPS) is a social security/social welfare programme under National Social Assistance Programme (NSAP) applicable to widows belonging to below poverty line (BPL) household. Under IGNWPS, central assistance of Rs.300/- p.m. is provided to the widows in the age group of 40-79 years. The total number of beneficiaries under the scheme is 8.23 lakh.

States are advised to simplify the procedure and processes under Indira Gandhi National Widow Pension Scheme (IGNWPS). The total number of estimated widow pensioners under the schemes is 67 lakh.

States are also advised to review the Application process. The Application forms should be simple and self-certification may be encouraged. If the documents are not available with the eligible beneficiaries, the States may devise method for certification by government functionaries, who can be authorized for the same. Advisories have been issued to all States/UTs for devising alternative methods for certification for the convenience of the beneficiaries as follows:

- i. For widow-the Revenue Authority could be allowed to certify the death of the spouse.
- ii. Death certificate of married deceased persons must indicate name of his surviving wife to enable sanction of widow pension.

- iii. In the absence of requisite document states may nominate/authorize revenue authority to certify death, medical authority to certify age.

11. Development of SCs/STs:

From the Financial Year 2021-22, provisions have been made for separate budgetary allocation

for SCs & STs. In this regard, in the financial year 2023-2024 an amount of Rs.1733.19 crore and Rs.1003.20 crore (as on 31.3.2024) and in the financial year 2024-2025 (as o 31.12.2024) Rs.1386.98 crore and Rs.730.58 crore have been released to SC & ST beneficiaries respectively under NSAP schemes. Year-wise total number of SC/ST beneficiaries covered under NSAP is as under:

Sl.No.	Year	Total no. of Beneficiaries	No. of SC Beneficiaries	Percentage of SC Beneficiaries	No. of ST Beneficiaries	Percentage of ST Beneficiaries
1	2021-22	29866826	5662755	18.96%	2989377	10.00%
2	2022-23	30109434	5696683	18.91%	3009052	9.99%
3	2023-24	30669885	5817385	18.96%	3067788	10.00%

12. Caring for the Differently-abled

In February, 2009, the Government approved Indira Gandhi National Disability Pension Scheme (IGNDPS) under NSAP for BPL households with severe or multiple disabilities between the age group of 18-64 years with assistance @ 200/- per month per beneficiary. For the purpose of defining severe or multiple disabilities the following legal provisions are followed:

- A per Section 56(4) of the Persons with Disabilities Act, 1995 (PWD Act, 95), “persons with severe disability” means a person with 80% or more of one or more disabilities.
- As per Section 2(h) of the National Trust for the Welfare of Persons with Autism, Cerebral

Palsy, Mental Retardation and Multiple Disabilities Act, 1999 (National Trust Act, 1999) , “Multiple Disabilities “means combination of 2 or more disabilities.

- Steps are being taken to implement the Rights of Persons with Disability Act 2016 for the NSAP schemes.

13. Coverage of minorities under NSAP:

NSAP has universal coverage of beneficiaries belonging to Below Poverty Line Households (BPL) across all over India in rural as well as urban areas. It consists of a sizable number of SC/ST, women and minorities beneficiaries.

14. Role of PRIs in implementation of NSAP:

NSAP Schemes are implemented by States/ UTs, wherein identification of beneficiaries

and sanction/ disbursement of benefit is also done by States/UTs. Panchayats are playing pivotal role in the implementation of NSAP schemes. Following work has been entrusted to Panchayats in the implementation of NSAP schemes:

- Awareness generation about NSAP schemes
- Identification of new beneficiaries
- Selection of beneficiaries
- Verification of new applications
- Discussion in Gram/Ward Sabha on eligibility of the new beneficiaries
- Monitoring and necessary follow-up in sanctions and disbursement
- Organize the Pension Diwas

15. Monitoring & Evaluation

Monitoring of NSAP

The States/UTs have to designate a Nodal Secretary at the State level to report the progress of implementation by coordinating with different departments concerned with the implementation of the schemes. The progress of implementation of the schemes is to be reported online by the State Nodal Department in a given monitoring format, every month. Non reporting of the physical and financial progress reports is construed as lack of progress and therefore, may result in the non-release of central assistance.

At the central level the scheme is monitored through Performance Review Committee(PRC) meetings, Nodal Officers Meetings, Visits of Area Officer and regular and special monitoring by the National Level Monitors(NLM).

State/UTs have to furnish Annual Verification

reports regularly.States/UTs have been directed to conduct Social Audit at village level (twice in a year) and submit its report to the Ministry on regular basis. Separate guidelines of Social Audit have also been provided to States/UTs.To foster transparency and swiftness in transactions, NSAP pension Schemes has been included under the purview of Direct Benefit Transfer (DBT).

Evaluation Studies under NSAP

An Evaluation Study on the National Social Assistance Program (NSAP) was conducted by the Centre for Market Research & Social Development in 2021. The report from the study emphasized the need to increase the pension amounts, expand coverage and revise the eligibility criteria under the NSAP scheme.

16. Rural Development Activities in Special Areas

NSAP is a social security/social welfare programme applicable to old aged, widows, disabled persons and bereaved families on death of primary bread winner, belonging to Below Poverty Line (BPL) household. The schemes under NSAP are implemented in rural as well urban areas in the Country. States/UTs have been advised to carry out following activities for the well being of the NSAP beneficiaries during extend periodof the celebration of India @75- Azadi ka Amrut Mahotsava Campaign.

All states and UTs has carried out following events/activities under the schemes of National Social Assistance Programme to mark special weeks during the 75th year of our independence for extended period:-

“Involved beneficiaries of Indira Gandhi

National Widow Pension Scheme (IGNWPS) in different activities under MoRD schemes during the week of international Widow's Day (21st June)".

Further, due to continuation of celebration of Azadi ka Amrit Mahotsav till August 15, 2023, States/UTs have been requested to carry out following events/activities till August, 23 under the schemes of National Social Assistance Programme to mark special weeks during the 75th year of our independence:

- i. Giving Prominence to beneficiaries of Indira Gandhi National Disability Pension Scheme (IGNDPS) in activities planned under different schemes of MoRD during week of International Day for Persons with Disabilities (3rd December)
- ii. Celebration of International Women's day on 3rd, March, 2023 at all level in the States/ UTs.

SAANSAD ADARSH GRAM YOJANA (SAGY)

Saansad Adarsh Gram Yojana (SAGY) is a unique scheme of the Ministry of Rural Development wherein, for the first time, the leadership, capacity, commitment and energy of the Members of Parliament are being leveraged directly for development at the Gram Panchayat level. Saansad Adarsh Gram Yojana (SAGY) was launched on 11 October 2014 with the aim of creating holistically developed model Gram Panchayats across the country.

These 'Adarsh Grams' [Gram Panchayat (GP)] serve as 'nucleus of health, cleanliness, greenery and cordiality' within the village community and, becoming schools of local development and governance, inspiring neighbouring Gram Panchayats to adopt the best practices being followed in these GPs.

The role of Members of Parliament is that of a catalyst. They identify the Gram Panchayat to be developed into Adarsh Gram Panchayat; engage with the community; help propagate the values of the scheme; enable the initiation of start-up activities to build up the right environment and facilitate the planning process. The District Collector is the nodal officer for implementing SAGY. The District collectors have to conduct a monthly review meeting with representatives of the participating line departments. The Hon'ble Members of Parliament concerned chair these review meetings. The heads of the Gram Panchayats concerned also are invited for these monthly meetings.

2. Approach

SAGY is guided by the following approach

1. Leveraging the leadership, capacity, commitment and energy of the Members of Parliament (MP) to develop model Gram

Panchayats.

2. Engaging with and mobilizing the community for participatory local level development.
3. Converging different government programmes and private and voluntary initiatives to achieve comprehensive development in tune with people's aspirations and local potential.
4. Building partnerships with voluntary -organisations, co-operatives and academic and research institutions.
5. Focusing on outcomes and sustainability.

3. Identification of Gram Panchayat

A Gram Panchayat would be the basic unit. It will have a population of 3,000-5,000 in plain areas and 1,000-3,000 in hilly, tribal and difficult districts. In districts where the average unit size is larger, Gram Panchayats approximating the desirable population size may be chosen. Further for districts having GPs where average unit size is smaller, two to three neighbouring Gram Panchayats approximating the desirable population can be adopted as one unit.

1. The MP would be free to identify a suitable Gram Panchayat for being developed as Adarsh Gram, other than his/ her own village or that of his/ her spouse.
2. Lok Sabha MP has to choose a Gram Panchayat from within his/ her constituency
3. Rajya Sabha MP may choose Gram Panchayat from the rural area of a district of his/her choice in the State from which he/ she is elected.
4. Nominated MPs may choose a Gram Panchayat from the rural area of any district

in the country.

5. In the case of urban constituencies (where there are no Gram Panchayats), the MP will identify a Gram Panchayat from a nearby rural constituency.

Primarily, the goal was to develop three Adarsh Grams by March 2019, of which one would be achieved by 2016. Thereafter, five such Adarsh Grams (one per year) would be selected and developed by 2024. The identification of Gram Panchayats under SAGY by the Hon'ble MPs was monitored phase-wise in 8 phases up to 2023-24. Now the selection of new GPs under SAGY has already completed on 31st March, 2024. However, the implementation of VDPs of the existing GPs identified by Hon'ble MPs under SAGY till March 31, 2024, is in progress.

4. Values of Saansad Adarsh Gram Yojana

1. Ensuring the involvement of all sections of society in all aspects related to the life of village, especially in decision-making related to governance.
2. Adhering to Antyodaya - enabling the "poorest and the weakest person" in the village to achieve well-being.
3. Affirming gender equality and ensuring respect for women.
4. Guaranteeing social justice.
5. Instilling dignity of labour and the spirit of community service and voluntarism.
6. Promoting a culture of cleanliness.
7. Living in consonance with nature - ensuring a balance between development and ecology.
8. Preserving and promoting local cultural heritage.

9. Inculcating mutual cooperation, self-help and self-reliance and fostering peace and harmony in the village community.
10. Bringing about transparency, accountability and probity in public life and nurturing local self-governance.
11. Adhering to the values enshrined in the Fundamental Rights and Fundamental Duties of the Indian Constitution.

5. Key Aspects of Development

Personal Development: Personal values, hygienic behaviour, daily exercises, free from alcoholism, cultural heritage & behaviour change.

Human Development: Universal access to health, balanced sex ratio, no malnutrition, universal access to education, village libraries/e-Libraries, Adult/ e literacy.

Social development: Promote Volunteerism, honouring village elders, women & local icons, Activities for violence and crime free village, Village sports & art festivals, Integration & inclusion of socially excluded groups like SC/ST.

Economic development: Promoting diversified agriculture & allied livelihoods (dairy and livestock, organic farming, soil health cards, micro-irrigation); Rural Industrialisation; Skill development and Village Tourism.

Environmental Development: Toilet in each house and Solid & liquid waste management, roadside plantations, tree plantation, rainwater harvesting, watershed development, social forestry.

Basic Amenities and Services: pucca houses, piped clean drinking water, all weather road

connectivity within and to main road with covered drains, electricity connection to all homes with 24/7 power, broadband connectivity, mini bank with ATM, Pucca Infrastructure for public institutions, Village markets, PDS outlets, CCTV at public place.

Social Security: Pensions for all eligible families- old age, disability and widow, Insurance schemes like AamAdmiBimaYojana & Health insurance- RSBY, PDS.

Good Governance: Active Gram Sabha and accountable Gram Panchayat, e-governance, UIDAI cards to all, online certificates, punctuality of Govt and Gram Sabha staff, time bound services as per citizen charter, holding of Mahila Gram Sabha before Gram Sabha, holding of Gram Sabha at least 4 times in a year, holding of Bal Sabha every quarter, Proactive disclosure of Govt programmes in public domain, GP as information facilitation centre, timely redressal of grievance of the people, half yearly Social Audit of programme implemented by Gram Sabha through MGNREGA social Audit scheme.

6. Monitoring

The Sansad Adarsh Gram Yojana (SAGY) is monitored through periodic reviews by the Ministry of Rural Development. The Ministry has evolved a comprehensive multilevel and multi-tool system of monitoring and evaluation of the implementation of its programmes which includes review by the Minister of Rural Development, Performance Review Committee meetings, Common Review Mission, Concurrent Monitoring and Impact Assessment studies. Concurrent monitoring mechanisms include the progress updated by States/Districts through

SAGY website regarding the identification of the Gram Panchayats, progress tracking of Village Development Plans (VDPs) and field visits by Ministry of Rural Development officials. The Ministry of Rural development (MoRD) reviews the progress of SAGY with State Nodal Officers (SNO), District Collectors and Charge Officers.

7. Resources for implementation of SAGY

SAGY is a 100% convergence based scheme without allocation of any funds for developmental projects undertaken under the scheme. Resources for SAGY projects are mobilized from the funds available under Central & State schemes, CSR funds and Member of Parliament Local Area Development Scheme (MPLADS) fund & Member of Legislative Assembly Development Scheme (MLALAD) Fund. The Ministry, however, provides administrative support to States/UTs for monitoring the implementation process of SAGY under “Management Support for Rural Development Programme” (MSRDP).

8. Achievements

As on 31.12.2024, the Hon’ble Members of Parliament have identified 3,361 Gram Panchayats under SAGY out of which 3,118 Gram Panchayats have prepared their VDPs. Under these VDPs, a total of 2,62,263 development projects/activities have been prepared, out of which 2,28,069 (87%) projects/activities have already been completed. Further, 100% completion or saturation have been achieved in 1,638 GPs. The VDP implementation progress is being regularly updated by the District Administration on SAGY Portal (saanjhi.gov.in).

a. Phase wise progress details of SAGYas on 31.12.2024 is as under:

Phase	Number of GPs identified under SAGY	Number of GPs that have prepared and uploaded VDPs on SAGY portal	Number of activities planned under VDP	Number of activities completed under VDP	Number of activities in progress under VDP	Number of activities yet to start under VDP
Phase I (2014-16)	696	689	43089	35143	2148	5798

9. Progress in implementation of SAGY in North-Eastern States

In the North-East region, the Hon'ble MPs have identified 156 Gram Panchayats under SAGY. SaansadAdarsh Gram Yojana (SAGY) has been a pioneering approach in rural development where a national programme focused on bringing convergence and saturation across governments. Accordingly, as many as 26 central schemes have amended their guidelines or enabled priority for the SAGY Gram Panchayats. Based on the principles of convergence and saturation within a specified timeline, the Yojana aims to empower the villagers to make choices and provide them with opportunities to

exercise those choices. Recognising the fact that development goes beyond infrastructure, the Yojana aims to generate value chain through value change.

The villagers of these GPs through a democratic process have articulated their aspirations towards 'Adarsh Gram' by formulating Village Development Plans (VDPs) that are befitting for their villages. The SAGY Gram Panchayats of North-East region planned for 7,889 projects in their VDPs, out of which 4448 (56 %) projects have been completed as on 31.12.2024. The State-wise progress of SAGY implementation in the North-East as on 31.12.2024 is shown below:

State	Number of GPs identified under SAGY	Number of GPs that have prepared and uploaded VDPs on SAGY portal	Number of activities planned under VDP	Number of activities completed under VDP
Arunachal Pradesh	11	5	266	195
Assam	46	44	2975	1104
Manipur	30	30	1791	1284
Meghalaya	21	20	687	363
Mizoram	14	14	806	545
Nagaland	6	3	134	85
Sikkim	15	13	499	420
Tripura	13	13	731	452
Total	156	142	7889	4448

EMPOWERMENT OF WOMEN

1. Mahatma Gandhi national Rural Employment Guarantee Act, (Mahatma Gandhi NREGA)

Mahatma Gandhi NREGS accords priority for empowerment of women and categorically states that while providing employment, priority shall be given to women in such a way that at least one-third of the beneficiaries shall be women who have registered and requested for work under the Scheme (Mahatma Gandhi NREGA, Schedule II, para 15).

Mahatma Gandhi NREGA Operational Guidelines has the following provisions to encourage women participation:

- Women (especially single women) and older persons should be given preference to work on worksites nearer to their residence.
- Equal wages for men and women.
- If more than five children under the age of six years are present, childcare facilities should also be provided at the worksite.
- In several States, the worksite supervision (as detailed above) has been assigned to women SHGs. This facilitates increase in women participation in Mahatma Gandhi NREGA and at the same time, supports SHGs financially.
- In the recruitment process of Mahatma Gandhi NREGA functionaries, the reservation policy of the State for contractual employment should be followed. The Mahatma Gandhi NREGS staff should be adequately represented by women, SCs, STs, disabled etc.
- For helping the Gram Rozgar Sahayak

in managing worksite facilities including taking attendance of the workers, a mate should be appointed for each work. Preference in appointment of mates should be given to women workers or differently abled persons who are adequately trained for performing the duties expected of mates.

- Special awareness and outreach activities should be conducted to ensure that all wage- seekers (including women) are able to handle bank procedures, especially in areas where they are unfamiliar with the banking system.
- Widowed women, deserted women and destitute women are highly vulnerable and require special attention. The GP should identify such women and ensure that they are provided 100 days of work. Pregnant women and lactating mothers (at least upto 8 months before delivery and 10 months after delivery) should also be treated as a special category. Special works which require less effort and are close to their house should be identified and implemented for them.

Additionally, to increase women participation in the scheme, states have been suggested to open individual bank/post office accounts for all women workers, identify and provide Job cards of distinct colour to widowed, deserted and destitute women, who qualify as a house hold under the Act.

As per the information uploaded by the States/ UTs in Management Information System (MIS), during the year 2024-25 (till 31st December, 2024), out of the total 213.46 crore person days generated, 123.67 crore are women person-days which is 57.92% of total person days generated

under this programme.

2. Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM)

Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM) focusses on reducing rural poverty through building institutions of the poor women (Self Help Groups to Village Organizations to Cluster Level Federations) and enabling them to access a range of financial, livelihoods and convergence services. Mission makes extensive use of community resources (social capital) for building and sustaining the community institutions and promotion of livelihoods. The Mission also provides technical support to improve livelihoods and quality of life.

Universal social mobilization is a key feature of DAY-NRLM, which aims that at least one female adult member from each identified rural poor household (using SECC and PIP process) is brought under SHGs and its federated institutions in a time bound manner. The mission especially focusses on the identified poorest of the poor and most vulnerable communities such as manual scavengers, victims of human trafficking, people with disabilities (PwDs) and particularly vulnerable tribal groups (PVTGs) etc. The Mission has evolved protocols, policy and strategies to reach out to these vulnerable sections of the community and support them to come out of poverty through providing them an institutional space, provide services (savings, credit, technical assistance for livelihoods promotion), strengthen and support them for sustainable livelihoods solutions.

The Mission envisages that mature community institution (SHG and their federations) would

demand transparent, efficient and quality public services for accessing schemes and national social security assistance programmes. Linkages with mainstream institutions such as banks, local governance bodies, and government departments help them to address multiple dimensions of poverty and deprivation. These activities would enable women to improve their access to entitlements, rights, resources and livelihood opportunities and gradually come out of poverty.

Mahila Kisan Sashaktikaran Pariyojana (MKSP)-Engendering Farming

Mahila Kisan Sashaktikaran Pariyojana (MKSP), is a subcomponent of the DAY-NRLM. It has been integrated in SRLM-AAP. Cumulatively around 4.30 crore Mahila Kisan have been covered under Agro-ecological practices, around 1.83 crore Mahila Kisans have been covered under Livestock Intervention and 2.64 Crores Mahila Kisans are having Agri Nutri Garden till December, 2024.

To support the mahila kisan strengthening their livelihoods, focused interventions like Integrated Farming Clusters, Sub Sector approach and Livestock Cluster promotion are being promoted in the country. It supports the mahila kisan intensifying their livelihood activities they are involved in.

The mahila kisan are further supported to establish women-owned producer enterprises/ Farmers Computer Companies across India so to support the small and margin access better market through aggregation, processing and marketing.

2.1 Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY)

Skill training projects under DDU-GKY require a mandatory coverage of 33% of women candidates. In the Calendar year (CY) 2024 (up to 31.12.2024) a total of 1,07,344 candidates have been trained out of which 67,196 trained candidates are women.

2.2 Rural Self Training Institutes (RSETIs)

Under RSETIs, during the calendar year 2024 (01.01.2024 to 31.12.2024) 5,83,081 candidates have been trained out of which 4,75,467 trained candidates are women.

3. Pradhan Mantri Awaas Yojana- Gramin (PMAY-G)

In PMAY-G, allotment of house is made jointly in the name of husband and wife except in the case of a widow/unmarried /separated person. The scheme allows the State to also choose to allot it solely in the name of the woman. Owning the PMAY-G house partially or completely ensures their economic stability. Further, while preparing Permanent Wait List (PWL), households are prioritized based on socio-economic deprivation parameters. The criterion includes female headed households with no adult male members between the age 16 to 59.

As on 31st December 2024 a total of 84,31,924 sanctions have been made in the name of female beneficiaries, out of which a total of 72,77,417 houses have been recorded completed. A total of 1,53,98,679 sanctions have been made jointly to Wife and Husband, out of which 1,22,74,689 have been recorded completed. Out of 3,22,63,984 total houses sanctioned, 2,38,30,603 houses i.e., 74% houses have been sanctioned solely or jointly in the name of female.

Self Help Groups (SHGs) accredited to NRLM

involves mostly women of that area. PMAY-G defines the role of SHGs as:

- SHGs should be involved in creating awareness among the beneficiaries of PMAY-G, about construction of durable houses, sources of procurement of materials, availability of skilled masons and benefits deliverable from other schemes implemented by the States/UTs and the Central Government.
- The SHGs need to be involved in the construction / completion of houses sanctioned to the beneficiaries.
- SHG members should be trained as certified social auditors to undertake social audit of the PMAY-Gramin.
- Production of building materials by the SHGs, where feasible, should be taken up for supply of the same to the beneficiaries of PMAY-G at a reasonable cost, thereby benefiting both the SHGs and the beneficiaries.

4. Pradhan Mantri Gram Sadak Yojana (PMGSY)

Pradhan Mantri Gram Sadak Yojana (PMGSY) has significant impact on the living conditions of the rural women in terms of providing rural roads, enhancing the opportunities for the girl child to have an access to educational facilities, better access to health and marketing hubs. Roads built under PMGSY have contributed to bridging the gender gap in terms to improving the accessibility of basic services- health, educations etc, and opportunities for raising the standard of living of rural poor-market access,

farm and non-farm livelihood avenues for rural women.

A progressive step has been taken under PMGSY by engaging women from the Panchayati Raj Institutions and representatives from SHGs along with Junior Engineer, Panchayat Pradhan, local patwari in the transect walk to prepare Detailed Project Report (DPR) Women are also involved in planning of the rural road network. Another initiative under PMGSY has been the involvement of women Self Help Groups in the off carriage way maintenance of PMGSY works in Uttarakhand and Madhya Pradesh. This ensures quicker response time and ownership of assets besides economically empowering the women Self Help Groups. This is an experimental initiative by these two states only. Based on the outcome, other States would also be nudged into it.

World Bank in its study “Poverty and Social Impact Assessment of PMGSY, June, 2014 (Jharkhand, Rajasthan and Himachal Pradesh)” has concluded the following:-

- Specialization of activities is taking place. Where men are commuting out to look for work, women have opportunity to take up their work, locally.
- Birla Institute of Technology & Science (BITS), Pilani in its study “Impact of PMGSY Roads on Accessibility in Rural roads March, 2016” has concluded the following:-
- New roads have provided better education opportunities to the children particularly girl child to continue their education beyond the elementary school level
- PMGSY roads have made health facilities

accessible to people. Women have been the major beneficiary, with most of the child birth taking place in government hospitals

- Women’s participation in financial decisions has increased and it is reflected in their market accessibility

5. National Social Assistance Programme (NSAP)

In February, 2009, the Government approved Indira Gandhi National Widow Pension Scheme (IGNWPS) for the women (widows) under NSAP for BPL households. Under National Family Benefit Scheme(NFBS), BPL household is entitled to a lump-sum amount of money on the death of the primary breadwinner aged between 18-59 years. The amount of assistance is Rs.20,000/-.

Indira Gandhi National Widow Pension Scheme (IGNWPS) is a social security/social welfare programme under National Social Assistance Programme (NSAP) applicable to widows belonging to below poverty line (BPL) household. Under IGNWPS, central assistance of Rs.300/- p.m. is provided to the widows in the age group of 40-79 years.

States are advised to simplify the procedure and processes under Indira Gandhi National Widow Pension Scheme (IGNWPS). The total number of estimated widow pensioners under the schemes is 67 lakh. The total number of beneficiaries under NFBS is 3.58 lakh.

States are also advised to review the Application process. The Application forms should be simple and self-certification may be encouraged. If the documents are not available with the eligible beneficiaries, the States may devise method

for certification by government functionaries, who can be authorized for the same. Advisories have been issued to all States/UTs for devising alternative methods for certification for the convenience of the beneficiaries as follows:

- i. For widow-the Revenue Authority could be allowed to certify the death of the spouse.
- ii. Death certificate of married deceased persons must indicate name of his surviving wife to enable sanction of widow pension.
- iii. In the absence of requisite document states may nominate/authorize revenue authority to certify death, medical authority to certify age.

Gender Budget Cell (GBC): Gender Budget Cell (GBC) has been constituted in each Ministry to ensure that public resources are allocated in an equitable way to tackle gender imbalances and promote gender equality by identifying the pressing gender needs or concerns. In March, 2013 Department of Rural Development has constituted the GBC.

The background of the page is a watercolor illustration. It features wavy, horizontal bands of color in shades of orange, yellow, and green, reminiscent of the Indian national flag. In the center, there is a faint, circular watermark of the Ashoka Chakra, a 24-spoked wheel. Overlaid on this background is the chapter title in a bold, black, serif font.

**DEVELOPMENT OF
SCHEDULED CASTES/
SCHEDULED TRIBES**

1. Mahatma Gandhi national Rural Employment Guarantee Act, (Mahatma Gandhi NREGA)

Mahatma Gandhi NREGA is a demand driven scheme with universal coverage. It may be seen that Mahatma Gandhi NREGA programme is self-targeting in nature and it has increased the outreach to the poor and the marginalized.

Para 5 of Schedule 1 of the Mahatma Gandhi NREGA, 2005 envisages that works creating individual assets shall be prioritized on land or homestead owned by households belonging to Schedule Castes (SCs), Schedule Tribes (STs), nomadic tribes, de-notified tribes etc.

As per the information uploaded by the States/ UTs in Management information System (MIS), during the year 2024-25 (till 31st December,

2024), out of total employment generation of 213.46 crore person days, employment generated for SCs stood at 40.65 crore persondays (19.05%) and for the STs, this figure stood at 38.13 crore persondays (17.87%). Thus, 36.91% of the total person days of employment generated in current financial year were for the SCs/STs households.

2. Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM)

Ministry of Rural Development has been earmarking funds for Scheduled Caste Special Plan (SCSP) and Tribal Sub Plan (TSP) under Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM) from 2013-14 onwards. The details of the funds earmarked for SCSP and TSP under DAY-NRLM are follows:

DAY-NRLM Scheme

(Rs.in Crore)

Year	Total	SCSP	TSP
2013-14 (R.E)	2600.00	438.22	317.33
2014-15 (B.E)	4000.00	599.26	434.24
2015-16 (B.E)	2505.00	327.54	237.19
2016-17 (B.E)	3000.00	320.76	231.73
2017-18(BE)	4500.00	848.29	613.41
2018-19 (B.E)	5750.00	1212.53	877.17
2019-20 (B.E)	9024.00	1671.93	1207.27
2020-21 (B.E)	9210.04	2305.00	1613.02
2021-22 (BE)	13677.61	3419.42	2393.84
2022-23(BE)	13336.42	3334.12	2334.13
2023-24(BE)	14129.17	3532.29	2472.60
2024-25(BE)	15047.00	3761.75	2808.23

The DAY-NRLM stipulates that at least 50% of the women beneficiaries shall be members of the SCs/STs. The State Missions have been advised to prioritize Integrated Action Plan (IAP) Districts (which also have high ST population) for DAY-NRLM intensive activities. The Social Management Framework (SMF) for DAY-NRLM has been prepared and disclosed. The SMF focuses on social inclusion, social accountability and social safeguards particularly focusing on marginalized and vulnerable social

groups including the Scheduled Castes (SCs) and the Scheduled Tribes (STs) and the Particularly Vulnerable Tribal Groups (PVTGs). Every State has been directed to prepare a social inclusion plan to guide their efforts to mobilize vulnerable groups including the SCs and the STs into SHGs and promote their financial and economic inclusion to ensure better livelihoods. The details regarding inclusion and capitalization of SC & ST SHGs are as follows:

Inclusion and capitalization of SC & ST SHGs

December 2024

S. No	Particular	Total
1	No. of SC-SHG formed	20,11,905
2	No. of SC-SHG received RF	1052354
3	Amount of RF provided to SC-SHG (In lakh)	159823.62
4	No. of SC-SHG received CIF	5484992
5	Amount of CIF provided to SC- SHG (In lakh)	539305.57
6	No. of ST-SHG formed	15,37,867
7	No. of ST-SHG received RF	991189
8	Amount of RF provided to ST-SHG (In lakh)	181552.63
9	No. of ST-SHG received CIF	4578521
10	Amount of CIF provided to ST- SHG (In lakh)	498987.02

As per the social inclusion protocol, the state missions need to initiate social mobilization work within a hamlet dominated by SC/ST and other vulnerable households on priority. Further the state missions need to prioritize positioning SC and ST in the SHG, VO and CLF leadership roles and also in MKSP and SVEP and AGEY. This strategy has successfully provided an edge to these communities in acquiring leadership roles and play a critical role in the functioning of community institutions. DAY-NRLM also gives priority to the SC and the ST SHGs in the provision of Revolving Fund and Community Investment Fund.

Special projects for PVTG communities

Special projects have been undertaken for PVTG communities under the innovation fund of NRLM for focused work on the comprehensive development of PVTG communities. The work was initiated in Attappady, Palakad district, Kerala and presently upscaled to Jharkhand and Chhattisgarh.

Attappady comprehensive tribal and PVTG development project was approved by Ministry, based on the high rate of infant mortality among tribal communities in Attappady, Kerala. The project was approved in 2014-2015 with an overall allocation of Rs.52.12 crore for seven years. The project is designed in two phases, the first phase from April 2014 to March 2018 with a total allocation of Rs.30.19 crores.

The project aimed to mobilize 10,000 families of Irula, Muduga and Kurumba families and form four tier institutional platforms for creating self-sustaining community institutions of their own. This special project was designed to develop prototype for DAY-NRLM to work with tribal

communities in Kerala and across the country.

Around 683 SHGs, 134 Village Organizations (Oorusamithis), 4 Panchayat Level Federations including Kurumba Panchayat Samithi have been promoted under the project. A total of Rs.987.85 lakh has been disbursed to these institutions and out of which Rs. 44.80 lakh was given towards revolving fund, Rs.1.15 lakh as startup funds, Rs.145 lakh as Vulnerable Reduction Fund and Rs.667.75 lakh as Community Investment Fund and Rs. 129.20 lakh as Livelihoods Funds and 63.46 as producer fund. To address the malnourishment among children, the project in convergence with social welfare and Tribal welfare departments has promoted 185 community kitchens.

The learning from Attappady intervention has been up-scaled to the tribal communities of Paniya, Kuruma, Vettukuruma, PVTG communities of Kattunayaka and Cholanayaka in Tirunelli, Wyenad, Paniya communities of Aralam in Kannur and Paniya, Arnadan, Kattunayakan and Cholanayakan communities of Nilambur, Malapuram.

Udaan: PVTG development project was undertaken by JSLPS under the innovation fund of NRLM from Dec 18 till March 2024. The achievement are as follows-

- 23528 PVTG households have been mobilised into 2142 SHGS linked with respective VOs.
- 395 change makers have been identified through community participation approach and are being groomed by state resource persons.
- Entitlement drive process completed in 993

PVTG hamlets and 20764 families availed various entitlements

- 20887 families undertaking various livelihood activities
- 302 PVTG Youth are trained under skill development program
- 394 children enrolled in PVTG paatshala run as bridge courses in the PVTG villages
- 1896 given FNHW training

Based on the achievements of the innovation project, the initiative to work with PVTGs has been streamlined in the mainstream NRLM program so that it can be scaled up to all the relevant districts and blocks in Jharkhand.

Bawariya development project was undertaken by UP SRLM under the innovation fund of NRLM. The progress is as follows-

- Total 2346 Bawariya HHs of the project household are included into the SHG folds either through exclusive groups or in other groups.
- Formation of 236 SHGs exclusively of Bawariya are formed under 10 VOs
- RF provided to all the 236 SHGs and CIF to 35 SHGs

Special Proposal for Socio-Economic Development of Vantangiya marginalized Community has been undertaken by UPSRLM. The progress is as follows-

- 5028 HHs of Vantangiya community are brought into the SHG folds
- 485 SHGs and 22 VOS formed

- RF and CIF is provided to all the 485 SHGs
- “Uthhan”- Mainstreaming and Livelihood promotion for PVTGs in Chhattisgarh was undertaken from Dec 2019 till March 2023, by Bihaan

The objectives of the project is to enhance socio-economic status of PVTGs through holistic approach (Institutional promotion & strengthening, livelihoods promotion, Convergence) aimed at improving their quality of life.

Progress

- 9 districts, 14 blocks, 167 GPs, 246 villages
- Community Operational manual has been finalised
- Integrated training module has been finalised
- Resource mapping and social mapping done in 50% villages
- 172 CRPs identified and trained
- Base-line survey of 9756 households completed
- 1166 SHGs formed
- 8590 households included

The project completed and the learning internalized by streamlining into the mainstream NRLM program.

2.1 Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY)

The DDU-GKY Guidelines provide for earmarking 50% of fund allocation for the

Scheduled Caste and Scheduled Tribe category at national level. In the CY 2024 (up to 31.12.2024), a total of 37,031 Scheduled Caste candidates and 20,430 Scheduled Tribe candidates have been trained under DDU-GKY projects.

2.2. Rural Self Training Institutes (RSETIs)

During the calendar year 2024 (01.01.2024 to 31.12.2024), a total of 1,40,510 Scheduled Caste candidates and 87,908 Scheduled Tribe candidates have been trained under RSETI Scheme.

3. Pradhan Mantri Awaas Yojana – Gramin (PMAY-G)

Under PMAY-G, minimum 60% of the target at the national level is earmarked for SC/ST households. To maintain this, 60% of the target allocated to each State / UT is earmarked for SC/STs subject to availability of eligible PMAY (G) beneficiaries in the Permanent Wait List (PWL). Within earmarked targets the proportion of SC/ST is to be decided from time to time by the respective States/UTs. Under the scheme, there was no separate allocation made for the SCs/STs up to 2010-11. From the year 2011-12 funds are earmarked for Special Component Plan for Scheduled Castes and Scheduled Tribe Sub Plan. As of 31st December, 2024 out of the total 3,22,63,984 houses sanctioned, 72,93,728 houses were sanctioned for SCs and 74,80,864 sanctioned for STs across the country.

Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan (PM-JANMAN)

Further, under the housing intervention of the PM JANMAN, eligible PVTG families are provided assistance for construction of pucca houses with basic amenities within the overall

target of 4.90 lakh houses by March, 2026. As on 31st December, 2024, 3,46,214 houses were sanctioned and first installment was released to 2,89,070 to PVTG beneficiaries across the country with Central release of fund of Rs 675.82 Crore in FY 2024-25. As on 31st December 2024, 72,156 houses were completed of PVTGs beneficiaries through housing intervention provided by PMAY-G under PM JANMAN.

4. Pradhan Mantri Gram Sadak Yojana (PMGSY)

PMGSY is an area development programme and the unit of programme is a habitation. PMGSY is not an individual beneficiary oriented scheme and target of the programme is to connect the eligible habitations with roads constructed under it catering to the access needs of the entire population of the target habitation. However, relaxation has been provided to the Tribal (Schedule V) areas and Selected Tribal and Backward Districts (as identified by the Ministry of Home Affairs (MHA) and the erstwhile Planning Commission), and unconnected habitations in these areas with a population of 250 persons and above in the Core Network as per Census 2001 are eligible for connectivity under the scheme.

No separate allocation of funds is made for Scheduled Castes/Scheduled Tribes under PMGSY.

Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan (PM-JANMAN)

1.13 During Budget Speech 2023-24, it was announced to improve socio-economic conditions of the Particularly Vulnerable Tribal Groups (PVTGs). Subsequently, Pradhan Mantri PVTG Development Mission

was launched with an aim to saturate PVTG families and habitations with basic facilities such as safe housing, clean drinking water and sanitation, improved access to education, health and nutrition, road and telecom connectivity, and sustainable livelihood opportunities.

1.14 The Union Cabinet approved Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan (PM-JANMAN) with an outlay of Rs. 24,104 crore to focus on 11 critical interventions through 9-line Ministries/Departments. Hon'ble Prime Minister launched the PM JANMAN Mission on Janjatiya Gaurav Divas on 15th November, 2023 with a resolve to reach out to tribal groups and primitive tribes most of whom still dwell in the forests.

1.15 Under PM- JANMAN: Road Connectivity component Road length targeted is 8000 Km with cost norms of Rs. 1.00 crore/km. Timeline for completion of all the activities is 2025-26. However, Provision of funds from DAPST for continuation of the scheme under PMGSY is till

March 2028. Till December, 2024, 4,781 Km has already been sanctioned under Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan (PM-JANMAN) at a cost of Rs. 3,661 crore. Under this programme, habitation data has been integrated into a GIS platform to streamline the process of verification of the connectivity status of these habitations by field engineers.

5. National Social Assistance Programme (NSAP)

From the Financial Year 2021-22, provisions have been made for separate budgetary allocation for SCs & STs. In this regard, in the financial year 2023-2024 an amount of Rs.1733.19 crore and Rs.1003.20 crore (as on 31.03.2024) and in the financial year 2024-2025 (as on 31.12.2024) Rs. 1386.98 crore and Rs. 730.58 crore have been released to SC & ST beneficiaries respectively under NSAP schemes. Year-wise total number of SC/ST beneficiaries covered under NSAP is as under:

Sl. No.	Year	Total no. of Beneficiaries	No. of SC Beneficiaries	Percentage of SC Beneficiaries	No. of ST Beneficiaries	Percentage of ST Beneficiaries
1	2021-22	29866826	5662755	18.96%	2989377	10.00%
2	2022-23	30109434	5696683	18.91%	3009052	9.99%
3	2023-24	30669885	5817385	18.96%	3067788	10.00%
4	2024-25*	30229677	5739620	19%	3028678	10.00%

*(as on 31.12.2024)

CARING FOR PERSONS WITH DISABILITY

1. Mahatma Gandhi National Rural Employment Guarantee Act, (Mahatma Gandhi NREGA)

As mentioned earlier Mahatma Gandhi NREGA is a demand driven scheme therefore, separate earmarking of employment/resources have not been provided for differently abled.

The disabled or differently-abled persons defined under the Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act, 1995 (1 of 1996) as persons with disabilities, the severity of which is 40% and above are considered as special category of vulnerable persons for the purposes of Mahatma Gandhi NREGA. The disabled persons as defined in the National Trust for Welfare of Persons with Autism Cerebral Palsy, Mental Retardation and Multiple Disabilities Act, 1999 (44 of 1999) are also to be considered as disabled for the purpose of inclusion of Mahatma Gandhi NREGA.

To increase participation of Persons with Disabilities (PWD) in the Scheme, some major initiatives have been suggested such as:

- a. Special schedule of rates for PWDs.
- b. Identification of suitable works for PWDs.
- c. Organization of PWDs in groups.

As per the information uploaded by the States/UTs in Management Information System (MIS), during the year 2024-25 (till 31st December, 2024), a total of 4.37 lakh disabled beneficiaries have been provided employment who together generated 1.48 crore person days of work.

2. Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM)

DAY-NRLM recognizes that poverty and disability are closely linked to each other and therefore it addresses specific needs of individuals as well as families of Persons with Disabilities (PwDs). The states undertake participatory vulnerability assessment processes as part of social mobilization. This entry point activity at the village level with a specific focus on identification of households of Persons with Disabilities (PwDs) shall ensure greater inclusion of these individuals and families into the DAY-NRLM network. Inclusive development of people with disabilities (PWDs) is a critical component of DAY-NRLM. This entails implementation of interventions that focus on community-integration of PWDs and their families. Under DAY-NRLM, priority is given to the promotion of exclusive SHGs of differently abled persons and their care givers. The initial social mobilization process lays great stress on including members of differently abled households in the SHG fold. The organization of PWDs into groups has led to increased awareness and accessing of entitlements and rights. DAY-NRLM also seeks to provide financial support in the form of Revolving Fund and Community Investment Fund to these SHGs on a priority basis. DAY-NRLM also provides scope for inclusion of minors through the adult parent or immediate caretaker of the minor as nominee.

The details regarding inclusion and capitalization of PWDs SHGs are as follows:

Inclusion and Capitalization of PWDs SHGs

December 2024

S. No.	Particulars	Total
1	No. of PWD-SHG formed	2363185
2	No. of PWD-SHG received RF	102364
3	Amount of RF provided to PWD-SHG (In Rs.lakh)	19647.90
4	No. of PWD-SHG received CIF	63679
5	Amount of CIF provided to PWD- SHG (In Rs.lakh)	65218.38

About Inclusive development of Elderly

DAY-NRLM prioritise the inclusion of Elderly and other vulnerable into the SHGs. Special provisions for inclusion of such vulnerable groups have been laid out in form of a hand book. Where ever required, Special SHGs for elderly are promoted and provided with RF and included in the VOs. Further, efforts are made to promote adequate livelihood activities with the SHGs members.

- At present there are 307038 exclusive self-help groups of elderly people incorporating 22,01,903 Elderly members.
- There are total 21,40,714 (over 97%) women in these elderly group apart from 54310 Male elderly members.
- Taking all the groups into consideration, there are total 1 Crore 36 Lakh 30 Thousand 6 hundred and Nine elderly members in the entire NRLM as part of various exclusive and non exclusive SHGs.

2.1 Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY)

As per DDU-GKY guidelines, States have been mandated to ensure that at least 5% of beneficiaries in the skill training courses, being

implemented in the State are from among persons with disabilities (PwD). In the CY 2024 (up to 31.12.2024), 679 PwD candidates have been trained under DDU-GKY projects.

2.2 Rural Self Training Institutes (RSETIs)

Under RSETIs Scheme, during the calendar year 2024 (01.01.2024 to 31.12.2024), 4,046 PwD candidates have been trained.

3. Pradhan Mantri Awaas Yojana – Gramin (PMAY-G)

The Rights of Persons with Disabilities Act, 2016, provides for social security for persons with disabilities. Accordingly, in the scheme of PMAY-G while deciding the inter-se priority among the beneficiaries who are to be provided assistance, households with any disabled member and no able bodied adult member have been accorded additional deprivation score so that such households are given priority while allotting the houses. Keeping this in view, State should ensure that at least 5% of beneficiaries are from among persons with disabilities.

In cases where the beneficiary is old or infirm or a person with disability and is therefore not able to get the house constructed on his / her own, such houses are taken up as a part of the

Rural Mason Training (RMT) programme. In case there are still some beneficiaries left out, the State /UT Governments ensure that such beneficiaries are assisted through the Gram Panchayats or a ground level programme functionary to get their house constructed.

As on 31st December, 2024, a total of 4.41 lakh houses have been sanctioned to divyang households and 3.42 lakh houses have been completed in the last 8 years.

4. Pradhan Mantri Gram Sadak Yojana (PMGSY)

PMGSY is a Centrally Sponsored Scheme with the objective to provide access to the basic services through construction of all-weather roads to population residing in the rural areas including Differently Abled.

Further, for promoting road safety in rural areas, some measures have been recommended to protect pedestrian including differently-abled persons from risks of accident, which are as follows:

- a. Traffic calming measures around centers of activities such as habitations, schools, markets etc.
- b. Pedestrian crossing facilities: This encourages pedestrians to cross at a designated safer point and thus increases their safety. The junctions with the highest level of pedestrian activity should also be identified and should be provided with proper traffic calming measures.
- c. Safety campaign to increase awareness to local communities about road safety for pedestrians, for example to encourage walking on the road side facing oncoming traffic. Safety campaigns also include

treatment of cattle that will also be subject to the risks of road accident.

- d. Provisions of rumble strips close to meeting points of rural roads with main roads.

5. National Social Assistance Programme (NSAP)

In February, 2009, the Government approved Indira Gandhi National Disability Pension Scheme (IGNDPS) under NSAP for BPL households with severe or multiple disabilities between the age group of 18-64 years with assistance @ 200/- per month per beneficiary. For the purpose of defining severe or multiple disabilities the following legal provisions are followed:

- a. As per Section 56(4) of the Persons with Disabilities Act, 1995 (PWD Act, 95), “persons with severe disability” means a person with 80% or more of one or more disabilities.
- b. As per Section 2(h) of the National Trust for the Welfare of Persons with Autism, Cerebral Palsy, Mental Retardation and Multiple Disabilities Act, 1999 (National Trust Act, 1999) , “Multiple Disabilities “means combination of 2 or more disabilities.
- c. Steps are being taken to implement the Rights of Persons with Disability Act 2016 for the NSAP schemes.

Currently, under the Indira Gandhi National Disability Pension Scheme (IGNDPS) assistance of ₹300/- per month to persons aged 18-79 years with severe or multiple disabilities, while ₹500/- per month is provided to individuals aged 80 years and above. At present, over 8.8 lakh beneficiaries are covered under the scheme.

WELFARE OF MINORITIES

1. Deendayal Antyodaya Yojana- National Rural Livelihoods Mission (DAY-NRLM)

DAY-NRLM has the mandate to ensure adequate coverage of women from the minority groups. The Mission is required to ensure that 15% of the total women members mobilized and supported are from the minority communities. Accordingly, state-wise targets for coverage of minority members have been communicated to the states by DAY-NRLM Division.

The details regarding inclusion and capitalization of Minority- SHGs are as follows:

Inclusion and Capitalization of Minority SHGs

December 2024

S.No.	Particular	Total
1	No. of Minority -SHGs formed	693767
2	No. of Minority-SHGs received RF	4151878
3	Amount of RF provided to Minority-SHGs (In Rs. lakh)	68954.41
4	No. of Minority-SHGs received CIF	217835
5	Amount of CIF provided to Minority- SHGs (In Rs. lakh)	165318.39

Vulnerability Reduction Plan (VRP) and Vulnerability Reduction Fund (VRF)

VRF is part of Community Investment Fund (CIF).VRF is a fund (corpus fund) given to Village Organisations/ Primary level federation at Village level to address vulnerabilities faced by the individuals or household(s) or Communities. The purpose of VRF is to address

the special needs of the vulnerable households including non-members of the SHGs in the concerned VO geographical area. It can be given for an individual need or collective action based on the needs identified through vulnerability reduction plan. An amount up to Rs.1,50,000 per VO can be given as VRF. At present, VRP is facilitated for 207855 Village Organisations.

Special projects for the migrant workers under NRETP

Special projects have been developed under the Innovation Fund of NRETP for the comprehensive development of the migrants in the states of Jharkhand, Chhattisgarh and Uttar Pradesh. The projects would be covering 50,000 to one lakh families and would focus on inclusion in institutions, financial inclusion, extend psycho-social support, ensure help-desk/facilitation centre to ensure access to entitlements, labour bank/employment exchange to track skills and connect to existing employment opportunities, livelihood development in farm and non-farm sectors, interlinking with existing farm and SVEP programmes of NRLM. Capacity building would be undertaken on aspects like health, food nutrition, gender, institutions, livelihoods, etc.

Shram Samman, project for migrants in Jharkhand(Nov 2020-Oct 2023)

Objectives

- The returnee migrant families need support to (i) reconnect with lost livelihoods; (ii) access local employment; (iii) get benefits of social protection and health care services.
- Sustainable LH is created to earn Rs. 1 lakh per annum/family.

- Basic food & nutritional security and health care is ensured.
- Human and legal labour rights are addressed.
- State Government's policy is substantially influenced for incorporating project experiences.

Achievements

- 12500 Migrant HHs are Mobilised into SHG fold
- 180 Community Managed Employment Exchange (called Panchayat help Desks) are formed at the GP level.
- A call centre called 'Didi helpline' is established at the state level to provide remote support to the target migrant workers.
- 79526 Migrant labourers registered under Labour department.
- 15084 migrant families for whom individual LH plan prepared.
- 1362 Migrant Families are supported with VRF @ Rs. 6000 per HHs.
- 2844 VOs are maintaining Migration tracking register (MTR).
- 11835 Migrant HHs have been linked with entitlements like Ration Cards, Job cards, Pension, Bima and Ayushman cards.

Milaap, project for migrants in Chhattisgarh (Oct 2020- September 2023)

Objectives

- Comprehensive development of Migrant

Labourers through sustainable livelihood, ensured entitlement and skill development.

- Ajivika Sansadhan Kendra (ASK) at block level managed by CLF (Model CLF).
- Institution Building and psycho social support provided.
- VO-CLF orientation on Inclusion of Migrant labourers.
- Training of community cadre on COVID—19 and livelihood activities.
- Priority for access to VRF fund (Community fund).
- CIF support for livelihood.
- Integration with Existing Farm and off farm activities.
- Focus on Nutri -garden and Integrated farming).

Achievement

- 2 districts, 7 blocks, 541 GPs, 1101 villages.
- 710 CRPs trained.
- Baseline survey of 17681 households completed.
- 5744 Migrant Families are mobilized into SHG.

Poorest of Poor Programme

- A White Paper on the Poorest of Poor programme was approved by the Hon'ble MRD and shared with PMO, NITI AAYOG, and the concerned Ministries for consensus building.

- Common minimum framework for PoP programming is being developed with key stakeholders for coherence; consortium to address issues of extreme poverty being convened by DAY-NRLM.
- Guideline revisions for the Innovation Fund being worked on, in close coordination with all thematics and IFD.
- Design and development of National Tech MIS app being undertaken, in close collaboration with NMM-MIS and DIC, for rollout at the national level.
- Special project letters of interest received from Rajasthan, Assam, Tripura, Meghalaya and West Bengal; approvals granted through EC for the first 2 and the rest underway.
- The special project in Jharkhand (UPAJ) has demonstrated the following progress:
 - Training and deployment of CRPs for selection and identification drives.
 - Completion of identification drive in 728 hamlets, 250 villages, 4 blocks of 3 districts with 36,558 families. Identified 5,157 extremely poor households in 177 Vos, out of which, 4000 are being targeted under the project.
 - The Training of Trainer (ToT) of BPC/DPC/BPM/DM-SD/DM-Livelihood/BRP-Livelihood has been completed at State Level.
 - 3717 livelihood support grant demands have been received from VOs and submitted to BPM for funds for initiation of livelihood interventions.
 - Three SMTs have been assigned to verify the Consumption Support Grant at field level.
 - 30 UPCMs (Ultra-Poor Changemakers) have been trained for livestock intervention at State level.
 - CSG & LSG tracking modules have been added in UPAJ Mobile App.

2.1 Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY)

DDU-GKY provides mandatory coverage of 15% at the national level for skilling beneficiaries from Minority groups. In the CY 2024 (up to 31.12.2024) 1,07,344 candidates have been trained out of which 18,669 trained candidates are from Minority groups.

2.2 Rural Self Training Institutes (RSETIs)

Under RSETIs, during the calendar year 2024 (01.01.2024 to 31.12.2024) 5,83,081 candidates have been trained out of which 74,582 trained candidates are from Minority groups.

3. Pradhan Mantri Awaas Yojana – Gramin (PMAY-G)

PMAY-G aims to provide pucca houses with basic amenities to all eligible houseless households and households living in kutcha and dilapidated house in rural areas. Revised Framework for Implementation of Pradhan Mantri Awaas Yojana- Gramin (PMAY-G) of 2022 do not contain any special provision for minorities.

There is no separate earmarking of targets for Minorities communities under PMAY-G. Database of PMAY-G is being maintained in

SC, ST and Others categories which includes minority. As on 31st December, 2024, 1,74,85,590 houses have been sanctioned to “Others category” out of which 1,49,76,292 houses have been constructed by Others category beneficiaries .

4. Pradhan Mantri Gram Sadak Yojana (PMGSY)

PMGSY is a Centrally Sponsored Scheme with the objective to provide access to the basic services through construction of all-weather roads to population residing in the rural areas including Minorities.

5. National Social Assistance Programme (NSAP)

NSAP has universal coverage of beneficiaries belonging to Below Poverty Line Households (BPL) across all over India in rural as well as urban areas. It consists of a sizable number of SC/ST, women and minorities.

TRAINING AND CAPACITY BUILDING

An Overview

Capacity building through training of Rural Development functionaries, elected representatives of Panchayati Raj Institutes (PRIs), and other concerned is a priority of the Ministry. Capacity building is carried out through a network of Training Institutes, namely the National Institute of Rural Development and Panchayati Raj (NIRD&PR) at Hyderabad, its North Eastern Regional Centre (NERC) at Guwahati, 29 State Institutes of Rural Development (SIRDs) and 87 Extension Training Centres (ETCs). During the year 2024, as of 31.12.2024, NIRD&PR organized 1230 programs (including 171 of NIRDPR-NERC Guwahati) and trained 49,928 participants (including 7763 from NIRDPR-NERC Guwahati). During 2024 (till 31.12.2024), SIRDPRs & ETCs put together have organized 2039 training programs, workshops, and seminars through which about 183326 participants were trained online and offline mode.

National Institute of Rural Development & Panchayati Raj (NIRD&PR), Hyderabad

As an apex body of the Ministry of Rural Development (MoRD) and the Ministry of Panchayati Raj (MoPR), NIRDPR plays a crucial role as a think tank in creating knowledge, evidence-based policy advocacy, and imparting capacity-building programs for the government functionaries. The Institute also helps MoRD and MoPR in implementing their flagship programs by organizing capacity-building programs for implementing functionaries. NIRDPR undertakes research and action research focusing on policy, strategy, and micro planning. The State Institutes of Rural Development and Panchayati Raj (SIRDPRs)

and Extension Training Centres (ETCs) are also involved in this endeavor under the mentorship of NIRDPR as an apex capacity-building organization in Rural Development and Panchayati Raj. SIRDPRs facilitate and take the NIRDPR capacity-building programs to the grassroots level in cascading mode. In this respect, training programs in networking mode are conducted in collaboration with SIRDPRs and ETCs.

NIRDPR, with its headquarters in Hyderabad and three other centers in Delhi, Guwahati, and Vaishali, is actively engaged in training and capacity-building programs. NIRDPR has Seven Schools and Twenty One Centers to develop professionals for rural development. The pan-India nature of the activities of NIRDPR helps expand outreach to all sections of society, including the indigenous and tribal communities. The Institute also conducts regular academic programs for the students, including a year- Post Graduate Diploma in Rural Development Management, a two-year Graduate Diploma in Management (Rural Management), one-year distance mode programs including Post Graduate Diploma in Sustainable Rural Development, PG Diploma in Tribal Development Management, PG Diploma in Geo-Spatial Technology Applications in Rural Development, PG Diploma in Panchayati Raj Governance and Rural Development.

From 01.01.2024 to 31.12.2024, NIRDPR organized 1230 programs and trained 49,928 participants. It is estimated that about 619 programs will be conducted during January-March 2025, covering 18,570 participants. The training performance from 2019-20 to 2024-25 (up to 31st December 2024) is as below (Financial year-wise number of programs conducted) :

RESEARCH STUDIES

As mentioned earlier, NIRDPR research focuses on contemporary issues related to rural development. The institute's research keeps it updated on the current rural development situation in the country, influencing policy and providing training resources. The critical feature of the Institute's research studies is an emphasis on Action Research and Village Adoption Studies. The broad research areas encompass many vital themes including Agriculture, CSR Initiatives, Decentralised Planning, Geo-informatics and ICT applications in Rural Development, Good Governance, Governance

and Policy Analysis, ICT and e-governance, Livelihoods & Entrepreneurship, Local Self-governing Institutions and Processes thereof, Micro-enterprises concerning farm and non-farm, Mission Antyodaya, Own Source Revenue, Panchayati Raj, Poverty Alleviation, Rural Employment and related issues, Rural Health, Rural Infrastructure, Rural Livelihoods, Social Audit, Women Empowerment, etc.

From 1st January 2024 to 31st December 2024, 44 new studies were taken up, and two were completed. In addition, 20 studies of previous years were also completed during the year 2024.

Action Research and Collaborative Studies

NIRDPR's action research aims to solve grass-root-level problems and design development models based on exposure and experiences. Collaborative studies are conducted with other reputed institutions, such as State Institutes of Rural Development and Panchayati Raj (SIRDPRs) & Extension Training Centres (ETCs). Faculty members of SIRDs / ETCs are encouraged to submit research proposals and pursue the studies under the guidance of the NIRDPR faculty. The NIRDPR encourages institutions with relevant expertise to undertake specific studies through mutual collaboration.

Performance of North Eastern Regional Centre of NIRDPR At Guwahati

The North Eastern Regional Centre of NIRDPR at Guwahati caters to the specific needs of the North Eastern Region. From 01.01.2024 to 31.12.2024, NIRDPR-NERC at Guwahati, has organized 171 programs and trained 7763 participants. Four research studies were taken up by faculty members of NERC. Among these, three studies were completed during the reference period.

Networking with State Institute of Rural Development and Panchayati Raj (SIRDPRS) and Extension Training Centres (ETCs)

State Institute of Rural Development and Panchayati Raj (SIRDPRS)

NIRDPR promotes networking with SIRDPRS and ETCs. There are 29 SIRDPRS that receive 100% central assistance from the Ministry of Rural Development for non-recurring expenditure. In contrast, the recurring expense is shared equally between the Central and State

Governments. In the case of the North-Eastern States and three hilly areas (Jammu & Kashmir, Uttarakhand, and Himachal Pradesh), the recurring cost is shared in the ratio of 90:10 between the Centre and States. Under recurring expenditure, 100% funding support is provided for seven core faculty members of the SIRDPRS. The SIRDs and ETCs aim to improve rural development officials' knowledge, skills and attitudes and elected representatives of Panchayati Raj Institutions and other functionaries at district and block levels.

Extension Training Centres (ETCs)

The Extension Training Centres (ETCs) function under the State Governments at the Regional level to impart training to the rural development functionaries and elected representatives of Panchayati Raj Institutions at the village level. At present, there are 87 ETCs in the country. Consequent to the increase in number of developmental functionaries and the need to provide training to elected members of Panchayati Raj Institutions and CBOs, the ETCs have added importance. Central assistance is provided @ 100% for non-recurring expenditures and up to a maximum of Rs. 20 lakh per ETC per annum to enable them to cope with the increased training load of RD functionaries and PRI members.

Physical Progress

During the year 2024 (till 31.12.2024), SIRDs and ETCs put together have organized 2039 training programs and trained about 183326 lakh participants through online/offline modes of training at State, District, Block, and Gram panchayat levels. The trainees include RD and PR functionaries and the elected representatives of PRIs.

Key Achievements of NIRDPR in 2024 (as of December 31, 2024)

- **NIRDPR Training Calendar 2024-25** was prepared to adopt a focused approach and released on April 4, 2024.
- Conducted four **Capacity Building trainings for MoRD staff on NRLM and MGNREGA domains** under the Annual Capacity Building Plan (ACBP) of MoRD.
- NIRDPR played a key role in the implementation of '**Aspirational Blocks Programme (ABP)**' by NITI Aayog. NIRDPR & YASHADA Pune jointly prepared nine sectoral modules and trained 190 Master Trainers in these nine sectors. Also, **Sectoral Training was conducted for the Block Level Officials** of 5 Southern and 8 North Eastern States, during February 2024.
- Conducted **National Colloquium of SIRD&PR** on 4th and 5th April 2024, at NIRDPR Hyderabad, which saw participation by Secretary and Additional Secretary MoRD.
- Conducted **National level CEO conclave for DDU-GKY** in New Delhi in Jan 2024.
- Two-day **National Level Brainstorming Workshop on Strategies to Revamp Saansad Adarsh Gram Yojana** February 29 and March 1, 2024.
- Conducted a 5-day training program on **International Approaches and Instruments for the Conservation of Biodiversity and Wetlands** in collaboration with the National Biodiversity Authority (NBA) from 8-12 January 2024.
- Organized the **66th General Council meeting of NIRDPR** on August 13, 2024 at NIRDPR Campus, Hyderabad, chaired by Shri Shivraj Singh Chouhan, Hon'ble Union Minister for Rural Development and Agriculture & Farmers Welfare.
- **PMAY-G Model House (Double bedroom)**, constructed using Sustainable Housing Technologies at the Rural Technology Park (RTP), NIRDPR, Hyderabad, was inaugurated by **Shri Shivraj Singh Chouhan, HMRD**, on August 13, 2024, in the presence of **Honourable Ministers of State for Rural Development, Dr Chandra Sekhar Pemmasani and Shri Kamlesh Paswan**.
- Conducted **four Training programs for Presidents & Vice-Presidents of Atol Councils of Maldives (Local Government Authority)** in January, June, July, and October 2024 – supported by the Ministry of External Affairs, Government of India.
- Conducted **three training programs under the Annual Capacity Building Plan (ACBP)** of MoRD. 'Training on PMAY-G' organized from 08 -12 July 2024 at NIRDPR-NERC Campus, Guwahati, 'Training on Gender' organized from 2-6 Sep 2024 at NIRDPR Campus, Hyderabad, and "Training on PMGSY" organized from 14 – 18 October 2024.
- As part of 'Jai Jawan Kisan Scheme', organized orientation training for **40 armed forces personnel** (Indian Army, Indian Navy, and Indian Air Force) on the rural technologies/enterprises from 9th to 20th December 2024 at Rural Technology Park (RTP), NIRDPR in association with

MANAGE, Ministry of Agriculture & Farmers Welfare, Government of India.

- Series of Leadership Programs for BDOs and Rural Development functionaries.
- Various exposure visit programs have been taken up on request from the States.
- **Forty-four new research studies** have been taken up, and **22 studies were completed**, including 20 studies from previous years and Research Highlights of 2022-23 have been translated into Hindi.
- **Signing MoUs with JNU and IIPA on August 13, 2024.**

Signing MoUs with JNU and IIPA on 13th Aug 2024

Inauguration of PMAY-G Model House (Double Bedroom) at Rural Technology Park (RTP) NIRDPR, on 13th August 2024 by HMRD

*Training of Senior Capacity Building Consultants & State Quality Monitors and Capacity Building Consultant & State Quality Monitors of the SoEPR
(01.07.2024 to 11.07.2024)*

National Workshop on Deliberating the Scope of Export Marketing of Handicraft and Handloom Products of Self Help Groups (SHGs), 14th & 15th May, 2024

*Workshop on General Insurance Training Module Development for DAY-NRLM
NRLM RC, NIRDPR and National Insurance Academy (NIA), Pune 24th and 28th June 2024*

One day workshop on Artificial Intelligence (AI) in Rural Development, Panchayati Raj and Agriculture. (12th July, 2024)

Training on Rural Enterprises for Armed Force personnel as part of 'Jai JawanKisan' program, jointly organized by NIRDPR & MANAGE during 9-20 Dec 2024 at RTP, NIRDPR

*3rd Meeting of 'Policy Research Advisory Committee (PRAC)' of NIRDPR
23- 24 December 2024 at NIRDPR Hyderabad*

**INFORMATION,
EDUCATION AND
COMMUNICATION**

Being the nodal Ministry for most of the development and welfare activities in rural areas, the Ministry of Rural Development plays a pivotal role in the overall development strategy of the country. Ministry of Rural Development aims to reach out to the most disadvantaged sections of the society and to improve quality of life in rural India by correcting the developmental imbalances.

The Information, Education and Communication (IEC) Division plans and executes the IEC activities, to create and sustain awareness about the programmes of the Ministry amongst the beneficiaries and target groups in rural areas. Reaching out to almost 70% of the population in India, which comprises of the rural beneficiaries, the Ministry has been progressively strengthening its IEC activities to disseminate information through various

modes of communication available across media platforms.

MoRD communication strategy over the years has been to formulate 360-degree media campaigns to create targeted awareness regarding the flagship programmes of MoRD (entitlements, procedures to access them, success stories etc.) among beneficiaries as well as maintain a favorable disposition among opinion leaders. Identifying innovative media vehicles with the highest reach to connect emotionally and rationally with all the stakeholders is a priority. Hence, the objective is to strategically design media plans to correspond with important events thereby increasing the demand for the services and alleviating rural poverty.

The chart below gives a broad stakeholder analysis through the socio-ecological model for MoRD:

For meeting the expenditure on IEC activities, the IEC Division utilizes budgetary allocation for IEC activities under Pradhan Mantri Awaas Yojana – Gramin (Rural Housing), Mahatma Gandhi NREGA (Rural Employment), Pradhan Mantri Gram Sadak Yojana (Rural Connectivity), Deen Dayal Upadhyay – Grameen Kaushalya Yojana (DDU-GKY) & Rural Self-employment Training Institutes (RSETI) (Rural Skills), Deendayal Antyodaya Yojana – National Rural Livelihoods Mission (Rural Livelihoods), National Social Assistance Program etc. are pooled together and utilized for undertaking IEC activities in a holistic manner.

Also, impactful advertising and publicity campaigns were undertaken for events of various schemes of Department. It is noteworthy to mention that this year IEC Division has been actively engaged in organizing a series of impactful outdoor events pertaining to Hon'ble Minister for Rural Development (HMRD) and Hon'ble Minister for States (MoSs) across multiple locations in India. These include but are not limited to

- Lakhpati Didi event at Jalgaon, Maharashtra
- Hon'ble Prime Minister's event pertaining to Rural Housing at Bhubaneswar, Odisha
- HMRD event pertaining to Lakhpati Didi & Rural Housing at Sehore, Madhya Pradesh
- MoS event pertaining to Rural Housing at Guntur, Andhra Pradesh
- HMRD event pertaining to Lakhpati Didi & Rural Housing at Guwahati, Assam and more.

These events were primarily focused and organized to raise awareness, felicitate the Lakhpati Didis, organising Griha Pravesh,

promote community participation, and disseminate essential information on various schemes and initiatives of Ministry of Rural Development initiatives.

In addition to the outdoor events organized by the IEC Division, another significant highlight of the Ministry of Rural Development's efforts is the approval and presentation of the Republic Day Tableau, which this year was themed on the initiative 'Lakhpati Didi'. This tableau, which was showcased during the 76th Republic Day Parade at Kartavya Path, New Delhi, was a tribute to the remarkable achievements of rural women who have empowered themselves economically by mobilizing into various Self-help Groups (SHGs) under the aegis of DAY-NRLM. The theme of 'Lakhpati Didi' celebrates those women of rural India who have transitioned from humble backgrounds to earning a sustainable income, often crossing the threshold of earning ₹1,00,000 annually by indulging into various livelihood activities under DAY-NRLM.

The effort behind the creation and approval of the Republic Day tableau was a testament to the hard work and dedication of the Ministry of Rural Development and its various stakeholders. The tableau was meticulously designed to reflect the journey of rural women who have become successful entrepreneurs, showcasing their stories of transformation and empowerment. The visual representation highlighted the impact of Self-help groups in uplifting rural women and fostering financial independence, which has been instrumental in breaking the cycle of poverty in many households.

Behind the grandeur of the 'Lakhpati Didi' tableau was a collective effort involving skilled

artisans, designers, and experts. The showcasing of tableau aimed at disseminating the message of women's empowerment to national audience. It depicted Ministry's commitment to improve the socio-economic status of rural populace. It was a moment of pride and glory, reflecting the nation's recognition of the untapped potential of rural women and their crucial role in the country's development.

The 'Lakhpati Didi' tableau not only celebrated these women but also served as a powerful symbol of the Ministry's comeback to Kartavya Path (Formerly Rajpath) after a period of 15 years (approximately) and its commitment to improving the socio-economic status of rural populace. It was a moment of pride and glory, reflecting the nation's recognition of the untapped potential of rural women and their crucial role in the country's development.

It's also noteworthy to mention that IEC Division, Department of Rural Development actively participated at the grand Maha Kumbh – 2025 Festival organized at Prayagraj (Uttar Pradesh), setting up its pavilion. The

IEC Pavilion served as a central hub for spreading awareness, educating visitors, and engaging the public in meaningful dialogues on all the schemes of MoRD. The pavilion hosted a variety of creative elements including prototypes of PMAY-G houses with different facilities that may availed under convergence, internal pathways modelled on PMGSY roads, creative RSETI centres and exhibitions that covered SHG stalls etc. Special focus was placed on community engagement, with live demonstrations, distribution of informative IEC related materials and interactive displays that attracted thousands of pilgrims and visitors. The pavilion also served as a platform for Senior officials, experts and stakeholders from the state to share valuable insights and practical solutions for pressing issues. The IEC initiatives at the Maha Kumbh provided an effective avenue for disseminating critical information to a large and diverse audience, fostering awareness, and encouraging positive behavioural changes in alignment with the event's broader cultural and spiritual significance.

Lakhpati Didi Sammelan

A gathering of SHG women entrepreneurs under DAY-NRLM in Madhya Pradesh, celebrating their achievements and fostering entrepreneurship, self-reliance, and economic empowerment. The event was organized at Vidisha, Madhya Pradesh.

2 Crore Naye Ghar

A landmark event in Madhya Pradesh under PMAY-G, where 'Pucca Awaas' were handed over to beneficiaries, fulfilling the vision of "Housing for All" and transforming rural living conditions. The campaign was designed in September 2024 when the Cabinet Decisions were taken.

Swachhata Hi Seva

A large-scale community-driven campaign conducted from 17th September to 2nd October, focusing on legacy waste clean-up and promoting solid waste management practices to achieve a cleaner, greener India.

Special Campaign 4.0

A Govt. of India initiative executed from 2nd October to 31st October, 2024, aimed at institutionalizing cleanliness and reducing pending matters in government offices, following the success of previous campaigns to improve efficiency and transparency.

SARAS Aajeevika Mela

A national-level event providing SHG women with a platform to showcase and sell their products, including handicrafts, handlooms, organic goods, and traditional foods, empowering them economically and socially.

Awaas Diwas 2024

Celebrated annually on 20th November to commemorate the launch of the Pradhan Mantri Awas Yojana-Gramin (PMAY-G), which aims to provide pucca houses to eligible rural households, ensuring dignity and shelter for all.

Nayi Chetna 3.0

A nationwide campaign aimed at addressing gender-based discrimination and violence against women by fostering awareness and encouraging community participation to create a safer and more inclusive society.

SARAS Food Festival

An initiative to showcase the culinary skills of Self-Help Group (SHG) women, offering traditional rural delicacies and promoting diverse regional food cultures through vibrant food stalls.

24 Years of PMGSY

Celebrating 24 years of the Pradhan Mantri Gram Sadak Yojana (PMGSY), which has significantly enhanced rural connectivity, boosted economic development, and improved access to essential services across India's villages.

Library

The “Library” of the Ministry of Rural Development acts as an “Information Resource Centre”. Established in 1954, the Library collects, selects, processes, organizes, maintains, preserves, retrieves and disseminates information to cater to the information and reference needs of the Ministry and research scholars coming from all over India. At present, the Library has a collection of more than 32,000 books as on 31.12.2024.

In 2024, the Library has enriched its collection of books by more than 16 titles on various subjects. It is that members/officials are for mainly committees, procurement procedure or any other action this year/newly added action/occasions.” The books in Hindi Language are procured in terms with Official Language policy. The main subjects covered are Rural Development, Panchayati Raj, Water Resources, Land Reforms, History, Economics, Politics, Education, Art, Culture and General reading books. The library also provides good Hindi and English magazines for member readers in the Department. The Library also offers spacious and comfortable study facilities to the readers. The IEC Library has been revamped completely and Digital Library/e-Library is in progress.

- The Library serves as a “Resource and Service

Centre” of nationally and internationally acclaimed published literature on Rural Development, Water Resources and Land Reforms for the Ministry.

- To promote usage of resources among users, by collecting, storing and disseminating information and by offering manual computerized services to the users
- To offer technical guidance to the Officers/ Staff on collecting, Storing, sharing and disseminating information.
- To establish/facilitate the establishment of referral and/or research centre and maintain a central computerized union catalogue of books, reports and non-book materials of the library.
- To facilitate and promote delivery of documents manually or mechanically.
- To develop specialized bibliographic database of books, and non-book materials,
- To possess and maintain electronic and mechanical equipment for speedy communication of information and delivery of electronic mail.
- To coordinate with other government libraries for exchange of information and documents.

OFFICIAL LANGUAGE

Official Language Division of the Ministry of Rural Development has the nodal responsibility for promoting the use of Hindi in the Ministry and its Subordinate Offices/Autonomous Bodies. It is responsible for implementation of Official Language policy of the Union; the Official Languages Act, 1963 (Act No. 19 of 1963); the Official Languages (Use for Official Purposes of the Union) Rules, 1976 (As amended in 1987) made under the Official Languages Act, 1963; Directions/Instructions issued by the Government from time to time regarding the use of Hindi; Annual Program issued by the Department of Official Language, MHA every year for transacting the official work of the Union in Hindi and Presidential Orders issued on the recommendations of the Committee of Parliament on Official Language constituted under Chairmanship of Hon'ble Minister for Home Affairs.

2. Official Language Division is also responsible for English to Hindi and vice versa translation of various documents of the Ministry including those to be laid in Parliament such as Cabinet Notes, Parliament Questions, Reports, Assurances, Calling Attention Notices, Private Member Bills, Suo Moto Statements/Speeches by the Hon'ble MRD and MOS(RD), MOUs, Annual Report, Agenda/Minutes/Action Taken Reports of Standing Committees/Consultative Committees, Office Orders, Notifications, Advertisements and Matters relating to Public Accounts Committee etc.

3. Section 3 (3) of the Official Languages Act, 1963 (as amended in 1967) was complied with by Official Language Division in the ministry and all the documents covered under this section were issued bilingually i.e. both in Hindi and English languages. Rule 5 and

Rule 7(2) of the Official Languages (Use for official purposes of the Union) Rules, 1976 (as amended in 1987) were also complied with, the letters received in Hindi and representations/appeals signed in Hindi were replied to in Hindi. Successful efforts were made to increase the correspondence in Hindi with the offices of the Central Government, State Governments, UT Administrations and the general public in the Regions 'A', 'B' & 'C'. Support was extended to Officers/Sections in installation of Unicode Hindi Software in their computer systems. The officers were provided training regarding the translation tool 'Kanthastha' developed by the Department of Official Language, which would help them in working in Hindi.

4. In addition, a workshop was organized by the Official Language Division of the Ministry on 'Bhashini', an AI based translation tool/software developed in India under the aegis of the Ministry of Electronics and Information Technology under Digital India Mission. The initiative aims to make information on the schemes of the Ministry accessible to the population living in rural areas in Hindi and English as well as in 14 other languages of the country such as Tamil, Telugu, Kannada, Malayalam, Assamese, Bengali, Marathi, Gujarati etc.

5. Meeting of Kendriya Rajbhasha Karyanvayan Samiti constituted under the chairmanship of Secretary (OL) was held and action is being ensured on the decisions taken therein. NIC section has been directed to make the website of the Department completely bilingual. Duly constituted Official Language Implementation Committee (OLIC) under the chairmanship of Joint Secretary (Admn./OL) exists in the Ministry of Rural Development.

At present, Joint Secretary (Admn.) is the chairman of this Committee. Joint Director (Official Language) is its Member Secretary and all Officers of the Ministry of the rank of Section Officer and above are its members. Meetings of this committee are held in every quarter to review the status of compliance of the Official Language Policy in the Sections/Divisions of the Ministry.

6. There are 04 Autonomous Bodies under the Ministry. They are –

i.	National Institute for Rural Development and Panchayati Raj (NIRD&PR), Hyderabad, Telangana
ii.	National Rural Infrastructure Development Agency (NRIDA), New Delhi
iii.	Bharat Rural Livelihoods Foundation (BRLF), New Delhi
iv.	National Rural Livelihoods Promotion Society (NRLPS), New Delhi

Out of these 03 are situated in Region 'A' in New Delhi and 01 autonomous body i.e. National Institute for Rural Development and Panchayati

Raj (NIRD&PR) is situated in Region 'C' in Hyderabad. No office is situated in Region 'B'.

7. Hindi Pakhwada was observed from 14th to 28th September, 2024 in the Ministry. During Hindi Pakhwada, five competitions namely Essay competition, Hindi typing, Noting and Drafting Competition, Translation & vocabulary competition for regular staff and Translation and vocabulary competition for outsource staff were held. The amounts of Rs. 5,000, 3,000, 2,000 and 1,000 were prescribed for winners of first, second, third and consolation prizes respectively. In addition to these competitions incentive scheme for noting/drafting originally in Hindi and incentive scheme for Hindi dictation for Hindi speaking and non-Hindi speaking officers are also implementing. Two prizes of Rupees Five Thousand each, three prizes of Rupees three thousand each, five prizes of Rupees two thousand each were given for incentive scheme for noting/drafting originally in Hindi. Two prizes of Rupees Five Thousand each were given for Hindi dictation. On completion of 75 years of Hindi as official language, the Official Language Division presented shields to all the award winners, which was a unique initiative.

INTERNATIONAL CO-OPERATION

1. The era of rapid globalisation of the world economy has added new dimensions and challenges globally, especially in developing countries in rural development and poverty alleviation. Therefore, international cooperation in these areas has gained added significance and impetus in the world's changed social, economic and political scenario. India, the largest democracy in the world, is always at the forefront as a global partner. The Ministry of Rural Development is taking this initiative forward through cooperation and exchange of experience, knowledge and expertise in the field of rural development and poverty alleviation with other countries, bilaterally or through multilateral platform.
2. Our visionary leaders anticipated the significance of South-South Cooperation much before globalization and had recognized the need for cooperation among the developing countries for better appreciation of each other's problems. India has been a founder member of many international forums such as African-Asian Rural Development Organization (AARDO), Bay of Bengal Initiative for Multi-Sectoral and Technical Cooperation (BIMSTEC), Centre on Integrated Rural Development for Asia and the Pacific (CIRDAP), Non-Aligned Movement (NAM), South Asian Association for Regional Cooperation (SAARC), etc.
3. The mandate of International Cooperation Division of this Department is to foster mutually beneficial partnerships with other

countries of the world in a multilateral as well as bilateral format. The Government of India recognizes the multilateral approach in International relations and the need for the inter-country, inter & intra-regional cooperation to find solutions to common problems. The Ministry of Rural Development is the Nodal Ministry with respect to two inter-governmental, international organizations namely, AARDO and CIRDAP. Also, this Ministry is the focal Ministry for rural development and poverty alleviation in respect of BIMSTEC, SAARC, etc.

1. Multilateral Corporation:

(a) African-Asian Rural Development Organization:

1. AARDO formed in 1962, is an autonomous, inter-governmental, inter-continental organization comprising 34 members from Africa and Asia (18 member countries from Africa continent, 14 member countries from Asia and 2 Associate members). India is a key founder member and contributed significantly in the conceptualization and formation of AARDO. The Headquarters of AARDO is located in New Delhi.
2. This Ministry is the Nodal Ministry for all matters relating to AARDO. The Organization has six (6) regional offices located at (i) Seoul for the Far East (ii) Amman for the Middle East (iii) Accra for the Western Africa (iv) Cairo for the North Eastern Africa, (v) Lusaka for the Southern Africa and (vi) Islamabad, Pakistan for

South Asia. India contributes the highest annual membership contribution to AARDO amounting to US\$ 1,55,300.

3. Human Resource Development (HRD) is one of the main activities of AARDO. Under HRD, a number of programmes are organized by AARDO on regular basis which include training programmes, workshops / seminars, deputation of experts, study visits, research studies, field training, etc. relating to agriculture and rural development. During the year, AARDO conducted a number of such programmes in different member countries on various subjects. India offers 70 slots annually for the member countries for training in various Indian Institutes under the Indian Technical and Economic Cooperation (ITEC) sponsored by the Ministry of External Affairs.
4. Since the year 2009, India is providing additional contribution of USD 6,00,000 to AARDO for each triennium (starting from 2009-2011) to expand its scale and scope of the capacity building programmes of AARDO for the benefit of member countries. Under this initiative, capacity building programmes for AARDO member countries are organized every year during the triennium at various Institutions of Excellence in India such as the National Institute of Rural Development & Panchayati Raj (NIRD&PR), institutions governed by the Indian Council of Agricultural Research (ICAR), Indian Institute of Management (IIM) and others. The Post Graduate Diploma in Rural Development Management (PGDRDM) course at NIRD&PR for one year is one such example.
5. The Memorandum of Understanding (MoU) between MoRD, Government of India and AARDO was renewed on 03.12.2021, for an additional contribution of USD 600,000 (USD Six Hundred Thousand Only) for triennium 2021-2023 viz USD 200,000 (USD Two Hundred Thousand Only) per year towards the capacity building programmes by way of organizing short-term training programmes at Institutes of Excellence, PGDRDM programmes at NIRD&PR, Hyderabad, workshops/ seminars and study visits in India for the AARDO member countries sponsored candidates. The arrangement is on-going since then.
6. On the request of AARDO, an amount of 7,50,000 USD had been given as a grant towards establishment of AARDO's 'Corpus Fund', which was contributed in two equal installments. The first installment (USD 3,52,649 @exchange rate) was given during FY 2019-20 and the final installment (USD 3,97,351 @exchange rate) was released in FY 2020-21.
7. The Department of Rural Development constructed a building in March, 1994 at Plot No. 2, State Guest Houses Complex, Chanakyapuri (Diplomatic Enclave), New Delhi at a cost of about Rs. 2.50 crore and handed over the same to AARDO on 19th March, 1994 at a normal license fee of Rs. 1.00 per annum. The AARDO Secretariat started functioning in the new building from 31st March, 1994. In terms of the Terms and

Conditions laid down in letter dated 29th March, 1994, for use of aforesaid building, the Government of India at the request of the AARDO Secretariat shall arrange for and bear the cost of any necessary repairs to the Building other than repairs which form part of the routine maintenance of the said building.

8. The AARDO Secretariat in the month of July, 2020 requested, inter-alia, for renovation of AARDO Secretariat Building. The request was processed and an MoU between Department of Rural Development, Government of India and Central Public Works Department (CPWD) was signed on 16.07.2024, for renovation work of AARDO Secretariat Building, New Delhi. Further, DoRD has on 3rd December, 2024 accorded administrative approval and Financial Sanction of preliminary estimate amounting to Rs. 4,77,12, 700/- (Rs. Four Crore Seventy-seven Lacs Twelve thousand and Seven Hundred only) (for Civil and Electrical Works) to undertake necessary renovation work of AARDO Secretariat Building.
9. MoRD participated in the following activities of AARDO during the year 2024-25:
 - i. 82nd Session of the Liaison Committee (LC) of AARDO held on 7th March, 2024 in New Delhi.
 - ii. 83rd Session of the Liaison Committee (LC) of AARDO held on 5th September, 2024 in Delhi

(b) Centre on Integrated Rural Development for Asia & the Pacific (CIRDAP):

1. CIRDAP, a Regional Organization, with its Headquarters at Dhaka, Bangladesh was established in 1979. The Centre is broadly mandated to facilitate the provision of services that will influence policy formulation and programme action towards rural development within its member countries. At present, CIRDAP has a total strength of fifteen (15) member countries from Asia and the Pacific. The Sub-Regional Office of CIRDAP for South-East Asia (SOCSEA) was established in Jakarta, Indonesia in 1997. The CIRDAP has also established its Sub-Regional Office in West Asia in Tehran, Iran. India's annual contribution to CIRDAP is USD 94,147.
2. India is one of the key founder members of CIRDAP. India takes the significant lead in providing capacity building programmes to CIRDAP Member Countries (CMCs). MoRD, Government of India sponsors Four (4) fully funded CIRDAP-NIRD collaborative training programmes on various fields including ICT at its Institutes of Excellence or in the Link Institutions of CIRDAP Member Countries (CMCs). With a view to taking CIRDAP to the new frontiers and substantially expand the activities, the MoRD, Government of India provides five (5) fully funded slots for one year PGDRDM at NIRD&PR, Hyderabad for skill development and capacity building of CMCs.
3. The Centre consists of four organizational

bodies: namely, the Governing Council, the Executive Committee, the Technical Committee and the Secretariat. The highest authority of CIRDAP is its Governing Council. It consists of the Ministers in charge of Agriculture and Rural Development in the member states. The Governing Council formulates policies, provides directions to the Centre and approves planning, the biennial work programme and the budget. The Executive Committee comprises the Secretaries/Permanent Secretaries/Secretaries Generals of the Contact Ministries. Its main functions are to review and make recommendations to the Governing Council on matters concerning the management and operation of CIRDAP. The Technical Committee is an advisory body, which is composed of the heads of all CIRDAP Link Institutions, the Director General of FAO or a representative of a non-member state, which contribute financially to the Centre; a representative of the Economic and Social Commission for Asia and the Pacific (ESCAP); the Director General of CIRDAP, as well as an expert of outstanding professional competence in Integrated Rural Development (IRD).

4. A full-time Director General, selected by the Governing Council for a four-year term is the Chief Executive of the organization. The position of the Director General had been occupied by India only once in the past during 1996-2000. Recently, the 24th Governing Council in its meeting held in Bangkok Thailand elected Dr. Putte Gowda Chandra Shekara from India as

the Director-General of CIRDAP with the period starting from 10th September, 2024 to 9th September, 2028.

5. MoRD has participated in the 24th Governing Council (GC-24) meeting and the 34th Executive Committee (EC-34) meeting of CIRDAP, Bangkok Thailand on 4th - 6th June 2024.

2. Visits of delegation:

During 2024-25 (from 01.01.2024 to 31.12.2024), this Ministry organized meetings/ discussions with the following visiting foreign dignitaries:

- i. A delegation from Africa on Advanced Leadership Development Programme on Public and Governance for Civil Servants of African Countries met Secretary, Ministry of Rural Development, and Government of India on 30th January, 2024.
- ii. Dr. Manoj Nardeosingh, Secretary General, AARDO met Secretary, Department of Rural Development, Government of India on 5th March, 2024 to discuss various issues pertaining to AARDO.
- iii. Dr. Cherdsak Virapat, Director General, CIRDAP met Secretary, Department of Rural Development, Government of India on 7th March, 2024 to discuss the issues pertaining to CIRDAP.
- iv. A team of Asian Development Bank (ADB) led by Mr. Qingfeng Zhang, Senior Sector Director (Agriculture, Food, Nature, and Rural Development) met Secretary, Department of Rural Development, Government of India on 05th August,

2024 at Krishi Bhawan, New Delhi to explore specific areas for collaboration in sustainable, inclusive growth and climate resilience of rural India through increasing livelihoods opportunities and developing rural infrastructure for growth.

- v. A team of World Bank led by Ms. Shobha Shetty, Global Director (Agriculture and Food) and Ms. Dina Umali-Deininger, Regional Director (Sustainable Development) met Addl. Secretary (RD) and Addl. Secretary (RL), Department of Rural Development on 6th August, 2024 at Krishi Bhawan, New Delhi to review the performance of on-going collaborative sectoral projects and held discussions on potential for further engagements.
- vi. Dr. Manoj Nardeosingh, Secretary General, AARDO met Secretary, Department of Rural Development, Government of India on 20th September, 2024 to discuss various issues pertaining to AARDO.
- vii. A team of Asian Development Bank (ADB) led by Ms. Gi Soon Song, Director, Human & Social Development Department, Asian Development Bank met Secretary (RD) on 12th December, 2024 at Krishi Bhawan, New Delhi to explore the potential areas of ADB support for strengthening community resilience through adaptative and shock responsive social protection and resilient livelihood strategies

3. Official visit of this Ministry's officer to Foreign Country:

During 2024-25 (from 01.01.2024 to 31.12.2024),

following officers/officials of the Department undertook foreign visits for official purposes :

- (i) Ms. Swati Sharma, Joint Secretary, Department of Rural Development, participated In-person training course on "Industry 4.0 and Innovation Management" being held by the Government of Singapore from 11th to 15th March 2024 in Singapore.
- (ii) Shri Devinder Kumar, Director, Department of Rural Development, participated International Training Workshop on "Achieving Sustainable Development Goals-Challenges and Opportunities in African-Asian Countries", Amman, Jordan from 1st to 7th May, 2024.
- (iii) Ms. Caralyn Khongwar Deshmukh, Additional Secretary, Department of Rural Development, participated in the 34th Session of Executive Committee (EC-34) and the 24th Session of Governing Council (GC-24) meetings of the CIRDAP from 4th to 6th June, 2024.
- (iv) Shri Lalit Kumar, Deputy Secretary, Department of Rural Development, participated in the 34th Session of Executive Committee (EC-34) and the 24th Session of Governing Council (GC-24) meetings of the CIRDAP from 4th to 6th June, 2024.
- (v) Ms. Goldi Kumari, Section Officer, Department of Rural Development, participated in the International Training Programme on "Inclusive Rural and Regional Development in Malaysia", at the Institute for Rural Advancement (INFRA), Kuala Lumpur, Malaysia from 22 to 31 July

- 2024.
- (vi) Ms. Shweta Goel, Assistant Director, Department of Rural Development, participated in the International Training Programme on “Inclusive Rural and Regional Development in Malaysia”, at the Institute for Rural Advancement (INFRA), Kuala Lumpur, Malaysia from 22 to 31 July 2024.
 - (vii) Ms. Kalyani Mishra, Economic Advisor, Department of Rural Development, participated in Regional Forum on Adapting to Aging Asia and the Pacific: Accelerating Implementation in Long-term Care – From Policy to Implementation and Asia-Pacific Regional Conference on Population Ageing: Reframing Ageing – 9-10 September and 11-13 September 2024 respectively at Bali, Indonesia.
 - (viii) Shri Riyaz Ahmed Khan, Assistant Director, Department of Rural Development, participated in the 41st International Vegetable Training Course on “Vegetable Breeding for the Tropics”, The World Vegetable Centre, Bangkok, Thailand, sponsored by AARDO from 21st October to 1st November, 2024.
 - (ix) Shri Ashish Gupta, Deputy Secretary, Department of Rural Development, participated in the Taiwan International Cooperation for Development Fund (Taiwan ICDF) Workshop on Carbon Trading in Taiwan during 16-29 October 2024.
 - (x) Shri Raman Wadhwa, Deputy Director, Department of Rural Development, Ministry of Rural Development, participated in workshop on Design of a syllabus on 2-3 week Training on Regional Cooperatives Management in Asia and the Pacific, at Thailand from 10-15 November, 2024
 - (xi) Ms. Tanuja Thakur Khalkho, Joint Secretary & Financial Advisor, Department of Rural Development, participated in the In-person Singapore Cooperation Programme in “Public Finance and Fiscal Policy” from 11th to 15th November, 2024 in Singapore.
 - (xii) Ms. Nivedita Prasad, Deputy Secretary, Department of Rural Development, participated in a side event of Asia Pacific Ministerial Conference on 30th Anniversary of Beijing Declaration and Platform for Action in Bangkok, Thailand from 18 to 20 November 2024 (including travel time).
 - (xiii) Shri Krishna Murari Singh, Director, Department of Rural Development, Ministry of Rural Development, participated in the High-Level 16th Regional Environmentally sustainable Transport (EST) Forum in Asia, 9-12 December in Manila, the Philippines (excluding travel time).
 - (xiv) Shri Shailesh Kumar, Director, Department of Rural Development, Ministry of Rural Development, participated in the High-Level 16th Regional Environmentally sustainable Transport (EST) Forum in Asia, 9-12 December in Manila, the Philippines (excluding travel time).

4. Virtual Meeting :

(i) A virtual meeting of JS(IC) held on 21st august, 2024 with Director General, Centre on Integrated Rural Development for Asia and Pacific for the discussion on workshop in Thailand focusing on “Regional Cooperatives Management in Asia and Pacific” and a study

tour of selected successful cooperatives in Thailand for Senior Government officials from India, Bangladesh and Thailand in 2024 under the Memorandum of Understanding signed on 9th March 2022 between CIRDAP, MoRD And NCDC.

ACCOUNTING ORGANIZATION

Role and Responsibilities of Office of Chief Controller of Accounts

The Chief Controller of Accounts (CCA), is the Head of Department of Accounting Organization in the Ministry. As per CGA OM No.TA-2-010011212020-TA-II(COMP 2001)/596 Dated; 23-07-2021, the broad functions, roles and responsibility of CCA are as follows:

1. Receipts, Payments and Accounts:

- a. Oversee that effective and efficient systems with necessary internal controls are in place for accounting of all receipts and payments of Ministry/Department.
- b. Supervise payments and receipts through Pay and Accounts Offices (PAOs) and Cheque Drawing & Disbursing Offices (CDDOs) of in conformity with prescribed Rules and regulations;
- c. Supervise timely payment to claimants (Government servants, vendors, grantee and loanee institutions etc. including payment to suppliers w.r.t. procurement through GeM) as per codal provisions.
- d. Ensure efficiency, accuracy and timely submission of monthly and annual accounts to O/o Controller General of Accounts (CGA);
- e. Ensure timely, accurate, comprehensive, relevant and useful Financial Reporting.
- f. Ensure accuracy and timely submission of monthly reports to O/o CGA.
- g. Monitor efficient service delivery by the accredited/ authorized banks and monitor their system for timely realization of receipts into Government Accounts;
- h. Monitor adherence to prescribed accounting

standards, rules and principles;

- i. Ensure timely submission of Audited Annual Appropriation Accounts duly signed by Chief Accounting Authority i.e. Secretary of the Ministry/Department to O/o CGA.
- j. Ensure preparation of annual 'Accounts at a Glance' in r/o Ministry/Department.
- k. Examine the proposal of Ministries/ Departments for opening of a Personal Deposit Account or framing accounting procedure in respect of a newly created Fund in the Public Account of India for making it operational.
- l. Review of payment sanctions (including GST refunds sanction) as per the monetary limit prescribed by O/o CGA from time to time.
- m. Monitor the clearance of balances under Debt, Deposit, Suspense and Remittance (DDSR) heads and take timely corrective actions to clear adverse balances under the heads.
- n. Monitor opening of appropriate heads of account for new schemes as per Budget circular and List of Major & Minor Heads of Accounts (LMMHA).
- o. Monitor timely and accurate authorization of pension and other retirement benefits to retiring Government servants.
- p. Coordinate with GeM Standing Committee on the matters relating to procurement and related payments.

2. Budget formulation including Outcome Budget:

- a. O/o CCA shall monitor and assist in

preparation of budgetary proposals and assist the administrative Ministries / Departments in better inter-se programme prioritization/allocation within the budgetary ceilings, based on the analysis of expenditure and profile of each programme /sub-programme.

- b. Provide necessary support to the administrative Ministries/Departments in preparation of Outcome Budgets/Output-Outcome Monitoring Framework (OOMF) in accordance with the time schedule/guidelines laid down from time to time by Ministry of Finance.
- c. Furnish the budget estimates in r/o Public Account transactions to Budget Division and Composite Demands controlled by Budget Division for their inclusion in the Budget.
- d. Furnish budget estimates for interest on Provident Fund balances of employees and on various deposits in the Public Account including Reserve Funds.
- e. Monitor all reports and statements related to Budget documents.

3. Estimation of Non- Tax Revenue Receipts:

- a. Assist FA in periodical reviews of various non-tax revenue receipts of the Ministries/ Departments with the Administrative Divisions and furnishes estimates of non-tax Revenue Receipts to Budget Division, DEA.

4. Internal Audit/Risk Based Audit:

- a. Discharge the duties of Member Secretary of Standing / Internal Audit Committee headed by the administrative Secretary

to review audit paras of PAC, C&AG and Internal Audit and concomitant compliance/ course correction.

- b. To conduct special audit in Ministries/ Departments as per the direction of Chief Accounting Authority or CGA. The Internal Audit Wing working under the control and supervision of the CCA would move beyond the existing system of compliance / regulatory audit and would focus on:
 - a. Assessment of adequacy and effectiveness of internal controls in general, and soundness of financial systems and reliability of financial and accounting reports in particular;
 - b. Identification and monitoring of risk factors (including those contained in the Outcome Budget/OOMF Framework);
 - c. Critical assessment of economy, efficiency and effectiveness of service delivery mechanism to ensure value for money; and
 - d. Providing an effective monitoring system to facilitate mid-course corrections.
- c. Furnishes financial appraisal of schemes and monitors projects and schemes through regular Internal Audit.
- d. Conducts audit of accredited banks, authorised/other banks/CPPCs and Focal Point Bank branches including e-FPBs in respect of Government transactions in organisations where it has been required.
- e. Shall ensure to prepare the Annual Audit plan and Annual Internal Audit review.

The above functions shall be carried out as per the guidelines issued by the CGA from time to time.

5. Public Financial Management System & IT projects:

- a. Monitor the uses of PFMS and its different modules including coordinating with Ministry and PFMS Division of O/o CGA for timely, accurate and useful financial reporting for the purpose of tracking flow of funds to the last level implementing agency/beneficiary and its utilisation under Central Sector/Centrally Sponsored/Direct Benefit Transfer schemes of Government of India.
- b. Coordinate integration of data bases and processes for establishing a Government Integrated Financial Management Information System (GIFMIS).
- c. Render professional expertise in the functioning of the financial management system, from the system point of view and making it more effective.
- d. Monitor the implementation of security guidelines issued for access control and other related security aspects of PFMS and ensuring data security by regular monitoring of the system.
- e. Ensure correct mapping of the accounting basket of Central Sector and Centrally Sponsored Schemes for accurate expenditure reporting.
- f. Regular review of reports and information in PFMS and to present it to the Executive for decision making.
- g. Monitor all reports and dashboard on regular basis to ensure accuracy of reports relating to performance of the schemes in their respective Ministries.
- h. Ensure timely weeding out of dormant registration of Agencies and etc.

6. Expenditure and Cash Management:

Coordinate with Ministries/Departments for compliance of Cash Management system guidelines issued by Budget Division, MoF (Monthly Expenditure Plan [MEP]/ Quarterly Expenditure Plan (QEP) limits, implementation of TSA system for release of funds to Autonomous bodies in 'Just-in-time').

7. Disclosure and reporting requirements under FRBM Act.

Assist in preparation of the disclosure statements required under the FRBM Act in respect of Ministry/Department for incorporation in the consolidated statement compiled by the Ministry of Finance for the Government as a whole.

8. Monitoring of Assets and Liabilities:

Assist Ministries/Departments for maintaining comprehensive record of Assets and Liabilities and monitoring of Government Guarantees.

9. Interaction between Ministry of Finance and the FAs:

The CCA shall provide required material and assistance for the quarterly meeting of FAs with Secretary (Expenditure) and other financial inputs as required by FAs from time to time.

10. General Administration and Coordination:

- a. Exercise the powers of the Head of the Department for the Accounting Organisation and is responsible for the

Administration and Establishment related functions.

- b. Discharge of responsibilities in terms of the Statutory powers to be exercised being the appointing authority/disciplinary authority.

Note: In addition to the above, CCA shall also be responsible for any other works assigned by Chief Accounting Authority/ Controller General of Accounts.

Public Financial Management System (PFMS):

1. Overview

The PFMS Cell, MoRD has been actively engaged in the implementation, monitoring, and coordination of the Public Financial Management System (PFMS) for schemes under the Ministry of Rural Development (MoRD), Ministry of Panchayati Raj (MoPR), and Department of Land Resources (DoLR) within the accounting jurisdiction of the Office of Controller of Accounts (O/o CCA).

2. Key Activities and Achievements:

1. PFMS Implementation & Monitoring:

- Ensured effective monitoring and implementation of PFMS across various schemes under MoRD, MoPR, and DoLR.
- Ensured fund flow and utilization, ensuring accurate financial reporting for Central Sector and Centrally Sponsored Schemes (CSS).

2. Coordination with Stakeholders:

- Coordinated with PFMS-HQ, O/o CGA, State Government, and Program Divisions (PDs) for seamless integration of DBT, MIS reports, and system-related issues.
- Ensured smooth integration of scheme-specific software with PFMS.

3. Mapping of CSS with State Schemes:

- Facilitated the mapping of CSS schemes with State schemes under the PFMS-Treasury integration, ensuring

synchronized financial reporting between Central and State Governments.

4. Training and Capacity Building:

- Conducted training sessions for PDs and employees from PAO, building capacity for the effective use of PFMS.

5. Adherence to CNA/SNA Guidelines:

- Ensure the implementation of CNA/SNA guidelines issued by DoE to be adhered to by the Ministry/Department.

6. Circulating relevant OM regarding SNA SPARSH and E-BILL etc. time to time to the PDs/Divisions for further circulation the same to the concerned Implementing Agencies (IAs).

7. Target to achieve 100% implementation of e-bills in the Ministry and regular co-ordination for the same with respective PAOs.

8. PFMS Cell, MoRD task involves addressing queries and issues related to PDs daily basis. This is done through coordination with PFMS (HQ) via telephone, email communication, and occasionally by visiting the PFMS HQ in person.

9. Implementation of new modules of PFMS i.e. TSA Hybrid as per the direction of DoE, Ministry of Finance.

3. Achievements in Implementation of SNA SPARSH:

1. The seamless and successful implementation

of the SNA Sparsh initiative has been carried out across four key rural development schemes, namely Rural Employment, Rural Housing, Rural Livelihood, and Rural Connectivity, as well as in the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) under the Department of Land Resources. This comprehensive effort has been effectively executed in all 26 states throughout India. The coordinated and widespread application of SNA SPARSH across these diverse schemes signifies a significant step towards the holistic development of rural India.

2. Achievements in e-Bill Implementation:

The Office of CCA, Rural Development has made significant progress in the implementation of the e-bill system. According to the latest report:

- PAO, Rural Development: Achieved an

82% implementation rate.

- PAO, Department of Land Resources: Reached 80% implementation.
- PAO, Panchayati Raj: Attained 72% implementation.

This reflects the dedicated efforts of each department to modernize and streamline processes, with ongoing work to reach 100% implementation in near future.

3. Conclusion

The PFMS Cell, MoRD has successfully implemented, monitored, and coordinated PFMS activities across multiple schemes under MoRD, MoPR, and DoLR by ensuring the timely integration, training, and data accuracy, the Cell has contributed to improved financial management and transparency in the tracking and utilization of funds.

Process flow for e-Bills

Internal Audit Wing

Ministry of Rural Development is the second largest Ministry in terms of budgetary allocation. It is running key programmes including MGNREGS, PMGSY, NRLM, NSAP, PMAY-G, DDU-GKY, and PMKSY. The coverage of these schemes incorporates almost all areas of development of rural India. These schemes have highest budgetary allocation under Centrally Sponsored Schemes of Govt. of India and require proper monitoring. Since these schemes touch the lives of poorest of the poor, it makes them even more sensitive. Also, from the executive point of view, it is essential to keep an eye on the expenditure as well as performance of the schemes. Office of CCA, Ministry of Rural Development is mandated to handle the internal audit work of MoRD. Internal Audit Wing conducts Internal Audit of implementing agencies (Auditee units) for the

schemes of MoRD implemented all over India as per the approved Annual Audit Plan for the Financial Year and also follow up with State and District Authorities for settlement of the Outstanding Internal Audit Paras.

Viewing the limited resources, for improving the control mechanism several innovative steps have been introduced in MoRD. Viewing the limited resources and expertise in Risk based internal Audit, on the recommendation of an Expert Advisory Group; IAW has a target to create a pool of 5000 Certified Internal Auditors who could be used by Central and State Governments to conduct internal Audits for Rural Development Programmes. To accelerate the process of creating Certified Internal Auditors, IAW has issued a Standard Operating Procedure to Institute of Government

Accounting and Finance, Arun Jaitley National Institute of Financial Management, identified State Institutes of Rural Development and State Governments in month of October, 2021. The services of experienced retired officers are being taken to create this pool. However, the revised SOP also promotes the involvement of youth and other self-sponsored candidates who have experience of implementation of Rural Development and social sector programmes.

By the end of December, 2024, around 598 Certified Internal Auditors and 125 Master Trainers have been trained.

To strengthen the Internal audit function, States have been advised to create/ strengthen Internal Audit setup for RD schemes by availing services from a pool of certified auditors empanelled with IAW, MoRD. In this regard, Internal Audit Wing has also issued Guidelines to State Governments.

Centre for Internal Audit of Rural Development at Hyderabad (CIARD)

The Expert Advisory Group, in March, 2019, recommended setting up of Centre for Internal Audit of Rural Development (CIARD). CIARD

is established as an autonomous center of the Ministry of Rural Development and provided with all necessary financial and human resources commensurate with challenges. It is located within National Institute of Rural Development & Panchayati Raj, Hyderabad as an autonomous centre. It is primarily responsible for providing assistance to the Office of the CCA, Internal audit and Programme Divisions of the Ministry for establishing the internal audit function on a firm footing within a time frame to be decided by the Ministry. CIARD serves as resource centre in the field of Internal Audit and assist MoRD in strengthening the internal audit function. Various activities of CIARD include consultative workshops, development of material like manuals, training modules case studies, training/ capacity building, research, facilitation and liaising with states for taking up of internal audits by MoRD set standards, collating and analyze the information of various monitoring mechanisms and digitization of control process etc. CIARD started working since 16th January, 2020. Office premises of CIARD was inaugurated by Secretary RD on 27th May, 2021 at NIRDPR, Hyderabad.

**Three-week Certificate Courses on Risk Based Internal Audit of RD Programme were conducted by O/o CCA in Four states –
Andhra Pradesh, Mizoram, Bihar and Himachal Pradesh.**

East Khasi Hills.*

Workshop for review of Outstanding Paras of Assam, Arunachal Pradesh, Meghalaya and Sikkim held at Guwahati from 05-08/06/2024.

The Internal Audit Wing (IAW) team participating in the workshop for the review of outstanding paras in Uttar Pradesh, held at the State Institute of Rural Development (SIRD), Lucknow, from 16th to 20th December 2024.

IMPLEMENTATION OF E-GOVERNANCE

1. Introduction

The Ministry with the support of the National Informatics Centre (NIC), Centre for Development of Advance Computing (C-DAC) & Digital India Corporation (DIC) has designed, developed and implemented various electronic IT driven solutions for its flagship programs viz, Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA), National Social Assistance Programme (NSAP), Pradhan Mantri Awaas Yojana-Gramin (PMAY-G), Pradhan Mantri Gram Sadak Yojana (PMGSY), Deen Dayal Antyodaya Yojana - National Rural Livelihoods Mission (DAY-NRLM), Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY), Saansad Adarsh Gram Yojana (SAGY), Shyama Prasad Mukherji Rurban Mission and District Development Coordination and Monitoring Committee (DISHA).

The IT driven solutions are being implemented through MIS and GIS systems which are continuously being innovated to strengthen service delivery. Some of the focus areas include the following:

- Leveraging AI and emerging technologies for optimizing and enhancing data analysis
- Implementing facial authentication technology to ensure secure and efficient beneficiary verification.
- Enhancing system security through the integration of robust cybersecurity measures
- Promoting convergence among various schemes to maximize resource utilization and impact.

IT Division of Department of Rural development supported these initiatives taken

at various Program Division level which have enhanced transparency, efficiency and citizen engagement. Initiatives toward transformation of applications, which are proprietary in nature, to Open-source technology were also taken. Further, migration of hosting of Infrastructure from traditional data center to Cloud has also been initiated for enhancing speed, round-the-clock accessibility and efficiency of the IT systems.

2. New e-Governance Initiatives in DoRD

2.1 Enhancing Aadhaar Payment Bridge (APB) based payments in DBT (Direct Benefit Transfer) Schemes

Aadhaar based Direct Benefit transfer (DBT) is a major governance reform initiative of the Government to ensure targeted delivery of benefits and services, ensuring greater transparency and accountability in public service delivery through effective use of technology. To improve APB readiness of Aadhaar 'seeded & verified' beneficiaries, followed by APB payments, full seeding / authentication of all beneficiary data bases, especially active beneficiaries is to be ensured. DoRD has taken the initiative to mandate capturing of Aadhaar Numbers in all the schemes of DoRD.

Aadhaar seeding and authentication of beneficiaries under respective programs has resulted in better targeting, authentication of beneficiaries and has helped weed out ghost and fake beneficiaries. Also, the transfer of money directly into the bank accounts of beneficiaries through Aadhaar based or Account based transfer mode facilitates direct credit of payments to right beneficiary at right time and in right account. The automated system has

helped remove bottlenecks, parking of funds, and reduced delay in payments processing time considerably. At present, MGNREGA, PMAY-G, NSAP and NRLM are the schemes enrolled for APB.

The percentage of Aadhaar authenticated under different DBT on-boarded schemes is as under:

(as on 31 Dec 2024)

Scheme Name	Total Beneficiaries	Aadhaar Authenticated
MGNREGS	13.37 Cr. (Active)	99.49 %
PMAY-G	3.22 Cr.	90.1%
NSAP	2.974 Cr.	84.15%
NRLM	10.05Cr	83.18%

2.2 Data Governance Quality Index (DGQI 2.0)

Data Governance Quality Index (DGQI) is conducted by NITI Aayog with the objective of assessing data preparedness of Ministries / Departments on a standardized framework to drive healthy competition among them and promote cooperative peer learning from best practices. The DGQI also enables self-assessment at various levels of data maturity based on a standardized framework consuming three key pillars of data preparedness viz., Data Strategy, Data Systems and Data Outcomes. Department of Rural Development has been ranked 1st in Data Governance Quality Index by NITI Aayog, in Q4 of 2023-24, across various Government Departments / Ministries, with a score of 4.93 out of 5.

Names of CS/CSS schemes of the DoRD covered under DGQI 2.0 and their respective scores are as follows.

S.No.	Scheme Name	Score
1.	MGNREGA-Programme Component	4.93
2.	Pradhan Mantri Gram Sadak Yojana	4.65
3.	Pradhan Mantri Awas Yojana (PMAY)- Rural	4.93
4.	Deen Dayal Upadhyaya Grameen Kaushalya Yojana	4.71
5.	National Social Assistance Programme	5.0
6.	National Rural Livelihood Mission	5.0

2.3 Data and Insights Unit in DoRD

With the vast amount of data generated, modern technologies like AI, GIS, and various algorithms can play a crucial role in minimizing fraud across government operations and enhancing the efficiency of Ministry of Rural Development (MoRD) programs. To achieve this objective, the Data & Insights Unit within MoRD’s IT Division was established. This unit comprises not only technical experts but also

professionals with diverse skill sets, including data science, quantitative policy analysis, product management and field research. Further, the scope of projects undertaken by the unit extends beyond the IT systems managed by NIC and encompasses other technical service providers also such as CDAC or any other Technical Service Provider within DoRD. The team has already taken up various projects across Ministry of Rural Development programs across various verticals such as:

Use of AI and emerging technologies to improve service delivery	• Use of AI to flag recaptured photos in PMAY-G. The algorithm is currently deployed for ongoing survey and will be used across all future stages. • Gen AI Chatbot to help users access relevant information from digitized PDFs, answer queries, and provide guidance related to various MCLF activities in NRLM • Use of AI/GIS/MIS in flagging suspicious MGNREGA assets and prioritizing them for inspections by Area Officers. The algorithm has run on more than 1 crore MGNREGA assets as on date and assigned a risk score to every asset. Higher risk assets and geographies are now being prioritized for inspections on ground. • Use of AI to detect erroneous maintenance payments in PMGSY through the analysis of inspection photographs captured. The machine learning model was successfully deployed in all States last year. • Using AI to flag erroneous documents uploaded as payment proof in DDUGKY. Docu AI was deployed in 2023 and work is being done to improve and redesign the deployment basis changes over the years and guidelines.
Data Analysis/ Decision Support Tools for Policy Decision Makers/ ICT Advisory	• Sanctioned cost ceiling analysis in MGNREGA by leveraging various statistical measures. • Janmanrega revamping, introduction of text to speech using Bhasini, job-card module to provide attendance/payment/ABPS information to worker using job-card • PMFME fund analysis in NRLM based on funds received and utilized, turnovers, provide actionable insights to reduce delays at various levels of approvals.

	• Social Audit Analysis to identify fund release and required pattern in MGNREGA • Used data analysis techniques and graph analytics to gain insights and find out anomalous PIAs in DDUGKY • Automated data backed MCLF Performance scorecard to review and track MCLFs against targets in NRLM. Comparative review at National/State/District/Block level • Designed and conducted usability testing to support and implement improvements in Area officer Application in MGNREGA • Fund Planning Tool to support data driven distribution of funds across geographies in NRLM. The decision support tool enables States make a fairer decision on the allocation of funds among districts. • GIS and data analysis of clustered assets, cost outliers, untouched villages in MGNREGA • Commissioner Dashboard to monitor worksites flagged based on AI/MIS/GIS rules
Capacity Building	• The Data & Insights Unit crafted a comprehensive masterclass for scoping AI projects to empower senior leadership in MoRD to choose and scope the right AI projects for successful outcome. The course uses RD examples to enable participants to view the coursework with a lens that is relevant to them

2.4 Rural infrastructure in Gati Shakti

PM Gati Shakti aims to provide multi-modal connectivity, enabling smooth and seamless movement of people, goods, and services between different modes of transport. The ultimate goal is to facilitate the last-mile connectivity of infrastructure. In this context, the Ministry of Rural Development has shared 31 layers at PM Gati Shakti from MGNREGA, PMGSY, SPMRM and PMAY-G as follows:

Layers on Gatishakti Portal

- 1) Amrit Sarovar
- 2) SPMRM

- a) SPMRM Projects Completed
- b) SPMRM Projects Ongoing
- c) Cluster Boundary
- d) Tribal
- e) Non-Tribal
- f) Phase 1
- g) Phase 2
- h) Phase 3
- i) Panchayat Boundary
- j) Cluster Village Boundary
- k) Cad Append
- l) Building Footprint GCS

- m) Settlement Cluster
- n) Contour Cluster
- o) Slope 252
- p) Enumeration Boundary (EB)
- q) House Number

3) PMGSY

- a) PMGSY Road Network (DRRP)
- b) PMGSY Facility
- c) Habitation India
- d) PMGSY-III Road Proposal
- e) PMGSY-I Road
- f) PMGSY-I Bridge Location
- g) PMGSY II Road
- h) PMGSY – RCPLWEA
 - Total 7 layers scheme of PMGSY (PMGSY I, PMGSY II, PMGSY III, RCPLWEA, PMGSY Road DRRP, Habitations, Bridge location) have been on-boarded on Gati Shakti Portal.
 - Out of a total of 8,14,236 kilometers of PMGSY roads across all verticals, 7,41,238 kilometers & Out of 11,084 bridges, 6,696 bridges from all verticals have been uploaded on the GatiShakti Portal.
 - Furthermore, more than 6.96 lakhs facilities related to Agriculture, Education, Medical, Transport, and Administration have been mapped on the Gati Shakti Portal

4) PMAY-G

- a) Completed
- b) House Sanctioned

- c) Lintel Level
- d) Roof Cast
- e) Plinth

2.5 Interactions with Other Ministries / Departments

DoRD IT Division is also involved in vibrant interactions with other departments / Ministries such as NITI Aayog for DGQI 2.0 indexing, DARPG for NeSDA, Ministry of Electronics and Information Technology for cyber security and other initiatives and Ministry of Home Affairs for cyber awareness. Department has been sharing its data set on Open Government Data Platform and for actively sharing its data Chief Data Officer (CDO) of the department has been felicitated twice with “Star CDO of the month”. The Department has also collaborated with All India Council for Technical Education (AICTE) for Smart India Hackathon for exploring technology-driven solutions for various rural development initiatives.

2.6 Strengthening Cyber Security

Ensuring sufficient cybersecurity measures in the contemporary high-tech digital landscape is essential, serving as the most effective means to protect the IT infrastructure of organizations. These threats not only pose risks to businesses but also impact government authorities. Department of Rural Development in consultation with NIC has taken several measures to enhance its cybersecurity compliance status as per CERTIN (Indian Computer Emergency Response Team) cyber security guidelines pertaining to Department & Applications. Some of the major initiatives are as follow:

- To create safe and secure environment at

DoRD, Comprehensive Audit inclusive of Software, hardware and Network has been done for NREGA & PMAYG. In addition, an internal security audit of Endpoints (Laptop and Desktop) is being conducted, Cyber Security Dos and Don'ts have been circulated.

- Unified endpoint management system has been implemented
- Cyber Security Workshops have been conducted for generating sensitization and awareness amongst DoRD officials and staff on cyber-security issues.
- Do and don't related to cyber security has been circulated to all the resources.

3. New Applications and features implemented in various schemes during FY 2024-25

3.1 MGNREGA

- SNA SPARSH has been developed and implemented in NREGASoft for Chhattisgarh State.
- Geofencing in NMMS introduced, so attendance can be taken only within 10 meters of worksite/ work location.
- New features of JANMANREGA- view attendance taken details for last month,

view of workers attendance details for current and previous FY, job card detail, Payment details. By entering MGNREGA job card number, user can view the job card details, attendance details of workers, Payment status, Aadhaar seeding, Aadhaar authentication & ABPS status details.

3.2 NSAP

- POC for Digital life certificate of pensioners: Digital life certificate (DLC) of pensioners module has been developed and tested live as POC in Jharkhand (Ranchi, Ramgarh, Gumla block) and Tamilnadu (Salem,

Namakkal, Dharmapuri Block). This app has been integrated with UIDAI FaceAuth-RD app to do eKYC using Face Authentication.

- The integration of Bhashini, India's multilingual in AI languages platform with the NSAP PPS platform: NSAP-PPS is integrated with Bhashini which has enabled beneficiaries to access services in their preferred regional languages through voice and text interfaces. This multilingual capability ensures seamless communication for users, particularly in rural and semi-literate communities. By automating responses and providing real-time updates, the integration has enhanced accessibility and operational efficiency.

3.3 PMAY-G

- **PMJANMAN** – The Hon'ble Prime Minister had released the first instalment to more than 1 lakh beneficiaries of Pradhan Mantri Awas Yojana - Gramin (PMAY-G) under Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan (PM-JANMAN) via video conferencing on 15 Jan 2024. The e-governance and m-governance solution for entire process of evidence-based survey, identification and registration of beneficiaries, gram sabha processes, e-sanctioning and ABPS and DBT based payment system was developed in a very short span of time of 30 days. In addition, an analytical dashboard on Power BI is also developed to monitor the implementation of scheme and to enable real-time insights and data visualization, enabling efficient decision-making and ensuring transparency in the process.
- **Awaasplus 2024 app** - In August 2024, the

Cabinet has approved an additional 2 crore houses under PMAY-G, and the AwaasPlus 2024 survey will be conducted to update the Priority Waiting List (PWL) by identifying new eligible households. Accordingly, a new mobile application, AwaasPlus 2024, has been developed and was launched by the Hon'ble Prime Minister on 17th September 2024. Its key features ensure accurate data collection, with a focus on transparency, accuracy, efficiency and ease of use for both citizens and officials. Some of the main features are:

- ▷ Self-Survey – Allows citizens to perform Aadhaar-based eKYC and complete a self-survey.
- ▷ Assisted Survey through pre-registered surveyors - Surveys can be conducted by pre-registered surveyors, assisting those who may need help. These surveyors are identified and mapped to the Gram Panchayat by Block Development Office.
- ▷ Housing Typology Selection- Facilitates the selection of appropriate housing design typology for each household surveyed.
- ▷ Face Authentication and Aadhaar based eKYC
- ▷ Data capture of Household, family members and condition of existing house
- ▷ Time stamped and geo-tagged photo capture of existing house and proposed site of construction. – Captures time-stamped and geo-tagged photos of the existing house and the proposed construction site during the survey which are then cross validated with AI/

ML based models for authenticity and liveliness.

- ▷ Works in online and offline mode both - This feature ensures the app works seamlessly even in areas with poor internet connectivity, making it accessible in remote regions.
- **Awaas Sakhi App** - The Awaas Sakhi (Support Application for Knowledge, Help and Innovation) is an innovative mobile application developed to enhance access to PMAY-G by bringing essential information and resources in one place. Through the application, beneficiaries/Citizens can gain awareness about the scheme, obtain answers to their queries and determine their eligibility for the scheme, equipping them with knowledge to make informed decisions. Further, Awaas Sakhi paves the way towards active involvement of beneficiaries and their community in the house construction process by making available house design typologies, locally available BIS certified materials and trained rural masons. Awaas Sakhi, in the essence of its name, aims to provide Help, enable access to Knowledge and promote Innovation in PMAY-G. The application makes essential information and tools available at the fingertips of the beneficiaries enabling them to take full advantage of the scheme and achieve their dream of owning a secure and resilient house.

3.4 DAY-NRLM

- Integrated system of NRLM namely LokOS has been implemented across the country for onboarding beneficiaries and community institutions promoted under the scheme.

- Process driven disbursement of funds through eFMAS has been implemented in all States for NRLM and its sub schemes.
- Mapping of SHG bank loans with their corresponding profiles has been taken up and about 65 lakhs loan accounts were matched.
- Exclusive interactive portal for Lakhpati Didi Initiative to promote SHG members as lakhpati and income of each members are being digitized for all potential lakhpati didis.
- Power BI based analytical dashboard has been created for eFAMS and Lakhpati didi data.

3.5 PMGSY

- **Gram Sadak Survey App** - NRIDA has developed a mobile application called Gram Sadak Survey Mobile App, specifically designed for digital mapping of PMGSY-IV unconnected habitations. The app was launched on 08-10-2024 by Hon'ble Minister for Rural Development. It allows comprehensive mapping/ documentation of unconnected habitations along with capturing geo-tagged photos of essential facilities, such as schools, primary health centers, gram mandis, and banks, along the proposed routes.
- **Gati Shakti DPR Tool** - A Geo-Spatial AI Tool has been developed by BISAG in collaboration with DoRD for DPR planning. This tool enables PIU users to generate chainage, 3D profiles, and perform tasks such as cutting, filling, and land acquisition. The platform offers numerous advantages, including 3D models, simulations, situational reports, spatial decision support

systems, and disaster management features.

- **Meri Sadak mobile application** - it has been localized in Indian Languages and available in Hindi, English, and Odia. During 2024-25 (from 01.01.2024 to 31.12.2024), a total 17,656 PMGSY complaint/feedback received through “Meri Sadak” Mobile App. During this period final reply for 13,598 complaints and interim reply for 4,038 complaints have been provided to the complainants.
- **GPS VTS - System** - The GPS VTS is implemented to monitor road construction projects under PMGSY-III by ensuring that projects maintain the required standards and quality level. This system uses GPS technology to track the movement of vehicles and equipment involved in road construction, enabling project managers to maintain real-time oversight of construction activities. This monitoring system helps in maintaining construction timelines, assessing resource use, and upholding quality standards across PMGSY projects. All PMGSY III projects, undergoing construction during the period of reporting were mandated to have GPS/ VTS systems.

3.6 Other prominent IT initiatives undertaken.

- **Implementation of Aadhaar Data Vault in the Department** : The ADV stores Aadhaar numbers collected by an e-governance applications in a secure encrypted database separate from user application database. Each Aadhaar Number is mapped to a Reference Key, which is returned to the user application for storing in place of the Aadhaar number and this reference key is used for delivery of Aadhaar based services.

This vault functions in a way to keep all Aadhaar-related data safe and secure and keep it protected from cyber hacking

- **Integration of Bhashini with the Portals of the Department** : The integration of Bhashini with JANMANREGA and NSAP as a pilot initiative, has been implemented to overcome language barriers, ensuring seamless access to digital services for citizens in their preferred language
- **Addition of Macro level (State Review) inspection in Area Officer App** : The Ministry of Rural Development has introduced the Area Officer App with the purpose of to make real time inspection & evidence-based reporting of RD schemes. This mobile app facilitates the officials of the State/UT to record their field visit findings online. The App allow the officials to record time stamped and geotagged photographs of worksite, works. This app is being used for Mission Antyodaya, DDU-GKY, DAY-NRLM, Fourteenth Finance Commission, Gram Panchayat Development Plan Campaign, MGNREGA, PMGSY, PMAY-G, NSAP, SPM Rurban Mission. Earlier, field officers were able to perform the micro level (worksite/ works/ field level) inspection only. With the addition of Macro level inspection features, officers above than Joint Secretary level can now do the states/UTs review for the schemes implementation.
- **Training Management Portal** : A portal was developed inhouse by NIC-DRD to address the need of training management of the Department of Rural Development. It helps the DoRD in capturing the Training demands/needs of the Elected Representatives and officials that helps

in sizing the demand and preparation of training calendar and resource estimation. The training management portal also allows Resource Persons and Training Agencies to register with it (Provider agency). Agency registration includes the sharing of information on training venue, infrastructure, thrust areas, faculty, resource material availability etc.

- **Procurement of Power BI licenses and ancillary Cloud Services :** The Department has procured Power BI licenses along with ancillary cloud services to ensure the seamless operation of dashboards and facilitate the deployment of emerging technology initiatives

4. IT Resources in DoRD

The IT resources in DoRD can be categorized as below:

- Various web based Transactional & Management Information Systems (MIS systems) such as NREGASoft, Awaasoft, NRLM-eGov Solutions, OMMAS, NSAP-PPS, Area Officer System have enabled efficient and effective implementation of programs which includes monitoring, allotment, tracking, reporting and transaction processing.
- Mobile Monitoring Apps such as National Mobile monitoring system (NMMS) in MGNREGA program for attendance capture, AwaasPlus 2024 Mobile App, AwaasApp, Area Officer System and other Citizen centric Mobile Apps such as Kaushal Panjee, Gram Samvad, AwaasApp, Janmanrega, Meri Sadak etc. have empowered the rural citizen/beneficiaries

to directly access information and enabled a 2-way communication under various programs.

- Integration with PFMS and NPCI, Aadhar handling & implementation of Direct Benefit Transfer in various programs has streamlined the account verification and electronic funds release process.
- Development of real time state of the art dashboards such as Performance Index Dashboard, e-payment, Payment reconciliation, DBT dashboard, Kaushal Pragati and analytical reporting framework have enabled the department to assess the performance of various programs and taking necessary course corrections, if any.

Several other ICT driven initiatives are being conceptualized and implemented in a periodic manner in order to establish an efficient service delivery mechanism with time and improve the overall governance of various programs such as DISHA initiative, Bank Linkages portal, Training management portal, DDUGKY portal etc. which include integration with other external systems such as PFMS, Niti Aayog, PM Dashboard, DBT Mission etc.

The various IT systems developed in respective programmes to facilitate the service delivery in various programs of DoRD are done after detailed consultation with their applicable stakeholders in alignment with the aims and vision of the program and achievement of the desired objectives, outputs and outcomes

4.1 Ecosystem of MGNREGA

- NREGASoft is a MIS, Unicode enabled end to end workflow based e-Governance system to capture all the activities under

MGNREGA at Center/State/District/Block and Panchayat level. It provides a single window platform for all the stakeholders in MGNREGA, be it beneficiaries, field functionaries, officials or any common man interested in this area of government's work. (<https://nrega.nic.in/>)

- **GeoMGNREGA** is a Geographical Information System (GIS) solution to visualise, analyse and explore the data of assets created under MGNREGA. It essentially enables to view the assets created under MGNREGA across India through Bhuvan portal.
- **SECURE** (Software for Estimate Calculation using rural Rates for Employment) developed by NIC, Kerala for work estimation and Technical/Administrative/Financial approvals of MGNREGA works created through NREGASoft.
- **Ombudsmen App:** Ministry of Rural Development has Ombudsperson App for smooth reporting and categorization of grievances by Ombudsperson based on complaints he received from various sources viz. physical, digital and mass media, related to the implementation of MGNREGA Scheme in the States/UTs.
- **Payment performance dashboard** provides State-wise NeFMS DBT transactions (absolute nos.) related reports for a selected financial year under the program
- M-Governance in NREGA
 - ▷ **JANMGNREGA** is a mobile based

instrument/App which enables two way flow of information where a citizen can search for assets and provide feedback on asset. The app can search for nearby assets also based on User's current location. By providing job card number, one can view job card details, attendance, payment status, Aadhaar status of workers.

- ▷ **NREGA Mobile Monitoring System (NMMS)** is a mobile app which allows real time capturing of workers' attendance with geo-tagging and workers group photo in the work sites (except for individual works) thereby ensuring effective execution and monitoring of MGNREGS works and provide a real time visibility. The objective is to empower GPs and implementing agencies with live data from the worksites and allow an online and real time updating of data base for complete transparency.

4.2 Ecosystem of PMAY-G

- **AwaasSoft** is a workflow, web based, transactional based electronic service delivery platform, ERP cum MIS facilitating e-governance in PMAY-G". (<https://pmayg.nic.in>)
- M-Governance in PMAY-G
 - ▷ **AwaasApp** is a mobile app that captures geo-referenced and time-stamped photographs of the houses during their construction.
 - ▷ **Awaas+ 2024** caters to those

beneficiaries who might have been left out in permanent waitlist but are worthy or eligible for receiving benefits under PMAY-G programme.

- ▷ **Awaas Sakhi:** The Awaas Sakhi (Support Application for Knowledge, Help and Innovation) is an innovative mobile application developed to enhance access to PMAY-G by bringing essential information and resources in one place. Through the application, beneficiaries can gain awareness about the scheme, obtain answers to their queries and determine their eligibility for the scheme, equipping them with knowledge to make informed decisions.
- **Management Dashboard:** PMAY-G Dashboard provides End-to-End insights to cater to the analytical and strategic business intelligence needs to cater for the physical and financial progress of the PMAY-G scheme at a glance. The dashboard is developed over Power-BI also provides the actionable insights that include the single screen visualization of entire physical and financial progress and state-level reports drillable to block level, analyzing the gap/delays in release of instalments, speed of house construction, age-wise, category-wise data analysis to find out anomalies, outliers, discrepancies etc. It also illustrates the trend analysis for sanction and completion progress using dynamic and customizable data visualization in close coordination with business users.
- **E-ticketing system,** a grievance redressal mechanism has been developed for the users of PMAY-G system which makes it easy for the citizens to log the grievances and the

department to address the concerns.

4.3 Ecosystem of NSAP

- **NSAP-PPS:** A Pension Processing System (NSAP-PPS) was developed by NIC-DRD in consultation with Ministry of Rural development for the successful implementation of NSAP across India that allows beneficiaries profiling and facilitation for easy end-to end and DBT transfers for beneficiaries, starting from the originating point to disbursement point. (<https://nsap.nic.in/>)
- The major modules of the **NSAP-PPS** is Beneficiary Management, Pension processing disbursement Management, Payment files/FTO generated, Payment files pushed to PFMS, Endorsement of digital signature (Payment files/FTO) and Report Management and Audit Trail.

4.4 Ecosystem of DAY-NRLM

- **NRLM e-Gov application MIS System** is in place to onboard community institutions and their members. SHG-transaction based application has two variants, Mobile application (Android based) (LokOS) and online web-based application. It has a provision for capturing the transactions of SHG (Attendance, Saving, Lending, Loaning, Repayment, Payment to Members, Micro Credit Plan, Online Loan Application, Sync Data to Central Server) in each meeting and is an indispensable tool for SHG/VO/CLF's financial inclusion through ICT enabled services. It has been facilitated with Location Masters Standardization with the use of LGD codes and seeding of Aadhaar data (with consent). (<https://lokos.in>) and (<https://nrlm.gov.in/>)

- System to provide financial support to eligible community institutions
- System to track Financial Transactions of community institutions
- Bank Linkage Application for monitoring bank loan access by SHG and NPA
- M-Governance through Saksham, Lakhpati Didi, LokOS, SARAS Mela Mobile Application.
- System for Producer Groups, Cadres Management, Training Management, Project Management are in pipeline
- **Lakhpati didi App** : Lakhpati Didi mobile app was launched by DAY-NRLM to make women members of self-help groups 'Lakhpati'. Under the Lakhpati Didi, women belonging to self-help groups (SHGs) will be encouraged to take up micro-enterprises with skill development. Applicants can login and can even check Lakhpati Didi monitoring report, Lakhpati Didi SHG and user management report, Lakhpati SHG Status Report and Lakhpati SHG Data entry status at <https://lakhpatididi.gov.in/>
- **SARAS Mela App** : SARAS mela app was launched with updated features to support and monitor all activities across the lifecycle of SARAS Aajeevika Mela i.e. Add SARAS Aajeevika Mela event, Registration of SHGs to participate in SARAS Aajeevika Mela, Verification and Approval of SHGs, Capturing Additional Information, Allotment of exhibition stalls to SHGs, Attendance Capture by Mobile App, Sales capture, Invoice Generation & Inventory Management by Mobile App and Reports Generation & Feedback
- **LokOS App**: LokOS App was implemented

across the country from 1st April, 2023 for onboarding beneficiaries and community institutions followed by tracking of transactions of all community institutions. All community institutions will be graded based on the transactions captured through LokOS.

4.5 Ecosystem of SPMRM

In SPMRM, programme implementation and monitoring carried out through an end-to-end e-Governance model. (<https://rurban.gov.in/>)

- **RurbanSoft** is workflow-based MIS for SPMRM. Integrated with PFMS (REAT) all vendor payment is done through RurbanSoft. Total 34 states, 298 approved clusters.

4.6 Ecosystem of DDUGKY

- **Kaushal Bharat** an ERP System for DDU-GKY is an online process management software to capture the data / information by following the process prescribed in DDU-GKY SOP and guidelines. (<http://ddugky.gov.in/>)
- **Kaushal Panjee** web is a citizen centric end-to-end solution to aid mobilization of candidates for RSETIs and DDU-GKY. It facilitates mobilization of candidates through Self Help Group members, Gram Panchayat Functionaries, Block Officials, CSCs and directly by the candidate. RSETIs and DDU-GKY partners can access the Kaushal Panjee to connect with the mobilized rural youths. Kaushal Panjee is connected to the Socio Economic and Caste Census (SECC 2011) data which helps the States plan and target their mobilizations based on socio-economic profile of

households in their State.

- **Kaushal Panjee App** is the Mobile App for registration of rural youth between 18-35 years for skill upgradation under various trade and sector officers for DDYGKY and RSETI.

4.7 Ecosystem of Area Officer System

- **The Area Officer System** of the Department of Rural Development is a digital initiative aimed at streamlining the monitoring and implementation of rural development schemes. It enables area officers to effectively oversee projects, assess progress, and ensure accountability at the grassroots level. This is an AI-powered platform for monitoring and evaluating the implementation and performance of government schemes. In MoRD, senior officers' visits at least once in two months to her/his assigned states to hold review meeting and experience implementation of schemes at the field level. The AI-enabled Area Officer platform enables all officials (Centre/State/Local) to plan and manage their visits, select worksites and assets for inspection, and record their findings in real-time. This also allow the officials to record time stamped and geotagged photographs and evidence of the schemes and helps hassle-free reporting of worksite inspection and evaluation.
- **Enablement of AI** in Area Officer System helps in recommendation of inspection sites based on MIS data, feedback of citizens, response of officers and other parameters, the system recommend officers about worksites or public assets that should be visited for assessment. Officer can also view all the nearby public assets or worksites on map. He can get the complete details and direction to reach at the desired worksite. Reviewing Officers can capture evidence-based record and data on real time. The System is featured with capturing time stamped geotagged photographs for evidence where officers can also highlight anything in the image if they want.
- The System is also featured with analytical dashboard for the stakeholders to look into the whole of the holistic performance location wise, scheme wise or in policy formation. Harnessing AI/ML algorithms, the system highlights potential quality gaps and funding delays, catalyzing awareness, and swift interventions.
- In the system, citizens can give feedback on public assets and demand for inspections too. Any citizens can register into the platform through the mobile app and monitor the real-time status of assets and services across all integrated schemes. They can provide feedback and proffer recommendations for targeted inspection areas. The AI-enabled system does sentiment analysis on the feedbacks provided by citizens and system also utilized these feedbacks for prioritizing worksite inspections.
- **Area Officer System** of Department of Rural Development, GoI has bagged Jury Award under the "Government Process Re-engineering for Digital Transformation" category at the 27th National e-Governance Conference (NeGC) in Mumbai.

4.8 Ecosystem of SAGY

- A web-based application that has modules such as Dashboard for District / Panchayat level users, Sector wise VDP Progress

Report, District Level data entry and reports as required by Department/users. (<https://saanjhi.gov.in/>)

4.9 Ecosystem of Mission Antyodaya

- Annual survey in Gram Panchayats across the country used to conduct under Mission Antyodaya to bring optimum use and management of resources allocated by 27 Ministries/ Department of GOI. (<https://missionantyodaya.nic.in/>)

4.10 Ecosystem of PMGSY

- **Online Management, Monitoring and Accounting System (OMMAS)**

OMMAS is a web-based MIS system that enhances transparency and data management for PMGSY by serving as a centralized database for monitoring projects, enabling timely tracking, and supporting decision-making through online data on road details and transactions. (<https://omms.nic.in/>)

- **Electronic Maintenance of Rural Roads under PMGSY (eMARG)**

eMARG is a comprehensive digital solution under PMGSY that automates the entire road maintenance process, from inspections to bill generation and payments. By utilizing geo-tagged photographs, it enables real-time monitoring, ensures evidence-based records of maintenance, and significantly reduces administrative workload, making the process more efficient and transparent. (https://emarg.gov.in/application_main.htm)

- **Project Management Information System (PMIS)**

A module to ensure disciplined tracking and monitoring of road construction/ upgradation projects under PMGSY. Key Steps:

- ▷ Project Planning: PIU staff define a detailed project plan with timelines.
- ▷ Progress Reporting: Regular updates ensure adherence to schedules.
- ▷ Gantt Charts & Reports: Visual tools for tracking progress and analyzing project details.
- ▷ Proactive Corrections: Identifies delays early to enable timely corrective actions.

- **GIS in PMGSY**

- ▷ Geospatial Rural Road Information System (GRRIS) enables every citizen even in the remote corner of this country to visualize the details of the rural roads constructed under PMGSY scheme. (<https://www.pmgys-grris.nic.in/>)

- ▷ **PMGSY National GIS, Geo Sadak**

PMGSY has developed a web-based GIS application, Geo Sadak using Free and Open-Source Software, incorporating fully indigenous GIS data layer. This initiative has digitized and made publicly accessible GIS data covering over 7 lakh rural facilities including educational, agricultural, health, transportation, and administrative facilities, promoting transparency, innovation, and evidence-based decision-making in rural development. (<https://geosadak-pmgys.nic.in/>)

- **Dashboard**

Dashboard (Power Bi) serves as a real-time

monitoring tool for all PMGSY projects, offering higher-level management access to up-to-date project data. With real-time analytics, competent authorities can efficiently evaluate project progress and make data-informed decisions that keep projects on track. The dashboard improves accountability and helps ensure that project goals are met in a timely manner.

- **Vehicle Tracking System**

The GPS VTS monitors PMGSY-III road projects by tracking movement of vehicles and equipment involved in road construction in real time, ensuring adherence to timelines, resource efficiency, and quality standards.

- **Meri Sadak app (Citizen feedback system)**

The Meri Sadak app, part of the government's Citizen Feedback system, addresses road grievances under PMGSY and non-PMGSY. Non-PMGSY complaints, previously handled by CPGRAMS, are now streamlined through its integration with Meri Sadak, allowing NRIDA to review and forward grievances to SRRDAs for prompt resolution.

- **QMS app (Quality Monitoring Systems)**

The QMS app supports inspections by national and state-level quality monitors, enabling users to capture key data such as start and end point photographs, lab photos, and critical parameters. It ensures accurate quality assessments and enhances transparency by providing visual and data-driven records of construction and maintenance.

5. Awards

- Department has been ranked 1st in DGQI Assessment conducted by Niti Aayog continuously for previous 4 quarters
- Department portal has been ranked 1st in NeSDA assessment carried out by DARPG
- For making departments data available on OGD platform Departments CDO has been felicitated as “Start CDO” of the month
- The Area Officer System of the Department of Rural Development, GoI, received the Jury Award in the ‘Government Process Re-engineering for Digital Transformation’ category at the 27th National e-Governance Conference in Mumbai
- E-Marg received silver award in ET Government PSU Award 2024

6. Future Roadmap and way ahead for continuous improvement

The Department is striving in the following direction for implementation in IT services:

- Improving service levels to citizens & better access to information
- Deployment of efficient Security, Data privacy and protection measures
- Leveraging IT initiatives in the form of emerging technologies including cloud computing, mobile technologies, and data analytics
- Interoperability of data across programs for integrated information on effectiveness of programs
- Improvement in field level operations and citizen responsiveness with mobile-centric technologies
- Continuous reforms in IT maintaining the

state-of-the-art IT ecosystem.

- Enabling mechanisms for better reach and accessibility to citizens through citizen centric applications with overall focus on better program implementation
- Shared solutions to modernize legacy systems and avoid duplication of resources
- Building of adequate IT resources in the form of infrastructure and human capacity

MONITORING AND EVALUATION

State and District Level DISHA Committees

“DISHA is a crucial step towards good governance through which we will be able to monitor key parameters centrally. It will enable us to effectively monitor development in every village of the country.”

Hon’ble Prime Minister Shri Narendra Modi

A large number of significant and ambitious programmes have been rolled out by the Government of India which has a potential of delivering developmental impact at the grassroots. Therefore, it is imperative that for ensuring convergence of these programmes a holistic mechanism has to be put in place for ensuring effective monitoring of these programmes. In view of this, a two tier system of DISHA has been evolved for monitoring of key projects/programmes by the elected members. First tier is District Development Coordination and Monitoring Committees (District Level DISHA Committees), operational in 784 districts including the urban areas and second tier is State Development Coordination and Monitoring Committees (State Level DISHA Committees) work under the chairmanship of respective Chief Ministers of State. The details of these two tiers are elaborated in succeeding paragraphs;

I. District Level DISHA Committees

District Level DISHA Committees have been re-constituted recently under the chairmanship of Member of Parliament with a view to fulfill the objective of ensuring better coordination among all the elected representatives in Parliament, State Legislatures and Local Governments (Panchayati Raj Institutions, Municipal Bodies), in monitoring the progress of major projects

aimed at socio-economic transformation at the district level. Through this unique dispensation, inter alia, following are the key objectives envisaged to be achieved:

- Intensively monitor identified key central sector programmes and schemes.
- To oversee that identified priorities get needed focus.
- Ensure adherence to the guidelines associated with the Programme/Scheme.
- Facilitate coordinated solution to remove implementation constraints.
- Identify gaps and suggest mid-course correction.
- Ensure timeliness in delivery of social sector initiatives aimed at universal coverage.

Composition of District Level DISHA

Committee: In normal course, the Chairperson of the DISHA should be a Member of Parliament (Lok Sabha) elected from the district and the District Collector / District Magistrate/ Deputy Commissioner should be the Member Secretary. The other members include all Lok Sabha MPs

Ministry of Rural Development, Government of India may nominate up to 4 members as non-official members of the District Level DISHA Committee in consultation with Chairperson of District level DISHA Committees.

The Chairperson of the District level DISHA Committee should be a Member of Parliament (Lok Sabha) elected from the district, nominated by the Ministry of Rural Development. The criteria for nomination should be the following:

- i. Where there are more than one Member of Parliament (Lok Sabha) representing the district, the senior-most Member of Parliament (Lok Sabha) should be nominated as the Chairperson. The Warrant of Precedence (WoP) maintained by the Ministry of Home Affairs (MHA) should be followed in case of MPs who have not been nominated as Chairperson in any other district, which may result in exceptions.
- ii. In case more than one district(s) fall in same Parliamentary Constituency (Lok Sabha), the MP from the Parliamentary Constituency will become Chairperson of District(s), the area of which fall entirely in the said Parliamentary Constituency.
- iii. If the district has more than one Parliamentary Constituency (Lok Sabha) as its segments and the senior-most Member of Parliament (Lok Sabha) (irrespective of seniority based on the criteria of number of tenures or WoP maintained by the MHA) is made Chairperson of DISHA in some other district(s) (read with Note 2 of guidelines), the next senior-most Member of Parliament (Lok Sabha) should be the Chairperson.
- iv. In case of same seniority, the Chairperson should be the Member of Parliament in whose Parliamentary Constituency the largest geographical area of the district falls.

Note: These nomination subject to conditions given DISHA guidelines

representing the district and one Rajya Sabha MP (opted for the District) representing the State may be nominated as Co-Chairperson or Special Invitee. Up to four non-official members may be nominated by Ministry of Rural Development (GoI) in consultation with Chairperson of the Committee and other MP (LS) representing the District and MP (RS) opted for the District may send their recommendations in consultation with Chairperson of the District level DISHA Committee. All Members of the State Legislative Assembly elected from the district; maximum two Member of Legislative Council (MLC); one representative of the State Government / UT Administration; all Mayors /the Chairpersons of Municipalities including at least one woman; five elected heads of Gram Panchayat including two women; chairperson of the Zilla Panchayat;

Head of the Autonomous District Council in districts having Schedule VI Areas; all Chairpersons of Intermediate Panchayats in the district; Chief Executive Officer of the Zilla Panchayat; Project Director, DRDA/Poverty Alleviation Unit; one representative each of SC, ST and women to; Member from a reputed NGO; Leading Bank officer of the district; Senior Superintendent/ Superintendent of the

The Chairperson of Committee may nominate five elected heads of Gram Panchayat including two women and one representative each of SC, ST and women; Member from a reputed NGO. Other MP (LS) representing the District and MP (RS) opted for the District may send their recommendations in consultation with Chairperson

Postal Department and District level nodal functionaries of all Programmes under the purview of DISHA, will be members of District level Committee as per DISHA guidelines.

District Level DISHA Committee Meetings

The Guidelines of District Level DISHA Committee provides for organization of DISHA meetings at least once in every

Quarter. Presently 784 DISHA committees are constituted in districts. Department is actively pursuing with the State Governments and district administrations to convene meetings. In addition, follow-up action with states/ districts has also been undertaken at other levels such as reminding nodal officers at district level about overdue DISHA meetings through social media groups, message services and phone calls.

*DISHA Meeting of Raisen District of Madhya Pradesh
under the chairmanship of Shri Shivraj Singh Chauhan,
Hon'ble Minister, Minister for Rural Development and Agriculture & Farmers Welfare*

States have reported 465 meetings in 2019-20, 714 DISHA Meeting meetings in the year 2020-21, 754 meetings in the year 2021-22, 1120 meetings in the year 2022-23, 934 meetings in the year 2023-24 and 351 meetings in the year 2024-25 (as on 31st Dec 2024). State-wise number of Districts in which DISHA Committees have been formed and the number of meetings reported by States are given in Table-I.

District Level DISHA Meetings held (year-wise as on 31st Dec 2024)

Proceeding of Meeting uploaded on portal (year-wise as on 31stDec 2024)

II. State Level DISHA Committees:

After replacing the District Level V&MCs with District Development Coordination and Monitoring Committees, as a next step it is thought prudent to constitute the DISHA system at the State Level. This is necessitated by the fact that there could be large number of issues of important and emergent nature remaining unattended, despite clear cut directions of the DISHA committees at the district level meetings,

for want of the apex level coordination. Such issues need to be resolved at the highest level in the State. Accordingly, State Level DISHA Committees have been constituted in May 2018, replacing the State Level Vigilance and Monitoring Committee and new Guidelines have been issued. As on date, 29 State level DISHA Committee meeting have been held in 16 States since Dec 2018. The details are given at Table-II.

Composition: The Chairperson of the State Level DISHA Committee shall be the Chief Minister of the State/UTs with legislature and the Minister of Rural Development of the State shall be designated as Co-Chairperson. The Secretary of Department of Rural Development in the State/UT should be designated as Member Secretary of the committee. The other Members of the Committee such as MP (Lok Sabha/ Rajya Sabha), 4 members as Non-official members, 2 eminent persons (By HMRD), One representative of KVIC, area officer of Ministry of Rural Development(GoI), Six MLAs; three MLCs; Secretaries/ Heads of State Government Departments responsible for implementation of programmes to be monitored by State DISHA committee; Chief Post Master General of the Circle(s) in the State; Director of Institutional Finance; Managing Director/Heads of SC/ST Development Corporation; Managing Director/ Head of Women's Development Corporation; One representative each from any of two reputed NGOs; Managing Director of the Convener

Bank of State Level Bankers' Committee (SLBC); will be members of State level Committee as per DISHA guidelines.

- Members of Parliament from Lok Sabha and Rajya Sabha shall be nominated by the Union Ministry of Rural Development in consultation with the Union Ministry of Parliamentary Affairs
- Ministry of Rural Development, government of India shall nominate up to 4 members as non-official members of the State Level DISHA Committee the in consultation with the MP (LS) and MP (RS) representing the State.
- Two eminent persons of the State may be nominated by Hon'ble Minister of Rural Development, Government of India, as members in State Level DISHA committee in consultation with the MP (LS) and MP (RS) representing the State.

*Tripura Chief Minister Professor (Dr.) Manik Saha,
Chairing the 1st meeting of the State Level DISHA Committee*

III. Initiatives taken to strengthen the DISHA Monitoring System:

a) Re-constitution of District Level DISHA Committees

Ministry has reconstituted District Level DISHA Committees in 784 districts by nomination of Chairpersons, Co-Chairperson and Special Invitees based on formation of 18th Lok Sabha. Ministry has also nominated Rajya MPs as Co-chairperson in 7 District Level DISHA Committees.

b) Nomination of Members of Parliament (Lok Sabha and Rajya Sabha) for State Level DISHA Committees

Ministry has nominated total 186 MPs (127 from Lok Sabha and 59 from Rajya Sabha) as members for 36 State-level DISHA Committees.

c) Deployment of State-of-art DISHA Dashboard:

The state of the art DISHA Dashboard was launched by the Honorable Prime Minister on 11th October 2017 as a single source of information in respect of schemes run by various Ministries included in DISHA monitoring system. It aims to create a data driven governance solution for elected representatives for planning, monitoring and evaluating multiple parameters of various schemes under DISHA. As on date total 92 schemes of 32 various Ministries/ Departments with different geographical granularities such as administrative boundaries of District, Gram Panchayat, Block and Villages, have been integrated through APIs for real time data display, on the DISHA Dashboard.

d) Meeting Reporting Module

To support the operations of DISHA Committee, facilitate structured and effective meetings, a web portal called 'Meeting reporting portal' (<https://rural.gov.in/en/disha>) has been developed for State and District Level DISHA meeting. It has salient features such as Notice Board, Proceedings of Meeting, Action Taken Report and Summary for state and district level meetings which contain schedules meeting date, time, venue, and agenda, meeting notices and minutes and assign action points.

e) Social Media Platform for fast Communication

A 'State DISHA Committee meeting' Social Media group has been created for quick dissemination of important communication from Ministry of Rural Development and capturing the DISHA State Committee meeting information held in States. Similarly 36 State/ UT-wise Social Media groups also created to exchange the important communication between districts and MoRD.

f) Nomination of Non-official Members:

Based on recommendations from Hon'ble Members of Parliament, 119 distinguished persons have been nominated as non-official members in 30 District Level DISHA Committees and 5 distinguished persons have been nominated in 5 State Level DISHA Committees. Earlier nomination made by this Ministry were withdrawn by order dated 24th June 2024 after dissolution of 17th Lok Sabha by Hon'ble President.

Table-I : State/UT-wise DISHA meetings held in Districts (As on 31st Dec 2024)

S.N.	State	Total Districts	2024-25	2023-24	2022-23	2021-22	2020-21	2019-20

Note: State Level DISHA Committee are not formed in remaining 15 States/UTs.

National Level Monitoring

A comprehensive system of National Level Monitoring was introduced during the year 2003-04 with a view to achieve the purpose of unbiased and objective monitoring of the schemes of the Ministry in a systematic and regular manner. In order to improve the empanelment procedure and appraisal of performance of NLMs, the scheme was revamped in the year 2014 as per the recommendation of Expert Committee constituted under the Chairmanship of Shri S.S. Meenakshisundaram, IAS (Retd.), former Secretary to Government of India, for assessment and empanelment of National Level Monitors (NLMs). The scheme was further revised in 2016 by inclusion of monitoring of Pradhan Mantri Gram Sadak Yojana (PMGSY) of Department of Rural Development, Digital India Land Records Modernization Programme (DILRMP) of Department of Land Resources. Also the work of overall assessment of Gram Panchayats in implementation of various programmes, as requested by the Ministry of Panchayati Raj, was brought under the ambit of National Monitoring System from the year 2015-16.

NLM Monitoring System

The National Level Monitors (NLMs) are deputed by the Ministry for following three types of monitoring assignments:

I. Regular monitoring of major Rural Development Schemes of Ministry of Rural Development (MoRD) & Ministry of Panchayati Raj (MoPR) :

NLMs are deputed to monitor and report on

various aspects of implementation of MoRD & MoPR Schemes in the districts, in two phases in a year. About half of the districts are covered in each phase so that all the districts of the country can be covered in a year. NLMs are required to visit the districts, ascertain the implementation of the programmes viz-a-viz the guidelines, interact with officials, verify the assets created and interview the beneficiaries and submit report within a given time frame. The NLMs deputed to a State are also required to interact with the Secretary or Senior Officers-in-charge of RD Schemes in the State. Based on the reports of the Institutional National Level Monitors, the Ministry prepares All India as well as State-wise Reports, which are shared with the Programme Divisions and the State Governments.

Regular Monitoring, Phase-I, 2024-25 was conducted during Sep-Nov., 2024 in 337 Districts, covering various programmes of the Ministry of Rural Development and Ministry of Panchayati Raj as under:

Regular Monitoring Phase-I, 2024-25

No. of States	No. of Districts	No. of Blocks	No. of GPs
32	337	1170	3354

II. Special Monitoring of Schemes

NLMs are deputed to cover a particular scheme or some specific aspects of a particular scheme only and report on the issues/processes in detail based on the requirement suggested by the programme divisions as approved by the Secretary (RD). Limited number of special

monitoring rounds may be undertaken every year for in depth coverage or certain specific features of a programme.

III. Complaints/ Enquiries

In case of complaints of serious nature from People's representatives, NGOs, etc. Regarding mis-utilization of funds, irregularities etc., NLMs are deputed to verify the facts or for preliminary enquiry, and reports/ findings sent to concerned Programme Divisions for taking necessary action.

[The tenure of seventy-two (72) institutions empanelled as National Level Monitors (NLMs) for monitoring of Programmes / Schemes of the Ministry of Rural Development and the Ministry of Panchayati Raj ended on 31.12.2024. During their tenure, approximately 52 of the 72 NLMs actively undertook and completed the assigned monitoring tasks.]

Revamping of National Level Monitoring Scheme:

The National Level Monitoring System was functioning since last 20 years. The initial version of the system was a quick review mechanism manned by a pool of experienced professional institutions in rural development and Monitoring & Evaluation activities. In National Level Monitoring System, certain quality issues such as lack

of objectivity, understanding and individual biases in the reports have been observed in the recent past. Many institutions of repute and large organizations are not much keen to take up NLM Monitoring assignments due to insufficient remuneration/rates.

In order to capture more detailed information and in-depth analysis of various programmes, data collection tools and methodology need to be suitably modified. It was, therefore, decided to revamp the existing NLM framework with the objective to make it more robust, responsive, qualitative and useful monitoring & evaluation tool. As per direction of Secretary (RD), the Districts to be monitored, for Regular Monitoring, have been increased from 600 to all Districts in a Financial Year.

Under the revamp of the NLM Scheme, the remuneration rates for NLMs have been appropriately increased and data base maintenance have been assigned to National Informatics Centre (NIC). Indian Institute of Public Administration (IIPA), New Delhi has been selected as new Support Agency for NLM for a period of one year, and further, extended up to 31.03.2025. The process for the empanelment of new NLMs has been completed and result published on CPP Portal on 20.12.2024. Now, 45 Institutional NLMs and 02 Individual NLMs have been empaneled.

Below are the pictures of field visits by National Level Monitors (NLMs) at Gram Panchayat level during Regular Monitoring Phase-I. 2024-25:

POVERTY STUDIES

1. BPL Census and Socio Economic Caste Census (SECC)-2011:

The estimation of poverty in the country used to be done by the erstwhile Planning Commission on the basis of a large sample survey of Consumer Expenditure carried out by the National Sample Survey Office (NSSO). While the estimation of poverty is done by the Planning Commission, the Ministry of Rural Development has conducted the Below Poverty Line (BPL) Censuses with the objective of identifying the BPL households in the rural areas who could be assisted under various programmes of the Ministry. The Ministry of Rural Development provided financial and technical assistance to the States and UTs to conduct the BPL Censuses.

2. Brief History of BPL Census

It was only in the 8th Plan (1992-1997), for the first time, a detailed procedure was prescribed to identify the BPL families in the rural areas. The need for a systematic survey of BPL families was felt because of the feedback received through the concurrent evaluation of programmes such as Integrated Rural Development Programme (IRDP), which had shown that a significant part of the benefits of the programme had gone to ineligible categories. So it was decided to adopt a systematic approach for conducting the BPL survey. Detailed guidelines were issued making the annual income of the family the primary criterion to decide the poverty status of the rural household.

BPL Survey/Census for the 9th Plan (1997-2002) was conducted in 1997. In order to prevent a situation of ineligible households getting the benefits of the programmes of this Ministry, an exclusion criterion was also incorporated in the

guidelines. The special feature of the guidelines of BPL Census 1997 was use of multiple criteria for classification of BPL families which included qualitative parameters like household occupation, housing condition, number of earners, asset position (owned operated/leased operated land) livestock and consumer durables used, etc. Household expenditure was made the criterion to classify the household as BPL. If the total expenditure of the household was higher than the poverty line, the household was to be excluded from the BPL List.

The next BPL Census was conducted in 2002 using the methodology of score based ranking of rural households for which 13 socio-economic parameters were used based on the recommendation of an Expert Group constituted by the Ministry of Rural Development under the chairmanship of Late Dr. P.L.Sanjeeva Reddy former Secretary, Department of Rural Development, Government of India. These are size of land holding, type of houses, clothing, food security, sanitation, ownership of consumer durables, literacy status, household labour force, means of livelihood, status of children, type of indebtedness, migration and preference of assistance. One of the important features of the guidelines issued for BPL census 2002 was to put the ceiling on the number of BPL households to be identified in conformity with the poverty estimates of Planning Commission. States were given the option of deciding the total number of BPL households equal to the Poverty Estimates of 1999-2000 or the Adjusted Share computed by the Planning Commission, whichever is higher. In addition, the States were also given the flexibility of adding another 10% to account for the transient poor.

3. Socio Economic Caste Census 2011

For conducting the BPL Census for the 11th Five Year Plan, the Ministry, on 12th August, 2008, constituted an Expert Group, under the chairmanship of Dr. N.C. Saxena, former Secretary, Department of Rural Development to advise it on the suitable methodology. The Expert Group submitted its report on 21st August 2009. The Expert Group recommended the methodology for identification of Below Poverty Line families, which includes criteria for automatic exclusion of a rural household from the BPL list, automatic inclusion in the BPL list and grading of the households on a scale of one to ten. The Expert Group had also recommended the methodology for conducting the Census and appropriate appeal mechanisms.

The Ministry then held consultations on the issue of finalization of methodology with organizations in the related field including Planning Commission, Registrar General of India, National Sample Survey Organization (NSSO), State Governments, experts and civil society organizations. It was suggested for pre-testing the methodology with alternative options. Accordingly, MoRD conducted, during 2010, a Pilot Survey to field test alternative methodologies and to arrive at the optimum methodology for conducting forthcoming BPL Census. This Pilot Survey was conducted in two stages.

- a. **Stage I:** Household Survey was conducted through Questionnaire Method in 254 villages across the rural areas of the country.
- b. **Stage II:** Participatory Socio-Economic Study (PSES) was conducted based on Participatory Rural Appraisal (PRA)

technique. PSES was conducted in the same 254 villages where household survey had been conducted. The results of the PRA were used for corroborating the findings of the survey.

Thereafter, the Socio Economic and Caste Census was launched on 29th June 2011 in the country, which was carried out by the respective State/Union Territory Governments with the financial and technical support of the Government of India.

4. Process for conducting SECC 2011

Preparatory stage: The questionnaire was published based on Pilot Survey testing in 254 villages. All the Master Trainers were trained, who in turn trained the Enumerators, Supervisor and other field functionaries. Tablet PCs, Data Entry Operators, application software and technical co-operation was provided to the States/UTs. Ministry of Rural Development, as the nodal Ministry, made available funds and technical supports, to all stakeholders.

- **Enumeration:** The SECC 2011 was based on self-declaration model of the respondents. The enumerator visited each household along with the Data Entry Operator (DEO) and got the details entered into the Tablet Personal Computer (TPC). However, where enumerators find that the response was prima facie incorrect, they recorded their observations separately in the space provided in the enumeration form. Only socio economic data was collected at the field level and no household was identified as BPL or non-BPL. The enumeration process was followed by the supervision process.
- **Supervision:** The supervisor was entrusted

to ensure that all households are enumerated and data verified including discrepancies note. The supervisor also did random checking of households. The supervisor was assisted by the Data Entry Operator. Enumeration and Supervision was conducted in about 25 lakh Enumeration Blocks (EBs), both in rural and urban areas.

- **Verification & Correction:** To ensure the quality of the data with respect to a specific set of parameters, Verification and Correction Module was introduced. Verification Officers will have to physically verify the mandated fields namely the Primitive Tribal Groups/Legally Released Bonded Labourers/Manual Scavengers in the rural areas and for the urban areas the four types of major sources of income from rag picking, begging, domestic jobs and street venders. Invalidate caste entries were also validated through verification process.
- **Publication of draft:** On completion of the verification process, on a date decided by the District Collector, a draft list of information were published and displayed in various places namely Panchayat Office, prominent place in Panchayat, Block Development Office, etc. SECC Draft List to be published in the local language contained basic summary information on the individuals and households were also displayed in the public domain for undergoing the Claims and Objections procedures. The Draft List contains information (except caste and religion) on every households gathered during the enumeration phase.
- **Claims and Objections:** For the purpose of settling Claims and Objections, a district

was considered as a Unit. The States/UTs appointed Panchayat Level Officer (PLO) to facilitate inspection of the information published in the Draft List by the public and accept claims and objections. The States/UTs may also appoint one or more officers at the block level for disposing of the claims/objections. Person not satisfied with the decision at the block level have the right to appeal at the District level.

- **Finalization of Census:** After finalization of the household data through the claims & Objection process, it was to be utilized for generating various types of reports on social economic status of households. However, the eligibility and entitlement of rural households in the country for different central government programs and schemes was to be determined after the SECC 2011 survey had been analyzed.

5. Positive Features of SECC 2011

- **Objective indicators:** The socio-economic indicators of the households are objective in nature so that it can be classified as “exclusion”, “inclusion” and “deprivation” status indicators. These indicators are also objectively verifiable.
- **Transparent Enumerating Process:** The enumeration process was transparent as the households were visited not only by the State/UT appointed enumerators and supervisors, but also in presence of prominent persons of the village. The data collected were put to public scrutiny in the claims and objections stage.
- **Supervisory Checks, validation:** Thereafter, the Supervisor mandatorily visited

households against which enumerators had recorded observations and verified the veracity of the information and also monitored and randomly checked the filled up questionnaires on a sample basis. The Supervisor also ensured that all households are enumerated and data verified, including discrepancies noted. Whenever the correctness and authenticity of data collected was doubtful such households were brought under the purview of the Supervisor.

- **Use of IT:** For the first time in the history of Census in the country, the entire data was collected by a hand held device call the Tablet PC. The data entered into Tablet PC reduces chances of data entry errors and falsification of information. The data once saved cannot be retrieved by the enumerator, ensuring that no manipulation is possible. Household data collected in TPCs are stored and machine verified at Data Charge centers in local servers. After that, data are transferred by internet to the central server managed by the National Informatics Center (NIC)

at Delhi. This saves time and help in data analysis.

- **Involvement of local government:** The Central and the State Governments conducted socio-economic Census with the cooperation and support of the Panchayati Raj Institutions (PRIs). Panchayats are expected to help the enumerators and other personnel who are engaged in collecting socio- economic data from rural households. Zila Panchayat at district level, Panchayat Samiti at Block level and Gram Panchayat at village level, Ward Members and members of the Gram Sabha have an important role to play in ensuring correct information. The socio-economic data so collected were then placed before the Gram Sabha for its verification and approval.

6. Exclusion, Inclusion and Deprivation criteria under SECC 2011:

The Exclusion, Inclusion and Deprivation criteria approved by Cabinet under SECC 2011 are given in table below:

Automatically excluded	Automatically included	Deprived
1. Motorized 2/3/4 wheeler/fishing boat.	1. Households without shelter	1. Households with only one room, kuchha walls and kuchha roof;
2. Mechanized 3/4 wheeler agricultural equipment	2. Destitute/living on alms	2. No adult members between ages of 16 and 59
3. Kisan Credit Card with credit limit Rs. 50,000 and above	3. Manual scavengers	3. Female-headed households with no adult male member between 16 and 59
4. Households with any member as a government employee	4. Primitive Tribal Groups	4. Households with disabled member and no able bodied member
5. Households with non-	5. Legally released bonded labourers	

Automatically excluded	Automatically included	Deprived
agricultural enterprises registered with Government. 6. Any member of household earning more than Rs. 10000 per month 7. Paying Income Tax 8. Paying Professional Tax 9. Three or more rooms with pucca walls and roof. 10. Owns a refrigerator 11. Owns landline phone 12. Owns more than 2.5 acres of irrigated land with 1 irrigation equipment 13. Five acres or more of irrigated land for two or more crop seasons. 14. Owning at least 7.5 acres of land or more with at least one irrigation equipment.		5. SC/ST Households 6. Households with no literate adult above 25 years 7. Landless households deriving a major part of their income from manual casual labour.

7. Results of SECC-2011

The final results of SECC-2011 are available at <https://www.secc.gov.in>. The purpose of SECC-2011 was to identify rural poor households on the basis of three criteria- automatically excluded, automatically included and deprivation- in order to know their eligibility for different Schemes/ Programmes of the Government of India. The key findings of SECC (Rural) data are the following:

Parameters/Particulars	Figures (in crores)
Total no. of households	24.49
Total no. of rural households	17.97 (100%)
Automatically excluded households	7.07 (39.4%)
Automatically included households	0.16 (0.9%)
Households considered for deprivation	10.74 (59.8%)
Households not reporting deprivation	2.01 (11.2%)
Households with any of the 7 deprivations	8.73 (48.6%)
Deprivation Data	
a. D1(HHs with one or less room, kuccha walls and kuccharoof)	2.38 (13.3%)
b. D2 (No adult member in household between age 18 and 59)	0.65 (3.6%)
c. D3 (Female Headed household with no adult male member between 16 and 59)	0.69(3.9%)
d. D4 (Households with differently able member with no other able bodied adult member)	0.07(0.4%)
e. D5 (SC/ST Households)	3.87 (21.6%)
f. D6 (Households with no literate adult above age 25 years)	4.22 (23.5%)
g. D7 (Landless households deriving a major part of their income from manual labour)	5.4 (30.04%)
Sources of Household Income	
a. Cultivation	5.41(30.1%)
b. Manual Casual labour	9.20 (51.2%)
c. Part time or full time domestic service	0.45 (2.5%)
d. Rag picking	0.04 (0.2%)
e. Non agricultural own account enterprise	0.29(2.5%)
f. Begging/charity/alms	0.07(0.4%)
g. Others (including government service, private service, PSU, employment, etc)	2.51(14%)

8. Current status of SECC 2011:

The process of the Socio Economic and Caste Census (SECC) has been concluded by the Ministry of Rural Development in March, 2016. The finding of the census of rural area is in public domain (www.secc.gov.in). SECC data captures respondent based disclosures on socio economic status of 17.97 crore rural households which has allowed automatic exclusion of 07.07 crore (39.34 %) of households as not poor on the basis of 13 parameters, automatic inclusion of 0.16 crore (0.89 %) households as poorest of the poor on the basis of 5 parameters and grading of deprivation of 8.72 crore (48.53%) of rural households on the basis of seven criteria. The Ministry of Rural Development is using the SECC data in its programmes. SECC – 2011 allows state to generate programme specific priority list for targeting beneficiaries.

The SECC data is being used for identification of beneficiaries under Pradhan Mantri Awaas Yojana- Gramin (PMAY-G). Under DAY – NRLM, SECC data are being used to undertake planning for poverty free Panchayats and involves PRI and Self Helps Groups. DDU-GKY uses SECC data to identify rural youths for skilling and placement under the scheme. Under Rural Self Employment Training Institutes (RSETIs), reimbursement of training costs is made in respect of all such candidates who face at least one deprivation as per SECC criteria. Beneficiaries list of Aayushman Bharat, Prime Minister's Ujjwala Yojna and Pradhan Mantri Sahaj Bijli Har Ghar Yojana –“Saubhagya” have been generated, on programme criteria, using SECC-2011 households data.

RIGHT TO INFORMATION

1. Ministry of Rural Development is a public authority under the provision of the RTI Act 2005. In order to comply with the provisions of the Right to Information Act, 2005, the Ministry has taken necessary action.
2. In order to fulfill the obligations and provisions under section 4(1)(a)(b) of the Right to Information Act, 2005, subject matters dealt by various Divisions of the Ministry have been uploaded, in the format as devised by Central Information Commission (CIC), on the website of the Ministry (www.rural.gov.in). The information is being kept in the public domain. A telephone directory with the particulars of officers and staff of the Ministry of Rural Development and suo moto disclosure of official tours of Ministers and others officials have also been posted on the website of the Ministry.
3. A Right to Information Counter has been put in operation at Gate No. 6, Krishi Bhawan, New Delhi to receive requests/appeals under

the Act. Applications/appeals under the RTI Act are also being received through Central Assistant Public Information Officers (CAPIOs) nominated at Sub –Divisional level or other Sub-District level by the Department of Posts. List showing the details of these CPIOs are available on the website of the Department of posts (<http://www.indiapost.gov.in/CPIOs/CAPIOs.aspx>). In pursuance of CIC's directive to the public authorities. A Nodal Officer for the Department of Rural Development has been nominated.

4. Proactive disclosures have been made by other Public Authorities under the ambit of Department of Rural Development viz., National Institute of Rural Development and Panchayati Raj (NIRD&PR) website (www.nird.org.in) and National Rural Infrastructure Development Agency (NRIDA) website (www.pmsgsy.nic.in) to implement the RTI Act.

Offline RTI Applications	Offline RTI Appeals	Online RTI Applications	Online RTI Appeals	CIC Notice
138	4	5202	295	7

5. Website of the Ministry are updated regularly and efforts are being made to post the latest facts and figures by categorizing them in different & easy-to-understand heads like salient features of the programme, physical and financial progress, new initiatives,

success stories, best practices etc. in order to provide maximum information to the public without resorting to the provisions of the Act and access information in a user friendly manner.

**STRENGTHENING
OF PANCHAYATI RAJ
INSTITUTIONS (PRIS)**

Panchayati Raj Institutions (PRIs) have a constitutional role in local economic development, poverty reduction and social justice. Mutually beneficial working relationship and formal platforms for consultations between PRIs and institutions of the poor need to be facilitated in the interest of deepening democracy and empowering the poor. The PRIs have been playing an important role in planning, implementation and monitoring of the programme of the Department of Rural Development in the Ministry of Rural Development. The programme wise role of the Panchayats has been given below:

1. Part A: Deendayal Antyodaya Yojana - National Rural Livelihoods Mission (DAY-NRLM) and Panchayati Raj Institutions

Gram Panchayats (GPs) enjoy constitutional status as local self-government, while SHGs are informal organizations of the poor. Gram Panchayats have been assigned the responsibilities of ensuring social justice and economic development by the Constitution. On the other hand, SHGs and their federations are organized together for helping themselves and other vulnerable households to come out of vicious cycle of poverty. Gram Panchayats and SHG networks (SHG and its federations) have similar objectives of inclusive socio-economic development of the community and villages. Therefore, developing convergence and partnership between these two organisations is highly critical. While this partnership is mutually beneficial, it needs to be systematically nurtured. A climate of mutual trust and respect needs to be promoted. The partnership would not only enable the SHG networks to understand the democratic functioning of GPs, but would help them participate in their functioning and influence their decisions.

Recognizing the need for an effective and functional working relationship between Panchayats, especially Gram Panchayats and SHG network, particularly, Village Organizations (VO)/ Cluster or Gram Panchayat Level Federations (CLF/GPLF), the NRLM framework was amended to incorporate provisions for bringing about a formal relationship between local governments and the organizations of the poor. The partnership between PRIs, particularly Gram Panchayats and SHG Federations (mainly VOs) should be based on clear principles as outlined in the advisories issued by the Ministry of Rural Development and the Ministry of Panchayati Raj, Government of India and also in the revised GPDP Guideline. But the challenge is to make this partnership functional with mutual respect and without impacting the independence of the other institution.

The Ministry of Panchayati Raj (MoPR) has rolled out the restructured Centrally Sponsored Scheme, Rastriya Gram Swaraj Abhiyan (RGSA) with special focus on intensive training and capacity building of all stakeholders. This scheme aims to strengthen capacities of Panchayati Raj Institutions for inclusive local governance and to become more responsive towards local development needs. The scheme has programmatic focus on strengthening SHG-PRI convergence. The CB&T focus under RGSA will be on ensuring basic orientation training to Elected Representatives of Panchayats and also members of SHG networks for sustainable local development.

In this context, an intensive online training of over 15000 state mission staff and block resource persons were trained in August and September 2020 for building capacities of CRPs (2 per VO) to facilitate the VPRP process in

SHGs and VOs. Training materials including facilitator's handbook, training videos, tutorials etc. have been developed and shared with the states. A simple web-based MIS to capture the key milestones of training and planning process and following up on integration in GPDP MIS portal has also been prepared. Through this process, the SHGs and their federations shall prioritise the demands under the different plan components of VPRP including entitlement plan, Livelihoods Plan, Social development Plan, Public goods and services and resource development plans duly incorporating and prioritising the needs of the most vulnerable, within or outside the SHG membership in their villages in collaboration with MoPR, NIRD &PR and National Resource Organization (NRO) Kudumbashree, Kerala.

In 2021, VPRPs were prepared by all SHGs and their federations and presented in Gram Sabha Meetings in a total of 1,23,130 lakh GPs of 5619 NRLM intensive Blocks of 661 districts of 30 States/UTs. A joint advisory from MoRD and MoPR has also been issued to all the states and line departments to support the integration of VPRP into GPDP in this year. 1.28 crore SHG members participated in Gram Sabha. Many states did not have Gram Sabhas due to pandemic.

In 2022, VPRP training was organized physically for all 34 State/UTs in a residential manner. The training was for 3 days, for District nodal persons @ 2 nodal per district. This year a nodal person from the livelihood vertical was also nominated so as to monitor the progress of Livelihood plans under VPRP. A total of 1845 District and State officials were trained and developed for further cascading mode of training. The training was conducted

in collaboration with MoPR, NIRD &PR, NRO Kudumbashree, Kerala and Transform Rural India Foundation.

In 2023, VPRP training was given to Master Trainers from all 34 States/UTs from 12th to 15th September 2023 in online mode. The training was basically a refresher training and as a ToT for the states. Full day session on VPRP was facilitated to the States/UTs of Goa, Andaman Nicobar Island and Ladakh who do not have previous experience of VPRP. 2nd Phase training on VPRP Application and User management completed in October.

Progress for FY 2023-24

- Kerala State NRO (KS-NRO) is supporting states in VPRP rollout.
- Capacity building of State and District Nodal persons on the importance of coordination committees (SLCC, DLCC, BLCC) and functional committee (GPPFT/WPFT) and to incorporate all stakeholders and to ensure the inclusion of SHG members in the functional committees, across all the States / UTs.
- Refresher training on VPRP to 34 States and UTs. Training on VPRP application and User Management has also been conducted for all states and UTs.
- A Central Help Desk team with 5 members to support in resolving the technical issues related to mobile application and User Management with the support of KS-NRO.
- Central help desk positioned by KS-NRO with the support of DIC facilitated weekly calls with the State Help Desk of all States / UTs to resolve the technical issues.

- Out of the 14 States where KS-NRO is supporting in the implementation of Universalization of PRI-CBO Convergence, as part of project activity, KS-NRO facilitated the training of resource persons in Nagaland, Himachal Pradesh, Mizoram, and Meghalaya. Additionally Training of Resource persons has been conducted for cadres in Goa, Andaman & Nicobar.
- In the FY 2023-24 Out of 34 States and UTs, 27 States have rolled-out VPRP in mobile application. As per the VPRP dashboard 58% SHGs across the 27 States / UTs have submitted the plans in mobile application. 42% and 37% of GPs have submitted ENT (Entitlement, PSGRD and SDP) and Livelihood Plans respectively in the GPDP Gram Sabha. In addition to this, joint efforts have been taken by MoPR and MoRD to integrate the VPRP in e-Gram Swaraj portal. The efforts have been successful for the Entitlement Plan, both the ministries shall ensure the integration of the remaining three plans in the upcoming FY.

In 2024, VPRP advisory for all the four components was issued with annexures on State Help desk formation and relevance of coordination committees on June 24. Subsequently VPRP training was provided to Master trainers from all 34 States/UT from 5th to 12th June '24 in online mode. It was a joint refresher training facilitated by both IBCB/ SISD and Livelihood vertical with the support of Kudumbashree NRO. A scheme booklet, with Flipcharts and training modules on all the four components (Entitlement, Livelihood, PSGRD and SDP) was also released. A Central Helpdesk team with four members to support the State help desk in resolving the technical

issues has been established with the support of Kudumbashree NRO. Central Helpdesk and the DIC team have jointly facilitated weekly sessions to strengthen the State help desk. Till December '24 out of 34 States / UTs, 29 States have initiated the plan preparation in the mobile application. As per the request from the States, the additional training and handholding support has been provided. Out of the 14 States where Kudumbashree NRO is supporting in the implementation of Universalization of PRI-CBO Convergence, as part of project activity, Kudumbashree NRO facilitated the training of resource persons in Chhattisgarh, Himachal Pradesh, Karnataka, Maharashtra, Manipur, Meghalaya, Mizoram, Tamil Nadu, Puducherry.

As per the VPRP dashboard 51 % & 37 % SHGs have submitted Entitlement and Livelihood plans across 29 States / UTs, the VPRP demand submission in GPDP Gram Sabha will be continued till January '25.

Part B: Progress made in PRI-CBO Convergence Pilot Projects under Deendayal Antyodaya Yojana - National Rural Livelihoods Mission (DAY-NRLM)

The Ministry has supported the State Missions to develop a 'Proof of Concept' as pilot projects on PRI-CBO convergence with the following objectives:

- Empower the poor to know, demand and access various rights and entitlements they are eligible for
- Include poor and vulnerable sections in local development and decision-making process
- Make Gram Panchayats responsive and

accountable to their citizens by making them more inclusive, and

- Increase participation in the Gram Sabha and support in functions of GPs.

The convergence strategy includes building capacities of SHGs and their federations for convergence with PRIs. The State Rural Livelihoods Mission of Kerala (Kudumbashree) has been empaneled as the National Resource Organization to provide support to State Missions on PRI-CBO convergence.

In 2022-23, the Ministry decided to universalize the PRI-CBO Convergence project across the states based on the pilot experience. MoRD approved the national rollout strategy of the project and advised the states to incorporate 10-25% of the blocks in the initial phase (and it can be more than 25% for states that have a higher number of blocks). These blocks selected in the first phase can be resource blocks, National Rural Economic Transformation Project (NRETP), and NRLM Model CLF blocks which may be identified by the respective states. The states were to earmark funds for the implementation of the project from FY 2023-24 onwards. Each phase of Universalisation of PRI-CBO Convergence is for an 18 months timeline.

Kudumbashree NRO will be supporting the SRLMs as a knowledge partner, offering technical support for capacity building to states and consultation for policy decisions. The PRI – CBO Convergence program intervention team will be a part of the IBCB -SISD team of DAY NRLM and SRLMs. SRLMs will have the primary responsibility of implementing the project across the districts and the blocks. SRLM will have to identify a nodal person for coordinating the activities at the State

(preferably at the SPM level), District and Block levels.

Progress of 2023-24

KS-NRO were to initiate the scoping study, prepare an exit report, and conduct exit workshops in the partnering states before the commencement of the universalization program.

1. Scoping Study

KS- NRO conducted the scoping study of fifteen states by April 2023. The States were Arunachal Pradesh, Bihar, Chhattisgarh, Himachal Pradesh, Karnataka, Madhya Pradesh, Maharashtra, Manipur, Meghalaya, Mizoram, Nagaland, Puducherry, Tripura, Tamil Nadu & Uttarakhand. Comprehensive report of the scoping study was submitted to all the States.

2. State Operational Framework workshops

The states should prepare the State Operational Framework (SoF), the base document for the implementation of the Universalization project. The objective of the workshop was to sensitize the key stakeholders of the universalization project the Rural Development Department, State Rural Livelihood Mission/ Society, Department of Panchayati Raj & the line departments, especially from Agriculture, Animal Husbandry, Health, Education, Women & Child Development and Department of Social Justice. KS-NRO supported all the 14 States in conducting the SoF workshop from April 2023 to June 2023. In Manipur the SoF workshop was conducted in November 2023

3. Preparation of SoFs, Budget, and MoU

NMMU and KS-NRO supported all the states in drafting SoFs, budget and MoU for the implementation of Universalization of PRI-CBO convergence project. 12 out of the 14 States (Arunachal Pradesh, Chhattisgarh, Himachal Pradesh, Karnataka, Maharashtra, Manipur, Meghalaya, Mizoram, Nagaland, Puducherry, Tamil Nadu, Tripura) have signed MoU with KS-NRO for the implementation of the project.

Out of 16 States (including Assam and Jharkhand, who are implementing the project without support of KS-NRO) implementing Universalisation of PRI-CBO Convergence, 13 States (Arunachal Pradesh, Bihar, Chhattisgarh, Himachal Pradesh, Karnataka, Maharashtra, Manipur, Meghalaya, Mizoram, Nagaland, Tamil Nadu, Tripura) have finalised their SoF.

4. National Workshop in Kovalam, Thiruvananthapuram

A two day National workshop was conducted in Kerala on July 13th and 14th 2023 to mark the beginning of the Universalisation project. Participation from all partnering states and representation from the pilot states of Assam and Jharkhand were there. The workshop was graced by the presence of Secretaries from the Ministry of Panchayati Raj. Smriti Sharan, Joint Secretary, Ministry of Rural Development, Shri. Vikas Anand, Joint Secretary, Ministry of Panchayati Raj, Government of India, Shri. Sunil Kumar, Secretary of the Ministry of Panchayati Raj, Shri. Shailesh Kumar Singh, Secretary, Ministry of Rural Development,

Shri. SM Vijayanand, the former Chief Secretary of Kerala, Smt. Sarada Muraleedharan, Additional Chief Secretary, Local Self Government Department, Government of Kerala, and Dr. Sharmila Mary Joseph, Principal Secretary Local Self Government Department, Government of Kerala participated in the workshop. Panel discussions, field visits and experience sharing of the pilot project helped the participants get an overall idea on the outcome of the convergence project and the relevance of implementing it in convergence with different stakeholders.

The formal launch of the compendium that encapsulates the experience of pilot project on convergence from 2014-2023 “Convergence Chronicles” and signing of the MoU between Kudumbashree NRO and the State Rural Livelihood Missions of Himachal Pradesh, Puducherry, Nagaland, Tripura, and Meghalaya for the universal implementation of PRI-CBO was two major events in the workshop.

5. Writeshop in NIRDPR

NIRDPR conducted a writeshop on August 16th -18th, 2023. The workshop was to fine-tune the VPRP guidelines in PPC Manual and for the module preparation on training of SRLM, DoPR functionaries and for joint training at Block Level for the grass root personnel of Panchayat, RD and CBOs. Draft prepared with the support of KS-NRO, NIRD PR and KILA. The draft has been submitted to MoRD on 15th November 2023, the same has been shared with MoPR. The implementation strategy of the module has to be finalized jointly by MoPR and

MoRD.

6. Video Documentation in 6 pilot states

To document the strategy taken in pilots, the activities and the outcome of the pilot project, a video documentation of these were initiated in 6 pilot states. The video documentation is completed in all the 6 states (Meghalaya, Mizoram, Arunachal Pradesh, Bihar, Assam & Himachal Pradesh).

7. Initiation of Universalization project

In the FY 2023-24, out of 14 states planned to implement The Universalization of PRI-CBO Convergence with the support of NRO commenced in the States of Himachal Pradesh, Karnataka, Meghalaya, Mizoram, Maharashtra, Nagaland, Puducherry, Tamil Nadu & Tripura. The State Project coordinators (SPCs) were positioned in these states. All the above-mentioned 9 States have completed the Field Level Assessment commenced and State level orientation has been completed in 7 States (Karnataka, Himachal Pradesh, Meghalaya, Nagaland, Mizoram, Maharashtra & Tamil Nadu) and cadre selection initiation is ongoing in Karnataka, Maharashtra Meghalaya and Tripura.

8. Exposure visit from partner states

KS-NRO is facilitating exposure visits for all stakeholders of the partner states. Support is being extended to the states in understanding the PRI-CBO convergence in the state of Kerala at different interventions. Representatives from the states of Arunachal Pradesh, Bihar, Himachal Pradesh, Mizoram, Maharashtra, Manipur,

Lakshadweep, Tamil Nadu, Bodoland Territorial Region visited Kerala from 2023 May to March 2024.

9. Special projects in Lakshadweep

KS NRO is providing support in Lakshadweep in developing the Community Based Organisations in three islands.

Progress of 2024-25

1. Scoping Study:

Kudumbashree- NRO conducted the scoping study of Seven states by June 2024. The States were Andhra Pradesh, Gujarat, Jammu & Kashmir, Odisha, Sikkim, Telangana & Uttarakhand. Comprehensive report of the scoping study was submitted to all the States. A scoping study workshop was organised in September 2024 to share the findings of the scoping study with the NMMU team and plan the way forward.

2. Joint Review meetings:

Kudumbashree - NRO initiated Joint-review meetings at State level with the support of NMMU across five states. The States were Karnataka, Tamil Nadu, Mizoram, Himachal Pradesh, Nagaland to review the progress of PRI-CBO Convergence implementation across the intervention areas and experience sharing from community cadres, elected representatives and mission staff to devise strategies to overcome field level challenges and to streamline the project activities.

3. Capacity Building to Mentors:

Kudumbashree NRO conducted capacity building programmes for Mentor resource

person on project modules (Quarter 1 to Quarter 4) and Language proficiency on English and Hindi for better involvement in the implementation of the project activities in intervention areas.

4. Development of resource materials:

The training modules till Quarter 4 were developed after discussion with NMMU and finalised. The IEC materials like flipcharts, posters, animated videos and explainer videos prepared for enhancing the learning of cadres and CBO network. 10 Tutorial videos were developed in Hindi, English, Kannada, Marathi and Tamil for circulation among all states.

5. Initiation of Universalization project

In the FY 2024-25, 12 states (Himachal Pradesh, Karnataka, Meghalaya, Mizoram, Maharashtra, Nagaland, Puducherry, Tamil Nadu & Tripura) continued the implementation of Universalization of PRI-CBO Convergence with the support of NRO. The State Project coordinators (SPCs) and Mentor Resource Person were positioned in all the above mentioned States. All the above-mentioned 12 States have completed the Field Level Assessment commenced and State level orientations. All the States have continued the programme implementation as per the State Calendar. Assam and Jharkhand have also continued to implement the programme activities with the support of the resource pool developed with the support of KS-NRO during the pilot phase in the respective states.

6. Exposure Visits:

KS-NRO facilitated exposure visits for

all stakeholders of the partner states. Support is being extended to the states in understanding the PRI-CBO convergence in the state of Kerala at different interventions. Representatives from the states of Arunachal Pradesh, Meghalaya, Himachal Pradesh, Maharashtra, in Kerala from April '24 to December '24.

2 Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY)

Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY) recognizes that every Gram Panchayat (GP) has a key role in the successful implementation of a skill development program, especially to enhance the reach of the program to the poorest households within its jurisdiction. Further, DDU-GKY adopts a village saturation approach for skilling, which requires GPs to generate awareness about the skill development programs in their panchayat. The role of GPs is also directly seen in facilitating the mobilization of candidates, creating databases for skill demand and placement, assisting to State Government in conducting the Job melas, and supporting the skill providers in all stages of implementation. In this regard, DDU-GKY allows State Government support cost of Rs. 3.50 lakhs per Block per annum for deploying resources at the Block level and allows 1.5% of the Project cost under IEC funding. In the Performance Review Committee (PRC) meeting held on 29th and 30th September 2022, this issue was discussed to identify and deploy Gram Rozgar Sevak (GRS)/Community Resource Person (CRP)/ Job Resource Person at Block level or below with mobilization, counseling, and tracking of beneficiaries. The Gram Rozgar Sevak (GRS)/Community Resource Person (CRP) / Job Resource Persons are being paid

Rs. 1,000 per beneficiary for various activities under DDU-GKY

2.1 Rural Self Employment Training Institutes (RSETIs)

Ministry of Rural Development (MoRD), Government of India, is implementing a self-employment program called RSETI i.e., Rural Self Employment Institute. RSETI program is a three-way partnership between Sponsor Banks, the Ministry of Rural Development, GOI, and the State Govt. Anchored by the Ministry of Rural Development, GOI, is run and managed by lead banks with support from State & UTs. The Lead Banks are mandated to open at least one RSETI in their Lead District to provide training to employed rural youth to take up self-employment/entrepreneurship ventures. RSETI program runs with an approach of short-term training & long-term handholding of entrepreneurs.

MoRD, GOI, extends financial assistance towards rural poor youth training costs and one-time grant assistance of Rs. Two Crore and State Govt. allots one acre of land free of cost to construct RSETI premises. RSETI program is currently being implemented through 605 RSETIs by 25 Leading Banks (both Public Sector and Private Sector as well as a few Gramin Banks) in 33 States/UTs covering 591 Districts in the Country.

The rural youth from the age group of 18-45 Years are mobilized belonging to youth from rural poor families like (a) SECC households, (b) BPL families (c) MGNREGA Card holders, (d) Identified through PIP, (e) Antyodaya Yojana PDS Card holder, (f) SHG member under NRLM, (g) Beneficiary of other Government

poverty alleviation program like PMAY.

The RSETIs are mobilising the rural unemployed youth for training at RSETIs through various sources including conducting Entrepreneurship Awareness Programs (EAPs) in various Gram Panchayat centres. RSETIs are taking the presidents and other key members of Gram Panchayats into confidence to conduct the EAPs successfully in creation of awareness on the free Skill and Entrepreneurship Development training of the RSETIs. The GPs also creating awareness by display of posters, distribution of Handbills and training calendar of the RSETI programs to mobilise the unemployed youth for taking training in the RSETIs according to their interest and mapping with the potential available for settlement. The RSETIs are maintaining the contact details of the President and other key members of the Gram Panchayat and office staff to inform them on the schedule of the immediate next training program with a request to mobilise the candidates for training. The RSETIs are maintaining good liaison with the Gram Panchayats and taking their help in mobilising the candidates for training without any provision for paying any incentive or mobilisation fee.

3. Pradhan Mantri Awaas Yojana - Gramin (PMAY-G)

Under PMAY-G, Gram Panchayats have the following role: -

- a. The Gram Panchayats, through Gram Sabhas, select, prioritize and finalise the Permanent Wait List of eligible beneficiaries prepared on the basis of SECC-2011, and prepare a list of households not included in the system generated priority list, but

otherwise found eligible.

- b. The Gram Panchayats facilitate orientation of beneficiaries on different aspects of the scheme.
- c. The Gram Panchayats identify the families who are unable to construct houses on their own and help in getting the houses of these families taken up for construction as a part of the mason training program. In case there are still some beneficiaries left out, the Gram Panchayats shall help to get their house constructed.
- d. The Gram Panchayats assist in identifying common land available for allotment to the landless beneficiaries.
- e. The Gram Panchayats facilitate beneficiaries in accessing materials required for construction at reasonable rates and help in identification of trained masons.
- f. The Gram Panchayats facilitate beneficiaries in availing benefits of other schemes of the Centre and State Government through convergence.
- g. The Gram Panchayats discuss the progress of the scheme in their scheduled meetings and help resolve the problems being faced by the beneficiaries. The Gram Panchayats should also proactively assist the social audit teams to conduct Social Audit.
- h. The Gram Panchayat assist in identifying the local level functionary to be tagged with each PMAY-G house for ensuring their timely completion.
- i. Gram Panchayats will prioritize the households of the Awaas+ data through

Gram Sabha.

- j. The Gram Panchayats facilitate / encourage / motivate the Self-Help Groups (SHG) to undertake production of quality building materials for supplying the same to the beneficiaries of PMAY-G at reasonable rates.
- k. The Gram Panchayats facilitate beneficiaries in availing benefits of other schemes of the Centre and State Government through convergence.

4. Pradhan Mantri Sadak Yojana (PMGSY)

PMGSY is a Centrally Sponsored Scheme with the objective to provide single all-weather road connectivity to all eligible unconnected habitations including Scheduled Castes Scheduled Tribes, differently abled, Minorities etc, existing in the Core Network in rural areas of the country .

PMGSY Guidelines provides key role to the public representatives and Hon'ble Members of Parliament in the implementation of the programme including selection and construction of roads. Consultation with Members of Parliament is provisioned at both the DRRP finalization and Annual Proposals stages. In addition, at the stage of preparing DPRs, the DPIU conducts a transect walk along the road alignment, involving the local panchayat. State Governments are required to arrange joint inspection of ongoing as well as completed works under PMGSY by Hon'ble MPs, Hon'ble MLAs and representatives of Panchayati Raj Institutions.

Some important provisions of PMGSY-III guidelines, which provide detailed procedure for consultation with the Members of Parliament

during the process of planning and selection of roads, are detailed below:

Para 3.6. The suggestions given by the Members of Parliament are to be given full consideration while finalizing the District Rural Roads Plan (DRRP).

Para 5.5. The Annual proposals will be based on the CUCPL following the Order of Priority (subject to PCI). However, it is possible that there are inadvertent errors or omissions, particularly in the selection of Through Routes. Accordingly, it is desirable to also associate public representatives while finalizing the selection of road works in the annual proposals. The proposals of the Members of Parliament are required to be given full consideration, for this purpose:

- (i) The CUCPL should be sent to concerned MPs with the request that their proposals on the selection of works out of the CUCPL should be sent to the District Panchayat. It is suggested that at least 15 clear days may be given for the purpose.
- (ii) In order to ensure that the prioritization has some reference to the funding available, the size of proposals expected may also be indicated to the Members of Parliament while forwarding the CUCPL list to them. District wise allocation may be indicated to enable choice with the requisite geographical spread. It is expected that such proposals of Members of Parliament which adhere to the Order of Priority would be invariably accepted subject to consideration of equitable allocation of funds and need for upgradation.
- (iii) The proposals received from the Members

of Parliament by the stipulated date would be given full consideration in the District Panchayat which would record the reason in each case of non-inclusion. Such proposals that cannot be included would be communicated in writing to the Members of Parliament with reasons for non-inclusion of such proposals in each case. It would be preferable if the communication is issued from the Nodal Department at a senior level.

Para 7.1. After approval by the District Panchayat, the proposals would be forwarded by the PIU to the SRRDA. The PIU will at that time prepare the details of proposals forwarded by the Members of Parliament, and action taken thereon, in Proforma MP-I and MP-II and send it along with the proposals. In all cases where the proposal of an MP has not been included, cogent reasons shall be given based on the reasons given by the District Panchayat.

Para 7.3: The State Level Standing Committee (SLSC) would scrutinize the proposals to see that they are in accordance with the Guidelines and that the proposals of the Members of Parliament have been given full consideration.

In order to ensure that the State Government give due attention towards this aspect of the guidelines while submitting the proposals to the Ministry of Rural Development for sanction, the Ministry has issued a fresh advisory to the States on 2nd June, 2020. The State Governments have been advised, inter-alia, to communicate the final list of proposals in the order of priority to the Member of Parliament with the reasons for non-inclusion of certain roads in the proposals and incorporate their recommendations with the proposals sent to NRIDA/Ministry for approval.

Also, with a view to ensure effective participation of Hon'ble Members of Parliament, the following stipulations have been made with regard to laying of foundation stone and inauguration of PMGSY works:-

- All elected representatives associated with the programme should be duly invited to the foundation laying and inauguration ceremonies.
- The function should be held in a manner befitting official functions with due regards to protocol requirements, particularly in relation to Hon'ble Union Ministers and Hon'ble Ministers from States; and
- The foundation stone for a PMGSY road should be laid and the road should also be inaugurated by the Hon'ble Member of Parliament (Lok Sabha) with the function presided over by the local Hon'ble Minister or other dignitary as per State Protocol.
- While sending new project proposals for consideration, digital photographs of the recent foundation laying ceremony or the inauguration of a road by the concerned Hon'ble MP should invariably be enclosed. In case, the Hon'ble Member of Parliament could not attend any foundation laying or

inauguration function, copies of the letters inviting him for foundation or inauguration ceremony should also be appended with the new DPRs.

5. National Social Assistance Programme (NSAP)

NSAP Schemes are implemented by States/UTs, wherein identification of beneficiaries and sanction/ disbursement of benefit is also done by States/UTs. Panchayats are playing pivotal role in the implementation of NSAP schemes. Following work has been entrusted to Panchayats in the implementation of NSAP schemes:

- Awareness generation about NSAP schemes
- Identification of new beneficiaries
- Selection of beneficiaries
- Verification of new applications
- Discussion in Gram/Ward Sabha on eligibility of the new beneficiaries
- Monitoring and necessary follow-up in sanctions and disbursement
- Organize the Pension Diwas

RESEARCH & EVALUATION STUDIES

Department of Rural Development organizes Research & Evaluation Studies to assess the outcome and effectiveness of the programmes. Such studies help to capture the ground realities regarding the execution/implementation processes and the impact of the programmes/projects. During the year 2024-25, status of report received with respect to evaluation studies is as under:

- **Evaluation Study of Shyama Prasad Mukherjee Rurban Mission (SPMRM) Phase-I in 81 clusters of different States/ Zones of the country:** This study was conducted to assess if the broad objective of SPMRM have been met. The objective of SPMRM is to stimulate local economic development, enhance basic services and create well planned Rurban clusters.

This Study was assigned to 8 universities covering 9 zones in the country. These universities are – Guru Nanak Dev University, Sardar Patel University, Tezpur University, Osmania University, Hemavati Nadan Bahuguna Garhwal University, University of Mysore, Ramakrishna Mission Vivekananda Educational and Research Institute (RKMVERI) and Allahabad University. Tezpur University has been assigned two zones. Final Reports have been received from 5 universities for 6 zones. Revised draft report of Osmania University has been accepted by this Ministry on 13.12.2024 . Allahabad University has submitted Report of 4 clusters out of 10 clusters. University of Mysore has withdrawn from conducting the study.

Final Reports were received from following universities/ institutions in 2023:-

- a. Rama Krishna Mission Vivekananda Educational & Research Institute (RKMVERI) (Zone - 8) submitted Final Report on 18th July 2023
 - b. Final Reports submitted by Tezpur University for Zone - 9 and 10 were accepted on 15th March 2023
 - c. Guru Nanak Dev University (Zone-1) submitted Final Report on 4th September 2023
 - d. Final Report of Sardar Patel University (Zone-3) was accepted on 15th March 2023
 - e. Final Report of Hemavati Nadan Bahuguna Garhwal University (Zone-2) was received on 14th December 2023
- **National Level Performance Evaluation Study on Convergence of MGNREGS, National Rural Livelihoods Mission (NRLM) and Cluster Facilitation Team (CFT) Strategy Project:** The study was awarded to assess the success of CFT Strategy in handholding the Cluster Based Organizations (SHGs and their federations) to implement MGNREGA and to ascertain the impact of CFT Strategy in creation of awareness and demand generation. Also, the study aimed at evaluating the integrated watershed planning exercise along their assimilation and ownership among the beneficiaries, execution of MGNREGA works, their measurement and timely payment of wages through CFT Strategy. The study was also to assess the impact of capacity building and training exercise

carried out for different stakeholders. The Study was assigned to Centre for Symbiosis of Technology, Environment and Management (STEM), Bangalore. STEM, Bangalore submitted Final Report on 25th September 2023.

- **Performance Evaluation of Bharat Rural Livelihoods Foundation (BRLF):** The study was awarded to WAPCOS Limited for conducting Performance Evaluation of BRLF. This study was given to ascertain impact of work of BRLF in various areas like livelihoods diversification, fall in distress migration, coverage of women, etc and to evaluate processes followed by BRLF in achieving several outcomes such as building sustainable people's institutions at grassroot levels, capacity building of human resources working at grassroots, etc. WAPCOS Limited submitted Final Report on 25th October 2023.

The reports have been shared with concerned Programme Divisions of this Department for necessary follow-up action.

Further, ongoing study is as follows:

A nationwide assessment of water conservation structures: The Ministry wanted to assess the status and impact of water conservation structures rejuvenated under Amrit Sarovar Mission on the welfare of communities and contribution to environment. IIIT-Delhi has submitted a proposal on "A nationwide assessment of water conservation structures' impacts on community resilience using geospatial data analysis-Evaluating the impact of

artificial lakes, ponds and tanks on local livelihoods across India". Inception report was submitted by IIIT-Delhi on 2nd Feb 2024.

Evaluation Studies under PMAY-G

I. Findings of the evaluation study "Evaluation of CSS Scheme – Rural Development Sector" in respect of PMAY-G by NITI Aayog

Under the evaluation study sponsored by Development Monitoring and Evaluation Office (DMEO) of NITI Aayog, a detailed scheme level analysis of the 6 selected CSS - MGNREGA, PMAY-G, NSAP, DAY-NRLM, PMGSY and SPMRM was done. Each of these schemes has been evaluated using the REESI+E framework against the Relevance, Effectiveness, Efficiency, Sustainability, Impact and Equity. Under the study, the performance of PMAY-G has been assessed on cross sectional themes like accountability and transparency, gender mainstreaming, use of IT, reforms and regulations etc.

Main findings of the report are provided as under:

- a. PMAY-G evolved as a reform of IAY and brought relevant impact in the processes of identification of beneficiaries, use of IT and fund flow. These reforms were beneficial to the success of PMAY-G. New experiences led to better reforms generating more benefits from the scheme.
- b. PMAY-G has been able to ensure efficient use of technology for smooth implementation of scheme. With Geo-tagging of houses, house

quality review module, tech-savvy financial modules the scheme is leveraging quite well on technology.

- c. Use of AwaasApp&AwaasSoft has led to timely disbursement of funds directly to beneficiary accounts. PMAY-G has a robust monitoring mechanism. The dashboard keeps track of all physical & financial progress by recording data at beneficiary level. All the data is updated regularly & is available in public domain thus ensuring transparency within the scheme.
- d. PMAY-G has adopted various creative & innovative practices like- Use of AwaasApp&AwaasSoft in timely disbursement of funds, helping old & disabled people to build houses via rural masons training, use of Awaas+ to include the genuine cases of excluded beneficiaries and so on. This shows the commitment of PMAY-G in using out of the box solution for different problems.
- e. Gender Mainstreaming is actively encouraged under PMAY-G. Providing house in the name of female beneficiaries, allocation of house to transgender people, capacity building of women to become AwaasMitras contribute towards gender mainstreaming within the scheme.
- f. Satisfaction of beneficiaries towards the application process was positive, with significant assistance and support provided. Challenges include transport and documentation related costs, both in terms of time and money.
- g. The fund disbursement rate from Centre to State

is satisfactory especially in the initial stages of installment. At the beneficiary level, 60 percent respondents received installment within 7 days of issue of sanction order.

- h. Ease of living of beneficiaries is enhanced due to construction of the house. The same is confirmed by both primary and secondary sources. 88 percent of respondents confirmed improvements in standard of living with construction of house.
- i. DoRD has taken account of the climate change by suggesting PAHAL designs- Climate resilient technologies for house construction. However, proper implementation and encouraging beneficiaries to adopt these designs needs to be ensured.

Evaluation Studies under PMGSY

NITI Aayog in its report “Evaluation of Centrally Sponsored Schemes in Rural Development Sector Vol.2 : Rural Development, December 2020” has made the following observations about PMGSY:-

- It was found that the scheme is well aligned with India’s international goals and is seen to contribute to SDGs (Sustainable Development Goals) 2 & 9 as it addresses the issues of poverty, hunger and infrastructure for growth.
- Roads constructed under PMGSY have been observed to create positive impacts at both at level of the household and the community.
- The roads have been observed to

increase access to market and livelihood opportunities, health and education facilities.

- PMGSY is noted to build the foundations for long-lasting poverty reduction in rural India. Improved rural connectivity provides a long-term and sustained boost in the living standards of rural populations as it allows households to accumulate wealth and human capital.

Asian Development Bank, 2024 findings:

- Improved Access to Education, reduced school absenteeism, increased enrolment (including higher education), growth of coaching professions
- Improved market access, higher household income, and poverty reduction
- 9% growth in women's employment and increase of 5% in overall employment
- Positive lifestyle changes: easy access to essential services, better standard of living, and integration in market linkages
- Significant improvement in road safety, project delivery and rural road management.
- Systematic plan established five Rural Connectivity and Training Research Centres (RCTRCs) and 29 Rural Road Network Management Units (RRNMUs) in five states, leading to enhanced technical capability and enables SRRDA to efficiently undertake road planning, design, construction and maintenance.

Monitoring & Evaluation under NSAP

Monitoring of NSAP

The States/UTs have to designate a Nodal Secretary at the State level to report the progress of implementation by coordinating with different departments concerned with the implementation of the schemes. The progress of implementation of the schemes is to be reported online by the State Nodal Department in a given monitoring format, every month. Non reporting of the physical and financial progress reports is construed as lack of progress and therefore, may result in the non-release of central assistance.

At the central level the scheme is monitored through Performance Review Committee(PRC) meetings, Nodal Officers Meetings, Visits of Area Officer and regular and special monitoring by the National Level Monitors(NLM). State/UTs have to furnish Annual Verification reports regularly. States/UTs have been directed to conduct Social Audit at village level (twice in a year) and submit its report to the Ministry on regular basis. Separate guidelines of Social Audit have also been provided to States/UTs. To foster transparency and swiftness in transactions, NSAP pension Schemes has been included under the purview of Direct Benefit Transfer (DBT).

Evaluation Studies under NSAP

An evaluation study on the National Social Assistance Program (NSAP) was conducted by the Centre for Market Research & Social Development in 2021. The report from the study emphasized the need to increase the pension amounts, expand coverage, and revise the eligibility criteria under the NSAP scheme.

**GREENING
RURAL
DEVELOPMENT**

Introduction

National Rural Livelihoods Mission (NRLM) has been sensitive to the issues of climate change right from its inception and has suitably integrated the same in the Mission design and implementation. NRLM has been instrumental in rolling out green livelihood interventions aimed at providing sustained incomes to poor households and at the same time conserving the natural eco-system. Under farm livelihood initiatives, the work mainly carried out in three major domains- sustainable agriculture, non-timber forest produce (NTFP) related activities and livestock practices. NRLM is promoting green livelihoods through activities approved under Annual Action Plans farm livelihood activities through Mahila Kisan Sashaktikaran Pariyojana (MKSP) and value chain intervention with market linkage initiatives.

Farm livelihood initiatives entirely focus on

green outcomes. This program has not only promoted efficient use of natural resources (land and water) and resilience to climate change in agriculture but is also instrumental in creating green jobs by building a cadre of para-professionals and Community Resource Persons (CRPs) who are actively engaged in promoting such sustainable agriculture practices. The farm livelihoods have a wide canvas in terms of geographical spread in varied agro-ecology, resources, and socio-economic conditions and therefore called for careful stocktaking to design the training content. The training content was decided in a participatory mode taking into account present livelihoods patterns, challenges faced, experience in implementing the livelihood activities, environmental changes etc. Three themes of agriculture, livestock and NTFP by and large account for the livelihoods of 90% of rural families. Theme wise guiding principles and specific interventions are as follows.

Theme wise guiding principles and specific interventions

Parameter	Agriculture	Livestock	NTFP
Guiding principle	Promote Sustainable Agriculture in tune with Agro-Ecological Practices (AEP)	Deliver low cost primary veterinary care to small and marginal farmers	Restore forest and natural habitat through sustainable harvesting practices
Interventions	Agro-ecology concepts, introductory knowledge on climate change, soil and moisture conservation, soil health, seeds, cropping systems, pest and disease management without chemical pesticides. Integration of livestock and fisheries.	Knowledge on breeds and breeding, feed and fodder, housing, vet care, ethno-veterinary practices.	Sustainable harvesting practices, post-harvest processing (ex. Cleaning, drying, packing), market linage.

Sustainable Agriculture

The overall strategy endeavors to increase the access of Mahila Kisans to a basket of activities, which will dilute the risk associated with any one livelihood activity, keeping intact the bio-diversity and promoting climate change resilient agriculture. Emphasis has been put on the following activities to achieve the desired outcomes:

- Low cost sustainable practices such as Non-chemical Pest Management (NPM) and Integrated Nutrient Management;
- Soil and water conservation and ground water recharging;
- Resilience to climate change – Integrated Natural Farming;
- Mitigation of risk of exposure to hazardous farm practices;
- Diversified poly crop model, multi-layer farming etc;
- Inter cropping;
- Year around soil cover
- Suitability of technology to the local agro-ecology;
- Promotion of indigenous seeds;
- Use of indigenous knowledge;
- Reduction in Green house gas emission; and
- Reduction of water pollution affected by chemical pesticide usage.

Agro-Ecological Approach for Sustainable Agriculture

A wide range of agro-ecological practices are being promoted to make agriculture sustainable. These practices are aimed at improving soil

health-increase soil microbial activities, increase water holding capacity, prevent seed borne disease, early establishment of healthy seedlings, control of weeds, pest and disease.

The overall strategy is to use the local materials (bio-mass: both plant and animal origin) available in farming households and villages, minimize dependence on external agri-inputs and reduce cultivation cost as an immediate gain. For the long run the strategy seeks to address multiple issues viz. production - diversified food basket (minor millets, millets, cereals, pulses, oilseeds, vegetables and fruits); social- create rural employment, reduced health risk for farm workers and pesticide free food for consumer and environment- ground water recharge and to improve water and air quality.

The activities selected are intended to influence farmer's behavior. The specific activities are:

- a. **Improving Soil Health:** Improve the organic carbon content, through addition of well decomposed biomass. It provides suitable medium for harboring microorganisms that facilitate nutrient uptake. The end result, soil is transformed into a living medium- The living Soil.

Specific Interventions: 1) NADEP, 2) Vermicomposting, 3) Dunga based inoculants such as Ghana and dravaJeeva-mrita 4) Green manuring 5) Azolla in rice cultivation, 6) Tank silt application.

- b. **Seeds:** Quality seeds is an important input that determines crop yield. The small and marginal farmers are constrained to replace seed every year. Therefore, whatever seeds they use are sorted through winnowing and brine solution and purified using cow

urine and cow dung (Beejamrit) which have fungicidal properties and help control seed borne diseases.

Specific Interventions: 1. Physical inspection for uniformity in colour, size and shape, 2. Brine solution treatment 3. Germination test 4. Treatment in Beejamrit and 5. Seed production preservation.

- c. **Production-nurturing young and healthy seedlings for optimization of plant population:** Monsoon centric agriculture most often disrupts timely farm operations all through the cropping season, especially in the early stages of crop cultivation - sowing, nursery and transplantation. These disruptions have been studied and are being referred to as climate change induced phenomena, now being widely appreciated as the greatest threat to agriculture based economy. Several easy to adopt practices have been promoted to take care of the above situation.

Specific Interventions: 1. Direct seeded rice 2. Nursery- split type, raised bed nursery, poly house/shade net 3. Provision of temporary water harvesting structure- Jalkund, mobile pumping 4. Trauma less-transplantation in Line and spacing 5. Minimize competition for resource during vegetative growth.

- d. **Weed control:** Timely weed control make nutrients available to field crops and contribute to the final yield.

Specific interventions: 1. Mulching 2. Weeding

- e. **Disease and pest control:** Farmers in last three decades have been exposed to a wide

range of industrial inputs (insecticides and pesticides) to control pests and diseases. Continuous use of these inputs has disturbed the agri-ecology of the villages and more specifically farming. The pesticides no doubt control disease and pests but at the same time eliminate beneficial organisms that take care of the Mother Nature. Beneficial microorganism that farmers do not recognize easily, but earthworms, spiders are higher order organisms, long recognized as farmer's friends but have been drastically reduced/eliminated due to continuous exposure or overuse of industrial inputs. Besides, these harmful chemicals get into the food chain and become the root cause of many ailments in human beings as well as animals. The overall strategy is to understand the nature dynamics and popularize practices that control and bring back balance between the harmful and harmless organisms (insects and pests).

Specific practices: 1. summer plough 2. 5% Neem Seed Kernel Extract 3. Neemastram, 4. Agniastram, 5. Brahmastram 6. Panchgavya

Healthy soil-----Healthy crops-----Safe food-----Healthy society

Under capacity building support initiative, 294 SRPs (State Resource Persons) have been developed on Sustainable Agriculture who have in turn trained 9,967 Krishi Sakhis in 16 States.

NTFP

Under NTFP practices, the emphasis has been laid on the following activities that aim at the promotion of bio-diversity and climate change resilience:

- Ensure a better control of the institutions of the poor women NTFP collectors over the NTFP value chain in a sustainable manner;
- Plantation work has been carried under NTFP component of MKSP (e.g. tasar host trees plantation etc.) as well as in convergence with MGNREGA;
- NRLM is promoting value chain activities on medicinal plants particularly in forest fringes areas;
- Promoting regeneration of NTFP species to improve the bio diversity and enhanced productivity;
- Use of locally adopted community centric technology;and
- Build the capacity of the community in modern harvesting and post harvesting techniques to increase their income.

Livestock

NRLM is promoting ethno- veterinary treatment for livestock and thus evolving the methodology to prevent the indiscriminate use of antibiotic and other chemical drugs on animals which are hazardous in nature. Major focus is on reducing morbidity and mortality of livestock by delivering livestock and animal husbandry extension services at the doorstep of the SHG member households through a cadre of 'Pashu Sakhi'. NRLM has initiated training and capacity building of Pashu Sakhis.

Pashu Sakhis are livestock extension cadre at village level, which basically works as awareness campaigner and connecting link with animal husbandry department for providing basic knowledge about breed and breeding management, general management, feed and

fodder management, health management, first aid and ethno veterinary treatment. The course curriculum of Pashu Sakhi consists of:

Breed and Breeding Management: The focus is on knowledge of local breeds available, their characteristics and some important foreign breeds which can be adopted in the local area for enhancing productivity. The awareness of need for preventing inbreeding and selective breeding needs to be spread among the masses through these Pashu Sakhis.

Specific Interventions: Preventing inbreeding practices through better awareness of Artificial insemination, creating awareness about the importance of germplasm in breeding for improving productivity.

General Management: This includes housing, hygiene, care of pregnant and new born animal, induction, casting, disbudding, general anatomy and physiology. Various contagious disease can be prevented by proper hygiene and housing facility. Besides, the knowledge of the protocol for care and management of animals during their different phases of life help in better upkeep of the animal. Pashu Sakhi are being trained in these aspects to cater to the various aspects of the same to the community.

Specific Intervention: The house of animals owned by the members should have proper drainage, waste disposal system ventilation and cleanliness. The new born cattle should have their horn disbudded and proper management facility should be available for new born and pregnant calves.

Feed and Fodder Management: Feeding constitutes the bulk (70%) of investment in the animal and thus its management is of paramount

importance to reduce the expenditure on the feed of the animal. The role of the Pashu Sakhi is to spread the knowledge of ration balancing, based on the feed and fodder available in local area and season so that the cost of feeding can be reduced.

Specific Interventions: *The knowledge of maintenance, production and pregnancy ration based on the local available fodder should be known to the Mahila Kisan. Besides practices on preservation of fodder should be practiced by each farmer. The availability of land under fodder should also show an upward trend.*

Heath Management: Under the area of health, the focus is on prevention and first aid. Prevention through de-worming and Vaccination to reduce both morbidity and mortality in the animal population assumes importance. It is proposed to introduce first aid care and ethno veterinary treatment through the Pashu Sakhis so that the critically ill animal can be provided care at the doorstep of the farmer till the arrival of veterinarian.

Specific Intervention: *Regular deworming and vaccination to the member farmer as per the schedule. Besides Pashu Sakhi should be well versed in carrying out first aid and ethno-veterinary*

Empowerment of Women Farmers:

MKSP is a sub-component of DAY-NRLM and is key initiative of the Ministry of Rural Development to promote and strengthen primary sector farm livelihoods of the poor. It is a program that considers promotion of climate change resilient agriculture and bio-diversity as one of the extremely important components of the program design. Under the Mahila Kisan

Sashaktikaran Pariyojana (MKSP), 40.85 lakhs (4.85 million) farmers have been covered under the MKSP till December 2024. A total of 89 MKSP projects spread over across 26 States, 298 districts, 1853 blocks, and 36,845 villages are currently being implemented. The total outlay of the project is Rs.1314.85 crores covering around 40.75 lakh Mahila Kisans. MKSP has created a wide repository of green knowledge by documenting many best practices in green technology in agriculture. Most importantly, the program has also created green capacity among the community project staff and other stakeholders. The Community Resource persons are capacitated to scale up and spread the green practices across the states.

Approximately 50% of the budget of all MKSP projects are devoted to training and capacity building of Community Professionals or CRPs and women farmers and building their institutions.

DAY – NRLM has been promoting Natural Farming across the country to reduce the cost of cultivation and enhance productivity. In collaboration with MoA&FW, 70,000 Krishi Sakhis were trained and certified. MoA&FW recognised them as “Para Agriculture extension workers”. DAY NRLM in convergence with MoA&FW is providing training to Krishi Sakhis on Natural Farming. 90,000 Krishi Sakhis will be trained and certified as Para Agriculture Extension workers. They will provide necessary handholding support to Mahila Kisans to adopt Natural Farming. Each Krishi Sakhi will support 50 – 70 Mahila Kisans.

8 Lakh SHG members from 28,000 villages from 18 states adopted Natural Farming during the Kharif 2024.

The learning of MKSP has also been expanded throughout the country and as on December 2024 a total of 4.3 crores Mahila Kisan have been covered.

DAY-NRLM has brought a strong focus on sub sector approach under its various farm based livelihoods initiatives and has been working steadily to promote sustainable agriculture and NTFP through formation of Producers' Groups and subsequently organizing the producers' groups into higher-level federations.

1,270 women owned Producers Enterprise/ FPOs (including 791 FPOs under the central sector scheme) by the SRLMs till December 2024.

Creation of Green Jobs: The project has created a cadre of 'Community Resource Persons' (CRPs) who build capacity for effective implementation of climate adaptation interventions, and, to develop a strategy for scaling up of the interventions in different regions. They are motivated farmers and best practitioners identified from among the SHGs, who are then trained and their services utilized for reaching out to the larger community. More than 1.56 Lakh CRPs and para professionals have been trained and deployed for promotion of best practices in the different states of the country. CRPs and Project Resource Persons (PRPs) are working on Sustainable agriculture and are contributing towards reduction of carbon footprints.

Promotion of Organic farming through organic village clusters

In the Union budget speech for financial year 2018-19, Hon'ble Finance Minister announced that organic farming would be promoted with

the women farmers of the Self Help Groups (SHGs). From sustainable agricultural practices, organic farming is the next logical progression as it moves towards organic certification and marketing to enable farmers to get better market access. During the year 2018-19, a total of 1,646 organic village clusters has been identified by 28 States /UTs where organic farming is to be developed. The States would implement the organic village clusters in a phased manner. The implementation strategy would be to support Self Help Group (SHG) members under DAY-NRLM having agriculture as core livelihoods to take organic farming and certification. Six states has onboard Regional Councils for organic certification. A call down list of six Technical Support agencies has been shared with SRLMs to support the states on organic farming and certification interventions. Till, December 2024, about 3,16,567 SHG women have been organized into 25,692 Local groups were formed and 13,618 local groups were registered under Participatory Guarantee System (PGS).

Integrated Farming Cluster: As part of newer interventions under farm livelihoods, Integrated farming Cluster consisting of 2-3 adjoining intervention villages covering 250-300 households where every household is to be supported with improvement in 3-4 livelihoods with strong backward and forward linkage are being promoted. Such 400 clusters have been planned under NRETP.

Besides, a total of 4,300 Integrated Farming Clusters has been allocated to the States /UTs in FY 2023-24 and FY 2024-25 under Mahila Kisan Sashaktikaran Pariyojana under DAY-NRLM.

The background is a soft watercolor illustration. It features a large, faint Ashoka Chakra in the center, which is a circular wheel with 24 spokes. Below the wheel, there are rolling hills depicted in shades of orange, yellow, and green. The overall style is artistic and serene.

DEPARTMENT OF LAND RESOURCES

Overview

Department of Land Resources

In a developing country striving for social and economic development, land occupies a very crucial role. Availability and accessibility of good quality records are critical for land governance and administration. Studies have documented criticality of efficient land records system for effective functioning of land markets, taxation systems, infrastructural improvements and the economy as a whole. India has embarked on computerisation and digitisation of land records for a long time. 98.5 percent of land records in rural areas of the country have been computerized and digitized. However, there are some deficiencies in land record management in some States. These include differences in textual and spatial records, limited availability of digital cadastral maps and subdivision data. The endeavour is to move towards good quality land records, which will in turn improve the ease of living of citizens. The Department is implementing a comprehensive land records modernization programme to develop a modern, and transparent land record management system, which will help improve real-time information on land, optimize use of land resources and assist in policy and planning.

As per the Desertification & Land Degradation Atlas of India 2021, released by Ministry of Environment, Forest & Climate Change, about 97.85 million ha (29.77% of total geographical

area of India) land falls in degraded category in the country. Land degradation adversely affects soil health, water recharge, water quality and storage of soil carbon, which not only contributes to global warming but also reduces land productivity. One of the most effective principles of rainfed and degraded area development is conservation and efficient use of natural resources. This can be achieved through watershed development programmes by adopting 'ridge to valley' approach. This warrants investment on watershed development programmes in the country to cover hitherto untreated areas. This will not only benefit rainfed / degraded areas but also ensure sustainability of irrigated areas as majority of irrigated lands depend heavily on ground water sources and which, in turn, get replenished through various soil and water conservation measures undertaken under Watershed Development Projects. The Department of Land Resources in partnership with States is therefore implementing watershed programmes in the country.

The main objectives of the Department are: (i) to increase productivity of rainfed/degraded land through the process of integrated watershed management, (ii) to support States/UTs for implementation of Digital India Land Records Modernization Programme (DILRMP)

with the aim to achieve a comprehensive land governance system and (iii) to administer land reforms and other related matters relating to land such as administration of the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (RFCTLARR), the Registration Act, 1908 etc. Brief details of the schemes are listed below:

1. Watershed Development Component of PMKSY:

The Department has been implementing a Centrally Sponsored Scheme, namely Integrated Watershed Management Programme (IWMP) since 2009-10. In 2015-16, IWMP was amalgamated as the Watershed Development Component (WDC) of PMKSY. The activities being undertaken inter alia include ridge area treatment, drainage line treatment, soil and moisture conservation, rain water harvesting, nursery raising, afforestation, horticulture, pasture development, livelihoods for assetless persons, springshed development, etc.

Under WDC-PMKSY 1.0 (projects sanctioned during 2009-10 to 2014-15), the department supported implementation of 6382 projects. Central Share of Rs.19926.67 crore was released to States /UTs for these projects. Out of 6382 projects funded by DoLR, 6376 (99.90%) projects have been reported as completed. As per information received from the States, 7.65 lakh water harvesting structures have been created / rejuvenated during the period 2014-15 to 2021-22. An additional area of 16.41 lakh ha

has been brought under protective irrigation. The number of farmers benefitted is 36.34 lakh during the period. End-line evaluation reports of the completed projects from different States/ UTs have shown improvements in water table, agricultural production, milk production and per capita income in project areas due to watershed interventions. The defined life span of WDC-PMKSY 1.0 got over in March, 2022.

Government of India approved continuation of programme as WDC-PMKSY 2.0 for the period 2021-22 to 2025-26 with a physical target of 49.5 lakh ha and financial outlay of Rs. 8,134 crore, as the Central share. Under WDC-PMKSY 2.0, 1150 watershed development projects covering an area of 50.16 lakh ha have been sanctioned to 28 States and UTs of J&K and Ladakh at a total cost of Rs. 12303 crore (Central share: Rs 8022.69 crore) for the project period of 2021-22 to 2025-26. Since inception of the scheme, an amount of Rs.770.43 crore has been released to the States as Central share (as on 31.12.2024).

2. Digital India Land Records Modernization Programme:

The Department is implementing a comprehensive programme 'Digital India Land Records Modernization Programme (DILRMP)' for digitization and computerization of land records and registration processes in the country as a central sector programme with 100% financial assistance from Central Government since 2016-17. The objective of DILRMP is to develop a modern, comprehensive and transparent land record management

system to provide: (i) improve real-time information on land; (ii) optimize use of land resources; (iii) assist in policy & planning; (iv) reduce land disputes; (v) check fraudulent / benami transactions (vi) obviate need of physical visits to Revenue/Registration offices (vii) enable sharing of information with various organisations/agencies.

Since the inception of the scheme, an amount of Rs.2460.21 crore has been released for covering various components of DILRMP scheme in

699 districts in the country. Over the years, substantial progress has been achieved in the basic components of the programme viz. computerization of Record of Rights (RoR), digitization of cadastral maps, computerization of registration, connectivity between Sub-Registrar Offices and Tehsils, Integration of Registration and Land Records, etc. As per MIS of DILRMP, computerization of record of rights has been completed in 98.50% of villages in the country (except Northeast States and Ladakh).

INTRODUCTION

Genesis

The National Wasteland Development Board set up in 1985 was reconstituted in 1992 and placed in the newly created Department of Wasteland Development under Ministry of Rural Development. Subsequently, the Department of Wasteland Development was renamed as Department of Land Resources in 1999 transferring Land Reform Division, DPAP and DDP Divisions of the Department of Rural Development.

Department of Land Resources (DoLR) has five Divisions which fundamentally discharge the following responsibilities:

1. Watershed Management Division is responsible for implementation of (a) Watershed Development component-Pradhan Mantri Krishi Sinchayee Yojana (WDC-PMKSY), (b) World Bank assisted-multi-State Watershed Project namely "Rejuvenating Watershed for Agricultural Resilience through Innovative Development (REWARD), and (c) Inter-departmental and inter-disciplinary coordination in planning and implementation of the Watershed Development Programmes including Training, Climate Change and International Cooperation of Watershed Management etc.
2. Land Regulations Division is responsible for the administration of the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013; the Registration Act, 1908; State specific Amendments under these Acts and related Land issues, implementation of Digital India Land Records Modernization Programme (DILRMP), etc. The division is

also responsible for Land Governance and Assessment Framework (LGAF), National Land Use Policy, National Land Reforms Policy, Land Use Planning, Land Leasing Laws, Land Reforms, Land Tenures etc.

3. Programme Monitoring and Evaluation Division is responsible for monitoring and evaluation of Digital India Land Records Modernization Programme (DILRMP) being implemented by the Department. The important activities of the Division are monitoring of impact assessment/evaluation of schemes of DILRMP, Land Acquisition Compensation Rehabilitation Resettlement Information System (LACRRIS) and Information, Education and Communication (IEC) activities etc.
4. Administration and Coordination Division Department of Land Resources, as part of its administrative responsibility, undertakes Establishment matters which include service issues, posting of officers and staff, capacity building, vigilance matters, etc. It also deals with implementation of public grievances, official language, protocol, website and portal, procurement of goods and services, organization and methods and all other general administration matters.

The Co-ordination Division of the Department is responsible for managing issues relating to Parliament matters, RTI matters, e-Samiksha, PRAGATI, SGOS recommendations, Annual Report and other publications of Department, Media Campaign, and various other matters, which involve coordination with various Ministries/Department.

5. Integrated Finance Division of Ministry of Rural Development acts as a representative of Ministry of Finance to ensure financial discipline and adherence to financial procedures. It provides financial concurrence for release of funds from the

Budget Allocation of the Department. The division is also responsible for the finalization of Demands for Grants, Budget Estimates/Revised Estimates and Internal Audit, etc.

The background of the page features a large, faint watermark of the Ashoka Chakra, a 24-spoked wheel, centered behind the title. Below the wheel, there are stylized, overlapping shapes in shades of orange, yellow, and green, suggesting a landscape or water flow. The title text is superimposed on the central part of the wheel.

**WATERSHED
MANAGEMENT AND
EVALUATION**

Overview

India is home to 17.3% of the World human population and 11.54% of livestock (on just 2.4% of the World's landmass. The per capita land availability in India (0.23 ha) vis-a-vis the World (1.75 ha), is abysmally low. One of the most important natural resources, which form the basis of all human activities since time immemorial, is 'land'. Land and water are the two critical natural resources which are under stress due to exponential rise in demands with increasing population pressure, which consequently lead to gradual degradation of natural resources and affecting resilience of ecosystems and environment.

As per the Desertification & Land Degradation Atlas of India 2021 released by Ministry of Environment, Forests & Climate Change, about 97.85 million ha (29.77% of total geographical area of India) land falls in degraded category in the country. The main causes of land degradation identified inter alia include water erosion, wind erosion, vegetation loss, salinity and alkalinity. Land degradation adversely affects soil health, water recharge, water quality and storage of soil carbon, which not only contributes to global warming but also reduces land productivity. These impacts are very severe in rainfed areas when compared to irrigated area.

The expansion of human settlements and infrastructure, intensification of agriculture and allied activities and their intrusion into marginal areas and fragile ecosystems demand imminently for integrated planning and management of land resource. Judicious use of land has become a great challenge for implementing sustainable and developmental policies including strategies to avoid, reduce or reclaim the land degradation. This necessitates focusing on their efficient use, besides exploring possibilities of revival and rejuvenation of rainfed/degraded/wastelands and wetlands.

Out of 328.73 million ha geographical area of the country, the net sown area is estimated to be 139.35 million ha. Of this, 71.55 million ha (51.35%) is net irrigated and the remaining 67.80 million ha (48.65%) is considered as 'rainfed areas'*. As per the report of Technical Task Group constituted by the Planning Commission (1987), "wasteland" is defined as 'degraded lands which can be brought under vegetative cover with reasonable efforts and which are currently under-utilized and land, which is deteriorating for lack of appropriate water and soil management or on account of natural causes'.

Watersheds are the basic unit of intervention to treat such wastelands as also to mitigate the adverse effects of droughts and restoration of ecological balance in the long run. A Watershed is a topographically delineated area that is drained by a stream system. It includes physical and hydrological natural resources. Management of a watershed entails rational utilization of land and water resources for optimum productivity, with minimum hazards to human settlements. Watershed management is the process of guiding and organizing land use and use of other natural resources in a watershed. Embedded in this approach is the recognition of inter-relationships between land use, soil and water conservation and the linkages between upland and downstream areas. Watershed development is a multi-disciplinary field for sustainable natural resource management.

In order to address concerns of land degradation and wastelands and enhance productivity in rain-fed areas, Department of Land Resources has been implementing area development programmes on watershed-basis. Watershed development programmes have proved to be the most suitable solution to the problems of land degradation, soil erosion, water scarcity, climatic uncertainties etc. In this context, WDC-PMKSY contributes substantially towards enhancing agricultural production and productivity, reducing poverty, improving livelihoods especially in rural areas, mitigation of adverse effects of droughts and restoration of ecological balance in the long run.

Global warming has become one of the primary concerns now and the world community has been actively trying to contain the rise in temperature within the permissible limits. Land, forests and water bodies are natural sinks for greenhouse gases. Therefore, watershed development activities being implemented on a substantial landmass in the country, contribute towards mitigation and adaptation measures of global warming.

2. Watershed Development Component of Pradhan MantriKrishi Sinchayee Yojana (WDC- PMKSY)

Pradhan MantriKrishi Sinchayee Yojana (PMKSY) was launched in 2015-16 by amalgamating ongoing Schemes of three Ministries viz. Accelerated Irrigation Benefit Programme and PMKSY of the Ministry of Water Resources, River Development & Ganga Rejuvenation (MoWR, RD & GR), Integrated Watershed Management Programme (IWMP) of the Department of Land Resources, Ministry of Rural Development, and Micro Irrigation component of On Farm Water Management (OFWM) of National Mission on Sustainable Agriculture (NMSA) of the Department of Agriculture, Cooperation and Farmers Welfare, Ministry of Agriculture & Farmers Welfare. In 2015-16, the IWMP was amalgamated as the Watershed Development Component (WDC) of the Pradhan MantriKrishiSinchayeeYojana (PMKSY).

Fig 1. Pucca Check Dam constructed under WDC-PMKSY 2.0 in Chewarablock, Sheikhpura district (Bihar)

Under the erstwhile IWMP, 8214 watershed development projects were sanctioned in 27 States (except Goa) and UTs of J&K and Ladakh, during the period 2009-10 to 2014-15 covering an area of about 39.07 million hectare, principally for the development of rainfed portions of net cultivated area and culturable wastelands. However, DoLR supported implementation of 6382 projects and 1832 projects were transferred to the States to take them up from their own resources.

Watershed development programmes have proved to be the most suitable solution to the problems of land degradation, soil erosion, water scarcity, climatic uncertainties etc. The Programme contributes substantially towards enhancing agricultural production & productivity, reducing poverty and improving livelihoods especially in rural areas. Through the implementation of 6382 WDC-PMKSY projects funded by DoLR, significant progress has been registered. Between 2014-15 and 2021-22, 7.65

lakh water harvesting structures have been created / rejuvenated, 16.41 lakh ha additional area has been brought under protective irrigation and 36.34 lakh farmers benefited. In addition to this, about 1.63 lakh ha have been brought under plantation (Afforestation / Horticulture etc.) from 2018-19 to 2021-22. Out of the 6382 projects funded by DoLR, 6376 projects were reported to be closed /completed. State-wise status of closure / completion of WDC-PMKSY projects are given in Annexure I.

The continuation of WDC-PMKSY was approved by the Government of India on 15.12.2021 as 'WDC-PMKSY 2.0' for the period from 2021-22 to 2025-26 with physical target of 4.95 million ha and indicative financial outlay of Rs. 8,134 crore, as the Central share. DoLR has till date sanctioned 1150 projects to States/UTs covering an area of 50.16 lakh ha at a total cost of Rs. 12303.33 crore (Central share: Rs 8022.69 crore) to 28 States and 2 UTs (J&K and Ladakh). The activities undertaken, inter alia, include

Fig 2. Loose Boulder Check Dam (LBCD) constructed under WDC-PMKSY 2.0 in Kosagumuda village in Nabarangpur district

ridge area treatment, drainage line treatment, soil and moisture conservation, rainwater harvesting, nursery raising, afforestation, horticulture, pasture development, livelihoods for assetless persons, etc. Some of the major new initiatives under WDC 2.0 inter alia are,

- (a) Building Land Resource Inventory for at least 10% of the sanctioned watershed projects,
- (b) Incorporation of rejuvenation of springs as a new activity within the approved cost
- (c) Thrust on livelihood opportunities including strengthening of SHGs & UGs and promotion of FPOs for proper marketing
- and ensuring remunerative price
- (d) Advisory to States for taking up plantation including horticulture upto 20% of watershed project areas.
- (e) Roll out of SRISHTI portal and mobile application DRISHTI with the assistance of National Remote Sensing Centre (NRSC) for real time monitoring of the scheme
- (f) States/UTs have also been suggested to map activities from other sectors which could be taken up within the project areas for better convergence in a saturation mode.

Fig 3. Check Dam constructed under WDC-PMKSY 2.0

3. Main features of WDC-PMKSY 2.0

(i) Implementation covering three phases:

The implementation is distributed over three broad phases.

- a. Preparatory Phase (6 months to 12 months) involves preparation of DPR, Entry Point Activities and Institution & Capacity Building.

Fig 4. Village resources mapping explained by WC members during DoLR officials visit

- b. Implementation Phase (2 to 3 years) involves Watershed Development Works, Livelihood Activities for assetless persons and Production Systems & Micro Enterprises.
- c. Consolidation and Withdrawal Phase (6 months to 12 months) involves winding up of activities and handing over of assets to the local body.

Fig 5. Water harvesting structure under WDC-PMKSY 2.0

Fig 6. Gabion checks constructed in Nala under WDC-PMKSY 2.0

(ii) Cost Sharing

The cost norm is Rs. 22,000/- per ha for plain areas, and Rs. 28,000/- per ha for hilly & difficult areas, and upto Rs. 28,000/- per ha for Integrated Action Plan (IAP) Districts. The funding pattern between the Centre and States is 60:40, for the North Eastern Region States and the Hilly States of Himachal Pradesh and Uttarakhand it is 90:10 and for UT of Jammu & Kashmir and UT of Ladakh, it is 100%.

(iii) Institutional set up for implementation

(a) Ministry Level: The Department of Land Resources has an institutional mechanism in the form of a multi-sectoral and multi-disciplinary National Steering Committee for effective and professional management of watershed projects. It is chaired by the Secretary, DoLR with members from the NITI Aayog, Department of Agriculture &

Farmers Welfare, Ministry of Environment, Forests and Climate Change, Department of Water Resources, River Development and Ganga Rejuvenation, Department of Rural Development, National Rainfed Area Authority, Ministry of Tribal Affairs, Department of Animal Husbandry & Dairying, Central Ground Water Board, NABARD, Experts from different scientific institutions such as International Crop Research Institute for Semi-Arid Tropics (ICRISAT), Central Research Institute for Dry land Agriculture (CRIDA), National Remote Sensing Centre (NRSC), National Institute for Agriculture Extension Management (MANAGE), NIC, National Institute of Rural Development (NIRD & PR), nominated experts in watershed management and members from State Governments. DoLR also performs the role of National Level Nodal Agency (NLNA).

Fig 7. 5th Meeting of the Steering Committee on WDC-PMKSY 2.0 held under the Chairmanship of the Secretary, Department of Land Resources on 1st October, 2024 in New Delhi.

- (b) **State Level:** A State Level Nodal Agency (SLNA) with professional expertise is the dedicated institution for implementation of WDC - PMKSY in the State.
- (c) **District Level:** Watershed Cell-cum-Data Centre (WCDC) is the district level institution to supervise and coordinate WDC - PMKSY projects in the district. WCDC is set up in DRDA/ ZillaParishad / District Level Implementing Agency/ Department, as per the wisdom of the State Governments.
- (d) **Project Level:** Project implementation is supervised by the Project Implementing Agency (PIA). As per the Revised Common Guidelines of the Scheme, 2021, Governmental and Non-Governmental agencies and Panchayats can be selected by the States/UTs to function as PIAs.

Fig 8. DoLR officials interacting with villagers and Watershed Committee members in Nathalwada village, Rajgarh Block, Alwar district (Rajasthan)

(e) Village Level: The Gram Sabha will constitute Watershed Committee to take primary responsibility for executing project development. The Committee shall comprise a minimum of 11 members. 5 (five) members representing various user groups and the SHGs; 3 (three)- the FPO (a member each representing the FPO itself, CHC, and such other unit like

sale outlet set by it); 1 (one) GP member; 1 (one) Watershed Development Team member. Further, the Secretary selected will serve as Member-Secretary. The 11-member committee (excluding the Secretary) shall have at least two representatives each among women and SC/ST members.

Fig 9. Livelihood and Horticulture activities under WDC PMKSY 2.0 projects

(iv) Component-wise Project Budget distribution

The distribution of budget among various components of watershed projects are listed in table below:

Major head	Sub heads	Percentage of budget
Administrative	Management cost	10
	Monitoring & Evaluation	2
Preparatory works	Entry point activity	2
	DPR preparation	1
	Institution & Capacity Building	3
Watershed works	Natural resource management	47*
	Production system	15*
	Natural resource management & governance	2
	Livelihood, micro enterprises & business development	15*
	Consolidation works	3
	Total	100

The States, if they so desire, may set aside 25% of the Scheme outlay (including the Central and State share in a financial year) as flexi-fund to be spent on any sub-scheme or component or innovation that is in line with the overall aim and objectives of PMKSY-Watershed Component.

Two modifications have been effected from 28.11.2024 in respect of 'Livelihood Activities for the asset less persons, Micro Enterprises & Business Development' and 'Production System' components.

- (a) No further expenditure shall be incurred by the States/UTs under 'Livelihood Activities for the asset less persons, Micro Enterprises & Business Development' component. In

addition to existing 47% of the project cost allocated for NRM, balance funds available under livelihood component shall be utilized for NRM Component by the States/UTs.

- (b) For ensuring that the impact of the WDC-PMKSY 2.0 works is prominently visible, States/UTs should simultaneously ensure that at least 20% of the fund requirement for the entire NRM activities be sourced through convergence from other relevant Central / State Government schemes, while utilizing the allocation provided under production system component of WDC-PMKSY 2.0

Fig 10. Animal Health Camp organised under WDC-PMKSY 2.0

Fig 11. Renovation of AmritSarovar taken up under WDC-PMKSY 2.0 in Beeghota village, Alwar district (Rajasthan)

(v) Monitoring:

A geo-spatial portal, SRISHTI has been developed in 2015, with the assistance of National Remote Sensing Centre (NRSC) for monitoring the progress of the projects. Geo-coded and time-stamped photographs on near real-time basis are uploaded on SRISHTI portal using a mobile application named 'DRISHTI' specifically developed for the purpose. Similarly for WDC 2.0, SRISHTI portal and mobile application DRISHTI has been rolled out with the assistance of National Remote Sensing Centre (NRSC) for real time monitoring of the scheme.

4. Implementation Status

(i) **Sanction:** 1150 watershed development projects covering an area of 50.16 lakh ha have been sanctioned to 28 States and UTs of J&K and Ladakh at a total cost of Rs. 12303.33 crore (Central share: Rs 8022.69 crore) for the project period of 2021-22 to 2025-26. Since inception of the scheme, an amount of Rs.4584.30 crore has been released to the States as Central share (as on 31.12.2024). State-wise details of projects sanctioned, area covered and Central share released during 2021-22 to 2023-24 are given at Annexure II.

Fig 12. Stream Bank protection works taken up under WDC-PMKSY 2.0 in Bighota block, Alwar district (Rajasthan)

(ii) **Physical Progress:** The physical progress achieved under WDC-PMKSY 2.0 (2021-22 to Q3 of 2024-25) is given below:

Sl. No.	Indicators/ Parameters	WDC-PMKSY 2.0 (from 2021-22 to Q3 of 2024-25)
1	Development of degraded /rainfed area(ha)	7,40,905
2	Area covered with soil and moisture conservation activities (ha)	3,00,038
3	Area brought under plantation [Afforestation / Horticulture etc.] (ha)	1,05,884
4	No. of water harvesting structures newly created/ renovated	1,32,196
5	Area covered under diversified crops / change in cropping systems (ha)	57,722
6	Area brought from nil / single crop to double or more crop (ha)	70,110
7	Increase in cropped area (ha)	84,601
8	No. of Farmers benefited	14,29,952
9	Area brought under protective irrigation (ha)	1,97,814
10	No. of Man-days generated (Man-days)	2,05,49,809

*WDC-PMKSY 2.0 scheme was approved on 15.12.2021.

Fig 13. Development of pasture cum horticulture land under WDC-PMKSY 2.0 in Narayanpur village, Rahgarh Block, Alwar District

Fig 14. Mass Plantation Drive and Environmental Awareness program taken up under WDC-PMKSY 2.0

(iii) Financial Progress:

Year-wise budgetary allocation and funds released in the last three years and current year are given in Table 3 below.

Table 3: Funds released under WDC-PMKSY from 2020-21 to 2024-25

Year	RE	Funds released	% of RE released	Scheme
2020-21	1000.00	998.36	99.83	WDC-PMKSY 1.0
2021-22	1216.00	1195.97	98.35	WDC-PMKSY 2.0
2022-23	1000.08	997.70	99.77	
2023-24	1750.01	1689.97	96.57	
2024-25 (upto 31.12.2024)	1800.00	770.43	42.80

5. World Bank assisted Program on “Rejuvenating Watersheds for Agricultural Resilience through Innovative Development (REWARD)”

The World Bank assisted Rejuvenating Watersheds for Agricultural Resilience through Innovative Development (REWARD) program is a Watershed development program which is being implemented from 2021 to 2026. The program is aimed to introduce modern watershed standards and practices in the Department of Land Resources and in the States of Karnataka and Odisha.

The REWARD program works on a financial instrument called “PforR” (Program for Results)

which means World Bank will reimburse the loan amount against the achievement of Disbursement Linked Indicators (DLIs). The total budget of REWARD program is USD 167.71 million over a program period of 4.5 years. This includes USD 115 million from World Bank [Karnataka (USD 60 million), Odisha (USD 49 million) and DoLR (USD 6 million)], USD 46.71 million from two participating States [Karnataka (USD 25.71) and Odisha (USD 21.0 million)] and USD 6 million from DoLR. The funding pattern is 70:30, between World Bank and States whereas it is 50:50 between World Bank and DoLR.

Fig 16. REWARD – Mid Term Review (MTR) Meeting held with World Bank officials, NRAA & its consortium partners and Participating States on 4th October, 2024 at New Delhi.

Objectives and Key result areas of REWARD:

The development objectives of REWARD program are to “Strengthen Capacities of National and State institutions to adopt improved watershed management for increasing farmers resilience and support value chains in selected watersheds of participating States”.

The program focuses on the following two important result areas:

- a. Strengthened institutions and supportive policy for watershed development;
- b. Science based watershed development for climate resilience and enhanced livelihoods.

Role of DoLR and participating States under REWARD Program

At the central level, the scope of the REWARD

program covers management, monitoring, communication and knowledge sharing functions by DoLR. States covered under REWARD program have signed separate agreements with the World Bank under REWARD program and have the responsibility of implementing the watershed activities at the State and sub State level.

The REWARD program has following 6 Disbursement Linked Indicators (DLIs) to be achieved by the end of the program as given below.

- DLI.1: Percentage of Watershed Committees & Gram Panchayats which demonstrate satisfactory watershed management as measured through a performance rating system
- DLI.2: Land area treated with science-based watershed management technologies
- DLI.3: Number of farmers who adopt

resilient agriculture technologies and practices

- DLI.4: FPO with 25% increase in business turnover relative to baseline
- DLI.5: Number of professionals who complete certified training on improved watershed management provided by National Center of Excellence on Watershed Management
- DLI.6: “National Technical Standards (NTS)” for improved watershed management updated by DoLR and directive issued to the states.

Out these 6 DLIs, 1 to 5 DLIs above are field implementation oriented DLIs which needs to be achieved by the participating States and the 6th DLI- “National technical standards for improved watershed management finalized and Government directive on national technical standards for improved watershed management formally disseminated to States” is a policy oriented DLI and needs to be accomplished by DoLR with the technical partnership with National Rainfed Area Authority (NRAA). These DLIs will be further verified by Independent Verification Agency (IVA) selected by the respective program Implementing Agencies (PIAs) so as to qualify for the receipt of proportional share of World Bank loan amount.

NRAA with their consortium partners - providing technical knowledge to DoLR

- NRAA has partnered with the Department of Land Resources (DoLR) and signed MoU for achieving the results under DLI-6 -‘National technical guidelines for improved watershed management updated by DoLR and directives issued to States’.
- The updated technical guidelines are

expected to detail various facets of improved watershed management, including science-based approaches (LRI, hydrology, remote sensing etc), active community and local governments participation, and impact evaluation.

Governance of REWARD at DoLR Level

The core task of DoLR is to promote a professional system, improve governance mechanism, take efficient and effective decisions and ensure timely execution of program works. DoLR has set-up dedicated support execution systems at different levels capable of executing and catalyzing watershed development systems; build institutions; technology requirements; promoting convergence and partnerships; and supporting livelihoods of farming and small landholders communities.

To attain the core tasks, DoLR has set up two Committees with distinguished roles at national level. These Committees meet at regular intervals, review the progress and take up appropriate decisions for smooth implementation of the program. A brief description of the high level committees constituted by DoLR under REWARD is provided below.

National Level Steering Committee (NLSC): It is an apex level Committee at the national level to oversee the program implementation and policy decisions. This committee is headed by Secretary, DoLR, Government of India. The Committee meets at an interval of six months over the program period.

National Level Technical Committee (NLTC): It is a national level Committee for overall technical support and guidance to DoLR, technical institutions as well as to the REWARD States.

This committee is headed by CEO, NRAA, MoAFW,GoI. The Committee meets at an interval of four months over the program period.

Key milestones of Progress made by DoLR in the REWARD program

- The first Meeting of National Level Technical Committee (NLTC) of REWARD held on 10.02.2023.
- The first Meeting of National Level Steering Committee (NLSC) of REWARD held on 20.02.2023.
- Completion of Audit for the year 2021-22 and 2022-23 during June-July 2023.
- Submission of draft Inception report from Independent Verification Agency 20th July 2023.
- The Second meeting of National Level Technical Committee (NLTC) of REWARD Completed on 10.08.2023.
- Release of Rs. 0.50 crores to NRAA during the FY 2024-25.
- The second meeting of National Level Steering Committee (NLSC) of REWARD

was held on 4.10.2023.

- Completion of 3rd Implementation Support Mission of World Bank on 11.05.2023.
- Completion of 4th Implementation Support Mission of World Bank on 6-7th December 2023.
- Audit for the year 2023-24 completed during August, 2024.
- A Mid-Term Review of REWARD program was carried out between 27th August to 4th October, 2024. Programme Development objective rating of REWARD program remained same as satisfactory.
- 3rd Meeting of National Level Steering Committee (NLSC) of REWARD held on 12.04.2024.
- 3rd Meeting of National Level Technical Committee (NLTC) of REWARD held on 10.06.2024.
- Till date an amount of Rs.16.18 crore expenditure has been incurred under REWARD program at DoLR level.
- During 2024-25, Rs. 3.50 Cr. released under REWARD Programme (upto 31.12.2024).

Fig 17. Monitoring of NRM works under REWARD program by DoLR officials in Odisha

6. Springshed Development

As per a NITI Aayog report (2018), there are estimated 5 million springs across India, of which nearly 3 million Springs are in Indian Himalayan Region and half of the Springs in the Indian Himalayan Region have dried or, in the process of drying. These hilly terrains receive

large amount of rainfall, however, it runs-off and hence, there is scarcity of water in mountains during summer seasons. Hence, NITI Aayog in 2019 has desired that the Department of Land Resources should take up a Nation-wide programme to address this issue, as the works to be done in Springshed Development are similar to Watershed Development.

Fig 18. Springshed Development works undertaken in Gaili Namdi village, Peren district (Nagaland) under WDC-PMKSY 2.0

Accordingly, 'Springshed Development' has been incorporated as one of the activities under Watershed Development Component of PMKSY 2.0. Around 2740 Springs have been taken up for rejuvenation under WDC-PMKSY 2.0 on pilot basis.

Fig 19. Monitoring of Spring discharge and quality of springs rejuvenated under WDC-PMKSY 2.0 in Mizoram and Nagaland

7. Cactus Cultivation under WDC-PMKSY

The scope of WDC-PMKSY permits taking up suitable plantations of various kinds which help in restoration of rainfed/degraded lands. Cactus is the hardiest plant species which requires only scanty rainfall for its growth and survival. Accordingly, DoLR is exploring various options for taking up Spineless cactus cultivation on degraded lands for realizing the benefits of its use as 5 Fs i.e fuel, fertilizer, fodder, food and fashion (bio-leather) etc. for the larger benefit

of the country apart from developing degraded lands and contributing towards employment generation / livelihoods, increasing vegetation area, carbon sequestration and addressing climate change issues etc. in these areas.

At present, cactus cultivation is limited only for fodder in the country. The various other economic usages of cactus as mentioned above needs awareness, publicity and its promotion through facilitating availability of quality plantation material, package of practices and

Fig 20. Farmer's exposure visit under capacity building programmes to demonstration plot for Spineless cactus plantation at Jaltanda village, Khunti District, Jharkhand

marketing avenues. From review of literature, it is observed that no dedicated research/ field work to maximize production of spineless cactus has, however been undertaken in the country. Therefore, there is a need for undertaking systematic research work on pilot basis at multiple locations for maximizing production of the best varieties of cactus available in the country and abroad. Accordingly, DoLR, has

prepared Guidelines for 'Promotion of Spineless Cactus Cultivation / Plantation in Watershed Projects under WDC-PMKSY' and circulated to all the States / UT of J&K and Ladakh for taking necessary steps for cultivation of cactus for generation of bio-gas and other usages. A tentative minimum target of 4,000 ha is kept for undertaking cactus plantation under this initiative during 2025-26.

Fig 21. Spineless Cactus plantation promoted in Watershed Project Areas under WDC-PMKSY 2.0.

LAND REGULATIONS AND LAND ECONOMICS

I. Digital India Land Records Modernization Programme (DILRMP)

1. Introduction

Digital India Land Records Modernization Programme (erstwhile National Land Record Modernization Programme-NLRMP) was revamped and converted as a Central Sector Scheme with effect from 1st April, 2016 with 100% funding by the Centre. The programme has been extended for a period of five years from 2021-21 to 2025-26 with an outlay of Rs. 875 crore.

2. Objective

The objective of DILRMP is to develop a

modern, comprehensive and transparent land record management system to: (i) improve real-time information on land; (ii) optimize use of land resources; (iii) assist in policy & planning; (iv) reduce land disputes; (v) check fraudulent / benami transactions (vi) obviate need of physical visits to Revenue/Registration offices (vii) enable sharing of information with various organisations/agencies.

3. Major components and activities

The programme has the following major components and activities:

S. N.	Component	Activities
1	Computerization of Land Records	(i) Computerization of Record of Rights; (ii) Digitization of cadastral maps; (iii) Integration of Record of Rights (textual) and cadastral maps (spatial); (iv) Data centres at state level.
2	Computerization of Registration	(i) Computerization of Sub Registrar Offices (SROs); (ii) Connectivity between Sub-registrar offices and Tehsils; and (iii) Integration of registration and land records.
3	Survey / Resurvey	Survey / resurvey and updating of survey & settlement records.
4	Modern Record Rooms	Modern Record rooms / Land records management Centres at tehsil level.
5	Training & Capacity building	Creation of DILRMP Cells at Administrative Training Institutes and / or the Survey / Revenue / Patwari Training Institutes of States
6	Project Management Unit	To provide human resources and other infrastructure to provide support for the effective implementation of various components of DILRMP.
7	Computerization of Revenue Court Management System	Computerization of all Revenue Courts in the country and their integration with Land records.
8	Integration of Aadhaar number with the land record database on voluntary basis	To link Aadhaar number with Records of Rights (RoR).

- 4. Fund Allocation:** The component-wise allocation of funds of Rs. 875 Crore for the period 2021-22 to 2025-26 is given below:

Table 1: Allocation of funds for various components of DILRMP from 2021-22 to 2025-26

SI. No.	Component	Amount (Rs. Crore)
A. Existing Components		
1.	Modern Record Room (Tehsil)	130
2.	Survey/ re-survey and innovative initiatives	300
3.	Data entry/re-entry	15
4.	Digitization of cadastral maps/FMBs/Tippans	52
5.	State level data centre	32
6.	Computerization of Registration process	50
7.	DILRMP Cell	12
8.	PMU	47
9.	Evaluation Studies, IEC and Training	40
10.	Core GIS/Software Applications	20
	Sub-Total (existing components)	698
B. New Components		
11.	Consent-based integration of Aadhaar number with the land record database	62
12.	Computerization of Revenue Courts and their integration with land records	115
	Sub-Total (new components)	177
	Grand Total (A+B)	875

5. Implementation Status

Present Status: The implementation of this programme is a complex, sensitive and voluminous work, involving cumbersome and time-consuming processes. Gestation period of completion of the various activities / components of this programme is relatively longer as compared to other schemes.

- (i) **Financial Progress:** During current financial year i.e. 2024-25, Rs. 141.00crore (B.E)/RE Rs.141.00 crore has been allocated under the scheme. Details of year-wise budgetary allocations and expenditure incurred under DILRMP during the last four years and current year are given in the Table 2 below:

**Table 2: Budget allocation and Expenditure under DILRMP from 2019-20 to 2024-25
(As on 27.12.2024)**

Year	Revised (Rs. in Crore)	Expenditure (Rs. in Crore)	Expenditure %
2019-20	50.00	43.77	87.54
2020-21	238.00	225.14	94.59
2021-22	250.00	250.016	100
2022-23	239.25	239.25	100
2023-24	125.00	124.39	99.52
2024-25	141.00	99.45	70.52

As on 31.12.2024

In cumulative terms, Rs.2460.21 crore (including miscellaneous funds) has been released for covering various components of DILRMP scheme in 699 districts (as on 31th December, 2024). State / UT- wise position is given in Annexure III.

been achieved in the basic components of the programme viz. Computerization of Record of Rights (RoRs), Digitization of cadastral maps; Computerization of Registration, Connectivity between Sub-Registrar Offices and Tehsils, Integration of Registration and Land Records, etc. given as under:

(ii) Physical Progress: Substantial progress has

S No.	Component	Units	Completed (%)
1			
a	Computerization of Record of Rights (RoRs)	No. of Villages	98.50
b	Digitization of Cadastral Maps/FMBs	No. of Maps / FMBs	94.90
c	Cadastral maps linked to RoR	No. of Villages	72.00
2			
a	Computerization of SROs	No. of SROs	95.70
b	Integration of SROs and Revenue Office	No. of SROs	88.53
3	Establishment of Modern Record Room	No. of Tehsils (Sanctioned)	76.08

Note:

1. Wherever land records are available, digitisation of the land records have been completed upto 98.5% except for North East and Ladakh.
2. Land records are not available in most of the North Eastern States due to community ownership of land.
3. Ladakh has started digitization in last couple of years.

State wise physical progress under major components of DILRMP as on 31.12.2024 is given in Annexure IV.

6. Monitoring & Evaluation of the programme

6.1 A Project Sanctioning and Monitoring Committee (PS&MC) under the chairmanship of Secretary (LR) is in place for sanctioning and monitoring of progress of works under DILRMP. The latest meeting of PS&MC was held under the chairmanship of Secretary (LR) on 19/09/2024. The progress of the scheme is also monitored through a Management Information System (MIS) portal of DILRMP developed by NIC and hosted on the website wherein physical and financial progress under the programme can be tracked. States have their own State level

monitoring mechanism and committees. A dashboard has been put in place to reflect the updated physical and financial progress of the various components of scheme on real time basis.

6.2 DILRMP has been included in the list of schemes of the Ministry of Rural Development that are being monitored by the National Level Monitors (NLM) empanelled by the Ministry. National /Regional Review Meetings under the DILRMP provided for States/UTs not only to review the progress of programme but also discuss other important land related issues including innovative ideas.

Fig 1. Hon'ble Minister of Agriculture & Rural Development reviewing the schemes of DoLR

6.3 Department of Rural Development, Ministry of Rural Development (DoRD, MoRD) has constituted District Development Coordination and Monitoring Committee (DISHA) with a view to fulfill the objectives of ensuring better coordination among elected representatives in Parliament, State Legislatures and Local Governments (Panchayati Raj

Institutions/Municipal Bodies) for efficient and time-bound development of Districts in the country. The Committee is mandated to monitor implementation of various programmes, including Digital India Land Records Modernization Programme (DILRMP) in accordance with prescribed procedures and guidelines and promote synergy and

convergence for bringing about greater impact. In this context, DoLR has already issued advisory to the Principal Secretaries/Secretary (Revenue) of all States/UTs implementing DILRMP with a request to instruct district authorities associated with implementation of DILRMP to actively participate in the DISHA Committee meetings and also keep informed this Department about the ATRs on suggestions/recommendations made by the people's representatives. The reports of the DISHA Committee meetings held in the past could be referred to for necessary action at the Department of Rural Development's website at <https://ruraldishan.nic.in>.

6.4 A FIVE EYE FRAMEWORK has been envisaged for strong monitoring and review mechanism from Central to State to Division to District and upto Sub District of Revenue level. Benchmarking for Evaluation of the programme has been envisioned in Programme Guidelines where apart from Centre for Rural Studies (CRS), LBSNAA, Mussoorie, involvement of

national/international level reputed agencies, and other organizations etc. will be roped in for research and development, information analytics, consultation, collaboration, and other activities.

6.5 Five Regional Review Workshops were conducted on 21.08.2024, 31.08.2024, 06.09.2024, 13.09.2024 and 20.09.2024 at Mumbai, Lucknow, Bengaluru, Chandigarh and Guwahati respectively with all the States (region-wise) to review the progress made so far in computerization and digitization of Land Records under DILRMP and to work out an action plan to achieve the desirable goals within a targeted time frame. The workshop also included detailed discussions on scheme guidelines on the 'Schemes for Special Assistance to States for Capital Investment' issued by the Ministry of Finance for both Rural and Urban incentives of Rs. 5000 crore each and also on NAKSHA scheme for creation/digitization of Urban Land records.

Fig 2. Regional Conference on DILRMP held in Mumbai on 21st August, 2024

Fig 3. Regional Conference on DILRMP held in Bengaluru on 6th September, 2024

Fig 4 Regional Conference on DILRMP at Guwahati on 20th September 2024

7. Innovative Initiatives under Digital India Land Records Modernization Programme (DILRMP)

7.1 Unique Land Parcel Identification Number (ULPIN) or Bhu-Aadhaar

Bhu-Aadhar or Unique Land Parcel Identification Number (ULPIN) system is a 14 digit Alpha-numeric unique ID for each land parcel based on Geo-coordinates of vertices of

the parcel which is of international standard and complies with Electronic Commerce Code Management Association (ECCMA) standard and Open Geospatial Consortium (OGC) standard, is being implemented across the country. ULPIN will be linked to ownership details of the plot besides its size and longitudinal and latitudinal details. This would facilitate real estate transactions, help resolve property taxation issues and improve disaster planning and response efforts, etc.

As on 31 Dec, 2024, Bhu-Aadhar/ ULPIN has so far, has been rolled out in 29 States viz. Andhra Pradesh, Jharkhand, Goa, Bihar, Odisha, Sikkim, Gujarat, Maharashtra, Rajasthan, Haryana, Tripura, Chhattisgarh, Jammu & Kashmir, Assam, Madhya Pradesh, Nagaland, Mizoram, Tamil Nadu, Punjab, Dadra and Nagar Haveli & Daman and Diu, Himachal Pradesh, West Bengal, Uttar Pradesh, Uttarakhand, Kerala, Ladakh, Chandigarh, Karnataka and NCT of Delhi. Further, Pilot testing of ULPIN has been done in 4 States / UTs- Puducherry, Telangana, Manipur and Andaman & Nicobar Island. ULPIN/ Bhu-Aadhaar has been assigned to more than 23 crore land parcels so far.

7.2 Computerised Registration

In order to have a uniform process for registration for deeds/documents, "One Nation One Registration Software namely National Generic Document Registration System (NGDRS)" is being implemented in States/UTs. The National Generic Document Registration System (NGDRS) is a common, generic and configurable application developed for Registration Departments across the country. The application is specifically designed for the use of sub registrars, citizens and apex users from registration departments. NGDRS facilitates States to create state specific instance and configure the software as per requirements. It empowers citizens through online entry of deed, online payment, online appointment, online admission, document search and certified copy generation." The innovative initiative of NGDRS has been the recipient of Prime Minister Award for Excellence in Public Administration for 2021 for the Central category of Innovation. Recently, the NGDRS or e-Registration application has been modified as end to end completely online

and paperless registration system.

As on 31 Dec, 2024, the NGDRS or e-Registration has so far been implemented in 15 States / UTs namely Andaman & Nicobar, Assam, Chhattisgarh, Dadra and Nagar Haveli & Daman and Diu, Goa, Himachal Pradesh, Jammu and Kashmir, Jharkhand, Ladakh, Maharashtra, Manipur, Mizoram, NCT of Delhi, Punjab and Tripura.

7.3 Revenue Court Case Management System(RCCMS):

- i. Computerization of Revenue Courts and their integration with land records (Revenue Court Cases Management System- RCCMS) has been added as a new component since 2021.
- ii. At present, 18 States/UTs are using their in-house developed RCCMS software.
- iii. NIC has developed a software for RCCMS in 2024.
- iv. The software provides a centralized platform to States for revenue court case management including online filing of case, updation of daily orders, generation of cause list and generation of final orders. The application is being developed as end to end, completely online and paperless solution.
- v. It will enable citizens to access real-time information, track case progress, obtain court decisions, and make informed decisions for approaching higher courts.
- vi. A national dashboard for all revenue court cases has also been developed by NIC in 2024 in which 11 States/UTs have started sharing information related to pending revenue court cases at different level, nature of pending cases, etc.

7.4 NAKSHA:

The Department of Land Resources has introduced the National geospatial Knowledge-based land Survey of urban HABitations (NAKSHA), a transformative pilot programme under the Digital India Land Records Modernization Programme (DILRMP). This initiative represents a groundbreaking step toward modernizing urban land records in India. With a financial outlay of ₹193.81 crore, NAKSHA will be implemented across 152 ULBs over one year, leveraging advanced geospatial technologies and robust institutional collaboration. The Survey of India (SoI) is the technical partner, working alongside State and Union Territory (UT) Revenue and Urban Development/Local Self Government Departments.

In this connection following two important workshop/symposium have been organized by DoLR:

a. International Workshop on "Modern Technologies in Survey-Resurvey for Urban Land Records."- 21st 22nd October 2024.

The two-day international workshop was convened on October 21-22, 2024, at Dr.Ambedkar International Centre, New

Delhi, focused on "Modern Technologies in Survey-Resurvey for Urban Land Records." Approximately 700 experts participated, including delegates from global organizations, Indian ministries, urban Local Bodies, and private sector representatives. The event emphasized adopting advanced geospatial based technologies for efficient urban land management.

The sessions featured insights from key speakers, including Hon'ble Minister Shivraj Singh Chouhan, Ministry of Rural Development who stressed integrating modern tools like drones, ortho-rectified imaging, and GIS into urban planning. Case studies from Spain, the Netherlands, and South Korea highlighted global innovations, while Indian states showcased advancements such as QR-enabled property cards in Maharashtra and blockchain use in Assam.

Key sessions explored international best practices, advanced land mapping, ground surveys, and data interoperability. Experts recommended unifying systems across states, leveraging AI for automated land valuation, and promoting public-private partnerships. Discussions also emphasized GIS-based property taxation and the importance of regular urban surveys to maintain accurate records.

Fig 5. Hon'ble Minister of Agriculture and Rural Development inaugurating the International Conference on 21st October, 2024

Fig 6. Hon'ble Minister of State for Rural Development and Communication speaking at the valedictory function of the International Conference on 22nd October, 2024

b. Symposium on Survey/ Re-Survey for Urban Land Records and its Value Impact for National Economy and Inclusive Development on 5th Dec.2024 at HICC, Hyderabad

A one day symposium on Survey/ Re-Survey for Urban Land Records and its Value Impact for National Economy and Inclusive Development with Theme: Empowering Urban Citizens with Accurate and Up-to-date Land Records for Improved Urban Planning and Ease of Living was organised on 05.12.2024 during Geosmart India 2024 at Hyderabad. On day workshop on

urban land records witnessed participation of key officials from the state/UTs Revenue and Urban Development Departments involved in implementing National Geospatial Knowledge based Survey of Urban Habitation (NAKSHA). A key note address was given by Shri Kunal Satyarthi, Joint Secretary (LR) highlighting the objectives of NAKSHA pilot programme. The symposium was aimed to highlight significant advancements, particularly to discuss the urban land records digitization' challenges and technology solutions. During the symposium, a live demonstration of 3D digitization of Land Records was also showcased.

Fig 7. Symposium on Survey/ Re-Survey for Urban Land Records and its Value Impact for National Economy and Inclusive Development in Hyderabad

Fig 8. Exhibition stall of DoLR at Geosmart India 2024, Hyderabad during 02-04th December 2024

As a part of IEC activities, an exhibition was also put up at the Geosmart India 2024 during 02-04 December 2024 at Hyderabad International Convention Centre, Hyderabad highlighting various initiatives of Department of Land Resources like Digital India Land Records Modernization Programme (DILRMP), Bhuaadhar or unique Land Parcel Identification Number (ULPIN), National Generic Document Registration System (NGDRS), National Geospatial Knowledge based Survey of Urban Habitation (NAKSHA). More than 2000 visitors visited the exhibition during Geosmart India representing Government, Academia, Startups, Industries and Foreign Governments as well.

7.5 Centres of Excellence:

With the emphasis on increasing the availability of authentic land records data to citizen and all other stakeholders for its use in economic activities as well as in Government schemes both at the central and state level, Department of Land Resources set up 5 (five) Centres of Excellence (CoE) on Land Resource Administration across the country to share the knowledge, develop common standards, work on new concepts and ideas, train staff of the state and test use of various cutting edge technologies in the field of Land Resource. The CoE have been envisioned as a hub for research, training, and capacity building in the field of land administration and management under the aegis of Department of Land Resources for catering the need of various States/UTs as detailed below:-

- (i) B.N. Yugandhar Centre for Rural Studies (BNYCRS), LBSNAA, Mussoorie: Covering the States of Bihar, Jharkhand, Odisha, Uttar Pradesh, Uttarakhand, and West Bengal.
- (ii) Yashwantrao Chavan Academy of

Development Administration (YASHADA) Pune: Covering the States of Chhattisgarh, Goa, Gujarat, Madhya Pradesh, Maharashtra and UT of Dadra & Nagar Haveli and Daman & Diu.

- (iii) North Eastern Regional COE on Land Governance. Guwahati, Assam: Covering the States of entire NE Region viz. Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura.
- (iv) Administrative Training Institute (ATI). Mysore. Karnataka: Covering the States of Andhra Pradesh, Karnataka, Kerala, Tamil Nadu, Telangana, UT of Puducherry, UT of Andaman & Nicobar Islands and UT of Lakshadweep.
- (v) Mahatma Gandhi State Institute of Public Administration (MGSIPA). Chandigarh, Punjab: Covering the States of Haryana, Himachal Pradesh, NCT of Delhi, Punjab, Rajasthan, UT of Jammu & Kashmir, UT of Chandigarh and UT of Ladakh

The CoE have started functioning in October, 2024 and have been mandated to undertake the following broad activities:

- a. Compile and document the best practices/ innovative initiatives of various States/UTs in field of Land Governance.
- b. Preparation of glossary of Revenue Terms used in RoR, Cadastral Maps etc.
- c. Guide on process re-engineering of RCCMS
- d. Training of Trainers for implementation of NAKSHA
- e. Writing articles on land related subjects and their publication
- f. Provide technical assistance in survey/re-

survey using ETS/DPGS, drones, LiDAR etc.

- g. Provide hands-on training for digitization and georeferencing to local revenue functionaries.
- h. Conduct high Quality Training in Land Surveying, Computerization of RoRs, Digitization of Cadastral Maps with special focus on emerging technologies for Urban and Rural areas.

8. Acts administered by the Department:

Department of Land Resources administers the following two Acts, namely the Right to Fair Land Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (RFCTLARR) and the Registration Act, 1908. Brief details of these two Acts are given below.

8.1 The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (RFCTLARR) Act, 2013.

The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act was enacted on 26th September, 2013. The objective of the Act is to ensure, in consultation with institutions of local self-government and Gram Sabhas established under the Constitution, a humane, participative, informed and transparent process for land acquisition for industrialisation, development of essential infrastructural facilities and urbanisation with the least disturbance to the owners of the land and other affected families and to provide just and fair compensation to the affected families whose land has been acquired or proposed to be acquired or are affected by

such acquisition and make adequate provisions for such affected persons for their rehabilitation and resettlement and for ensuring that the cumulative outcome of compulsory acquisition should be that affected persons become partners in development leading to an improvement in their post acquisition social and economic status and for matters connected therewith or incidental thereto. The RFCTLARR Act has been operational from 1st January, 2014.

The benefits of the compensation, rehabilitation and resettlement provided in the Act are extended in cases of land acquisition made under the 13 Central Acts specified in the Fourth Schedule.

8.2 The Registration Act, 1908

The Registration Act, 1908 is a Central Act which was enacted to consolidate the laws relating to the registration of documents. The provisions relating to the registration of documents were earlier scattered about in seven enactments and therefore, the Registration Act, 1908 collated these provisions and incorporated them into one single Act. It is a significant piece of procedural legislation that provides for the registration of certain documents.

The "Registration of deeds and documents" is a concurrent subject under the Constitution of India. This item has been mentioned against Entry No. 6 in the List III (Concurrent List) of the Schedule VII of the Constitution. The administration of the Registration Act, 1908 was transferred to the Department of Land Resources, Ministry of Rural Development, Government of India in the year 2006.

Significant technological and administrative changes have occurred since commencement

of this pre-Independence Act, such as computerization of land records and registration offices in the country, integration of textual and spatial data, issuance of digitally signed documents, integration of Land Records and Registration Offices, automatic generation of mutation notices, blocking of particular Survey numbers from further transactions, capturing and storage of the biometrics of the executants, and establishment of centralized data bases (State Data Centers), online payment of stamp duty, fees etc. These developments necessitated certain changes in the provisions of the existing Act. Therefore, 'the Registration (Amendment) Bill, 2013' was introduced in Rajya Sabha on 8 August, 2013. The Bill is presently before the Group of Ministers for their consideration and recommendation.

8.3 National/Regional Review Meeting/workshop titled 'National Conference on Registration System in India' on DILRMP and Innovative initiatives:

10.1 A one and half day workshop was organised at YASHADA, Pune on 18th -19th

July 2024 to review the progress towards nationwide online registration system and to capture the best practices in States/UTs. Inspector General of Registrations (IGRs) and representatives from 31 States/UTs along with representatives from NIC, UIDAI, Vidhi Centre for Legal Policy and YASHADA attended the said conference. IGRs/representatives of States/UTs made presentations on the sub headings: Coverage under online registration system, Ease of registration, e stamping and fee, revenue collected from document registration, Integration with other system, use of AI/ML, GIS, Block-chain technology and state specific innovations. In addition to this, presentation on legal issues and proposed amendment in Registration act 1908, presentation on Blockchain Technology in Property Registration and Emerging technologies were also made.

Fig 9. National Conference on Registration System in India, 18-19th July, 2024 at YASHADA, Pune

PROGRAMME MONITORING AND EVALUATION

The Programme Monitoring and Evaluation (PME) Division is tasked with overseeing and evaluating various initiatives, including the Digital India Land Records Modernization Programme (DILRMP) with the assistance of advanced monitoring tools such as the Management Information System (MIS). PME Division also deals with Coordination work relating to Data Governance Quality Index (DGQI) Framework, Data & Strategy Unit (DSU) under DGQI, Output-Outcome Monitoring Framework (OOMF), Gender Budget Analysis, Information, Education & Communication (IEC) Activities, PRAYAS Portal, Development

Action Plan for Scheduled Castes (DAPSC) and Development Action Plan for Scheduled Tribes (DAPST), E-Utthaan Portal etc.

PROGRAMME MONITORING:

PME Division monitors the progress of the DILRMP through a Management Information System portal developed by NIC and hosted on the website wherein physical progress under the programme can be tracked. The updated progress of the various components of programme can be tracked on real time basis. States have their own state level monitoring mechanism.

i. Output-Outcome Monitoring Framework (OOMF) for DILRMP and WDC-PMKSY

NITI Aayog has developed a comprehensive OOMF for the Central sector/Centrally sponsored schemes with a view to bring focus on 'Outcomes' in addition to the 'Output'. The framework has been adopted from the Budget 2019-20. Department of Land Resources has finalized the OOMF along with its annual and quarterly targets for 2025-26.

ii. DGQI Framework

The Data Governance Quality Index (DGQI) Framework is an exercise to assess the data quality and preparedness in tune with the emerging role of data as an enabler in driving public policy. It is on a standardized framework and is a self-assessment standard questionnaire. In the first phase, Department scored 2.41/5, which is significantly improved and has reached to 4.55/5 in the Financial year 2023-24.

For the DGQI 2.0 exercise every Ministry/ Department is to constitute a Data & Strategy Unit (DSU). The Department of Land Resources has constituted DSU under chairmanship of Additional Secretary with four constituent units viz Monitoring Unit, Technology Unit, Statistical Unit & Data Analytics Unit.

iii. PME Division also coordinates work relating to Gender Budget Analysis, Development Action Plan for Scheduled Castes (DAPSC) and Development Action Plan for Scheduled Tribes (DAPST), PRAYAS and E-Utthaan Portal etc.

EVALUATION

PME Division conducts Evaluation Studies through reputed institutions covering all States/ UTs to assess the quality of computerization/ digitization of land records in terms of various components of the DILRMP.

**ADMINISTRATION
AND
COORDINATION
DIVISION**

Department of Land Resources, as part of its administrative responsibility, undertakes Establishment matters which include service issues, posting of officers and staff, capacity building, vigilance matters. It also deals with implementation of official language, protocol, website and portal, procurement of goods and services, organization and methods, public grievances and all other general administration matters.

The Co-ordination Division of the Department is responsible for managing issues relating to Parliament matters, RTI matters, e-Samiksha, PRAGATI, SGOS recommendations, Annual Report and other publications of Department, Media Campaign and various other matters, which involve coordination with various Ministries/Departments.

The major initiatives/activities undertaken during the year 2024-25 are as under:

1. Establishment matters

- i. There are 2 sanctioned posts of Assistant Commissioner, 2 sanctioned posts of Technical Officer, 5 sanctioned posts of Research Investigator and 3 sanctioned posts of JAO. Proposals for revision/ amendment/ updation of Recruitment Rules (RRs) for all these posts are under process. The recruitment rules for the posts of Junior Accounts Officer (JAO) have been approved by DoPT and UPSC. The RRs for the post of Research Investigator have been revised in consultation with DoPT and UPSC and has been published in Gazette of India.
- ii. Representation of SCs, STs, OBCs & Persons with Disabilities in Department of Land Resources: Department of Land Resources

(DoLR) is responsible for implementation of reservation policy in the appointments and promotion to the Technical and Non-technical staff for whom the Department is the Cadre Controlling Authority. The recruitment against these posts is made in accordance with the recruitment rules, concerning the particular post which inter-alia includes deputation, promotion and direct recruitment. The reservation policy is implemented in case of promotion and direct recruitment. The reservation roster for the posts belonging to Group 'A', 'B' and 'C' is being maintained in the Department.

DoLR primarily inducts human resource for discharging its responsibilities through the Department of Personnel and Training. The representation of SCs, STs and OBCs in Department of Land Resources is given in Annexure V and that of Persons with Disabilities in Department of Land Resources is given in Annexure VI.

2. Implementation of e-office

E-office is a Mission Mode Project under the National e-Governance Programme of the Government and it aims to usher in more efficient, effective and transparent inter-government and intra-government transactions and processes. The Department is progressing towards complete digitalization in its functioning with implementation of e-office and e-governance. In this direction till date, 96.50 per cent of digitalization (e-filing) has been achieved and work is in progress to push for higher achievement in e-office mode. VPN facility and Digital Signature Certificates (DSC) have also been provided to officers to facilitate their work.

3. Annual Capacity Building Plan (ACBP) for the Department

Annual Capacity Building Plan is a comprehensive document that outlines key strategic areas that require intervention within the Department and provides a macro picture of year-wise capacity building initiatives that cater to those areas. The plan is incremental in nature in that it identifies a number of focus areas that demand immediate attention and will gradually evolve over time into a full-fledged plan. The capacity building plan consists of competency-based training interventions, competency based non-training interventions and organisational based non training interventions. It covers behavioral, functional, technological, domain and organisational capacity needs of the organisation.

A Capacity Building Unit (CBU) was constituted on 8th June 2022, under the chairmanship of Additional Secretary (LR) in the Department. ACBP for the Department of Land Resources was based on the Capacity Needs Analysis (CNA). CNA ensured self-assessment of capacity needs by the officials to ensure co-ownership of the capacity building process. Similarly, the courses and organisational interventions were recommended under the guidance of Capacity Building Unit (CBU) of the Department. The plan will play a pivotal role in service delivery, program implementation and performing core governance functions.

The Annual Capacity Building Plan of the Department was released by the Hon'ble Minister of Rural Development and Panchayati Raj on 22nd August, 2023. Necessary follow up action is being taken up by the Department on the Annual Capacity Building Plan.

4. Mission Karmayogi or iGOTKarmayogi

Mission Karmayogi or iGOTKarmayogi is a national programme for civil services capacity building. It is an online learning platform being developed as an integral part of the Digital India stack for capacity building of all government employees. The Department of Personnel and Training is managing the entire programme, in collaboration with the Ministries/Departments.

Presently, all the employees of the Department of Land Resources are registered on the iGoT Karmayogi portal. iGoT Karmayogi team has identified six mandatory courses to be completed by all officials of the Department. All officials have been encouraged to complete mandatory courses, and minimum 6 hours 'Quick Win' courses on the portal, as recommended by iGoT Karmayogi team and Capacity Building Commission.

Department of Land Resources is finalizing 'Know Your Ministry' course for uploading on iGOT portal. 10 domain specific courses are being prepared by the Department for uploading on the iGOT portal.

5. Roll-out of 'e-HRMS 2.0' and onboarding in DoLR

Erstwhile CSCMS [HR services for all three cadres (CSS, CSSS and CSCS)] and thereafter e-HRMS has been upgraded as 'e-HRMS 2.0' and operationalized to deliver end-to-end employee related services exclusively online by Department of Personnel and Training. The system seamlessly integrates HR-related end-to-end online services with i-GoT, SPARROW, Probity, and PFMS portals. As on date, all employees on the strength of the Department of Land Resources have onboarded on e-HRMS2.0.

6. Progressive use of Official Language

During the year under review, efforts were made to promote the use of Hindi in this Department and ensure implementation of the provisions of the Official Language Act, 1963 and Rules framed thereunder as well as other instructions issued by the Department of Official Language. This Department has an Official Language Implementation Committee (OLIC) constituted under the chairmanship of Economic Adviser to monitor the progressive use of Hindi.

The provisions of Section 3(3) of the Official Language Act, 1963 regarding bilingual issue of certain documents are being complied with.

Hindi Diwas was celebrated on 14th September, 2024. Hindi Pakhwada was organized from 14th to 28th September, 2024. During the fortnight, various competitions for officers and staff viz essay writing, noting/drafting, hindi dictation and knowledge of general hindi were organised. 56 employees of the Department participated in these competitions.

Fig 1. Secretary (LR) giving away awards to the winners of Hindi Pakhwada 2024 competitions

During the year 2024, remarkable progress has been achieved in terms of Hindi correspondence and noting and drafting in Hindi. Percentage of letters sent to in Hindi to 'A', 'B' and 'C' regions during the year 2024 were 93.40%, 81.4%, and 66.21% respectively. Target prescribed by the Department of Official Language for Noting and Drafting in Hindi is 75% whereas the achievement of the Department is 77.45%. Four meetings of the Official Language Implementation Committee were also organized in which quarterly progress reports in respect of the progressive use of Official Language, Hindi were discussed upon.

7. Procurement of Goods & Services

As per the guidelines issued by the Government, procurements of goods and services are to be done through Government-e-Marketplace (GeM Portal). Accordingly, GeM portal is being extensively used by the Department for procurement of stationery, computers and IT items, consumables, hiring and outsourcing of manpower for Data Entry Services, Security Services, Multi Tasking Services and House-keeping services, etc. During 2024-25, 95.77% of total purchases in the Department has been made through GeM portal (upto December, 2024).

8. Celebration of Important events

- i. **Swachhta Pakhwada**—Department of Land Resources has attached special importance to Swachhata activities. In order to ensure cleanliness and involvement of all officers in the Swachhata campaign, nodal officers have been nominated for all four buildings, beside an overall nodal officer for the Department. As per the direction of Hon'ble Minister of Rural Development, regular reports on Cleanliness activities in the Department are being sent. The details of Swachhata activities are discussed in the section on Special Campaign 4.0.

SwachhtaPakhwada was celebrated in the Department during 1st-15th October, 2024. The campaign was implemented in all its four offices namely NBO building, Shivaji Stadium Annexe, UdyogBhawan and CGO Complex, New Delhi. All States / UTs were requested for taking up Swachhta on

a continuing basis in (i) all Revenue and Registration Offices and (ii) all Watershed Development Projects. In specific reference to the SwachhtaPakhwada, Swachhta activities were undertaken in an intensive and focused manner in the watershed project areas through Watershed Development Committees, Revenue and Registration Offices in States.

Under the category Cleanliness Target Units (SwachhataLakshit Ekayi), Mass Scale Cleanliness drives were conducted on 02.10.2024 along with Department of Rural Development. Banners and standees were installed in the office premises of DoLR spreading the message of Swachhata. Under the category, Swachhata Mein Jan Bhaagidhari, the following activities were conducted as indicated below:-

- (a) **Swachhata pledge** was administered in the Department on 27.09.2024.

Fig 2. Secretary (LR) administering the Swachhata Pledge on 27.09.2024.

- (b) **Ek Ped Maa ke Naam:** On the occasion of Swachhata Hi Seva 2024, the Department conducted a plantation drive in office premises under Ek Ped Maa Ke Naam on 30.09.2024 in which saplings were planted by senior officers of the Department under the leadership of Secretary (LR).

Fig 3. Sapling plantation by Secretary (LR) on 30.09.2024

- (c) **Selfie point:** One selfie point was installed in NBO Building of the Department for officers / officials highlighting the importance of Swachhata.

Fig 4. Selfie point of DoLR at Nirman Bhawan, New Delhi

- (d) **Swachhata Samvad** was conducted in the Committee room of the Department on 20.09.2024, to spread awareness on maintaining personal hygiene and cleanliness in office premises.

Fig 5. Imparting awareness programme on cleanliness activities

- (e) Essay writing competition on Swachhata Hi Seva was held as part of the campaign.
- (f) Lecture/workshop on health and hygiene were conducted to SafaiKaramcharis. Kits containing T shirts, gloves, face mask and caps were distributed to them as part of the campaign.
- ii. **Rashtriya Ekta Diwas** - National Unity Day or RashtriyaEktaDiwas is celebrated every year on 31st October to maintain the nation's unity and to acknowledge SardarVallabhbhai Patel's efforts in uniting the nation. Secretary (LR) administered the pledge to the officers of the Department at NBO Building on 30.10.2024. Divisional Heads administered the pledge to the officers/officials at Shivaji Stadium Annexe Building office and CGO Complex office respectively.

Fig 6. Secretary (LR) administering pledge on Rashtriya Ekta Diwas

iii. Vigilance Awareness Week: Vigilance Awareness Week was observed from 28th October to 3rd November, 2024 with the theme; 'Independent India @ 75 : Self Reliance with Integrity'. Integrity pledge/ Oath administered to all employees on 26th October, 2024 separately at all four office premises. All the employees of the Department took part in the e-pledge by visiting the website 'cvc.gov.in' or 'pledge.cvc.nic.in'. The banners displaying "Vigilance Awareness Week" were prepared for NBO Building, CGO Complex and Shivaji Stadium Annexe Building office each. Communication sent to Revenue Departments, Registration Departments of all States/UTs" and the State Level Nodal Agency (SLNA) of WDC-PMKSY, respectively to celebrate the Vigilance Awareness Week.

iv. Constitution Day: The Department of Land Resources celebrated the "Constitution Day" on 26th November, 2024 to promote

constitutional values among employees. As part of the celebrations, Secretary (LR) read out 'Preamble' to the Constitution of India to the employees of the Department at NBO Building. Similarly, reading out of the 'Preamble' was administered by Divisional Heads in Shivaji Stadium and CGO Complex offices, respectively. Employees also participated in the 'Constitution Day Quiz' on online platform.

v. Organisation of International Yoga Day: International Day of Yoga was observed in the Department on 21st June, 2024. Officers/ Staff of the Department participated in the Yoga session held in Rejuve Wellness Centre at Shivaji Stadium Annexe office. As part of de-stressing of employees, the Department has been organizing bimonthly Yoga sessions in Health RejuveCentre during the year. The Yoga sessions are conducted under the guidance of Instructor from Morararji Desai National Institute of Yoga, New Delhi.

Fig 7. Observance of Yoga Day on 21.06.2024 at Rejuve Centre

9. The Right to Information Act, 2005

A number of CPIOs and First Appellate Authorities under the RTI Act, 2005 have been designated by the Department of Land Resources. RTI applications/appeals are received manually as well as online. The Department has already been linked with 'RTI MIS online portal of DoPT for processing of RTI applications/ First Appeals. This has helped in reducing the time period to provide the information and has also increased the transparency in dealing with RTI applications and appeals. 2654 RTI applications and 49 Appeals have been received in the Department during the year 2024-25 (as on 31.12.2024).

10. Grievances Redressal

The Department promptly attends to the public grievances received from petitioners on CPGRAM portal and as well as directly on the Department's website (dolr.gov.in/grievances) pertaining to issues/ matters dealt by the Department, by forwarding to concerned Agencies/ Departments/ State Governments for quick redressal and necessary action at their end. During 2024-25, (till 31.12.2024), a total 3910 grievances were received in which 3902 were disposed-off on CPGRAMS portal during the period. Time to time, all PG nodal officers are being requested for disposal of public grievances within prescribed time limit and in terms of ensuring quality, while getting feedback from petitioners on random basis.

Department of Land Resources has been ranked among the top Ministries/Departments under the Group B (i.e. Ministries/Departments with total Grievances less than 500) in terms of Monthly Grievance Redressal Index for

disposal of public grievances during the year as published by the Department of Administrative Reforms & Public Grievances (DAR&PG).

11. Website

The website of the Department [<https://dolr.gov.in/>] is updated on regular basis in consultation with Programme Divisions and NIC from time to time in terms of textual and pictorial contents as well as design template. The Department is taking efforts to upload all relevant citizen-centric materials on its website in bilingual format. Necessary instructions have been issued to all Divisions/ Sections/NIC to comply with the guidelines issued by MeitY from time to time.

12. Cyber Security

The Department is ensuring availability of hardware and software as per recommendations of NIC team and anti-virus patches and other protective programmes are installed as per instructions/ guidelines from MeitY and other related Agencies with respect to Cyber Security. Chief Information Security Officer (CISO) and Deputy Information Security Officer (DISO) are coordinating various activities to ensure implementation of cyber-security guidelines. The Department is regularly nominating officers concerned to Training programmes/ Conferences/ Workshops and Meetings on Cyber Security.

13. Disaster Management Plan

A Draft Disaster Management Plan (DMP) as per National Disaster Management Plan was devised by the Department of Land Resources in consultation with National Disaster Management Authority (NDMA). A modified

DMP is being prepared by the Department in consultation with NDMA.

14. ACC Vacancy Monitoring System (AVMS)

The details in respect of existing posts in the Department of Land Resources under the purview of the Appointments Committee of the Cabinet (ACC) on 'ACC Vacancy Monitoring System (AVMS) module' on Supremo portal is regularly updated with relevant information and a weekly certificate is also generated on every Monday.

15. ANUBHAV Portal

'Anubhav' is the portal of Department of Pension and Pensioners' Welfare, launched in March 2015 for retiring government officials to leave a record of their experiences while in Government service. Through Anubhav portal, the Department shares the experiences of retired officials while in service to act as a foundation stone of good governance and administrative reforms in future.

16. Pension matters

Meetings with the personnel retired from the Department are convened from time to time to resolve grievances or any pending pension matters and to have first hand one-to-one feedback with them.

17. Special Campaign 4.0 for Institutionalizing Swachhata and Minimizing Pendencies in Government

Department of Land Resources has undertaken the Special Campaign 4.0 for institutionalizing Swachhata and Minimizing pendency in all its four offices premises and successfully completed

the campaign. The campaign has been led by the Secretary and all the officers and staff of the Department participated with great enthusiasm.

Secretary reviewed the progress of Special Campaign 4.0 from time to time with the senior level officers/divisional heads. Cleanliness drive and disposal of pending references were monitored regularly. Nodal Officer of the Campaign held review meetings and inspected all sites including record room. During the period, Department of Land Resources achieved the following targets:

- 16 Cleanliness Campaign successfully executed in its premises
- 100% disposal of Public Grievances
- 1050 files (physical files and e-files) reviewed properly for recording/weeding/closing
- Revenue generation of Rs.3,02,500/- on disposal of obsolete items
- 200 sq. feet space freed

Various activities were undertaken by the Department towards Swachhata and its awareness as part of Special Campaign 4.0. The Department of Land Resources and Department of Rural Development jointly participated in 'Shramdaan' activities on 2nd October, 2024 near Krishi Bhawan, New Delhi. A training session on 'Cyber Security in Government Offices' by CERT-In, Workshop on Mental Health, Essay and Slogan writing competitions on Swachhata activities for employees were taken up during the campaign period. Department organized Yoga session at its Rejuve Wellness Centre at its Shivaji Stadium Annexe office premise for the benefit of employees.

**PHYSICAL AND
FINANCIAL
ACHIEVEMENTS IN
NORTH-EASTERN REGION**

Department of Land Resources implements two schemes namely Watershed Development Component of Pradhan Mantri Krishi Sinchayee Yojana (WDC-PMKSY) and Digital India Land Records Modernization programme (DILRMP) in North Eastern Region. Performance under both the schemes is given below;

1. Watershed Development Component of Pradhan Mantri Krishi Sinchayee Yojana (WDC-PMKSY):

The Department of Land Resources has been implementing Centrally Sponsored Scheme, namely Watershed Development Component of Pradhan Mantri Krishi Sinchayee Yojana (WDC-PMKSY) in North Eastern Region. The implementation status of the scheme is given below:

- I. Sanction:** A total of 1006 watershed development projects were sanctioned during 2009-10 to 2014-15 in NE States involving an area of about 3.899 million ha. Since inception of the scheme, an amount of Rs. 2472.44 crore has been released to the NE States as Central share.
- II. Transfer of projects:** On performance review of the scheme, 16 uninitiated projects in the preparatory phase in which (a) no expenditure had been incurred, and (b) no committed liability had been created, had been transferred to NE States on 08.02.2018. Further, 252 projects in preparatory phase had also been transferred to the NE States on 01.08.2018, for taking them up from their own budgets. Therefore, there are altogether 738 projects (1006-268) projects in NE States which are funded by DoLR.

III. Completion: Out of 738 projects being funded by DoLR for NE States, all projects have been reported as completed. State-wise status of closure / completion of WDC-PMKSY projects in NE States is given in Annexure-VII.

IV. Physical Progress: The progress on major parameters, as per the information received from States, is given below:

Through the implementation of 738 WDC-PMKSY projects funded by DoLR, significant progress has been registered. Between 2014-15 and 2021-22, 0.41 lakh water harvesting structures have been created / rejuvenated, 2.02 lakh ha additional area has been brought under protective irrigation and 5.97 lakh farmers benefited. In addition to this, about 0.60 lakh ha have been brought under plantation (Afforestation / Horticulture etc.) from 2018-19 to 2021-22.

V. WDC 2.0 Projects

DoLR has till date sanctioned 199 projects covering an area of 5.42 lakh ha at a total cost of Rs. 1447.22 crore (Central share: Rs 1302.49 crore) to NE States. State-wise details of projects sanctioned, area covered and Central share released during 2021-22 to 2024-25 (as on 31.12.2024) are given at Annexure-VIII.

VI. Financial Progress under WDC-PMKSY:

The year-wise budgetary allocation and funds released to NE States for the last 3 years and current year are given at Table 1 below:

Table -1: Fund releases under WDC-PMKSY in Northeast States

Year	RE for NE States	Funds released	% of RE released	Scheme
2020-21	100.01	190.33	190.31	WDC 1.0*
2021-22	121.60	153.606	126.95	WDC 2.0
2022-23	101.86	163.91	160.91	
2023-24	175.01	352.14	201.22	
2024-25 as on 31.12.2024	180.010	131.0625**	72.81 (excluding Mother Sanction)	

*WDC 1.0 got over on 31st March 2021; however extended upto March 2022.

**In addition, Mother Sanction of Rs. 21.92 issued to Assam for release of payments to be made through SNA-SPARSH.

2. Digital India Land Records Modernization programme (DILRMP)

The financial and physical achievement under DILRMP since its inception, in the North-Eastern States are as under:-

of Rs. 299.98 crore has been released (as on 31.12.2024) for covering one or more components of DILRMP in 113 districts in North-Eastern Region. The State-wise position is given in Table 2 below:

i. Financial Achievement: Since inception of the programme in 2008-09, an amount

Table -2: Fund releases under DILRMP in Northeast States

S. No.	State / UT	Total funds released (Rs. in crore)	Districts covered (No.)
1	Arunachal Pradesh	26.16	25
2	Assam	150.46	35
3	Manipur	7.75	10
4	Meghalaya	11.18	12
5	Mizoram	29.60	8
6	Nagaland	17.74	11
7	Sikkim	22.66	4
8	Tripura	34.43	8
Total		299.98	113

ii. **Physical Achievement:** In the North East Region in Tripura, Assam, Mizoram and Meghalaya most of the land is owned by Autonomous Districts Councils (ADCs). Also in parts of Nagaland, Manipur and Arunachal Pradesh, the part of land is owned by local communities and land records are not available with State Governments.

The Department put lot of efforts to evolve

a solution to above issues. Regional Review Meetings of NER States have been conducted in Guwahati on 20 September, 2024. The positive outcome of the review meeting has emerged and States like Manipur, Mizoram and Nagaland have started reporting progress on various components of DILRMP. The progress made under various components of DILRMP (as on 31.12.2024) as reported by NER States on DILMRP-MIS is given in Table 3 below:
